Duluth—The amount of soft coal received here since December 1 totaled 377,400 tons with the arrival of the last two cargoes. There were 43,800 tons of anthracite received in the same time. Aggregate totals for the season are 1,560,470 tons of hard coal and 7,366,600 tons of soft coal.

Minneapolis—Five state senators who will confer with a House committee in St. Paul December 21 over proposed legislation under the Babcock Good Roads amendment, have been selected by Louis L. Collins, lieutenant governor-elect. The senators are J. H. Baldwin of Frazee, B. N. Anderson of Manchester, Gustof Widell of Mankato, A. C. Gooding of Rochester and P. H. McGarry of Walker.

Mankato—The Blue Earth County Cow Testing association has just completed its first year's work with results which prove gratifying, according to officials. There were 350 cows tested during the year, 76 produced over 300 pounds of butter fat; 210 produced from 150 to 200 pounds of fat and the remaining 64, in the test less than six months were averaging 300 pounds. The average for the association is 280 pounds of butterfat.

St. Cloud—The petition for a new trial in the case of Gustaf Nelson, son-in-law of Senator Knute Nelson, was denied in an order filed at Alexandria by Judge John A Roeser. Nelson was found guilty last September of first degree murder for the slaying of Joseph Middleton. Counsel for the defense declares that an immediate appeal will be taken.

Black Hammer—While assisting at wood sawing, Ivan Otterness of Black Hammer was caught in the belting of an engine and killed. His neck was broken and both arms torn from their sockets.

Edward Charles was a logical sort of person. Incidentally, he was in love. But love wasn't strong enough to swamp his logic.

Thus it was that Eve Maude, his adored one, received the following strange love letter:

"Eve Maude, I love you.

"First—I love you.

"Second—All the world loves a lover.

"Third—But I am a lover.

"Fourth—Therefore, the world loves me.

"Fifth—You are all the world to me.

Father was giving the fair young daughter a lecture about her beau. He exclaimed: "Does he know who pays the light bills? Doesn't he know enough to go home at the right time?"

The daughter replied: "Yes, he knows enough to go, but he was sick last night."

With that father started in again. "Don't tell me that a big husky fellow like him was sick. What on earth was the matter with him?"

As the fair young daughter started for the door, she sang back, "He has heart trouble."

PISO'S

Tom and the High Cost of Christmas Gifts

by De Lysle Ferree Cass

WHEN Tom left the farm to go to the city to make his fortune he did it contrary to the ominous headshaking and phophecies of disaster of all the neighbors. Even his father and mother, with past years of toil rapidly beginning to tell upon them, were pessimistic of his chances of success, nor could they resist expressing their forebodings.

The old folks loved their boy too well to reproach him for his desertion now in the first flush of his young manhood, but their hearts did ache at thought of the separation.

"You'll soon get tired of all that hurly-burly there in the city, Tom," his old father told him. "And when you do, I want you always to remember that we've still got a place for you back here at the old homestead. It mayn't be as fine and showy as lots you'll see there in the city, but it's more the sort that the good Lord intended you for. Ma and I are hoping the best for you, son, but—when you do find out that your fortune's not away off there—just pocket your pride and come back here to us who love you."

So young Tom left the farm with shining eyes and a high heart and adventured into the great, far-away city in quest of fame and fortune.

How he fared there and all the sorry disappointments that repeatedly overtook him during that year of absence would be a long and harrowing story to tell. He chased his rainbow to its end, yet found the fabled pot of gold not there as he had so confidently and blatantly expected.

Tom made applications for all sorts of office positions only to find himself quickly rejected because of his lack of experience in those specific lines.

"Well, anyway, I'm young and husky and used to hard manual labor," Tom consoled himself. "I can at least get a job with a contracting gang, as a painter, or plumber's assistant, or teamster. That will suffice to keep me going for a while until the sort of position I want turns up."

But even in those lines of work the green country boy found himself suddenly brought up short against a blank wall. He had no references as to past city employment and nobody would hire him after once finding out that he had no union card.

Huddled in his shabby overcoat on a street corner in the squalid section of the city—the icy wind whistling around him and biting through his threadbare garments—poor Tom stood on the evening before Christmas, wondering where he might find a shelter in which to sleep that night without freezing.

Just how long he had stood there, shivering in the chill wind on the street corner—bitterness against the great, unfeeling city rankling in his heart—Tom did not know. He was startled from his moody reverie by hearing a hoarse, wheedling voice at his very elbow, saying what was intended as a confidential tone:

"How'd y'like a nice hot feed and some coin to jingle in yer pants, bo? Ain't hungry, are ya?"

Whirling about, Tom saw that his accoster was an under-sized, burly fellow with a tough, truculent visage and hands shoved deep into the side pockets of his coat. He wore a battered cap with the visor pulled low down over his eyes and spat malevolently upon the sidewalk each time before he spoke.

"How'd y'like the idea, huh?" he reiterated in his raucous, grating voice, sidling closer as he spoke and casting a wary eye up and down the nearly deserted, gloomy, wind-swept street.

Tom regarded him with distaste and undisguised mistrust. He looked like a typical thug. But misery cannot be too fastidious about the company it keeps. Finally Tom scowled blackly and answered:

"What's that to you, anyway?"

"Well, you're outta jack, ain't cha, pal? Yer on yer uppers, stony broke and maybe with an empty belly, too, huh, bo? Well, I guessed that much. I ain't blind yet, I ain't! Well, I need a pal for a little job tonight and we both can make a lotta jack out of it, see?"

"You—you mean burglary?" Tom muttered hesitantly, with an involuntary contraction of his heart.

"Humph! Not anything like safe cracking or breaking into a house. I don't. Too many people staying up with the kids over Christmas trees tonight. I ain't keen on takin' fool chances like that, I'm tellin' ya! Naw, this I wantcha for is something soft; safe and easy as falling off a log. You know the big prices people are willing to pay for real booze since the country went dry, don't cha? Well right near here I know a certain warehouse that's got 20 cases of whisky stored in the basement. Real bonded stuff! The watchman is an old pal o' mine and is willing to let us swipe it if we'll split on the coin we get afterwards. I've got another guy with a flivver that's ready to meet us about 2 o'clock this morning to haul away the stuff as fast as we pass it up to him through the alley windows. We've got it all framed for a fake capture and tying up of our other pal, the night watchman, so that the bulls can't get wise to him. We're willing to split four ways on the swag if y' wanta go in on it with us. Whatcha say now, bo, huh? Safe and easy as falling off a log!"

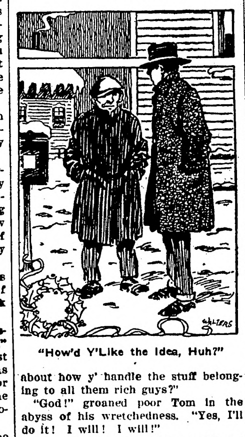
The sinister appearance of the ruffian repelled Tom, and the very thought of the crime they contemplated struck him with fright. It meant jail, disgrace, if they were caught.

"But I—I never have done anything like that in my life," he stammered weakly, teeth chattering in the biting wind. "It would be criminal. The whisky doesn't belong to us. It would be illegal for us even to try to sell it afterwards."

"Pah!" spat the ugly-visaged man, sneeringly. "You look pretty, a bird like youse, talking that way about what's lawful and all that! Lots that these rich guys have cared how you got along since you came to town, from the looks of you! They've got fine, warm homes and coin and everything. Wotta they care whether poor bums like us have to go hungry or freeze in the gutter on Christmas eve? Why should you care about them when they don't give a rap about you? You've got to go on living, ain't cha, huh?"

Tom hunched his shuddering shoulders against the wind, trembling as much because of his own moral irresolution as from the terrible cold.

"Well, bo, how about it? Are y' on or are y' still so almighty particular about how y' handle the stuff belonging to all them rich guys?"



"How'd Y'Like the Idea, Huh?"

"God!" groaned poor Tom in the abyss of his wretchedness. "Yes, I'll do it! I will! I will!"

The other clapped him roughly on the shoulder with a saturnine leer and attempt at jocular fellowship.

"Well, I thought cha would," he rasped hoarsely. "We'll meet cha at the corner by the lumber yard at 1:30. Don't you fail to be there now!"

"I won't! I'll be there all right!" Tom muttered brokenly. Already in his cringing soul he felt like the thief he had pledged himself to become. Oh heaven, if only—

To kill time until the appointed hour, he dug his numb hands deeper down into his pockets and wandered aimlessly on. He had no particular objective in mind save only the need to keep moving lest he freeze or go mad with the strain of waiting. He shrank from letting himself think of the deed to which he was about to be party.

Involuntarily his dragging footsteps took him back into the more brilliantly lighted retail shopping district, where the crowds already had thinned, hurrying home to their families and happy, expectant kiddies with the holiday celebration in mind.

The hours dragged slowly by. It came near the hour for the stores to close. But still there was time, if poor Tom had only had money, to have rushed in, bought the presents he wanted for the old folks and children, and caught the midnight train back to the country. He easily could reach there by morning and appear as a joyous surprise to them—

But ah! Why drive himself to distraction by thinking of that when there was no chance that—

And right then, suddenly, he espied it lying there, almost at his very feet—a big, fat wallet, with not a person nearer than a hundred yards of him. Plainly someone had lost it in their mad haste to get home.

Tom stopped and scooped it up like a flash. Around the corner he surreptitiously examined it. Bills—both green and yellow, of large denominations—they fairly stuffed it! There were seven hundred dollars or more! —a small fortune to the miserable boy who had not even eaten for fourteen hours. Money! Money! Money! Far more than he possibly could need even in his most extravagant dreams. With a gurgling cry, Tom stuffed the wad of bills into his trousers pocket, threw away the fine leather purse and made a mad dash for the nearest department store.

No need now to keep his sinister criminal appointment—no more necessity for

* * * * * * * *

But the most gladsome feature of young Tom's homecoming that next day was his blushing announcement to the old folks that he had had enough of the big city; that he had come home to stay, as they had prayed he would.

WOULD CONTROL CATTLE MARKET

Congress and Live Stock Men Both Work on Method of Regulation.

TO STABILIZE PRICES

Bunching of Shipments at Certain Seasons Wreaks Hardship on Producers which Orderly Marketing Would Minimize.

St. Paul.—While Congress is toiling over half a dozen measures to rescue the live stock industry from its present plight, the livestock growers are doing something on their own hook.

A group of determined livestock men, leaders in that industry, have set about to work out a scheme whereby they can control the supply of stock at the various big markets. They reason that this is the only way to minimize fluctuations in prices.

Last week the question was thoroughly debated by the Corn Belt Meat Producers' association at Des Moines, which finally decided to indorse the plan to control the marketing of fat cattle. The exact plan whereby this control of supply will be accomplished is yet to be worked out. Its supporters are certain that this can be done. The American Farm Bureau federation has been working on the problem for a year past and has actually made some experiments.

There is much to be said for the plan to control livestock supplies. Farmers are blamed for marketing the bulk of their grain crop in the space of a few weeks every fall. Livestock receipts are spread over the entire year, although some months every year are heavier than others, yet this is no more satisfactory than the method of grain marketing.

If the American Farm Bureau federation succeeds in organizing livestock producers so that they will practically control market conditions by controlling the day-to-day supply of stock that will be put on sale at the various yards it should prove a great help to the trade. Kay Wood of the Chicago Livestock exchange gave the view of that organization when he said to the meat producers:

"You have hit on the right principle in finding out how many cattle are ready for market and what the conditions are at the marketing end. None of us knows if the plan will work, but it is a step in the right direction."

The declines of the past week can hardly be laid to heavy receipts. This market had a moderate supply of cattle and the receipts of hogs were about the same as the two previous weeks. Receipts of sheep and lambs here were the smallest in several weeks. The total supply of cattle and hogs at the seven main western markets was larger than the previous week, but the increase was not great enough to cause such declines as resulted.

VEGETABLES ARE BEING HELD

Department of Agriculture Says Produce Is Being Held for Gain.

Washington.—A large part of the abundant fruit and vegetable crop still is in the hands of producers, or stored at country shipping points, says the Department of Agriculture's weekly report. The market continues stagnant with some declines.

Freezes in western New York and other sections when cabbage was in the fields caused a rush to sell for immediate uses and overstocked the market late in November, the report says. The price of cabbage suitable for long storage has shown no gain, ruling $10 in western New York, with city prices $12 to $15 for the best.

Fear that too much of the potato crop may be held over the winter is expressed in the report. The average for potatoes is $1.75 for No. 1 sacked stock.

Onions show no particular change, still ranging from $1@$1.25, and 25c higher in the cities. Onion prices are uniform the country over, the report says.

SOLDIERS ARE AMBUSHED

Guerilla Warfare Continues to Take Toll of Lives in Ireland.

London.—In a battle between civilians and a group of military, who were ambushed at Ennistymon in County Clare, six soldiers were wounded. The soldiers were victorious, however, finally forcing their attackers to retreat when a machine gun was put into effective operation by the soldiers.

Three of the attacking party were killed, four were wounded, and two others were taken prisoner. In reprisal for the attack all of the hay ricks in the vicinity were burned by the troops.

Couldn't Board at the Jail

Council Bluffs, Ia.—William Zahrn, who surrendered himself at Council Bluffs police headquarters with the confession that he was the man who threw the brick through the glass door at the Glasgow Tailoring shop, was literally thrown out of jail by police, when it became evident that he had framed himself.

The Glasgow shop was robbed of nearly $1,000 worth of merchandise. Police believe Zahrn wanted to be sent to jail for the winter.

GIVES THEM TIME TO THINK

Unique but Effective Treatment Accorded Quarrelsome Married Couples in Swabia.

In Swabia they have a curious custom aimed at reviving harmony in troubled homes. Whenever a married couple, declaring incompatibility of temperament, seeks divorce, instead of appealing for conciliation to a magistrate who may or may not be a psychologist and may or may not be blessed with persuasive eloquence, the authorities shut up husband and wife in a tower, allowing them only one fork and one plate between them. The result of the experiment is then patiently awaited.

The story goes that nine times out of ten, at the end of a few hours of this inconvenient regime, the two are released from the tower perfectly reconciled. Material necessities have drawn them together and effaced the sentimental misunderstandings. And they return happily to their dwelling they return happily to their dwelling to breakfast more comfortably in the peace of the reconstituted home, whose imperfections they no longer perceive.

Judging the Depth.

An English rider, coming to a river he was unfamiliar with, asked a youngster he saw playing on the bank if it was deep. "No," replied the boy, and the rider started to cross, but soon found that he and his horse had to swim for their lives.

When finally he reached the other side he turned and shouted, "I thought you said it wasn't deep."

"It aren't," was the reply. "It only takes grandfather's ducks up to their middles."

That's What It Says

John and Mary were talking and their young aunt overheard the following conversation: "I am glad that they have such good things to eat in heaven," said Mary.

"You silly, they don't eat at all up there," objected John.

"I just guess they do, John Martin," answered the 8-year-old Mary, with dignity. "It says in my catechism: 'The Lord makes preserves and keeps us.'"—Harper's Weekly.

About Overdrafts---

Overdrafts are not good for you nor for the bank. There are plenty of reasons why you should'nt overdraw your account.

You have no right to do business that way. It hurts your credit with the banker. An overdraft is in fact a forced loan without security. Your overdraft may sometimes be honored but it gets you in bad all over. Our bank tries to be accomodating but we do not desire overdrafts--unsecured loans that ruin your credit, injure our own standing and endanger the interests of our depositors. Don't overdraw.

Rene Werner had the misfortune of hurting his hand severely one day last week while lifting a double box onto his wagon. The box slipped striking him near the thumb joint, injuring the bone which caused considerable pain and disabled him from doing his work. His father, E. J. Werner of T. R. Falls came last Thursday to do his chores for him until he recovers from his painful injury.

"Give Ye Them To Eat"

Three and a half million children in central and southern Europe are starving this winter. Twenty three million dollars are needed to provide one meal a day- a bowl of soup and a bun- and this only for those children whose physical condition is now such that there is any possibility of prolonging their lives through the winter.

Surely the Christmas Spirit is abroad in our land- "Good Will to Men" can find no higher expression than by contributing to this worthy cause. Can we- the Fathers and Mothers of this County,- expect to experience the true Christmas joy, unless we do what we can to relieve the distress of "These Little Ones, In His Name?"

Ten dollars will save the life of One of these children. Surely Marshall County will see that lives of One Hundred of these children are spared the ravages of starvation.

Herbert Hoover is in charge of this work and his name is a guarantee that our dollars will be wisely used. This is an emergency job. There is no time for an organized canvas of the citizens of our County, if lives are to be saved. No contribution too small, none too large.

Sporting.

New York—President Frank J. Navin of the Detroit American league club announced that he had signed "Ty" Cobb as manager of the Tigers for next season.

New York—John Conway Toole was elected president of the Internatinoal Baseball league to succeed Dave Fultz, who has acted in that capacity for the past four years. Toole has been connected with baseball as club attorney for the New York Giants. He will receive $10,000 a year.

Los Angeles—Entries for the national winter air tournament to be held at Long Beach, December 25, 26 and 27, under the auspices of the Aero club of Southern California, closed with 16 plans signed for the 100 miles scratch and 20 for the 6-mile handicap races, it was announced.

Domestic

Cleveland—A terrific explosion shook the home of Peter Treadway and sent him to a hospital, police found it was caused by a barrel of cider and not a bomb.

Augusta, Ky.—Thirteen persons were drowned in the Ohio river when the United States steam launch Margaret, sprang a leak and sank three miles below Augusta.

Charleston, W. Va.—Sixteen men are reported to have been drowned when a skiff, in which they were crossing the Kanawha river, overturned at Spring Hill, near here.

Philadelphia—From the high water mark of 36,000, the Hog Island shipyard force of workers has been reduced to 3,500 and in about a month these men also will be gone.

Hackensack, N. J.—Admitting his force was too small to cope with the crime wave, Police Commissioner Engel has offered citizens free use of the police safe to store their valuables.

Martinsburg, W. Va.—The Interwoven mills, employing 1,600 persons, announced a reduction in wages of 20 per cent. The plant, recently closed, will reopen January 3. The new scale will be approximately 60 per cent above the prewar scale.

Scranton, Pa.—Four men were killed and two injured in an explosion in the pressing and packing mill of the Dupont Powder company at Belin village, near Moosic, seven miles from here. The force of the explosion was felt all over the Lackawanna valley.

New York—The question as to whether the $4,500,000 balance of the United States war fund shall be turned over to the European relief council is to be referred to President Wilson according to an announcement made at the offices of Herbert Hoover, chairman of the council.

New York—A congressional investigation of the textile industry was asked in a resolution adopted by the executive council of the United Textile Workers of America which assembled here to consider the action of manufacturers in announcing wage cuts, effective this month.

Boston—Charles Ponzi sent from Plymouth jail a Christmas greeting to his thousands of creditors bidding them be of good cheer.

New York—Crown Prince Mahidol Songkla, of Siam, brother of the king of Siam, returned to the United States after an absence of seven months in his native land.

Minneapolis—Liquor valued at $1,500—1920 price—was stolen from the offices of Paul D. Keller, supervising federal prohibition agent, Mr. Keller announced. The thieves had forced the door by the use of "jimmies."

GIVEN HIGH PLACE

International Honors Awarded Western Canada Products.

Proof of What Can Be Done, With Intelligence and Industry, on Good, Low-Priced Land.

The 1920 International Live Stock show at Chicago was probably the best that has ever been held, and as is pointed out by a Canadian newspaper writer, the number and quality of the exhibits "indicated a new milestone on the road of progress." This year it was truly "International." The part that Canada took showed a spirit of friendliness on both sides of the line that was highly pleasing.

Six provinces of Canada were represented in varying degrees, and when the handsome share of the prizes that were carried off by our northern neighbors, achieving phenomenal success in view of tremendous competition, is considered, there is reason to hope that in the minds of these people there will grow an esteem for the International that will be helpful to both countries.

Canada won a number of championships, not the least of which was the sweepstakes carried off by Mr. J. C. Mitchell, of Dahinda, Saskatchewan. In this award may be seen an object lesson, going to show that it is not always the man born with a silver spoon in his mouth to whom the greatest degree of success will attach. It will be interesting to relate that Mr. Mitchell, the recipient of these great honors, came from the manufacturing city of Manchester, England, unacquainted with farming, but with the lure of the land upon him. Because he had been told of the success that followed the tiller of the soil of Western Canada, fifteen years ago he decided to make his home in Canada, and selected as a homestead the land upon which he grew the wheat that has brought him a world's championship. It is true he had his ups and downs, but he continued and is now enjoying the fruits of his labor and the experience gained in a manner of life that was enjoyable. But he is still a simple farmer and will continue growing grains that, with the knowledge he possesses, industry that is essential, and above all, a soil and climate that are favorable, will secure many more world's championships.

Well, then, too, there was born at Stratford, Ontario, a boy named Lucas, now of man's estate. Although a town boy he always had a desire for farming. He moved to Alberta to the neighborhood of Cayley, and those who have had no idea where Cayley is will know now, for Mr. Lucas has placed it "on the map." He had some of his 49.2-lbs.-to-the-bushel oats at the International, and with 240 competitors against him he took the championship and sweepstakes. This was a notable achievement. As has been said, when he was a boy he took a liking to farming, but the greatest obstacle in the way of realization of his dreams was the practical impossibility of a man without a large amount of capital purchasing the high-priced farm lands of the settled parts in the neighborhood he lived in. However, after leaving school he heard of the low-priced lands of Western Canada. This was his opportunity, and he embraced it. Beginning at 15 years of age with 160 acres of virgin prairie, and with no practical farming experience, he has now, by perseverance and industry, increased his holdings to nearly 1,000 acres. Such is the brief history of the man who carried off the championship for the best grown oats, and it is also an example that might well be followed by many who are struggling today against the prices received for the produce grown on high-priced land, or to those who as was the case with Mr. Lucas, had little means but an abundance of energy and a flood of ambition. Nowhere are there offered inducements such as are offered in Western Canada.

There were 25 prizes offered in the class for hard spring wheats and 20 of them went to Western Canada.—Advertisement.

"Oh, yes. Jack? Finest fellow you ever met!"

"He seemed to be all right, but I don't know him so well, and before lending him the $100 he has asked for, I thought I'd just inquire a bit."

"Jack has asked you for $100?"

"Yes."

"Well, as a great personal favor to me, I'll ask that you let him have it."

"Favor to you! How so?"

"Well, Jack owes me $50, and if you lend him $100 and I tackle him before he has a chance to get rid of it, there will be an almost even chance that he will settle up with me."—Philadelphia Public Ledger.

A New Drug.

Not long ago one of the doctors at Sunnyside promised a patient that he might walk about the next day. He said that he would put the permission on his order book. This he did. He wrote "ambulant," and thought he had cared for his patient. But the next morning the nurse, who was young and new, kept the disappointed patient in bed until she could see the doctor. To the doctor she said anxiously:

"I have not yet given his medicine to Mr. Jones. You did not write how many drams."—Indianapolis News.

THE GOOD NEW YEAR

by

EMORY J. HAYNES

in the Boston Globe

IT WAS foretold forty years ago. The New Year shall be a good one. This is the story of the prophecy. It depends upon you to believe it.

Forty years ago a lone skater upon the glassy surface of a lake in northern New England celebrated his solitary holiday. At the far end of his ten-mile dash he rested in the noonday sun, sitting at the base of a towering cliff.

He was a stonemason's apprentice, a mere boy workman. He habitually carried his steel chisel in his pocket. Climbing high, and with much hazard, up the face of the towering rocks, he cut this legend in the face of the mountain:

"The New Year Will Be Good."

The bold lettering is visible for miles. The lake in summer is a favorite resort of pleasure parties. Each year thousands of eyes have spelled out the cheery monograph, while boats passed, and many a hearty laugh has rung with a heartier joy as old and young have approved the sculptured promise.

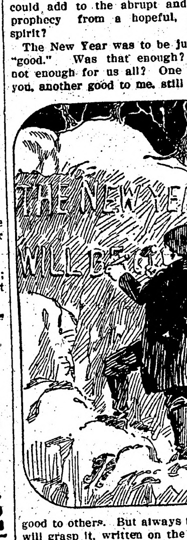
It will long endure, for the steel cut deep, and the mountain will not remove, nor the pretty lake pass away.

The boy did not date it. Fortunately so, for that makes it fit every year and every reader. Why not for a century to come?

A thousand times the question has been asked: "Who wrote it?" And no one knew. So it seemed some eternal truth of nature that the very rocks had miraculously inscribed upon themselves.

It was true to anyone who would take the trouble to lift his eyes and read it. In storms the snow silvered the lettering. In sun the words gleamed with lines of living light. A sentence by no means elegant, but crude and boyish rather. Yet what rhetoric could add to the abrupt and simple prophecy from a hopeful, healthy spirit?

The New Year was to be just plain "good." Was that enough? Is it not enough for us all? One good to you, another good to me, still another good to others. But always to all who will grasp it, written on the very face of the turning globe, the next year will be "good."



THE NEW YEAR WILL BE G

Last summer a wealthy visitor at the lakeside hotel drew the proprietor to the corner of the veranda, and, lifting his glasses, asked: "Do you see those letters on the rocks? I am the boy who cut them, January 1, 1847. You seem glad to know the author. I never revealed the fact. Why should I?

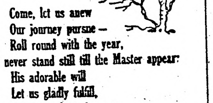
"It is not because I said it that it is true. No matter who says it, on a Happy New Year the New Year will be good. It is true in itself. Happy the man or boy who says it, who feels it, and who will have it so.

"The mere freak of a moment, yet somehow later I awoke to the fact that I had written a life creed on my heart out of the hopefulness and daring of a boy."

Let us take the hope and courage of youth as the truth of this latest of our years. The New Year must be good. We will make it good. Can you not see those lettered cliffs? No visitor ever was dull to their magic spell, and many have read them through grateful tears.

SLEIGHBELLS JINGLE.

Hear the moaning and the groaning of the winter breeze; Old Year's dying—hear him sighing, listen to him wheeze! Weary Willie is quite chilly in his threadbare coat; this cold weather altogether gets his ill-clad goat. Old Br'er Rabbit's wary habits now avail him not; hounds are telling by their yelling that the trail is hot. See the fuel fight a duel with your next week's pay; watch your meter and the heater steal your heart away! You remember last September, August and July? Sun was shining, you were whining, vowing you would die! You were praying for some sleighing, crying for some ice; now it's freezing, quit your sneezing; yell, and say it's nice!



Hymn for the New Year

Come, let us anew
Our journey pursue—
Roll round with the year,
And never stand still till the Master appear:
His adorable will
Let us gladly fulfill,
And our talents improve
By the patience of hope, and the labor of love.

Our life is a dream;
Our time, as a stream,
Glides swiftly away,
And the fugitive moment refuses to stay:
The arrow is flown,
The moment is gone:
The millennial year
Rushes on to our view, and eternity's near.

O that each, in the day
Of His coming, may say,
"I have fought my way through;
I have finished the work Thou didst give me to do."
O that each from his Lord
May receive the glad word,
"Well and faithfully done!
Enter into My joy, and sit down on My throne!"

Charles Wesley

BEGINNING A NEW YEAR.

Though we are apt to think that New Year's has been observed since the year one, such is not the case. In fact, there is no mention of the day as a Christian festival until the fifth century, and even now the Hebrews celebrate their New Year's in September, for their calendar is arranged according to the new moon, which makes New Year's a moveable holiday. Today, however, there is scarcely a nation but observes this season of the year in some manner or other, though customs differ in most localities.

A Resolution

TO be patriots, rather than partisans; to win the peace by reviving the idealism which won the war; to broaden our outlook and narrow our animosities; to carry into national and international affairs the maxims which guide gentlemen and gentlewomen in their daily conduct; to practice thrift that we may be able to practice charity; to recognize that each of us is and always must be his brother's keeper; to work well that there may be plenty of goods in the world and think well that they may be rightly distributed; to go forward each day to a higher level of purpose and effectiveness, and live as one afraid of no man, and of whom no just man is afraid.

TARIFF MEASURE TO COMMITTEE

Senator McCumber Anncunces Bill Will Be Taken Up In Committee Next Month.

SPIRITED DEBATE HEARD

Pending Tariff Legislation Denounced by Several Leaders as "Embargo" Bill and "Suicidal" Act While Senate Considers Measure.

Washington.—Indications of a fight over tariff legislation were given in the senate when several hours of spirited debate and two roll calls were required to effect the formal routine action of referring to the finance committee the emergency tariff bill passed last week by the house.

Senator McCumber of North Dakota, acting chairman of the finance committee, announced during the debate that the bill would be taken up in committee early next month and given "fair and adequate consideration."

The house bill was denounced as an "embargo" bill and "suicidal" by Senator Hitchcock, who charged that senate machinery was set to rush it through. American commerce should be aided, he contended, and not hampered by tariff barriers.

McCumber Disappointed.

Senator McCumber denied that the bill proposed embargoes and was supported by Senator Smoot, Republican, of Utah. The North Dakotan declared the measure gave practically no protection to wheat and said that he would not support the bill as drafted.

Senator Harrison, Democrat of Mississippi, assailed the bill as "the most iniquitous piece of legislation the country has ever seen." He denounced what he termed "Republican hypocrisy," referring to Republican campaign statements as to lowering the cost of living. The tariff measure was designed to enhance living costs, Senator Harrison asserted, adding that the bill was a "sop" to western farmers and would not aid them.

Senator Harrison said the Republicans in the recent campaign had alleged the people had been "robbed" of $1,400,000,000 through twenty-five cent sugar for which they blamed President Wilson and the Democratic party.

Won't Support Bill.

"You are not proposing to hold the consuming masses up by this bill for $1,400,000,000 alone, but it goes into a figure I cannot enumerate," declared the senator, who added:

"I couldn't vote for your proposition if ninety-nine per cent of the people in Mississippi asked me to, because I believe it wrong in principle."

Senator Smoot, Republican, of Utah, said the emergency tariff was to affect only those industries in "imminent danger" and he added that the only chance to get the bill through the senate was to enact it as it passed the house.

SOVIETS RECALL EMISSARY

Russian "Ambassador" to U. S. Submits to Deportation January 3.

New York.—Ludwig C. A. K. Martens, Russian soviet "ambassador" to the United States, has notified the department of labor that upon instructions from the Moscow government, just received by cable, he will surrender himself for deportation January 3.

The Moscow message advised Marten not to appeal from the order of his deportation but to return to Russia as soon as posible with his entire Russian staff.

Cancellation of all contracts negotiated for the Russian government with American firms, said by Martens to amount to some $50,000,000, was ordered.

The message from Moscow was a reply to Martens' report of his deportation order, and was sent by George Tchitcherin, soviet minister of foreign affairs, who denounced the present American administration for its "hostility."

"We must resign ourselves to the fact that Russia for the time being, due to the hostile attitude of the present American administration, will have to get along without its co-operation," the message said.

World's Debt Is on Increase.

New York.—The debt of the world is now $300,000,000,000.

The debt of the nations of the world at the signing of the armistice was $212,000,000,000.

During the war the addition to the world debt was $40,000,000,000 a year.

The National City bank, in a recent issue of Americas, gives these figures, showing that the return of peace has not checked the growth of the world debt and the output of paper currency. In the first year after the armistice the figure jumped to $45,000,000,000. In the second year it was $42,000,000,000.

Injured, Takes Own Life.

Helena, Mont.—"Long" George Francis of Havre is dead. While on his way Christmas eve to bid farewell to his sweetheart, a school teacher living near Simpson, before surrendering himself to serve a long prison term on a conviction of grand larceny, Francis took his own life after having his leg broken when his automobile left the road and went over an embankment. Francis attempted to make a splint for his leg with parts of an apple box after the accident and crawled almost one mile in trying to reach a house.

Holt Loses Game

St. Hiliare Wins

A large and enthusiastic crowd gathered at the Woodman hall last Tuesday night when a hard fought game was pulled off by St. Hilaire's basket ball team vs Holt team.

The two teams were pretty well equally matched, tho' the visitors were slightly in the lead until the last half when the home team made them hop to it, which nearly outwinded them, but were unable to overcome the lead of the visiting team who won the game by a score of 17 to 14. It was a good clean game from start to finish and nothing but good will on either side prevailed. The St. Hilaire team are a gentlemanly bunch and good sports and in winning the game, they won it fairly and are deserving of that credit.

Holt's line up was as follows: Center, Walter Sandberg; Guards, Peter Hanson and Ludwig Monson; Forwards Marvin Sandberg and Will Bakke. The return game will be played at St. Hilaire this evening.

AN OPEN LETTER TO WOMEN

Mrs. Little Tells How She Suffered and How Finally Cured

Philadelphia, Pa.—"I was not able to do my housework and had to lie down most of the time and felt bad in my left side. My monthly periods were irregular, sometimes five or seven months apart and when they did appear would last for two weeks and were very painful. I was sick for about a year and a half and doctored but without any improvement. A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me, and the second day after I started taking it I began to feel better and I kept on taking it for seven months. Now I keep house and perform all my household duties. You can use these facts as you please and I will recommend Vegetable Compound to everyone who suffers as I did." — Mrs. J. S. LITTLE, 3455 Livingston St., Philadelphia, Pa.

How much harder the daily tasks of a woman become when she suffers from such distressing symptoms and weakness as did Mrs. Little. No woman should allow herself to get into such a condition because such troubles may be speedily overcome by Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American women to health.

Nature Lesson.

"Do nuts grow on trees, father?"

"They do, my son."

"Then what tree does a doughnut grow on?"

"The pantry, my son."—Harper's Magazine.

Stop the Pain.

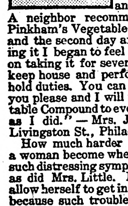
Some Husbands Still Timorous.

"In old colony days it was against the law for a man to kiss his wife on Sunday."

"I fear we are still feeling the effect of those laws."



IN YE OLDEN TIME

Hoop skirts were worn by those who first asked the druggist for, and insisted on having, the genuine Golden Medical Discovery put up by Dr. Pierce over fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago.

Dr. Pierce's Golden Medical Discovery for the stomach and blood cannot be surpassed by any remedy today.

Dr. Pierce's Favorite Prescription for weak women has never been equalled for the distressing complaints incident to womanhood. What others say:

JACKSON, MICH.—"I have used Dr. Pierce's medicines for about thirty years. I have recommended their use when doctors had given the patient up, and had the very best results. I could tell of many cures effected by the use of Doctor Pierce's Golden Medical Discovery, Favorite Prescription and Pleasant Pellets."—MRS. CORA STEPHAN, 202 Harris Street.

Widespread Use of Electric Power.

If all electrical energy in the United States was suddenly withdrawn, the loss to industry would run into the billions. Practically all of the 275,791 manufacturing plants of the nation, representing $22,790,980,000 in invested capital, use electric power in one way or another.

The amount of cash and the value of settlers' effects together in the 11 months ending Nov. 30, aggregated $17,519,033. December will add another $1,000,000. From all sources, immigration by the end of the year is expected to total 50,000.

Foreign

Buenos Aires—Eduardo Chavez, Brazilian aviator, arrived here, completing a dangerous flight of approximately 1,100 miles from Rio Janeiro.

Libergeld, Germany—Wilhelm Lamp communist attorney, has died of a 14 day hunger strike in protest against his detention on a charge of treason.

Doorn, Holland—Except for steadily growing weakness, there has been little change in the condition of the former German Empress Augusta Victoria during the last fortnight.

Rome—Reports of the serious illness of Cardinal Gibbons have caused great regret here, especially in ecclesiastical circles. Pope Benedict has ordered that special prayers be said for the cardinal.

Berlin—Complaint that Germany's foreign position is "continually becoming worse as the Versailles treaty is carried into effect," is made by Dr. Walter Simons in an article appearing in the Frankfort Zeitung.

Amsterdam—A dispatch to the Handelsblad from Duesseldorf says the Inter-Allied Rhine commission is alarmed because of the spread of militarism in German schools, and has issued an order prohibiting the use of schools for military purposes.

Berlin—Though Germany is reported to be "ruined," the volume of betting during the Berlin racing season of 1920 exceeded all previous records. Total returns amounted to almost 442,000,000 marks, the government receiving 37,000,000 in stamp duties.

Milan—Police discovered that a factory here has been engaged in the manufacture of counterfeit currency. About $1,000,000 in counterfeit money was seized and several arrests were made.

Copenhagen—The Russian soviet government has requested its representatives abroad to furnish details regarding Russians who desire to return to their native country, it is stated. The request calls for information particularly as to journalists, politicians and artists.

Mexico City—American aviators flying from the northern frontier of Mexico toward Panama may land on Mexican soil, if necessary, official permission being given. This permission was in response to a request from the United States government, it was announced at the foreign office.

ITALY RESTRICTS ALL EMIGRATION

Legislation Prohibits Her Citizens from Departing for United States.

U. S. SENATE TO ACT

Solution of Immigration Problem May Lie in Diplomatic Agreements Rather Than in Individual Legislation.

Washington.—Ultimate solution of the immigration question through diplomatic agreement rather than through separate legislative action by various governments was forecast at hearings of the senate immigration committee on the Johnson bill to impose ten months' restriction on immigration to the United States.

Italy Suspends Passports.

Senator Colt of Rhode Island, chairman of the committee, made public a letter from acting Secretary of State Davis, announcing that the Italian government voluntarily had suspended the issuing of passports for the United States. The letter was presented to Secretary Davis by the Italian embassy and came as a surprise to committee members. It read, in part:

"The royal Italian government has suspended the issue of passports to subjects emigrating to the United States and will refrain from issuing the classes of immigrants desired in this country."

See Solution of Problem.

The offer to co-operate in the matter with the United States was received with gratification by senators. Some expressed the belief that while it might be necessary to enact some immediate legislation to prohibit the flood "of Europeans pouring into the United States" eventually the whole question would be solved by diplomatic agreements.

Chairman Colt said he hoped other nations would follow the course of the Italian government and obviate the necessity of "continuously legislating on this subject."

Meanwhile the chairman said the hearings would proceed without interruption and a bill would be reported to the senate by the end of the week if possible.

DE VALERA ON THE GROUND

President of Irish Republic Directs Their Fight for Freedom.

New York.—Eamonn De Valera, "president of the Irish republic," in returning to Ireland, did so against the advice of Dail Eireann, the "Irish parliament," which was anxious that he remain in America to present the "republic's" claim before the new administration.

This was announced by Harry Boland, DeValera's secretary, who added that "events moved so rapidly in Ireland in the past few months President DeValera decided on his own initiative to return."

Mr. Boland said DeValera had been in close touch with the Irish republican government ever since he landed in the United States and was fully informed of events there. He had had no communication, however, with the British government, Boland asserted. DeValera, he continued, together with the "acting president of the Irish republic," had announced in behalf of their parliament, they were prepared "as representatives of the Irish nation to meet representatives of England to draw a peace treaty between the two nations."

PROBE THE CUBAN SITUATION

President Sends Special Courier to Confer With Menocal.

Washington.—By direction of President Wilson, Major General Enerich H. Crowder has sailed for Havana.

General Crowder sailed on the U. S. S. Minnesota. Secretary Tumulty said his mission "was to confer with President Menocal regarding conditions in Cuba."

"The moratorium and financial crisis in Cuba, continue," the White House statement said, "the solution of which appears more difficult on account of the unsettled presidential election of November 1. A continuation of the present situation would prove most detrimental to the prosperity of Cuba and harmful to the relations between the United States and Cuba."

Direct supervision of the Cuban bielections, which it is conceded must be held, will not be undertaken by the United States, it is authoritatively stated, unless it becomes more apparent that the Cubans are unable to manage them honestly and efficiently.

1920 Record Business Year.

Fargo—Nineteen hundred and twenty may easily lay claim to having been one of the biggest, though certainly not one of the best, years in trade, manufacture and industry, according to Bradstreet's review of 1920. Some new high records were set up in financial lines and in industrial output, though it will hardly be claimed that the year was as profitable in all lines as were some others when outputs were smaller and prices were lower but when final margins were larger.

DEVALERA KEEPS WELL CONCEALED

President of Irish Republic Said to Be in Ireland but Can Not Be Found.

MRS. MACSWINEY SAILS

Widow of Late Lord Mayor Returns to Ireland With Deep Appreciation of Sympathy Expressed for Cause Among Americans.

New York.—Mrs. Muriel MacSwiney, widow of the late lord mayor of Cork, sailed from America carrying to Eamonn DeValera, "president of the Irish republic," a message that "all is well" among the sympathizers with his cause in this country.

This message to the Sinn Fein leader was sent by his secretary, Harry Boland, who announced yesterday that his "chief" had landed in Erin to direct the Irish fight for independence.

Several hundred Irish sympathizers surrounded Mrs. MacSwiney as she entered the pier to go on board the steamer Panhandle State, bearing aloft the three striped banners of Ireland's "republic."

New York's "Fighting Sixty-ninth" regiment band serenaded her and the crowd sang Irish airs.

The widow of Terrence MacSwiney, who starved to death in Brixton prison, London, came to the United States several weeks ago to testify before the committee of one hundred investigating affairs in Ireland. On sailing she said expressions of sympathy she had received in America had carried sunshine "into the very depths of the sorrow" brought by her husband's death.

In a farewell message, she called upon America "speedily to relieve the devastation of Ireland and help it to stand by your side, a free and independent nation."

She pictured Ireland as "the victim of such cruelty and crime that even its tormentors condemn themselves as they strike, where no home is safe from the firebrand and ravisher, and no person is sure of his life from day to day—all this because she seeks to walk in the path of liberty which the United States first made."

Sinn Fein Head Well Hidden.

Dublin.—Leading Sinn Feiners and government officials alike deny knowledge of the arrival here of Eamonn DeValera. They assert that he did not arrive on board the steamer Pontia from New York and inquiry at several Irish ports failed to reveal that the "president of the Irish republic" has made his entry into Ireland.

PROPOSE NEW LEGAL TENDER

Senator Watson of Georgia Would Make Govt. Securities Currency.

Atlanta, Ga.—In a copyrighted statement published in the Atlanta Constitution, Thomes E. Watson, United States senator-elect from Georgia, announces that at the extra session of the sixty-seventh congress he will introduce a bill to make Liberty bonds and other government war paper legal tender.

Mr. Watson, according to the announcement, declared that such action would have an electrifying effect upon American business life and that upon enactment of the legislation, "all apprehension of panic would as quickly disappear."

The plan would require the federal reserve and farm loan banks to lend money directly to individuals and the secretary of the treasury to issue the unissued greenbacks authorized by a bill signed by President Lincoln. The total of these authorized but unissued greenbacks, according to the senator-elect, is $102,000,000.

The announcement also declares for ending the war with Germany by a resolution and favors establishment of pre-war trade relations with Russia and with Germany.

BARON VON HOLLWEG DEAD

Former Imperial Chancellor of Germany Succumbs at Berlin.

Berlin—Dr. Theobald Von Bethmann Hollweg, former imperial chancellor of Germany, died after a brief illness on his estate at Hohenfinnow, near Berlin. Dr. Hollweg was born in 1856.

He coined the famous phrase "a scrap of paper," which was used by him in 1914 concerning the treaty entered into by several of the European nations guaranteeing the neutrality of Belgium.

Dr. Hollweg throughout the war opposed the sinking of unarmed merchant ships and other ruthless u boat methods.

Predicts Upward Business Turn

St. Paul—The next ninety days is expected to bring an upward trend in business, according to Howard Elliott, chairman of the board of directors of the Northern Pacific railroad. "There is considerable grain and much lumber ready to move in the northwest," said Mr. Elliott, "and it is probable that some of these commodities will begin to move within the next ninety days. This will in turn help other business. Just now the relation between income and outgo is not satisfactory for most railroads."

Why Are Skin Diseases So Difficult to Overcome?
When your skin breaks out with itching eruptions, tetter, rash, eczema, psoryasis, or other terrifying disorders, temporary relief will do you but little good, for soon all the itching and irritation breaks out afresh with renewed fury, and you soon realize that local remedies such as ointments, salves and similar treatment will never rid you of your trouble.
These troubles originate in the blood, and if you expect real substantial relief you must treat them through the blood.
The best remedy for this purpose is S.S.S., the fine old blood remedy that purifies the blood of disease germs, and thus restores the skin to a normal and healthy condition.
Begin taking S.S.S. today, and write a complete history of your case, and our medical director will give you expert advice without charge. Address Chief Medical Adviser, 161 Swift Laboratory, Atlanta, Ga.

"NEFS" NO LONGER IN USE

Once Popular Piece of Plate Has Altogether Disappeared From the Tables of Royalty.

So rare is the nef that to most people the very name is unknown; not more than six specimens exist anywhere in the world. The other day a silver nef, not more than 22 inches high, was sold by private treaty in London, Eng., for the huge sum of $23,500. At Christie's last year a slightly smaller one fetched $16,500 at public auction. The reason for these very high prices is that the nef is the rarest piece of antique plate in existence. Shaped like a ship, and beautifully modeled, nefs were nearly always made by the Seventeenth century silversmiths, who specialized in them, to the order of crowned heads. Their ostensible use was to hold wine or other beverages in the hull of the vessel, the liquid being delivered through a spout in the bows. Kings made presents of them to other kings. Most nefs were so constructed that the wine, being once inclosed, could not be tampered with; no slight advantage in the days when poison was a recognized agent for the removal of obnoxious monarchs by their disaffected subjects.

Silence often wins the benediction pronounced upon the peacemaker.

Synonyms.

Men who wrestled with the obstructive French language overseas will appreciate the spirit and success of a certain French bride who rapidly is mastering English.

"Ah!" she says, "your English, it is at once so difficult and so delightful. There are so many acts for you under one name. In my little book I keep a list of all you do when you "run in" or "run down" or "run up." I find a new deed each day. And your synonyms—so many interesting words all for one dull object."

A few minutes later, speaking of a pleasant Sunday supper, she said: "And we had that so good American dish, bungalow cheese."

Automobiles Increase Brains.

That the automobile has increased the brain power available for the business world by 33 1-3 per cent is claimed by the United States automobile chamber of commerce. The equivalent of 37,491 men of executive caliber has been added, it is shown, to the business world through motor transportation, a gain in salary values of $562,365,000.

HONOR FOR CANADA

Wins Championships at International Live Stock Show.

Splendid Exhibits, Both of Animals and Grain, Won Admiration of Judges and Spectators.

One of the most interesting sights at the International Live Stock show at Chicago was the evening parades of horses and cattle. As the Canadian section of these parades came into view, and as it passed around the ring, there was continued applause. There were two or three reasons for this, the principal one being that in this section there were the wonderful Clydesdales, the Belgians and the Percherons that had carried off championships and first prizes. The province of Saskatchewan had a splendid display of Clydesdales and showed in a number of classes, and in every class they got in the money. A remarkable and noted winning was that of the University of Saskatchewan, showing "Lady Bruce," female Clydesdale, in a class of 24 and taking second. In competition there were entries from such famous studs as Conyngham Bros. of Wilkesbarre, P. L. James of Easton, Mass., and George Chiett of the same state. She was beaten by an imported mare, but was later made champion American-bred mare and reserve grand champion, an honor never before conferred upon anything but an imported animal.

The following are some of the good things that Canada won at the International, in a fair fight and no favors. Grand championship for Clydesdale stallions; championship for American-bred Clydesdale mares; reserve senior and reserve grand championships for Clydesdale mares; grand championship for Southdown sheep; sweepstakes grand championship for wheat for the continent of America; championship for Durum wheat for America.

Another of the reasons for the applause given the Canadian sections of the parade was the heartiness with which the American spirit was imbued that impelled it to greet with the fullest appreciation the efforts of the winner, and the hundreds of Canadians in the immense audience of the amphitheater appreciated it.

The purpose that Canada had in making exhibits from their farms, whether it was of live stock—and they had it there in all branches—grains, grasses or roots, was to demonstrate that the war had not created devastation, that the country was alive with interest in the matter of production and that it had ability to produce in a manner that would bring it championships, and what better place than the International, where it would be placed before thousands, many of whom, with the enlightenment thus gained and with a desire to better their condition, would be made to realize that in the neighboring country to the north there was an opportunity that it might be of advantage to them to embrace.—Advertisement.

High Commissioner Praises Near East Relief

Rear Adm'l Bristol

Constantinople: Everybody seems to have a good word to say for the wonderful work being done by the more than 500 American men and women workers of the Near East Relief. In a public address, Rear Admiral Mark L. Bristol, U. S. Navy, High Commissioner, to Turkey, who has charge of all American interests in the Near East, went on record whole-heartedly in support of the American relief organization.

"If I have been able to encourage the workers of the Near East Relief or give them assistance in any way," the Admiral said, "I feel that I am more than repaid in keeping with the success that has attended the efforts of the Near East Relief Committee in this part of the world in the past. I hope the future will bring you greater success. It will always give me pleasure to render any assistance possible to the Committee as a whole, to any of the workers, and to the great work of humanity that the committee represents."

When 130,000 Russian refugees from the Crimea arrived off Constantinople, Admiral Bristol immediately cabled the Near East Relief for help, and the Near East Relief bakeries fed these refugees and N. E. R. workers helped the American sailors to get the sick to hospitals.

Admiral Bristol is in intimate touch with all the work being conducted by the Near East Relief and speaks from personal knowledge of its accomplishments.

INVESTIGATOR INDORSES NEAR EAST RELIEF

During the Peace Conference in Paris the American Commission to Negotiate Peace, appreciating the importance of accurate, first hand information about the Armenian situation, sent Capt. Benjamin Burges Moore of the American Red Cross as head of a special mission to study and report on conditions. Captain Moore's findings as to the value of the work done by the Near East Relief form part of his official report.

"Armenians are sincerely grateful to us," Captain Moore states, "since it is no exaggeration to say that they would have disappeared as a nation had it not been for this splendid help given them by the Near East Relief and the American Food Administration. The best that sympathetic Americans can do is to continue and enlarge the present admirable work of the Near East Relief."

"Give Ye Them To Eat"

Three and a half million children in central and southern Europe are starving this winter. Twenty three million dollars are needed to provide one meal a day- a bowl of soup and a bun- and this only for those children whose physical condition is now such that there is any possibility of prolonging their lives through the winter.

Surely the Christmas Spirit is abroad in our land- "Good Will to Men" can find no higher expression than by contributing to this worthy cause. Can we- the Fathers and Mothers of this County,- expect to experience the true Christmas joy, unless we do what we can to relieve the distress of "These Little Ones, In His Name?"

Ten dollars will save the life of One of these children. Surely Marshall County will see that lives of One Hundred of these children are spared the ravages of starvation.

Herbert Hoover is in charge of this work and his name is a guarantee that our dollars will be wisely used. This is an emergency job. There is no time for an organized canvas of the citizens of our County, if lives are to be saved. No contribution too small, none too large.

ARMENIAN GIRL PLEADS FOR SISTERS

Tragic Tale of Harem Victims' Sufferings.

More than ten thousand Armenian girls have been rescued from Turkish harems through the help and generosity of America. This is the statement given out by the Near East Relief, which is making the saving of these tragic victims of Turkish cruelty one of the most important features of its work.

That it is a work which in itself justifies the millions that America has spent in this stricken land is testified to by little Miss Eliza Dodurian, a twenty-year-old Armenian girl recently arrived in this country. Miss Dodurian, through the intervention of American missionaries, was herself spared the sufferings of exile and the horrors of slavery; but she knows all too well the terrible fate of her sisters and friends. It is for them—the soft-eyed little girls of fifteen and sixteen whom last she saw being torn from their mothers' arms and carried off on the saddle bows of the Turkish soldiers—that she makes her plea.

ELIZA DODURIAN.

What their lives have been since then may be guessed by a look into the faces of any of the ten thousand who have passed through the Rescue Homes of the Near East Relief. Their heads bowed in shame, they creep into the American relief stations, trying vainly to hide the tattoo marks which proclaim to the world their story.

Thousands of these girls have been brought back to life and hope through the work of the Near East Relief. It is to rescue the one hundred thousand more still held captive that the Near East Relief is making its appeal this year.

Woodlawn addition, on the west side, has been platted by the United Land Co., The plat has been accepted by the village council and the county board and the lots can now be recorded as fast as they are sold.

Butter prices hav'nt been high, this winter, but the cow is a steady producer and readily responds to feed and care.

Grain prices don't worry the cow and the chicken and the vegetable farmers. Neither do the pesky sow thistles worry them.

110,000 Starving Children

Like the one in this photograph, too weak to walk when brought to the Near East Relief orphanage at Erivan, the capital of Armenia, are being nursed back to life and health through the generosity of the American people, by contributions to the Near East Relief, 1 Madison Ave., New York. HAVE YOU A LITTLE ORPHAN IN YOUR HEART?

YOU Are Keeping Them Warm!

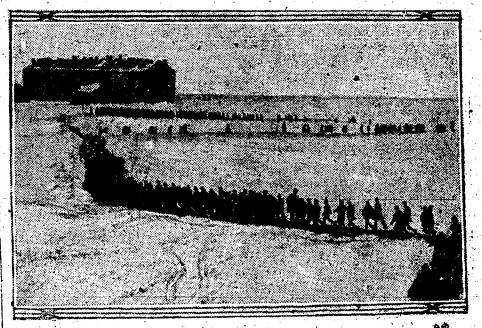

Photo International.

In the mile square of former Russian barracks in Alexandropol, Republic of Armenia, are housed 5,347 little Armenian orphans under care of the Near East Relief. Every bite they eat, every stitch they wear, is the gift of the people of the United States, through the Near East Relief. In addition, the Near East Relief hospital has a daily average of 1,211 children patients, while 1,049 others are given medical treatment which does not require confinement to hospital beds. Over 54,600 little Armenian children are housed, clothed and fed by the Near East Relief in Armenia and Syria.

In all over 110,000 little children are being kept alive by American aid.

YOU are doing it! KEEP IT UP!

Our boys played a mighty good game of basket ball at St. Hilaire Friday night, but lost by a narrow margin on account of a faulty decision of the referee, who called a foul on our boys just before the close of the game. at this time the score stood 6 to 7 in favor of Holt. The foul gave the St. Hilaire team a free throw for the basket and tied the game. It took ten more minutes to break the tie, when St. Hilaire made a basket and won the game by a score of 9 to 7.

Hardy Bjerk played center, the two Sandberg boys were forwards, and Hanson and Monson played guards. All played better than ever, if that was possible. Holt can justly be proud of their basket ball team.

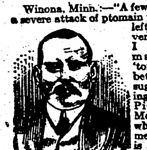
AROUND THE WORLD



Winona, Minn.:—"A few years ago I had a severe attack of ptomain poisoning which left my blood in very bad condition. I tried a great many so-called 'tonics' but felt no better until a friend suggested my trying a bottle of Dr. Pierce's Golden Medical Discovery, which gave me immediate relief. It is surely an excellent tonic, does not purge, and is not objectionable to the taste. I was living in England when I first took the 'Discovery' and have since been around the world and always carried a bottle of the 'Golden Medical Discovery' right with me. I would not be without it and am only too pleased to be able to recommend it."—WALTER H. DUNSTON, Willow Farm.

PROMINENT WOMEN

Kennebec, S. Dak.:—"A few years ago during expectancy I got all run-down and felt that I needed something to strengthen me. I took Dr. Pierce's Favorite Prescription and it soon had me feeling fine. I did not suffer and my baby was a strong healthy child and always has been the picture of health which I think I owe to this medicine. We also use Dr. Pierce's Pleasant Pellets and they have always given perfect satisfaction. I have Dr. Pierce's Medical book, the Common Sense Medical Adviser, which has been a wonderful help to me and my family. I think there is no better medicine made than Dr. Pierce's Favorite Prescription and can highly recommend it to all."—MRS. G. W. COX.

YOUNG WOMANHOOD

Cedar Rapids, Iowa:—"A relative took Dr. Pierce's Favorite Prescription when she was a young girl and has taken it several times since with wonderful results. I have taken it off and on since I was a young girl; it has helped me every time I have taken it. I consider it a wonderful medicine for young girls just entering womanhood. Nothing equals it. It restores one's health quickly and is pleasant to take. I recommend it to everyone needing such medicine."—MRS. CLARA JONES, 1329 2d Ave., E.

PROPOSE RURAL CREDIT

Christianson Introduces Bill Intended To Aid Farmers And Speed Development.

St. Paul—A bill for the establishment of a rural cerdits system was introduced in the House by Representative Theodore Christianson early in the 42d Minnesota legislative session. This will require a constitutional amendment to be submitted to the voters at the next general election.

The plan embraced in the bill, according to its sponsors, will not only develop more rapidly the agricultural resources of the state, but will go a long way toward solving the market problems confronting the farmers. In permitting loans to be made to individuals, it will go farther than the federal farm loan banks which are limited to dealing with associations.

System Self-sustaining.

The system is planned to be self-sustaining. Loans would be from proceeds of sales of state bonds, and no attempt is proposed to loan from the permanent trust funds because of the present over-demand for the use of that money in building schools and making other public improvements in cities and counties.

Bearing on the market problem, it is outlined that it will enable the farmer to hold his output until the miller or the packer is ready to receive it, and thus eliminate the speculator, who it is contended, is now taking advantage of the farmer's inability properly to finance his operations.

Numerous other bills relating to the farm products marketing conditions have been introduced and are being considered by the House committee on markets of which Elias Nordgren is cahirman.

HOUSE APPROVES THE BONUS AMENDMENT

House Vote Unanimously On Bill Authorizing Sale of Additional Bonds.

The house of representatives passed the bill amending the soldies bonus laws Friday without a dissenting vote.

After being withdrawn from the House floor, where an attempt was made to pass it under suspension of rules, the soldiers' bonus bill which authorizes $3,000,000 additional bonds and their sale together with $4,500,000 remaining unsold, the original authorization at less than par, also ratifying and approving sales made, was recommended for prompt passage under suspended rules by unanimous vote of the soldiers' home committee of the lower house.

A disposition to speed payments and provide ample funds and to deal kindly with the bonus board was shown by all members of the committee. Sharp criticism of bonus law administration brought defense that seemed acceptable to the committeemen. Favorable action, however, was based only on the immediate need for bonus funds.

Board Is Criticized.

Representative Theodore Christianson, chairman of the House committee on appropriations, repeated the explanations he made before the House of the bill introduced by him at the request of Henry Rines, state treasurer and bonus board member. Although agreeing that the main purpose is to provide funds to pay claims already allowed and therefore that there should be no necessary delay, Chairman Hompe took occasion to repeat criticisms of the board.

"I believe a lot of claims have been turned down which the House will want to allow," said the chairman. "I think Mr. Rines has been accused of trying to knock as many as possible of the boys out of their bonuses."

"That accusation is unfair, in my opinion," replied Representative Christianson. "Mr. Rines has only been trying to safeguard the state and prevent men in other states from unlawfully taking advantage of Minnesota's generosity. The board and its members must guide themselves by official constructions placed on the law."

NOLAN ELECTED SPEAKER.

Representative W. I. Nolan of Minneapolis was re-elected over Representative Erling Swenson, also of Minneapolis, by a vote of three to one.

In the Senate Lieutenant Governor Louis L. Collins was given the oath of office by Chief Justice Calvin L. Brown.

500 SEEKS LEGISLATIVE JOBS.

At least 500 were disappointed in seeking legislative positions. Old members say they never saw so many job seekers as in the last week. Most of the employees of two years ago were reemployed and few new faces are found among the employees.

The eight hour day for state employees would be repealed if a measure introduced by Representatives Dorweiler, Shanks, Roso, Grant and Neuman is passed.

CUT DOWN COMMITTEES

Reduction of Seven Proposed In Senate. House to Hold Afternoon Sessions.

St. Paul—The number of committees in the Senate will be reduced from 38 to 31, under a rule reported by the Senate committee on rules. The chief effect of the reduction is to enlarge the membership of some of the more important committees.

The number of committee appointments is not materially reduced, but the number of chairmanships will be seven less than formerly. To compensate for this it is claimed that the new arrangement will save the time of senators and make for greater efficiency.

The agriculture committee is enlarged from 11 to 21 members and with it are to be consolidated the committees and dairy and livestock, markets and marketing, grain and warehouse. The committee on trade and manufacture and civil administration are abolished.

Chairmen Picked.

Senator James A. Carley of Plainview has been made chairman of the civil administration committee, Senator H. H. Bonniwell of Glencoe chairman of the committee on livestock and dairy products, Senator Charles W. Gillam of Windom of grain and warehouse; Senator P. A. Gandrud of Sunberg of markets and marketing.

Senator A. L. Ward of Fairmont was chairman of the committee on agriculture at the last session.

None of the 33 house members elected by organized labor and the Nonpartisan league were given committee chairmanship.

The labor committee chairmanship, which in the past has gone to a member of organized labor in St. Paul, goes to a country member this time, Rep. E. C. McGovern of Staples.

Nonpartisan leaguers are on agricultural and other committees in which they are interested.

Change House Rule.

The House committee on rules reported one change that is likely to cause some hot fights in the session.

This rule provides that motions for the passage of bills can be made only under the regular order of motions and resolutions. Heretofore it has been a common practice for members when a pet bill came in from the Senate to immediately move that the rules be suspended and that it be placed on its final passage. It is claimed that some bills have been passed in this way that would not otherwise have been passed. It is predicted that the rule will work all right for a time, but when the rush begins later the members who have favorite bills coming in after passage by the Senate or when they want first consideration for other pets in the House, will stage a strenuous revolt against this rule.

Another important rule reported provides that sessions of the House shall begin at 2 p. m. instead of 10 a. m., thus leaving the forenoon free for committee meetings.

PREUS BECOMES GOVERNOR

Minnesota changed pilots of the ship of state when J. A. O. Preus became its twentieth governor and J. A. A. Burnquist retired to private life.

In the presence of the members of the Forty-second session of the Legislature, with the galleries of the House chamber crowded with state officials and visitors, the new chief executive took the oath of office as administered by Calvin L. Brown, chief justice of the supreme court.

Speaker W. I. Nolan, presiding over the joint session. Mr. Nolan introduced the retiring executive, Governor Burnquist, and praised his administration during the troublesome years of the World war. After receiving a most hearty ovation, Governor Burnquist made a short valedictory.

As soon as he had taken the oath of office, Governor Preus immediately began reading his inaugural message. The Governor set forth his ideas on the four main issues which will occupy the attention of the law-makers for the ensuing three months.

Particularly when he made his references to election law reform and to cooperative marketing and to tonnage tax did the vast assemblage show its approval.

TILT OVER UNION LABOR

The serenity of the Senate was disturbed when a resolution was introduced by Senator Devold demanding the union label on all state printing. The president referred the resolution to the committee on rules and Senator Devold immediately objected.

Senator Devold moved a suspension of the rules so that the Senate could take final action on his resolution. Senator Sullivan replied that the usual method was to refer matters of that nature to the proper committee. He said that if referred to the rules committee the resolution would be considered on its merits.

Senator Devold then demanded a roll call on his motion and it was defeated by a vote of 46 to 12. The president then deferrde the resolution to the committee on rules.

County Reimbursement Asked.

Reimbursement to McLeod county in the sum of $3,449.19 in the murder trials of Myron Bassett and Charles Forbes was demanded in a bill introduced by Representative A. C. Welch of Glencoe.

Representative Ralph J. Parker sponsored a measure providing for a royalty tax of 5 per cent on iron ore to be paid by the owners in fees to the state. This is the same bill which Mr. Parker introduced two years ago and which was defeated.

Back Giving Out?

Is backache making you miserable? Do you feel all worn out—as if you just can't keep going? Likely your kidneys are to blame. A cold, strain or overwork has probably weakened the kidneys and caused that dull backache and annoying kidney irregularities. Don't ignore these warnings. Use *Doan's Kidney Pills. Doan's* have helped thousands. They should help you. *Ask your neighbor!*

A North Dakota Case

"Every Picture Tells a Story"

Mrs. A. Keleny, 111 Pacific St., Jamestown, N. D., says: "I had a severe attack of kidney trouble. My back was so painful I couldn't turn over in bed. My kidneys acted too frequently and my eyes swelled, beneath them. I tried different remedies without getting relief. Finally I saw Doan's Kidney Pills advertised and after using three boxes I was entirely rid of the trouble."

WISEACRES WERE ALL WRONG

Wife Could Afford to Smile in Later Years at Those Who Opposed Her Marriage.

October 26, 1764, there were united in marriage a pretty girl of twenty, Abigail Smith, daughter of a minister, to John Adams, a young lawyer without a pactice, himself the son of a rather poor farmer. The lady's friends were not enthusiastic over the match, as the girl's forefathers were all of literary or professional caste, while the young lawyer could boast of no connection but with the soil. The parishioners were outspoken in their disapproval of the match, it being based largely on their suspicion of lawyers in general.

The fiery old minister-father of Abigail promptly took exception to the remarks, and the very next Sunday announced his text as "For John came neither eating bread nor drinking wine, and ye say he hath a devil." The minister's faith in his son-in-law proved well given, for the unknown and clientless lawyer became the second President of the United States.

BEASTS MAKE GOOD ON FILMS

Eastern Journal Makes Unkind Comparison Between Four-Footed and Human Actors.

It was said at a recent meeting of the London Zoological society that the plan of making, and keeping on record, films of rare animals had been entered upon with considerable success, the natural movements of the beasts having been reproduced on the screen in a most interesting and instructive manner. It is indeed reasonable to suppose that the four-legged film actors may even be more successful, from an artistic standpoint, than their human colleagues; first, because their motions are naturally intelligible without the accompaniment of spoken language; and second, because they cannot be trained, as "movie" performers apparently are, to chop up their movements into a limited number of stereotyped gestures, in more or less regular sequence, which audiences presumably know by heart and may anticipate well in advance.—Christian Science Monitor.

WOMAN AVOIDS AN OPERATION

Hope Nearly Gone, but Lydia E. Pinkham's Vegetable Compound Saved Her

Star, N. C.—"My monthly spells gave me so much trouble, sometimes they would last two weeks. I was treated by two doctors without relief and they both said I would have to have an operation. I had my trouble four years and was unfit to do anything, and had given up all hope of ever getting any better. I read about your medicine in the 'Primitive Baptist' paper and decided to try it. I have used Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Liver Pills for about seven months and now I am able to do my work. I shall never forget your medicine and you may publish this if you want to as it is true."—Mrs. J. F. HURSEY, Star, N. C.

Here is another woman who adds her testimony to the many whose letters we have already published, proving that Lydia E. Pinkham's Vegetable Compound often restores health to suffering women even after they have gone so far that an operation is deemed advisable. Therefore it will surely pay any woman who suffers from ailments peculiar to her sex to give this good old fashioned remedy a fair trial.

INAUGURAL POMP TO BE CURTAILED

President Elect Harding Asks That March 4 Ceremonies Be Made Simple.

CONGRESS VOTED SHOW

Overwhelming Majority Favored Luxurious Ceremonial But Mr. Harding Pointed to Europe's Hungry for Argument.

Marion, O.—In the interest of national thrift, President-elect Harding has requested officials arranging for his inauguration to abandon all plans for an inaugural ceremony.

Washington—Abandonment immediately of all plans for a celebration in connection with the inauguration of President-elect Harding was announced by E. S. McLean, chairman of the Washington inaugural committee, in accordance with the desire of Mr. Harding, expressed after the plans had been outlined.

Washington—Five members of the house, one from President-elect Harding's home state, and the others from the south, voted to cut down the $50,000 appropriation for erection of a grandstand at the capitol from which congress, as in years gone by, braves the bleak March weather during the big out-door inaugural ceremony.

Against this handful, 285 members voted for the fund so that the long established custom might still prevail. The snow was clinging to the first pile of lumber, stacked in orderly array outside when the debate in the house started, coincident with another flurry of talk in the senate on a proposal to eliminate this year all expensive and ostentatious inaugural show while so many people in Europe are starving.

Nobody except congress and its friends will sit in the grandstand at the capitol, the 10,000 seats being equally distributed without regard to party affiliations or length of legislative service.

Although members expressed a wish to agree with the president-elect in modestly requesting a simple inaugural, they contended that this was the people's show, and that they were entitled to have it presented on the same elaborate and dignified scale as heretofore.

FARM HEAD IS SUMMONED

James R. Howard Explains Attitude on Fertilizer Question.

Washington.—James R. Howard of Chicago, president of the American Farm Bureau federation, told a house war investigating committee that he had no thought of questioning the integrity of congress when he declared in letters to members of the house that it was evident to farmers that the Mussle Shoals nitrate development project was defeated through selfish influence of corporations seeking to maintain fertilizer prices.

Mr. Howard, who had been summoned to explain the charge, said he had "no personal knowledge of corporation influence being exerted over congress" and that he would be glad to draft a specific statement explaining that he had no idea of making a personal affront on those opposing the $10,000,000 appropriation rejected by the house.

Mr. Howard said his salary as president of the Farm bureau was $15,000, and that Gray Silver, legislative representative, was paid $12,000 a year.

Mr. Silver, who was called later by the committee, declared the letter was not intended as a reflection on congress and he saw nothing improper in asking members how they voted on a question affecting farmers.

THOUSANDS OF UNEMPLOYED

Protection of Americans Against Imported Labor Is Asked.

Washington.—Protection for the American laborer from foreign "imports" on an equality with the protection accorded American products by tariff laws was asked of the senate immigration committee by Frank Morrison, secretary of the American Federation of Labor. Mr. Morrison added that the position of the federation was that of straight-out protection, without any reservation for a period of two years from alien labor.

He told the committee that reports just received from labor officials in 141 cities showed the total number of unemployed in those places to be 1,819,272, and said he would not "dare estimate what the total of all cities would show."

May Antagonize Other Nations

Washington—Warning that passage of the Fordney emergency tariff bill would lead to retaliatory measures and would breed unfriendliness to American trade among foreign nations, was given by witnesses before the senate finance committee.

As a result of the testimony, it is expected that members of the United States tariff commission will be asked for information on the question Chairman Penrose said that members of the commission "will be on hand to answer any questions."

PRESIDENT GETS LETTER FROM HEAD OF ARMENIAN CHURCH

Washington.—Archbishop Khoren, whose archepiscopal see is Erivan, capital of the Armenian Republic, journeyed seven thousand miles to present President Wilson one of the quaintest and most touching documents in the archives of the State Department. It is illuminated by the monks of Etchmiadzin, the seat of the Armenian church since its separation from the Greek church, after the Council of Chalcedon in the year 451.

The Encyclical Letter, which the Archbishop presented to the President, reads:

"GEORGE, Servant of Jesus Christ and by the Omniscient Will of God, Arch-Priest and CATHOLICOS OF ALL THE ARMENIANS, Supreme Patriarch of the highest Armenian See of Ararat and of the Apostolic Mother Church at Etchmiadzin the Holy.

"To the NOBLE CITIZENS OF THE UNITED STATES OF AMERICA.

"AFFECTIONATE GREETINGS AND BLESSINGS from the CATHOLICOS OF ALL ARMENIANS and Apostolic Chief of the Holy Church of Armenia.

"With placid, profound feelings of devotion, we desire, through this Encyclical Letter of Ours, to place before you and to make known to you the expression of Our deep gratitude for the liberal help which, inspired by a spirit of philanthropy, you have extended to Us both by individual personal donations and through the sustaining assistance and alleviating instrumentality of the Near East Relief Organization. Individually and Collectively, combined in one body as it were, you gave and you brought to Us the fruits of your offerings, to the salvation and protection of Our Flock during the most bitter days of their suffering—sufferings which We attribute to the rigours of the War of Liberation, and to the cruelty of Our implacable Oppressors.

ARCHBISHOP KHOREN.

"In expressing Our thanks for your generosity and for your evangelical commisseration, We, as the recognized Head of Our Spiritual Children, comprising the entire Armenian Nation would be glad to view your acts of mercy as tokens of your continued assistance in the future, and that it is your purpose to continue to assist Us in Our regeneration and complete liberation, in the habiliment of a self-governing Nation. With these things in mind, We appeal to you all; to the Prelates of your Churches; to your devout Bishops, Our Brethren and beloved in Our Lord Jesus Christ; to men endowed with political and civil acumen; to those who have been called upon by the Lord in the Conduct of Public thought; and to every soul in which the spirit of Christian philanthropy glows. Come to our defense and to the cause of the Freedom of Our Flock. Come from the pulpits of your Churches; from the seats of your Council Chambers; from the platforms of Public Associations; from the sanctum of your journals. Raise the mighty voices of your Nation and of your sympathetic people, as those of unfailing and unfaltering friends. We need them for the salvation of Our Flock, tortured in body and soul through centuries of suffering. And Our people will forever stand in history as witness that a Great Nation, prolific of welfare, stretched its helping hand and mighty arm to raise them up.

"The Grace of Our Lord Jesus Christ, and Our thankful Blessings be with you all, evermore, Amen.

"GEORGE V.,

"Catholicos and Supreme Patriarch of All Armenians."

During the VIII. year of Our Patriarchate at the Mother See of Ararat, Etchmiadzin the Holy.

MAJOR GENERAL HARBORD SUPPORTS ARMENIA

New York.—At a mass meeting recently held here to consider the need of Armenia in the appalling disaster that has overtaken that unhappy land the following telegram was received from the commander of the Second Division:

"True to their religion, language and race through a thousand years of persecution, the Armenians must not be permitted to perish. Americans should aid them with moral, financial and political support.

"J. G. HARBORD."

Favors Diagonal Ditch

To the taxpayers of Eastern Marshall County:

The drainage of eastern part of Marshall county is before us and it will mean a heavy burdan to us and we should at this time get busy in order to save ourselves from destruction. If we allow this work of drainage to suit some selfish people, we will be ditched out of the country on account of high taxes. It seems to me that we have enough ditches or rather more ditches than is needed now and I think therefore we people of this community should voice our sentiment in regard to our people as a whole to fight for our rights.

We are trying to support our families and pay our taxes and try to be fair-minded in every way and want to do what is right and just to all. I am therefore mentioning what I think would be just and right to all and that is, an outlet for the ditches we now have.

An angling ditch across the country from Moose river to a point in Thief river near the county line between Marshall and Pennington counties, as proposed by the flood commissioners would cut off the water from Beltrami county and give us all the protection we need.

Our ditches at present are sufficient to take what water comes on our lands here. To prove this, we can show that from the thirteen inches of rainfall we had on July 2nd. 1919, it stood four inches on the level on my farm after the rain.

On July the fourth, there was only a small pot hole of water in my flax field, which I started out on that day to drain. But when I came down to the meander line of Mud Lake, the water was backing up from the lake, which came from the northeast, or what you may call the Beltrami county water. We of course got all of it and the water was from two to three feet on the level on my farm until the river was able to carry it.

If this proposed angling ditch was built with banks on the west side, it would be a cheap outlet in comparison with the river outlet and would also drain a great deal of swamp land which is useless now and give us all what they call "Drainage."

Now farmers wake up for once and save your farms. We have been sleeping long enough, if you don't you will find yourselves drowned in taxes which will be worse than the flood.

Stop and think this over. Something must be done now. Let us do our kicking and scrapping now, not when it gets too late. Let us keep everlastingly doing something to help ourselves from ruination by taxes. The farmers should call meetings in every township, talk it over, get your township to appropriate money to fight for your rights and now is the time to do so.

We have already started in our township and have met with good success. Let our motto be "Do it and do it right," so we can all say, "well done."

Yours Respectfully,

A Tax Payer, Casper Dale.

Feel All Worn Out?

Has a cold, grip, or other infectious disease sapped your strength? Do you suffer backache, lack ambition, feel dull and depressed? Look to your kidneys! Physicians agree that kidney trouble often results from infectious disease. Too often the kidneys are neglected because the sufferer doesn't realize they have broken down under the strain of filtering disease-created poisons from the blood. If your back is bad, your kidneys act irregularly, and you feel all run down, use *Doan's Kidney Pills. Doan's* have helped thousands. *Ask your neighbor!*

A Minnesota Case

E. Tickner, retired, Glencoe, Minn., says: "I had considerable trouble with my back and kidneys. It was hard for me to bend over and sharp pains shot through me. My kidneys acted irregularly and the secretions were highly colored and burned in passage. I used Doan's Kidney Pills and in a short time I was relieved of the trouble."

The Needless Misery That Women Bear

WHEN the household cares and the worries of everyday life have dragged you down, made you unhappy, and there is nothing in life but headache, backache and worry, turn to the right prescription, one gotten up by Doctor Pierce over fifty years ago.

Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all thru treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intented for backache, headache, weakening pains, and for many disorders common to women in all ages of life. Sold by druggists in tablet and liquid form. Send Dr. Pierce 10c. for trial package.

Chicago—Grover Alexander, Chicago's pitching ace, was the leading pitcher in the National league during 1920, according to the official's averages made public.

Boston, Mass.—Wearing of the American flag by boxers appearing in bouts in Massachusetts is prohibited in a ruling announced by the state boxing commission. The ruling was made at the request of the American Legion.

Domestic

Lawrence, Mass.—William M. Wood, president of the American Woolen Mills company, has announced a 22½ per cent cut in wages.

Boston—For the first time in the history of Massachusetts seats were accorded to women on the floor of the House of Representatives.

Chicago—Five auto bandits late today raided the jewelry shop of Jacob Klein in Halsted st S., and escaped with gems valued at $50,000.

Kansas City, Mo.—Twenty thousand dollars was obtained by two bandits who robbed the Produce Exchange bank here, according to police.

Omaha, Neb—An unidentified burglar was shot to death in the residence of William Crutchfield by a squad of police armed with riot guns and pistols.

Chicago—One of Chicago's famous landmarks, the Board of Trade building, is to be torn down soon and replaced by a modern 21 story structure, it was announced.

Detroit, Mich.—The will of Horace E. Dodge, Detroit motor magnate, leaves the bulk of an estate estimated at $50,000,000 to his widow, Mrs. Anna Thomson Dodge.

New Orleans—Joseph Leiter, Jr., 44 years old, son of Joseph Leiter, millionaire Chicago and Washington resident, was killed by the accidental discharge of a shotgun.

Columbia, Ky.—Five men unsuccessfully attempted to rob the bank of Columbia. They were pursued to Lebanon, 40 miles away, where a fusillade from pumpguns and other firearms failed to stop them.

Chicago—John H. Farrell of Auburn, N. Y., for 20 years secretary of the National Association of Minor Leagues, is slated to become secretary to Federal Judge K. M. Landis, commissioner of organized baseball.

Detroit—After deliberating 24 hours the jury in the trial of Albert Sherman, deputy sheriff, charged with killing Walter Gilday and Maurice Draullard, returned a verdict of not guilty. The trial was the result of a gun battle.

San Diego—An attempt to establish a new transcontinental airplane speed record from San Diego to Jacksonville, Fla., will be made Feb. 21, according to announcement made by Lieutenant W. B. Coney, of the 91st Aero Squadron, stationed at Rockwell field.

Nashville, Tenn.—The most drastic of the so-called blue laws, ever proposed in the south, was introduced in the Tennessee senate. The bill would prohibit on Sunday: Operation of freight and passenger trains; playing of baseball; operation of theaters; publication of Sunday newspapers; opening of drug stores or soda fountains; selling, or buying or trading.

Chicago—Aurelius C. Turpin gave Miss Virginia Foster 60 kisses in an hour. A jury assessed the kisses at $58 each and Turpin was ordered to pay her $3,500 for his osculatory performance. The case was first tried in the superior court here and the appellate court has just upheld the verdict.

Detroit—A rumor circulated in Detroit to the effect that William G. McAdoo is slated to become vice president and general manager of the Ford motor company, succeeding Frank L. Klingensmith, resigned, could not be verified.

Boston—The starving waifs of Europe were the invisible guests at a dinner at which 1,000 sat down to a meal of stew, bread and cocoa for which they paid $100 a plate.

West Frankfort, Ill.—Five men were injured in an explosion believed to have been caused by gas in Old Ben coal corporation mine No. 8 west of here.

Butte, Mont.—Federal troops stationed here since last April departed for Fort George Wright, Washington to join their regiment. The troops were ordered to Butte in April of last year, following I. W. W. rioting on Anaconda road.

Dubuque, Iowa—More than 25 students of Dubuque schools were summarily dismissed when they refused to become vaccinated after an ordinance making vaccination compulsory for school children had been passed by the city council.

Miles City, Mont.—An estimate of over 12,600,000 bushels as Montana's wheat production for 1920 has been made to the Miles City chamber of commerce by A. C. Bowen, superintendent of the Musselshell division of the Milwaukee road.

St. Paul—A substantial increase in construction work in 1921, encouraged by further declines expected in building materials, is predicted for the Northwest in the F. W. Dodge company's review of the building situation for 1920 and forecast for 1921.

Davenport, Iowa—With one alleged I. W. W. agitator in jail and half a dozen more reported at work in the city, Mayor C. L. Barewald, who several days ago announced his resignation as a member of the socialist party, issued an order to the police to rid the town of radicals and use riot guns if necessary.

Brandon, Man.—The adoption of a plan for the co-operative marketing of all farm crops through an organization controlled by the farmers was recommended to the annual convention of United Farmers at Manitoba, which opened here, by the directors of the association in a report read by D. U. MacKenzie, president.

Des Moines, Iowa—Establishment of a "National Conservation day" was placed before the national conference on parks here. Advocates of the proposal declared such a holiday would receive general endorsement because it was needed to help stop a waste of resources that cannot be replaced and would stimulate love of country.

Winnipeg, Man.—Products of the soil produced in the three prairie provinces—Manitoba, Saskatchewan and Alberta—in 1920 totaled $471,671,823, an increase of $67,723,911 over the preceding year, according to statistics compiled here. Figures for grain are for the last four months of the year and all other figures over the full 12 months.

COUNTY BOARDS TO PAY

Compulsory Appropriation By Commissioners Toward Farm Bureau Gets Committee's Approval.

St. Paul—The house committee on agriculture, by a vote of 8 to 1, sustained the recommendations of the executive officers of the Minnesota Farm Bureau that the county boards be compelled to appropriate money for farm bureau work.

According to the farm bureau laws passed in 1919, it was optional with the county commissioners to make farm bureau appropriations. Representative J. B. Hompe announced that he is going to oppose the proposition when it is brought up in the house.

F. E. Dolmer, field agent for the farm bureau, explained the changes proposed by the farm bureau. The new measures provide that the state may apply $2,000 instead of $1,000 to each county, but only $1,000 for each county agent or home demonstration agent. St. Louis county, under the proposed law, may appropriate up to $25,000 for farm bureau work, and county boards in all other counties shall appropriate from $1,000 to $5,000.

Eleven of the 13 committee members present, including four of the five who were against compulsory appropriations, are active members of the farm bureau federation.

Members opposing compulsory county appropriations were Anderson, Gran Hompe, Lagersen and C. J. Swenson. Those favoring the measure were Grant, Carlson, J. B. Gislison, Hulbert, Robinson, Sweitzer, Thompson and Wright.

BONUS AMENDMENT HITS SNAG IN SENATE

Senate Investigate Financing of Bonus. Testimony Being Taken.

St. Paul—Charges of $3.75 on each $100 paid to Minnesota soldiers on their state bonus claims were satisfactory to the soldiers, and the Wells-Dickey company as a matter of public service would finance the bonds again, said A. J. Edwards, vicepresident of the Wells-Dickey company to the senate finance committee, in its investigation of bonus affairs.

Mr. Edwards appeared voluntarily to answer charges made by Senator W. A. Nolan that former service men were obliged to pay from 3 to 20 per cent in order to cash their bonds.

His testimony was preceded by that of J. A. Gordon, present executive of the bonus board, and M. G. Descond, who formerly held that position.

Gordon testified he came in contact with many service men and that some of them had reported that they had paid 3.75 per cent discount in order to get their money promptly. One man had met him on the street and claimed he paid $20 to get his cash, but Mr. Gordon did not remember who he was.

BUDGET BILL MAKE HEADWAY

Sitting in committee of the whole Friday, the house unanimously recommended a state budget commission.

Under the bill the budget commission will be made up of the governor, state auditor, chairman of the tax commission, the lieutenant governor, speaker of the house and chairman of the senate finance committee and chairman of the house appropriations committee.

The law requires the state auditor as secretary of the commission, to mail blanks each year in August to the heads of all state departments.

The commission is required to meet the first Tuesday in November to consider the requests of the various departments and may subpoena witnesses and visit institutions. It is required to make a report to the legislature not later than the fourth day of the session.

Wants Railroad Control.

Because the interstate commerce commission is "buting in" on Minnesota's intrastate rates, Representative C. M. Bendixen has fathered a resolution asking congress to pass laws nullifying acts of the commission, and allowing Minnesota to run railroads within its borders.

Plan Tourist Grounds.

Acquisition of picnic grounds and camping places for tourists is made possible by county boards, which are authorized to spend not more than $10,000 for this purpose in a measure fathered by Senator Ole Sageng.

Would Revive Passes.

Railroad passes for members of the Legislature while on official business would be provided for under the terms of a bill by Representative Frank E. Nimocks of Minneapolis, recommended for passage by the House committee as a whole. The measure provides that the passes must contain photographs of the members and contain the admonition that legislators shall feel under no obligation to the roads for the free transportation. The bill would save the state annually $100,00, Representative Nimocks said.

WHY THE EQUITY HEDGES IN GRAIN

Right of Co-operative Exchange to Deal in Wheat Futures Is Defended.

CONVENTION IN FARGO

St. Paul Attorney Says Organization Must Hedge to Protect Itself and Farmers Dealing With It in Market.

Fargo.—The right of the Equity Co-operative exchange to hedge in conducting its grain transactions was defended by representatives of the exchange at the annual meeting of the exchange delegates held at the Fargo auditorium to prepare questions to be taken up at the annual stockholders' convention here.

The question of why the exchange hedges, or deals in future grain deliveries, a method which is considered by the exchange as detrimental to a large extent to the grain industry, was raised by several of the delegates.

Benjamin Drake of St. Paul, attorney for the Equity Co-operative exchange, explained this by saying that in spite of the evil in dealing in futures, the condition actually exists because of the private grain exchanges and that it is necessary for the exchange, in handling the farmers' grain, to hedge in order to protect itself and the farmers dealing with it.

Mr. Drake condemned the present system of grain marketing because of speculation. He said that every year there are about 150 billion bushels of wheat bought and sold on the various boards of trade in speculation on grain that does not exist, as compared with about one billion bushels on actual wheat produced in the country. He gave this as the reason for the active fluctuation in the wheat market and cited that as the reason why the exchange is forced to hedge to protect itself.

Mr. Drake said that at the present time there is a bill before congress that, if passed, would limit the trading in futures to from six to seven times the amount of actual grain produced instead of about 1150 times the actual number of bushels on the market. He said that with 99 per cent of the trades on the grain exchanges being fictitious there can be no stability in the grain market. With new laws limiting this fictitious trading, Mr. Drake declared that hedging would be less necessary and that the market would be more constant at all times.

ARMENIAN BRIDES ARE SOLD

Startling Traffic in Girls Revealed in California.

Fresno, Calif.—Startling revelations of a veritable marriage block operated in Fresno from which beautiful Armenian girls, brought into the United States illegally, were sold to the highest bidder were made here by United States Immigration Commissioner Geo. W. Moore.

The Armenian practice of bringing young girls to Fresno was brought to light with the arrest of seven of the victims. Harootian Selvian, prominent and influential Armenian rancher of Lone Star, was also taken into custody.

One case, in which a young Armenian inspected girls held for sale and paid a deposit on one who pleased him, is typical of many cases in which girls were made marriage slaves, according to the commissioner.

ARMY LIMIT IS NOW 175,000

Senate Reconsiders Former Vote and Both Houses Agree.

Washington.—Just after the senate had voted to fix the army limit at 175,000, the house adopted 285 to 4 a resolution by Chairman Kahn of the military committee, directing the secretary of war to cease enlistments when the army reached the same figure.

By a vote of 41 to 33, the senate set aside its decision of last week to reduce the army to 150,000 men. Upon reconsideration of the vote, the senate defeated a motion to fix the army at 150,000 instead of 175,000, as proposed in a resolution by Senator New, Republican of Indiana.

After rejecting the plan for an army of 150,000 men, the senate adopted the original resolution directing the secretary to stop army recruiting until the army is cut to 175,000 men.

Government Bans Smoking.

Washington—The president and even the senators and representatives might have to take to the streets to enjoy cigar, cigaret or pipe as an aid to statesmanlike reflection, if a bill offered recently by Senator Smoot becomes a law.

Resume Tobacco Sales.

Lexington, Ky.—Selling of the 1920 crop of burley or cigaret tobacco in central Kentucky, Indiana and Ohio has been resumed after a delay of 13 days, due to efforts of growers to force prices to a higher level. Promises that they will do all in their power to make a "satisfactory market" have been made by manufacturers, who purchase most of the crop. The markets in most of the district have been closed since January 4, when growers virtually forced warehousemen to close.

ABLE TO DO HER WORK

After Long Suffering Mrs. Siefert Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Pottsville, Pa.—"I suffered with female trouble for four or five years and was very irregular. I was not fit to do my work at times and took medicine from a doctor and got no benefit. I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers and took it and got all right. I gained twenty pounds or more and am now able to do my work. I recommend the Vegetable Compound to my friends and you may use these facts as a testimonial."—Mrs. SALLIE SIEFERT, 313 W. Fourth Street, Pottsville, Pa.

The everyday life of many housewives is a continual struggle with weakness and pain. There is nothing more wearing than the ceaseless round of household duties and they become doubly hard when some female trouble makes every bone and muscle ache, and nerves all on edge.

If you are one of these women do not suffer for four or five years as Mrs. Siefert did, but profit by her experience and be restored to health by Lydia E. Pinkham's Vegetable Compound.

Willing to Divide.

"Yes," said the eminent specialist to the poor man who had called upon him, "I will examine you carefully for five dollars."

"All right, doctor," said the man resignedly. "If you find it I'll give you half."

SLEUTHS' INTUITION AT FAULT

Investigation of Suitcase Convinced Them That They Had Stumbled On a Misleading Clue.

Two federal prohibition field agents were seated in a train bound from North Vernon to Indianapolis.

"Ah, ha!" exclaimed one, as he nudged his companion in the ribs. "Look!"

The two thereupon watched an elderly colored couple. The man had a suitcase which seemed heavy, and he handled it gingerly as he placed it under the seat. The agents studied the situation and then decided to act.

"Excuse me," said one of the agents addressing the colored man. "We will have to bother you to let us see what you have in that suitcase."

"Yes, sir; yes, sir," came the reply. "Help yourself."

Expectantly the agents opened the suitcase and peered within. It contained six cans of home-preserved fruit.—Indianapolis News.

Defining Their Efforts.

"Hello, old chap," cried Meadows. "Haven't seen you for an age. How are you getting on with those new neighbors of yours? I hear they are musical."

"Are what?" asked Flatleigh, cynically.

"Who said that?"

"Oh, I heard it. Is it not so?"

"Well, I suppose he likes to fiddle, and the wife likes to yell, if that's what you mean."—London Answers.

EVIDENTLY SET HIM THINKING

Reminiscences of Sharp-Voiced Woman Woke Young Man to Possibilities of Situation.

"Charles," said a sharp-voiced woman to her husband in the smoking compartment, "do you know that you and I once had a romance on a train?"

"Never heard of it," replied Charles, in a subdued tone.

"I thought you hadn't, but don't you remember it was a pair of slippers I presented to you the Christmas before we were married that led to our union? You remember how nicely they fitted, don't you? Well, Charles, one day when we were going to a picnic, you had your feet upon a seat, and when you weren't looking I took your measure. But for that pair of slippers I don't believe we'd ever have been married."

A young, unmarried man, sitting near by with a girl, immediately removed his feet from the seat.

Minneapolis—Minneapolis and St. Paul are tied for sixth place among 43 cities having a population of more than 100,000 in the percentage of deaths during 1920 according to government reports received by Dr. F. E. Harrington, health commissioner. The Twin Cities' death rate per 1,000 population in 1920 was 12.2. The average death rate of the 43 cities was 19.8 per 1,000 population.

Owatonna—Ormsby Sensation, pure bred Holstein bull, owned by Sloan Brothers, A. B. Johnson and A. C. Johnson of Ellesdale, has been sold for $20 000. Other Holstein stock valued at an additional $20,000 was sold at the same time to the Beaver Dam stock farm at Montgomery, N. Y. The bull was purchased 18 months ago by the Steele county men for $4,000 and is regarded as one of the most valuable Holstein sires in the country.

Hastings—While speeding at nearly 50 miles an hour in an airsled, which he invented, Fritz Reissner of Hastings, and three other men escaped being burned to death when the sled became enveloped in flames, on Lake Isabel here. Vibration of the engine caused a leak in a pipe leading to the gas tank and the conveyance became a mass of flames. The occupants of the machine jumped to the ice and escaped with minor burns and bruises.

St. Paul—Minnesota's farm bureau organization will be extended to the smallest unit—the township—according to plans perfected at a conference between members of the federation's executive board, Dean R. W. Thatcher and A. D. Wilson, College of Agriculture. The township groups will be organized by the federation. The executive board completed a three day meeting, outlining work for the year "Make agriculture in the state permanent and profitable" was a slogan adopted.

St. Paul Governor Preus announced the appointment of Odin Halden of Duluth as a member of the state tax commission. He reappointed Gustaf Lindquist as insurance commissioner and renamed Walter F. Rhinow as adjutant-general. The appointments were all confirmed by the state Senate in session.

St. Paul—An appeal for the commutation of the life sentence of Myron Bassett, who pleaded guilty to second degree murder in connection with the Glencoe "cornfield murder" in 1918, was made before the state pardon board by Bassett's mother.

Look Out for Rheumatism As Winter Approaches

So many cases of Rheumatism come from a tiny disease germ that infests the blood, that physicians are beginning to realize that this source of the disease is becoming quite prevalent. Of course a disease that has its source in the blood cannot be reached by local remedies applied to the surface.

One remedy that has given splendid results in the treatment of Rheumatism is S.S.S., the fine old blood remedy that has been sold by druggists for more than fifty years. S.S.S. acts by driving out of the blood the disease germ that causes Rheumatism, thus affording real relief.

Begin taking S.S.S. today and if you will write a complete history of your case, our medical director will give you expert advice, without charge. Address Chief Medical Adviser, 151 Swift Laboratory, Atlanta, Ga.

We received another newsy card from our friend, Gunder Sorter several days ago which came too late for last week's issue but we are glad to publish it this week. He says in part:—

We were out on the coast for five weeks and it rained every day except four days. Between Portland and Seattle, all the low land is under water, all the rivers are flooded. The Columbia and Chehate rivers are above highwater mark, the highest for sixteen years. The most snow was seen in the Cascade mountains, otherwise there were no snow to speak of on the whole trip. All rivers west of Billings, Mont. are open yet. The most beautiful scenery is seen thru western Montana and Idaho. On our homeward trip we traveled during the day and stayed at hotels at night, affording us an oportunity of seeing all the country between the coast and the Dakotas.

Default having been made in the payment of the sum of Two dollars and fifty cents ($2.50) which became due on the 1st day of July, 1918, and in the payment of other amounts since falling due upon a certain mortgage executed and delivered by Christian O. Nygaard and Karen Nygaard, his wife, mortgagors, to Merchants State Bank of Red Lake Falls, mortgagee, bearing date the 22nd day of July, 1915, and duly filed for record in the office of the Register of Deeds of Marshall County, Minnesota, on the 13th day of August, 1915, at 8:00 o'clock A. M., in Book 73 of Mortgages, on Page 149 thereof; and whereas pursuant to the terms and conditions of said mortgage by reason of said default the whole principal sum of said mortgage remaining unpaid, to-wit: Seven dollars and fifty cents ($7.50) became at once due and payable and was so declared by the mortgagee, and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of Nine dollars thirty-three cents ($9.33), and the further sum of Seventy dollars ($70.00) with interest thereon at 7 per cent per annum since July 1st, 1918 and the further sum of Seventy dollars ($70.00) with interest thereon at 7 per cent per annum since July 1st, 1919, and the further sum of Seventy dollars with interest thereon at 7 per cent per annum since July 1st, 1920, the three latter amounts being for interest paid by the mortgagee under the terms of said mortgage upon a prior mortgage of One thousand dollars ($1,000.00) on said land, default having been made in the payment of same by said mortgagors, the total amount so claimed to be due and payable at the date of this notice being Two hundred and forty dollars and sixty cents ($240.60) and said mortgage containing a power of sale and no action or proceedings having been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof;

Now Therefore, Notice Is Hereby Given that by virtue of said power of sale and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Southwest quarter of the Southwest quarter (SW 1-4 of SW 1-4) of Section Four (4), the South half of the Southeast quarter (S 1-2 of SE 1-4) of Section Five (5), and the Northeast quarter of the Northeast quarter (NE 1-4 of NE 1-4) of Section Eight (8) in Township One hundred fifty-six (156) North of Range thirty-nine (39) West, in Marshall County, State of Minnesota, which sale will be made by the sheriff of said Marshall County at the front door of the Courthouse in the City of Warren in said County and State, on the 21st day of February 1921, at 10:00 o'clock in the forenoon at public vendue, to the highest bidder for cash to pay said debt of Two hundred forty dollars and sixty cents ($240.60) and interest from date of this notice and taxes if any, and an attorney's fee of Twenty-five dollars ($25.00) as stipulated in said mortgage and the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Dated December 16th, 1920.

Testing Seed Wheat for Germination
Strong
Weak

Every school in the Northwest has been asked to help in the spring wheat campaign by testing seed wheat in blotting papers for each farmer in each school district. Good seed wheat should germinate ninety-five per cent. If it tests weak fan it again and again.

If wheat has become heated or moldy in storage or from any other reasons, it may not grow at all or else have only a low percentage of germination. It is advisable therefore to make a few germination tests from different parts of your seed wheat. This may be done by taking an ordinary blotting paper, folded like a book. Wet it, open flat, count 100 kernels just as they come, place them on one-half of the blotting paper so that they do not touch; tear a strip of cloth about two inches wide and ten inches long, put it in the fold of the blotter, fold as before. Pile up your tests, wrap a cloth or piece of waxed paper around the tests, leaving the ends open, letting the cloth strip hang down like the wick in a lamp, in a glass of water. This will keep the blotting paper always wet. Don't let the test freeze or dry out. Always keep water in the glass. Read the test after seven days, separate into three lots: Strong, those growing an inch or more; weak, those just starting with short stems; dead, those which have not germinated at all.

This test can also be made in a wet cloth or blotting paper in a plate. The tumbler method is better because there is no danger of it drying out.

Girl's Basket Ball

The high school girls will play the town girls Wednesday Feb. 2nd. Admission 15c. The professional game will be followed by amateur games. The last "girls night" was one of the best nights Holt ever saw, and this one should be even better. Let's go.

Opera at Holt

"The Captain of Plymouth"

A comic opera will be given by Middle River talent composed of 40 people at the Holt schoolhouse on Saturday, Feb. 5th at 8 oclock.

The opera consists largely of music. This is a new kind of program and no one should miss it.

The admission will be 35 and 15 cents. One half of the proceeds will go to the Holt school to get material for a stage.

Movies Saturday 8 P. M. sharp.

The Holt school district must finish paying for their school house and the only way to do it is to vote bonds which should have been done when the school house was built.

The Nazareth Ladies Aid Society will meet at the Johnson hotel in Holt on Thursday Feb. 3rd. Mrs. Johnson and Mrs. Sever Nohre will entertain.

The ladies have the same rights to vote on the school bonds Monday, as the men, and all should exercise their rights and vote to uphold the school, which in this case means to vote for bonds.

The high school girls and town girls will play an exhibition game of basket ball next Wednesday eve, and maybe the men and women will play a couple of games also. Don't miss this chance for a hearty laugh.

The school district is now compelled to pay ten per cent interest on all outstanding orders, and as the bonds to be voted for, are to draw seven percent interest, it is easy to see that it will not raise the tax rate by voting for the bond issue.

The basket ball game last Thursday night was won by the Newfolden team who made seventeen scores to twelve for our boys.

It was an off night for Holt and Newfolden was in the lead all thru the game. The return game will be played some later date.

President, D. B. Bakke; Vice President, A. L. Carlson; Cashier, B. Docken; Directors, D. B. Bakke, R. Reierson, A. L. Carlson; J. A. Sorum; and B. Docken.

The Yeomen took in six new members Wednesday night and enjoyed one of their feeds afterwards. After that there was a fierce basket ball game between the Whites and Blacks, but as the score keeper got into the game towards the last all records of the scores were lost, but it was something less than a million anyway.

SYMPTOMS WOMEN DREAD

Mrs. Wilson's Letter Should Be Read by All Women

Clearfield, Pa.—"After my last child was born last September I was unable to do all of my own work. I had severe pains in my left side every month and had fever and sick dizzy spells and such pains during my periods, which lasted two weeks. I heard of Lydia E. Pinkham's Vegetable Compound doing others so much good and thought I would give it a trial. I have been very glad that I did, for now I feel much stronger and do all of my work. I tell my friends when they ask me what helped me, and they think it must be a grand medicine. And it is. You can use this letter for a testimonial if you wish."—Mrs. HARRY A. WILSON, R. F. D. 5, Clearfield, Pa.

The experience and testimony of such women as Mrs. Wilson prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound will correct such troubles by removing the cause and restoring the system to a healthy normal condition. When such symptoms develop as backaches, bearing-down pains, displacements, nervousness and "the blues" a woman cannot act too promptly in trying Lydia E. Pinkham's Vegetable Compound if she values her future comfort and happiness.

Then There Was More of It.

"What are you little boys quarreling about, my son?" asked the father coming in the gate.

"Why, this boy from next door said I was as homely as you, papa," explained the young man.

"Oh! And that's what started the trouble, was it?"

"No, papa; the trouble didn't start until I said that I wasn't as homely as you!"—Yonkers Statesman.

SENATE PASSES PACKING BILL

Long Debated Measure Regulating Meat Packers Now Goes Before House.

AUDIT BODY PROVIDED

Would Have Commission to Keep In Touch With Affairs of Industry and Disseminate Information —Farmers Are Exempt.

Washington.—By a margin of 13 votes, the senate passed the long fought bill for federal regulation of the meat packers and other agencies of the livestock industry.

The vote was 46 to 33 and the legislation, the center of bitter controversy for a decade, now goes to the house with its supporters hopeful of final action during the present session of congress. A special rule to expedite house action is to be sought.

Partisan division in the senate was lacking, but most Democrats supported the bill, while a majority of the Republicans opposed it. The party line-up was 18 Republicans and 28 Democrats for passage, with 23 Republicans and 10 Democrats against.

The bill would create a new federal livestock commission of three members appointed by the president to have jurisdiction over the livestock industry.

This commission would have power to issue orders, collect and disseminate information, have access to packers' books and have general supervision over meat packers, stockyards, commission men and similar agencies. Review of the livestock commission's orders would be provided by the bill, which also prescribes rules for conduct of the packing business and stipulations against monopoly, unfair trade practices, engaging in unrelated industries and other similar acts.

Voluntary licensing of packers also is provided, an attempt by Senator Pomerene, Democrat of Ohio, to eliminate this feature having been defeated 43 to 34.

Only two important amendments were adopted by the senate before passing the bill. One by Senator Wadsworth, Republican of New York, would include horses, mules and goats within the operations of the bill, although the horse and mule markets would be excluded from the proposed federal supervision.

Another amendment, by Senator Pittman, Democrat of Nevada, would exempt all persons whose chief business is livestock growing or production of agricultural products from the bill's provisions. The author declared that the legislation should not extend to small stock growers who operate their own feeding yards.

The senate defeated, 43 to 34, a plan by Senator Sterling, Republican of South Dakota, to turn over administration of the proposed law to the federal trade commission instead of the new livestock commission authorized in the bill.

TERMS OF TREATY PUBLIC

British-Russian Agreement May Soon Be Reached at Moscow.

London.—The terms of the British-Russian preliminary agreement, which Leonid Krassin, the soviet representative, has taken to Moscow for consideration officially, have been made public. The most important terms follow:

Each party agrees to refrain from hostile action or propaganda outside its borders against the other's institutions. The soviet particularly agrees to refrain from any encouragement of Asiatic peoples to action against British interests, especially in Asia Minor, Persia, Afghanistan and India.

British subjects in Russia and Russians in Great Britain will be permitted to return to their homes if they so desire.

Each agrees not to impose any form of blockade against the other or any discriminations against trade not imposed on other foreign countries. Ships in the other's harbors shall receive the treatment usually accorded foreign merchant ships by commercial nations.

Arrested on Two Charges.

Minot, N. D.—Arvey Erickson, whiskey runner from Chisholm, Minn., who mortally wounded Policeman Leo S. Fahler when the officer attempted to arrest him, and who is recovering from the bullet wound inflicted by Fahler, has been arrested on a charge of murder in the first degree by Chief of Police McDonald.

He was turned over to the custody of Sheriff A. P. Scofield and a guard has been placed at the door of his room in St. Joseph's hospital.

Erickson was also arrested by Deputy United States Marshal C. R. Wattles on a charge of violating the federal laws. Erickson has retained counsel.

O'Callaghan to Stay Awhile.

Norfolk, Va.—Donal J. O'Callaghan, lord mayor of Cork, who came here as a stowaway, without a passport, returned here and Judge Joseph H. Lawless, his counsel, announced he would be surrendered to the immigration inspector as ordered by Secretary Wilson of the labor department.

Judge Lawless said O'Callaghan would not be immediately deported but would be granted a "seaman's certificate" which would give him the right to ship aboard an outbound vessel at his convenience.

"Here Comes The Bride!"

Everybody wishes her well! Happy and radiant she starts out on life's adventure. She should have health to begin with. Good looks in woman do not depend upon age, but upon health. You never see a good-looking woman who is weak, run-down, irritable, out of sorts, fidgety and nervous. Headaches, backaches, dragging-down pains, irregularities and troubles of that sort are all destroyers of beauty. Men do not admire sickness.

It is within the reach of every woman to be well, healthy and strong if she will take Dr. Pierce's Favorite Prescription. It is the safest woman's tonic because it is made entirely of roots and herbs, without alcohol. (Ingredients on label.) It is 50 years old, and its age testifies to its goodness. Stomach on Strike 20 Years

Eatonic Settled It!

"Eatonic is wonderful," says C. W. Burton. "I had been a sufferer from stomach trouble for 20 years and now I am well."

Eatonic gets right after the cause of stomach troubles by taking up and carrying out the acidity and gases and of course, when the cause is removed, the sufferer gets well. If you have sourness, belching, indigestion, food repeating or any other stomach trouble, take Eatonic tablets after each meal and find relief. Big box costs only a trifle with your druggist's guarantee.

STATE AUDIT URGED

Light On All Farm Organizations Including Nonpartisan League Championed By League Senator.

St. Paul—Senator Magnus Johnson, a Nonpartisan league senator, advocate of publicity for the financial affairs of farmers' organizations, including the Nonpartisan league, in a meeting of the senate committee on agriculture.

Senator Johnson engaged in a debate with Senator Herman Schmechel, another league senator. The committee was considering a bill to require auditing of the books of all co-operative associations by the department of agriculture. Senator Schmechel and others thought the auditing should be done only when asked for by the companies. Senator Johnson insisted that the audit should be mandatory.

"If we had this kind of a law, and the farmers packing company at Fargo had been in Minnesota, we might have saved it," said Senator Johnson. "The principle of a mandatory audit well could be applied to other organizations; for instance, the Nonpartisan league, so that members might know exactly where the money goes."

Another division came on the question of the number of stockholders necessary to call for an audit from the state department. Senator Johnson favored 10 per cent and Senator Schmechel was for 20 per cent. The 20 per cent provision won out.

The bill already had been reported out of committee, but was referred when members of the committee discovered there was opposition to the mandatory provision of which they had not been advised when they first considered the measure.

"An element of the press has created the impression that this is an espionage measure designed to permit the state to pry into the affairs of farmers' co-operative concerns," said Senator Richard Hamer. "This has resulted in a growing suspicion of the measure, and I fear that public sentiment is not at present favorable to its passage."

L. E. Potter, president of the Minnesota Farm Bureau federation, also urged the mandatory provision, but the committee by a vote of 9 to 5 adopted the optional feature.

UPHOLDS ONE MAN RULE

St. Paul—The Washburn motion to inset a commission of three salaried men in the highway bill was defeated Wednesday by the house committee on highways, by a 6 to 23 vote, thu scoring a victory for the advocates of a single highway commissioner.

The committee followed this action by directing a subcommittee to draft the bill with a single commissioner provided, to be appointed by the governor and who will have the power to be appointed by the governor and who will have the power to appoint two assistants.

Sentiment in the senate is said to lean strongly to a three-man commission, but Senator P. H. McCarry, chairman of the senate committee, wants seven commissioners to represent the various sections of the state. He would have one from northwestern Minnesota, one from the northeastern part of the state, two from southern Minnesota, one from the western counties, and two from the twin cities.

Grain Grades Protested.

Claiming that restoration of the old Minnesota grain grades work endless confusion by mixing state and present federal grades, J. G. McHugh, secretary of the Minneapolis Chamber of Commerce, and representatives of Duluth and Minneapolis business interests, entered a vigorous protest against restoration before the house committee on grain and warehouses.

State Aid for Women War Workers.

Women who participated in war work, would be eligible to the state aid of $200 for study at the University of Minnesota under S. F. 209, introduced by Senator G. D. Reed. Heretofore only service men were given this privilege.

House Passes Restroom Measure.

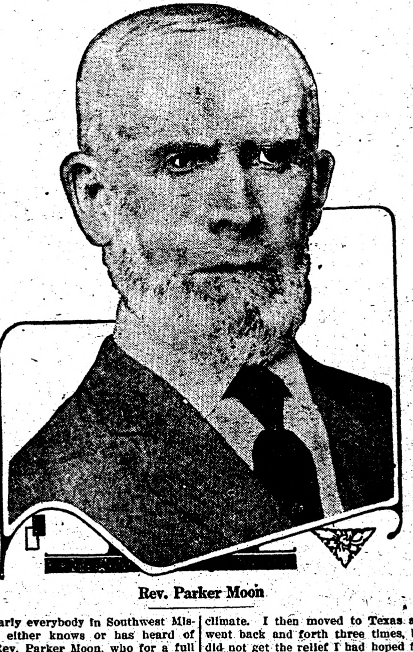
By a vote of 83 to 4, the bill of Representative W. J. Darby, requiring towns and villages to maintain public restrooms was passed in the house. The bill, as passed, requires the rooms to be open from 10 a. m. to 6 p. m.

Senator Nolan introduced a bill making it a misdeameanor for a person under 20 years of age to smoke cigarets and making the penalty a fine of $10.

Governor As Referee.

With M. J. Desmond of the state auditor's office advocating payment of soldier bonus money out of the state general fund and State Treasurer Henry Rines backing a bond issue to raise the money, the senate finance committee is undecided as to the proper course to pursue, and late today a subcommittee including Senators A. J. Rockne, J. D. Sullivan, W. A. Nolan, and J. W. Hopp was to call on Governor J. A. O. Preus and ask him to referee the debate.

Quaker Minister Is Grateful to Tanlac



Rev. Parker Moon

Nearly everybody in Southwest Missouri either knows or has heard of the Rev. Parker Moon, who for a full half century has devoted his life and talents to Sunday school and organization work for the Society of Friends or Quakers.

"Uncle Parker," as he is more familiarly known, came from fine old rugged Quaker stock, and there is not a better known or more highly respected citizen in that part of the state. In referring to his remarkable restoration to health by Tanlac, he said:

"About five years ago I suffered a general breakdown. My principal trouble was nervous indigestion. My appetite was very poor and my food seldom agreed with me, and I had to live on a very restricted diet. I suffered a great deal from headaches and dizzy spells; I had severe pains across the small of my back and was badly constipated most of the time. In fact, I was so weak and rundown I was not able to attend to my duties.

"This condition made me very nervous and I could not sleep at night. Frequently I would lie awake most all night and was in that condition more or less for five years. My physician said he could not do anything for me and suggested a change of climate. I then moved to Texas and went back and forth three times, but did not get the relief I had hoped for. Finally, I got so bad off I was not able to get around with any degree of comfort. I was also told I had heart trouble.

"I had read about Tanlac and, as it had been very highly recommended to me, I decided to try it. I got a bottle and had taken only a few doses until I could notice a marked improvement in my condition. I noticed especially that I was not troubled any more with sour stomach after eating, which was a great relief.

"I kept on taking Tanlac until I fully regained my health. My appetite is splendid; I enjoy my meals and I do not find it necessary now to take any laxative medicines of any kind. I can sleep much better and am not nearly so nervous.

"I take great pleasure in recommending Tanlac to anyone who needs a good system builder, or who suffers with stomach trouble. I have recommended Tanlac to a great many of my friends and am pleased to reach others by giving this statement for publication."

Tanlac is sold by leading druggists everywhere.

REALLY NOT SO FLATTERING

Younger Lady's Explanation of Recognition of Old Friend Had a Certain Sting to It.

A cabinet officer said at a dinner, apropos of certain criticism on his department:

"Politics—all politics. Nothing, not even woman, is as cruel as politics, and yet woman can be very cruel."

The secretary then told a story about the cruelty of woman.

"One Easter morning," he said, "two ladies met on the Atlantic City boardwalk with little outcries of surprise and joy.

"'Why, Mame!' said the older lady. 'How flattering this is!'

"'Flattering!' said the younger lady, with a perplexed air. 'How so?'

"'You haven't seen me,' said the older lady, 'for 17 years, and yet you recognize me, so to speak, right off the bat. That means I haven't changed so dreadfully, doesn't it?'

"'Oh!' she said, 'you see, I recognized your bonnet!'"

GOOD AND LOGICAL REASON

Mrs. Jones Knew Exactly What She Was Doing When She Selected Baby's Names.

Mr. and Mrs. Jones had come to that all-important part of naming their new baby.

Mr. Jones, who, by the way, detested work, and liked nothing better than to sit in front of the fire and watch other people do it, wanted the baby named plain "Bill."

Mrs. Jones had different views.

"I shall name the baby William Oliver Robert Kenneth," she asserted.

"But why all those names?" asked her husband.

"Because," replied Mrs. Jones, tartly, "if you look at the initials you will find that they spell 'Work,' so perhaps, when baby grows up, he will take to it better than his father."

Stock Raising in WESTERN CANADA

is as profitable as grain growing. Successes as wonderful as those from growing wheat, oats, barley, and flax have been made in raising Horses, Cattle, Sheep and Hogs. Bright, sunny climate, nutritious grasses, good water, enormous fodder crops—these spell success to the farmer and stock raiser. And remember, you can buy on easy terms

Farm Land at $15 to $30 An Acre

—land equal to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—grazing land convenient to good grain farms at proportionately low prices. These lands have every rural convenience; good schools, churches, roads, telephones, etc., close to live towns and good markets.

If you want to get back to the farm, or to farm on a larger scale than is possible under your present conditions, investigate what Western Canada has to offer you.

POOL KNOWN AS MOSES' WELL

Is Believed to Be That Mentioned in the Bible in Connection With Great Law Giver.

In the Egyptian desert, about ten miles east of Suez, is situated a picturesque pool known as "Moses' well." This is believed to be the well mentioned in the Bible, where Moses, at the bidding of the Lord, cast a branch into the bitter waters, and they were sweetened. Set in a deep grove of date-palms and pomegranate trees, the well is a dark, calm, mysterious looking pool, faithfully reflecting the palms which fringe its edges. The scene at sunrise, when the first rays strike the still water, is exquisite beyond description.

Attempts to identify various natural beauties and locations with mentions or descriptions as given in the Bible have always been difficult, owing to the fact that the records of the rulers of Egypt at the time of the captivity of the Jews were destroyed by rulers that came into power immediately afterward. The motive was jealousy, and a determination to wipe from the minds of the people any regrets for rulers gone.

Contrary Statements.

FOLLOWED EXAMPLE OF HOST

Tactful Visitor Had No Desire to Be "Called," So He Duly "Sarsed" His Coffee.

The oil magnate, Mike Murphy, who passed away not long ago, was fortunate in the fact that his sons inherited their father's consummate ability, says the Philadelphia Ledger. One of them, John, tells this story of a recent visit to a certain section of the country, where he was careful to do as the people did, and to conform with social usages as he found them.

At the table the venerable host poured coffee into a saucer. But the host's son drank it from a cup. That made the host angry. "Why don't you sarse your coffee?" he bellowed at the son.

"It's all right this way, father," answered the young man, mildly.

"Son, if your eddication is goin' to make you reflect on your father I want to know it. I tells you, sarse your coffee!"

Whereupon the dutiful son emptied the cup in the saucer, and, says Mr. Murphy, "I sarsed mine, too!"

Mutual Idea.

In a cage full of monkeys, swinging by their tails, some of the younger monks indulge in their kind of calisthenics. The older ones hang to the bars peering out into the faces of the crowd.

Presently along come two—a sallow-faced-narrow-shouldered, hollow-chested young fellow embracing a painted and powdered female with penciled brows and tangerined hair, whose hips move synchronously in unconscious jazzery, and whose jaws hammer a hunk of chewing gum with precise rhythm.

"Gee, Clarence, ain't monkeys funny?" she murmurs.

"They sure are, Guinevere," he agrees, giggling.

And as they pass on, Jocko the Monk turns to his hairy mate and exclaims: "Jerusalem, Mary, did you see what just went by?"

As It Sounded to Her.

A little girl was asked, upon her return home, how she liked the singing of the congregation in the church.

"I liked it very much, indeed," she said, "although all the people said it was bad."

"'All the people said it was bad.' What do you mean, my dear?"

"Oh, it was so bad that I heard the people praying, 'Lord, have mercy upon us miserable singers.'"

Graduated, as It Were.

Katherine was trying to say her evening prayers, but the hum of conversation in the room seemed to distract her.

Finally she said: "You folks talk so much I can't say my prayers."

"Huh!" said Harold, her brother, "I know mine so well now I don't need to say them any more."

Least of all satisfactions is reflecting on how foolish people can be.

Turf as Substitute for Cork.

Turf submitted to a patented chemical treatment is the substitute for cork of a German chemical factory.

The material is stated to be as firm, light and sound-proof as cork itself, and it has high resistance to dampness, being also of great value as an insulating product. Claimed to be in some respects even superior to cork, it is especially recommended as a substitute material that is likely to prove especially important for insulation and building purposes.

A Flying Furnace.

The average meteor when first seen is about 80 miles above the surface of the earth, and disappears from view at 30 miles. Thus, it travels 50 miles before the atmospheric friction burns it up. This friction, it is reckoned, raises it to a temperature of something like 3,000,000 degrees.

Citation for Hearing on Petition for Administration

Estate of Junia N. Gilbert
State of Minnesota, County of Marshall In Probate Court
In the Matter of the Estate of Junia N. Gilbert, Decedent.

The State of Minnesota To Frank A. Gilbert, Ellenyer Slager, Mildred Slager and Chester Slager, and all persons interested in the granting of administration of the estate of said decedent:

The petition of Frank A. Gilbert having been filed in this Court, representing that Junia N. Gilbert, then a resident of the County of Marshall State of Minnesota, died intestate on the 6th day of July 1920, and praying that letters of administration of said estate be granted to Frank A. Gilbert and the Court having fixed the time and place for hearing said petition.

Therefore, You, And Each Of You, are hereby cited and required to show cause, if any you have, before this Court at the Probate Court Rooms in the City of Warren in the County of Marshall State of Minnesota, on the 14th day of February 1921, at two o'clock P. M., why said petition should not be granted.

Witness, the Judge of said Court, and the Seal of said Court, this 15th day of January, 1921.

MORTGAGE FORECLOSURE SALE

Default having been made in the payment of the sum of Two dollars and fifty cents ($2.50) which became due on the 1st day of July, 1918, and in the payment of other amounts since falling due upon a certain mortgage executed and delivered by Christian O. Nygaard and Karen Nygaard, his wife, mortgagors, to Merchants State Bank of Red Lake Falls, mortgagee, bearing date the 22nd day of July, 1915, and duly filed for record in the office of the Register of Deeds of Marshall County, Minnesota, on the 13th day of August, 1915, at 8:00 o'clock A. M., in Book 73 of Mortgages, on Page 149 thereof; and whereas pursuant to the terms and conditions of said mortgage by reason of said default the whole principal sum of said mortgage remaining unpaid, to-wit: Seven dollars and fifty cents ($7.50) became at once due and payable and was so declared by the mortgagee, and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of Nine dollars thirty-three cents ($9.33), and the further sum of Seventy dollars ($70.00) with interest thereon at 7 per cent per annum since July 1st, 1918 and the further sum of Seventy dollars ($70.00) with interest thereon at 7 per cent per annum since July 1st, 1919, and the further sum of Seventy dollars with interest thereon at 7 per cent per annum since July 1st, 1920, the three latter amounts being for interest paid by the mortgagee under the terms of said mortgage upon a prior mortgage of One thousand dollars ($1,000.00) on said land. default having been made in the payment of same by said mortgagors, the total amount so claimed to be due and payable at the date of this notice being Two hundred and forty dollars and sixty cents ($240.60) and said mortgage containing a power of sale and no action or proceedings having been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof;

Now Therefore, Notice Is Hereby Given that by virtue of said power of sale and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Southwest quarter of the Southwest quarter (SW 1-4 of SW 1-4) of Section Four (4), the South half of the Southeast quarter (S 1-2 of SE 1-4) of Section Five (5), and the Northeast quarter of the Northeast quarter (NE 1-4 of NE 1-4) of Section Eight (8) in Township One hundred fifty-six (156) North of Range thirty-nine (39) West, in Marshall County, State of Minnesota, which sale will be made by the sheriff of said Marshall County at the front door of the Courthouse in the City of Warren in said County and State, on the 21st day of February 1921, at 10:00 o'clock in the forenoon at public vendue, to the highest bidder for cash to pay said debt of Two hundred forty dollars and sixty cents ($240.60) and interest from date of this notice and taxes if any, and an attorney's fee of Twenty-five dollars ($25.00) as stipulated in said mortgage and the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Dated December 16th, 1920.

Invented in 1589.

The knitting-frame was invented in 1589 by William Lee, a graduate of Cambridge university and a native of Woodborough, near Nottingham, England. So perfect was the invention in every detail that to this day the essential features of the machine continue in use for the class of work to which Lee applied it.

Testing Seed Wheat for Germination
Strong
Weak

Every school in the Northwest has been asked to help in the spring wheat campaign by testing seed wheat in blotting papers for each farmer in each school district. Good seed wheat should germinate ninety-five per cent. If it tests weak fan it again and again.

If wheat has become heated or moldy in storage or from any other reasons, it may not grow at all or else have only a low percentage of germination. It is advisable therefore to make a few germination tests from different parts of your seed wheat. This may be done by taking an ordinary blotting paper, folded like a book. Wet it, open flat, count 100 kernels just as they come, place them on one-half of the blotting paper so that they do not touch; tear a strip of cloth about two inches wide and ten inches long, put it in the fold of the blotter, fold as before. Pile up your tests, wrap a cloth or piece of waxed paper around the tests, leaving the ends open, letting the cloth strip hang down like the wick in a lamp, in a glass of water. This will keep the blotting paper always wet. Don't let the test freeze or dry out. Always keep water in the glass. Read the test after seven days, separate into three lots: Strong, those growing an inch or more; weak, those just starting with short stems; dead, those which have not germinated at all.

This test can also be made in a wet cloth or blotting paper in a plate. The tumbler method is better because there is no danger of it drying out.

Catarrhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.
We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

RAIL HEADS ASK EARLY WAGE CUT

Through General Atterbury Roads Make Plea to Labor Board.

TO CANCEL AGREEMENT

No Wage Reduction in Next Ninety Days Is Promise—Federation Leaders Appeal Case Direct to President.

Chicago.—The American railroads, through Brigadier General W. W. Atterbury, vice-president of the Pennsylvania lines, before the railroal labor board, urged immediate abrogation of the national agreements between the roads and their employes and brought to a focus what railroad executives declared was a critical situation threatening many roads with bankruptcy. No wage reductions would be asked at present if agreements were annulled, Mr. Atterbury said.

The course recommended by General Atterbury was interjected into the board's hearings on rules and working conditions which has been in progress for more than three weeks.

Notice that a reply would soon be forthcoming from the 16 brotherhoods was given by B. M. Jewell, president of the railway employes' department of the American Federation of Labor. Mr. Jewell sent a long telegram to President Wilson protesting against an interruption of the board's proceedings.

General Atterbury declared that the railroad situation was so urgent that he could entertain no proposal of conferences with employes as they could not agree. He added that "even a few days' delay" might throw the whole situation into chaos and flood the board with petitions from railroads for reductions of wages. If the board immediately abrogated the national agreements, however, General Atterbury assured the board that the railroads would seek no reduction of wages for at least 90 days. "This will afford an opportunity to gauge the economies which can be accomplished through more efficient rules and working conditions," he said.

President Wilson has been asked by representatives of seven railroad organizations to investigate the statement of Brigadier General Atterbury of the Pennsylvania lines that the roads must have wage readjustment.

BERGER CASE IS REVERSED

Supreme Court Denied Landis' Right to Hear Case of Socialist.

Washington—Conviction of Victor L. Berger and four other members of the Socialist party for violation of the espionage act has been reversed by the supreme court on the ground that Judge Landis should not have heard the suit after his eligibility had been attacked.

Berger and four others were convicted under the section prohibiting attempts to cause insubordination and disloyalty in the naval and military forces, and sentences ranging from 10 to 20 years were imposed.

In reversing the decision the supreme court divided, 6 to 3, Justices Day, Pitney and McReynolds dissenting.

Apologize for Bergdoll Incident.

Berlin—Brigadier General Henry T. Allen, commander of the American army of occupation on the Rhine, has made a formal apology to both the Berlin government and the government of Baden for the recent attempt of men connected with the American forces to take into custody Grover Bergdoll, American draft evader, and his chauffeur, Isaac Stecher, says an official statement issued by the German government here.

Minot, N. D.—George Mulcare, 23, United States immigration officer who shot and slightly wounded T. R. Nash, restaurant employe at Portal, pleaded guilty and was sentenced to an indeterminate term of from one to three years in the state prison at Bismarck. Mulcare was intoxicated at the time of the shooting. The assailant is an ex-service man and as this was the first time he has ever been in trouble, petitions asking for leniency came from the American Legion post at Portal.

Alameda May Be Made Naval Base.

Washington—An agreement definitely recommending Alameda, Calif., as a site for a new Pacific naval base and for location of other subsidiary west coast naval bases, was reached by a subcommittee of the joint congressional committee considering Pacific bases. The subcommittee also confirmed previous recommendations for location of an aviation base at Sandpoint, Wash., a submarine base at San Pedro, Calif., and destroyer and aviation bases at San Diego, Calif.

For Your Blood

You are just as strong and healthy as your blood. It is likewise true that you are as young as your arteries. Vigor and health come with good blood. Without good red blood one has a weak heart and poor nerves. It may show in nervousness or in that weak, tired feeling. If your blood is thin and watery, face pale or pimply, if you are generally weak, tired and listless, a vegetable tonic should be taken. One that will do the housecleaning, an old-fashioned herbal remedy that was used by everybody 50 years ago is still safe and sane because it contains no alcohol or narcotic. It is made up of Blood root, Oregon Grape root, Queen's root, Stone root, Cherry Bark, without alcohol,—and made into both liquid and tablets. This blood tonic was first put out by Dr. Pierce in ready-to-use form as Dr. Pierce's Golden Medical Discovery. If druggists do not keep this in tablet form, send 60 cents for a large trial package to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. Write for free book on blood disorders, medical consultation free. Over two million bottles of Dr. Pierce's medicines sold last year. Try it NOW. Do not delay!

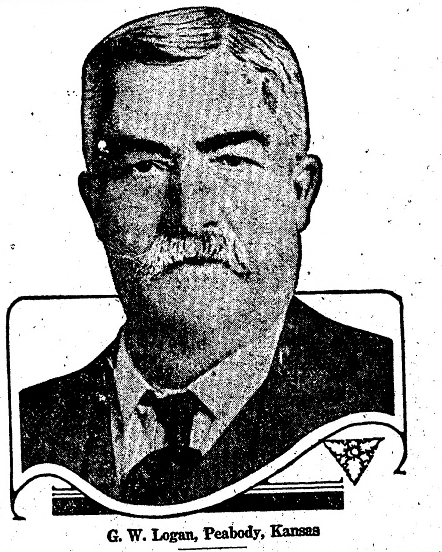
Worthington has been selected as one of the five points in Minnesota where similar meetings will be conducted to which churches in the surrounding district will send delegates.

Duluth—Logging operations in the north woods have been below normal thus far this winter, according to reports to lumber dealers here, and while every effort will be made to catch up on production during the remainder of the season, the output of logs for the year, they say, will be considerably less than in the preceding year.

Brainerd—A surveying crew is locating the route of the proposed state road No. 8 from Crosby north to a point where it will connect with that part of the state road now under construction.



Prominent Western Man Praises Tanlac

G. W. Logan, Peabody, Kansas

"Tanlac has completely restored my health and I feel finer than in years," was the straightforward statement made recently by Mr. George W. Logan of Peabody, Kansas, one of the most prominent stock-dealers in the Middle West.

"It has not only made a new man of me but I have actually gained thirty-five pounds in weight and feel as well as I ever did in my life. I am telling all of my friends about Tanlac, but they can see for themselves what it has done in my case.

"When I began taking Tanlac I was in an awfully run-down condition. I was away off in weight, felt weak and nervous all of the time and couldn't take any interest in my work or anything else. My main trouble was indigestion. Nothing seemed to agree with me. At times I would have dizzy spells and at other times my back would ache so bad that I could hardly get up and down in my chair. This is just the condition I was in when I started to take this medicine. It took just six bottles to make a well man of me. I now have a fine appetite, everything tastes good and my digestion is perfect.

"My wife was also troubled with indigestion at times and it relieved her the same way. You may publish my statement wherever you like and if anyone doubts it, just tell them to see me."

Tanlac is sold by leading druggists everywhere.

ROPE SUPERIOR TO LEATHER

Fibrous Material Rapidly Supplanting Belting in American and European Mills and Factories.

For 20 years there has been an increasing use in this country of manila rope for power transmission in mills and factories in place of leather belting. In English factories ropes superseded belting long ago, and their use is nearly universal. In the United States the change that has taken place began with the acquisition of the Philippine islands, where, as everybody knows, the Manila hemp flourishes. The fiber of the hemp varies in length from 6 to 12 feet, and occasionally attains a length of 18 feet. It is said to possess greater tensile strength than any other fiber known, exceeding 50,000 pounds per square inch. Rope drives, as transmission ropes are called, possess the advantage of noiselessness, owing to their flexibility and to the existence of an air passage in the grooves between the rope and the sheath.

Absent Minded.

Among my duties as general clerk in a downtown office was that of answering the telephone.

One day, in the midst of the regular rush, a woman entered the office, asked for some data which had to be looked up in another part of the office. Having secured the desired information, I returned to the desk to give it to her. Upon approaching her, absent-mindedly, I said in my sweetest tone of voice, "Hello."

The balance of that interview was not unduly prolonged, I assure you.—Chicago Tribune.

Collectors.

"Did you secure a new cook?"

"No," replied Mr. Crosslots. "One consented to call and look the place over, but she remained only half an hour or so."

"She never looked at the kitchen. She went straight to the phonograph. After playing all the records left us by the previous cook, she remarked that she didn't believe we had anything she cared to add to her private collection and departed."

Inutile Fame.

"Why are you sure there is no Santa Claus?" asked the small boy.

"Because," answered the small girl, "if there were anybody with all that popular pull, he'd have been put up as a candidate for office years ago."

NO SHARE IN BONUS

Conscientious Objectors Claim To Bonus Defeated In House By Record Breaking Vote After Heated Debate.

St. Paul—"Conscientious objectors" who were forced to serve in the army will not share in the benefits of the Minnesota soldiers' bonus law.

The house once more made this plain when it buried by a vote of 96 to 28 the bill by Otto D. Nellermoe, Minneapolis socialist, removing the limitations placed by the 1919 law on sharing in the bonus. The vote followed the most peppery debate of the session.

Amendments to the bonus act making it more liberal in its provisions are being prepared by a subcommittee of the committee on soldier's bonus, the house was informed by Chairman J. B. Hompe and Sherman W. Child of the committee. Mr. Child said that the amendments probably will make all men who enlisted eligible to the bonus, taking care of socalled "alien objectors" who showed their willingness to serve by enlisting. The conscientious objector, however, will not be recognized by the committee. He pointed out in the debate that men who served time in Leavenworth prison for military offenses would get the bonus if the Nellermoe bill passed.

Gladiatorial combats between man and beast would be an offense against the law under a bill backed by the Minnesota Humane society, which is to be introduced this week in the legislature. The bill is prompted by the wild west show at the State Fair last fall, which aroused considerable adverse comment because of the rough handling of steers by the cowboys.

Prairie chicken hunters may have their inning this fall. The senate in committee of the whole recommended a bill opening the season for 1921. Fishing season would open May 15 instead of May 1, under another bill given favorable consideration. The object being to protect fish in spawning season.

Town road overseers, except in Hennepin, Ramsey and St. Louis counties, will receive $4 a day instead of $3, under a bill passed by the house, 104 to 0.

Even though the house defeated a bill changing the weight of corn on the ear from 70 pounds to 80 pounds in October and November and 75 pounds in December and January, the senate unanimously passed the measure, after an amendment providing that buyers "may" take these weights. This means the bill will come up again in the house, and with the compulsory provision striken out, probably it will pass.

JURY SERVICE FOR WOMEN

Women's organizations are backing the bill by Representative C. E. Hulbert of Eden Prairie, making women liable for jury duty on the same basis as men. Having full citizenship in other respects, leading women think their sex should assume the duty of sitting in judgment on their peers.

Many supposed that jury duty went hand in hand with the ballot, but that is not the case. In several suffrage states women are not accepted as jurors. The Minnesota law says that "a petit jury is a body of 12 men," and a grand jury also is defined as a body of "men." While sometimes the term "men" is held to embrace both sexes, legal opinion is against that construction in the case of jury service.

The Hulbert bill is to be taken up at a public hearing before the house judiciary committee soon. There is a wide difference of opinion, and predictions are made that the bill is not to have easy sledding.

TAIL LIGHT BILL POSTPONED

Country people are not ready to hang tail lights on their wagons to avoid the danger of being run down by the automobiles of their neighbors and city friends, members of the House of Representatives were convinced, so the bill to require such tail lights was indefinitely postponed in committee of the whole.

A bill to establish a single standard of morality was one of 11 measures recommended to pass by the committee, while 10 others were progressed.

Giving to the Railroad and Warehouse commission the power to regulate rates and charges of electric light and power companies in Minnesota is the object of a bill introduced in the state Senate by Senator W. A. Nolan of Grand Meadow.

Bi-Monthly Pay Asked.

State employees, now paid once a month, would receive their pay twice each month, under a bill sponsored by Senator Mike Boylan of Virginia. Elective officers and heads of departments are excepted.

Coroner's and Juror's Pay Raised.

Coroners and justice court jurors are raised to $2 a day for services in H. F. 327. Heretofore they have $1 per day and it has been difficult to secure men to serve without compelling them to appear.

URGES STATE ACTION

Leasing of Ore and Peat Lands Owned by State Urged by Senate Committee After Two Years' Study.

St. Paul—State owned lands which contain rich deposits of iron ore and peat should be leased at once, according to the special interim committee of the state Senate appointed two years ago, after a thorough investigation covering two years.

The report of the committee was presented to the state Senate recently. It was signed by Senators F. E. Putnam, J. D. Sullivan, George H. Sullivan, Ole Sageng and A. J. Rockne.

There is every reason to believe that the state owns untold millions of dollars worth of iron ore, the commission believes. For some years there has been no development along this line, so far as state lands are concerned. Proper development can only come through a favorable leasing policy, the report says. A geological and soil survey is recommended. A complete mineral leasing bill is proposed in the report.

On the subject of peat, lands, the committee found that the supply of peat in Minnesota is almost inexhaustible. It recommends an appropriation of $25,000 for the investigation of plants and processes for the utilization of peat.

The principal recommendations and conclusions of the interim committee so far as the iron ore lands owned by the state is concerned follow:

That the time is ripe for placing the state mineral lands on the market for leasing.

That a soil and geological survey should be made, at least of the state lands, at an early date.

That state lands should be classified according to the several kinds of ore bearing material likely to be found thereon, and the methods of benefication likely to be needed.

That all permits for mining of iron ore be sold at public sale by the state auditor.

That a sliding scale of royalty based upon the iron ore content of the ore in its crude state when dried at 212 degrees Fahrenheit be adopted.

That a lease law be enacted.

A form of a mineral lease law accompanies the report and the committee recommends that a law substantially the same as the one suggested be enacted.

NEW AUTO LICENSE FEES

On the basis of 300,000 cars to be licensed in the state under the Good Roads Amendment No. 1 plan, the new tentative proposal will yield $5,732,277, it is estimated, or an average slightly more than $18 a car. The schedule is based wholly on valuation, starting with minimums of $10 on passenger cars and $15 on trucks and adding 1.5 per cent of the value of passenger and 2 per cent of that of commercial cars.

The new proposal is applied to common makes of cars as follows:

Make—	Pass.	Com.
Ford	$10	$15
Dodge	24	21
Buick	45	24
Studebaker	40	28
Franklin	57	30
Cadillac	84	52
Packard	130	72

LEGISLATIVE SIDE LIGHTS

By a vote of 100 to 1 the house approved a bill to require dealers and "scalpers" of livestock to be licensed by the railroad and warehouse commission and to be bonded for $1,000.

Change of the open season for fishing from May 1 to May 15 is provided in S. F. 117, by Senator G. A. Turnham of Long Lake, and was unanimously recommended for passage by the Senate.

Election judges and clerks in cities, operating under home rule charters, will receive 65 cents an hour, instead of the present rate of 50 cents, under provisions of S. F. 75, unanimously passed by the senate.

House file 260, backed by the committee on agriculture and horticulture, provided that county boards "shall" appropriate $1,000 for the farm bureau, if an organization of 200 members was formed and $1,000 raised locally, was recommended for passage Wednesday.

Wearing an American Legion or other war veterans organization button, when not entitled to or using the name of the veterans' associations for gain, is made a misdemeanor, punishable by a 60 day sentence or $50 fine, or both, under H. F. 369, fathered by Representative A. E. Nollet and J. R. Sweitzer

Whether Minnesota counties, which expended approximately $19,000,000 on highways since Feb. 1, 1919, will be reimbursed promptly is a question for members of the house highway committee are divided, some of them holding that the state trunk highway funds should not be disturbed too fast.

Changes in the bonus law are being drafted by a subcommittee of the house bonus committee of which Sherman W. Child is chairman. It may be recommended that the law be made more lenient toward illiterate aliens who may have been wrongly classed as conscientious objectors, and civilian employees probably are to be given recognition. Time for filing applications will be determined. Because there are about 125 officers and 2,000 Minnesota men still in the service, it is likely an officers' certificate as well as an honorable discharge may be accepted as proof of claims.

HOW WOMEN AVOID SURGICAL OPERATIONS

Some Are Extremely Necessary, Others May Not Be

Every Woman Should Give Lydia E. Pinkham's Vegetable Compound a Trial First

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. Haydock, 6824 St. Lawrence Ave., Chicago, Ill.

A Vermont woman adds her testimony to the long line of those fortunate women who have been restored to health by Lydia E. Pinkham's Vegetable Compound, after it had been decided an operation was necessary:

Burlington, Vt.—"I suffered with female trouble, and had a number of doctors who said that I would never be any better until I had an operation. I was so bad I could hardly walk across the floor and could not do a thing. My sister-in-law induced me to try Lydia E. Pinkham's Vegetable Compound and it certainly has helped me wonderfully. I keep house and do my work and have a small child. I have recommended Vegetable Compound to a number of my friends and you may publish my testimonial."—Mrs. H. R. Sharon, Apple Tree Point Farm, Burlington, Vt.

In hospitals are many women who are there for surgical operations, and there is nothing a woman dreads more than the thought of an operation, and the long weary months of recovery and restoration to strength if it is successful.

It is very true that female troubles may through neglect reach a stage where an operation is the only resource, but most of the commoner ailments of women are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing ailments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

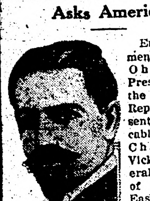
Armenian President Asks American Aid



Dr. H. Ohandjanian
Armenian President

Erivan, Armenia: Dr. H. Ohandjanian, President of the Armenian Republic, has sent an urgent cablegram to Charles V. Vickrey, General Secretary of the Near East Relief, 1 Madison Ave., New York City, requesting immediate assistance to prevent the starvation of the Armenian people before the next harvest can be gathered. President Ohandjanian's message reads:

"Owing to hail, rain and field mice, the harvest in Armenia fell below expectations. Standing crops appeared well, but owing to poor seed, returns were not as good as was expected. Maximum returns 140,000 tons, only sufficient for eight months for one and a half million people. Food crisis critical and intensified by new Turkish invasion of Armenia. It is estimated that 100,000 peaceful inhabitants of Sarikamish and Kars region have been forced to renew the life of refugees and flee towards the interior of Armenia. There are also large numbers fleeing from Bolsheviks in Azerbaijan and Southern Russia, and coming to Armenia. Farmers, fearing famine, are unwilling to sell crops, thus leaving the cities foodless. In addition to the Armenian crops, ten thousand tons have been purchased from neighboring countries.

"In order to save Armenia it is necessary to secure flour from America, 50,000 tons, maximum requirement. In the name of the Armenian Government and the Armenian People, I beg that you use your wide influence in order that the Near East Relief may secure and ship the flour needed. I am sure that in this serious crisis the Near East Relief will not fail to continue its aid to Armenia in her struggle for existence.

"H. OHANDJANIAN,
"President of Armenia."

GOB DESCRIBES ARMENIAN HORRORS

"You can't realize what a sight it is to see the refugee camp at Batum," Petty Officer George Porter, of Racine, Wis., writes his family, telling of the work of the Near East Relief in the ports along the Black Sea.

"The people are dying off little by little. There are workers of the relief organization here, but they don't seem to be able to take care of them all. They were the ones that made the camp. The families all live in grass huts, just high enough to sit up in, and they are covered with blankets. There is disease everywhere and the smell is terrible. I'm glad we didn't stay long, as I couldn't stand it, and you know when I can't stand anything there are few that can. I am sorry for these refugees, but we can't help any. They don't want money though they would sell their lives for some clothes and food. They don't stop praising the Americans.

GEORGE PORTER.

"Trebizonde was another Armenian town, but it was completely wiped out by the Turks, who are now in control of it. The Turks massacred all the Armenians over fifteen years of age and kept all under that age to bring them up as Turks. The city looked as if it was shot to pieces. Samsoun is the same as Trebizonde, so you can see what kind of country we are travelling through. I am sure glad that we are leaving Russia and Armenia because I am sick of what I have seen. I think that these tourists who are trying to see ravished Armenia will be sorry they ever came over. These relief workers are nearly dead from work. They are the people who can tell the U. S. something about this country."

The Near East Relief, 1 Madison Ave., New York, is now appealing for funds to continue the work so graphically described by the young American sailor.

MORTGAGE FORECLOSURE SALE

Default having been made in the payment of the sum of Two dollars and fifty cents ($2.50) which became due on the 1st day of July, 1918, and in the payment of other amounts since falling due upon a certain mortgage executed and delivered by Christian O. Nygaard and Karen Nygaard, his wife, mortgagors, to Merchants State Bank of Red Lake Falls, mortgagee, bearing date the 22nd day of July, 1915, and duly filed for record in the office of the Register of Deeds of Marshall County, Minnesota, on the 13th day of August, 1915, at 8:00 o'clock A. M., in Book 73 of Mortgages, on Page 149 thereof; and whereas pursuant to the terms and conditions of said mortgage by reason of said default the whole principal sum of said mortgage remaining unpaid, to-wit: Seven dollars and fifty cents ($7.50) became at once due and payable and was so declared by the mortgagee, and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of Nine dollars thirty-three cents ($9.33), and the further sum of Seventy dollars ($70.00) with interest thereon at 7 per cent per annum since July 1st, 1918 and the further sum of Seventy dollars ($70.00) with interest thereon at 7 per cent per annum since July 1st, 1919, and the further sum of Seventy dollars with interest thereon at 7 per cent per annum since July 1st, 1920, the three latter amounts being for interest paid by the mortgagee under the terms of said mortgage upon a prior mortgage of One thousand dollars ($1,000.00) on said land, default having been made in the payment of same by said mortgagors, the total amount so claimed to be due and payable at the date of this notice being Two hundred and forty dollars and sixty cents ($240.60) and said mortgage containing a power of sale and no action or proceedings having been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof;

Now Therefore, Notice Is Hereby Given that by virtue of said power of sale and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Southwest quarter of the Southwest quarter (SW 1-4 of SW 1-4) of Section Four (4), the South half of the Southeast quarter (S 1-2 of SE 1-4) of Section Five (5), and the Northeast quarter of the Northeast quarter (NE 1-4 of NE 1-4) of Section Eight (8) in Township One hundred fifty-six (156) North of Range thirty-nine (39) West, in Marshall County, State of Minnesota, which sale will be made by the sheriff of said Marshall County at the front door of the Courthouse in the City of Warren in said County and State, on the 21st day of February 1921, at 10:00 o'clock in the forenoon at public vendue, to the highest bidder for cash to pay said debt of Two hundred forty dollars and sixty cents ($240.60) and interest from date of this notice and taxes if any, and an attorney's fee of Twenty-five dollars ($25.00) as stipulated in said mortgage and the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Every school in the Northwest has been asked to help in the spring wheat campaign by testing seed wheat in blotting papers for each farmer in each school district. Good seed wheat should germinate ninety-five per cent. If it tests weak fan it again and again.

If wheat has become heated or moldy in storage or from any other reasons, it may not grow at all or else have only a low percentage of germination. It is advisable therefore to make a few germination tests from different parts of your seed wheat. This may be done by taking an ordinary blotting paper, folded like a book. Wet it, open flat, count 100 kernels just as they come, place them on one-half of the blotting paper so that they do not touch; tear a strip of cloth about two inches wide and ten inches long, put it in the fold of the blotter, fold as before. Pile up your tests, wrap a cloth or piece of waxed paper around the tests, leaving the ends open, letting the cloth strip hang down like the wick in a lamp, in a glass of water. This will keep the blotting paper always wet. Don't let the test freeze or dry out. Always keep water in the glass. Read the test after seven days, separate into three lots: Strong, those growing an inch or more; weak, those just starting with short stems; dead, those which have not germinated at all.

This test can also be made in a wet cloth or blotting paper in a plate. The tumbler method is better because there is no danger of it drying out.

Catarrhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.
We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars [illegible]

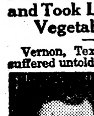
DRESSMAKER MADE WELL

Followed a Neighbor's Advice and Took Lydia E. Pinkham's Vegetable Compound



Vernon, Tex.—"For three years I suffered untold agony each month with pains in my sides. I found only temporary relief in doctor's medicine or anything else I took until my husband saw an advertisement of Lydia E. Pinkham's Vegetable Compound. I mentioned it to a neighbor and she told me she had taken it with good results and advised me to try it. I was then in bed part of the time and my doctor said I would have to be operated on, but we decided to try the Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am a dressmaker and am now able to go about my work and do my housework besides. You are welcome to use this letter as a testimonial as I am always glad to speak a word for your medicine."—Mrs. W. M. Stephens, 1103 N. Commerce St., Vernon, Texas.

Dressmakers when overworked are prone to such ailments and should profit by Mrs. Stephen's experience.

Write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., about your health. Your letter will be opened, read and answered by a woman and held in strict confidence.

DEMOCRATS SEEK TO OUST WHITE

Champ Clark Takes Up Cudgel for Chairman of National Committee in Wrangle.

COMMITTEE MAY MEET

Presidential Candidates Could Well Bring Themselves to Wait, Says Clark, in Interest of Selves and Country.

Washington.—Democrats who "for purposes of boosting some particular presidential candidate," are trying to force the resignation of Chairman George White of the Democratic national committee, should be "squelched," Champ Clark, Democratic leader in the house of representatives, said in a formal statement. He was replying to the statement issued on behalf of 49 members of the national committee asking for a meeting of the full committee at St. Louis March 1 to organize "the forces of progress." He said Mr. White made an "uphill fight last year and did it well" and that he should be allowed to fill out his term of four years.

Aspirants Should Learn to Wait.

Mr. Clark said that the sooner "presidential candidates and their enthusiastic proponents" could bring themselves to wait, the better it will be for the party and the country.

Representative Flood, chairman of the Democratic congressional committee, also issued a statement opposing an early meeting of the committee. He said the issues of the 1922 campaign would be made by the Democrats in the senate and house, and that while Mr. White might desire to resign, he could render service to the entire Democratic party by remaining as chairman.

"If the Republicans propose legislation in the interests of the country," Mr. Flood said, "we will support it earnestly. Only when such proposed legislation is not in the interest of the country will we oppose it, and the difference between the two parties will constitute the issues in 1922 and 1924."

Majority Want Meeting.

Six more members of the national committee wish their names added to the request for a meeting of the full committee, according to a telegram made public here tonight by Thomas B. Love, national committeeman for Texas. They are: Mary C. B. Munford, Virginia; James H. Moyle, Utah; H. H. Perry, North Dakota; Mrs. George H. Dern, Utah; Mrs. Charles F. Donohue, California, and M. A. Ottero, Canal Zone.

COUNTRY ON SOUND BASIS

Period of Readjustment Nearly Past, Finds Commodities Normal.

Washington.—The country is now in many respects on a sounder basis economically than it has been for years, Comptroller of the Currency John Skelton Williams informed congress in what he described as his "seventh and last annual report."

Deflation, obviously inevitable a year ago, has come, he said, and prices of many basic commodities and raw materials have returned to prewar levels or below. "It now remains for the middleman," he declared, "to adjust his profits to the new prices before the ultimate consumer will receive the benefit of the reduced cost of living."

Labor, he said, must soon determine whether a shutdown and idleness is preferred to a lower wage scale which takes into consideration the lower living charges. Mills and factories cannot afford to operate unless they can turn out commodities at prices the public can afford to pay, he asserted, and it is better for the manufacturers to operate and produce goods at cost on a very narrow margin of profit than to close down entirely. Participation by labor with capital in the profits, he suggested, as the only principle to restore business.

Swiss Halt League Army.

Berne.—The Swiss federal council refused permission to cross Switzerland to the armed force being sent by the league of nations to Vilna to maintain order during the plebiscite to determine the regions sovereignty.

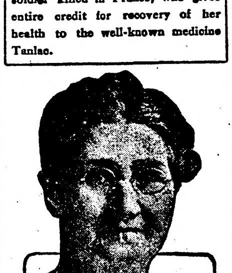
The council said there was no need for the international force to cross Switzerland, there being other ways. In addition, it maintained, the Polish-Lithuanian situation is such that armed conflicts may yet occur and the transit of the league of nations troops might involve Swiss neutrality. It was added, however, that the government's refusal would not be prejudicial to future cases.

Fleet of Speedsters Planned.

Washington.—First steps looking toward the construction of a fleet of modern high speed airplane carriers for the United States navy have been taken in congress.

Senator Gerry, Democrat of Rhode Island, introduced an amendment to the naval appropriations bill providing for the construction of four such vessels to cost not more than $24,600,000 each. Two others announced that they would present bills each providing for two airplane carriers.

MRS. ALICE GRESHAM DODD, mother of the first American soldier killed in France, who gives entire credit for recovery of her health to the well-known medicine Tanlac.



The following remarkable endorsement of Tanlac was given recently by Mrs. Alice Gresham Dodd, at the Gresham Memorial Home, Gavin Park, Evansville, Ind., which home was presented to her by the patriotic people of Indiana, as evidence of their appreciation of the services rendered to his country by her son, Corporal James B. Gresham, the first American soldier killed in France. Expressions of sympathy were received by Mrs. Dodd from all parts of the United States, and the newspapers of the country carried the story of the first "war mother."

The shock of her son's death resulted in the serious breakdown of Mrs. Dodd's health, but everyone will learn with interest and pleasure that she is now in splendid health again. When seen at her home recently she made the following statement, giving the entire credit for her recovery to the well-known medicine, Tanlac.

"After my dear boy's death I had a general breakdown in health," said Mrs. Dodd. "At first it was just indigestion. My food used to upset me and I had to diet myself very carefully, which wasn't much hardship, as I lost all desire to eat. Then I had an attack of rheumatism, with severe pains in my shoulders, back and arms. Sometimes I used to suffer a great deal, and my joints would get all swollen up and stiff. I was able to do very little about the house, and at times couldn't even cook a meal. I got very nervous and restless, and at night would lay awake for hours, and lost many a night's sleep as a consequence.

"A friend of mine had received a great deal of help from Tanlac, and it was she who advised me to try it. I am so glad I did for it proved the best medicine I have ever taken. It soon gave me a good appetite and seemed to settle my stomach so that I was no longer troubled with indigestion. I don't know what it is to have rheumatic pains now, the swelling and stiffness has all gone out of my joints and I am able to do the work of the house with the greatest ease. My nerves are now steady and strong. I sleep fine at night, and I feel better in health than ever before in my life. I shall always be grateful for what Tanlac has done for me, and shall recommend it every chance I get."

Judge Couldn't Be Spoiling the Water When He Didn't Use Any Soap in the Bath.

A serious inconvenience is caused in Australia by the lack of spring water. The trouble is partly overcome by the use of huge tin tanks in which the rain is caught.

Naturally, toward the breaking up of the dry season, water becomes very precious.

A judge, on circuit, arriving at a bush shanty, asked for a bath. Such a luxury was naturally refused, as there was only a little water left at the bottom of the tank reserved for drinking purposes, says the author of "Quaint Acquaintances."

When dinner was ready, as the judge could not be found, the landlord went to call him; whereupon a muffled voice issued from the tank, where the judge was bathing!

The landlord, justly furious, roundly abused his guest.

"Do not excite yourself," the latter observed, casually. "I am not spoiling the water, for I am not using any soap!"

The noblest question in the world is: What good may I do in it?—Ben Franklin.

MONEY IN BREEDING MUSSELS

United States Fisheries Bureau Reports That a Profit May Confidently Be Looked For.

The business of breeding pearly mussels artificially has been carried so far by the United States fisheries bureaus that a money profit is confidently promised.

To produce in this way 1,000 baby mussels costs about 20 cents. When they are full grown 13,000 of them will weigh a ton. Thus the cost of producing a ton of pearly mussels of market size (if all survived) would be, as exactly reckoned, $2.68. Assuming a loss of 50 per cent, the cost would be $5.36.

Pearly mussels occasionally yield valuable pearls, but commercially it is the shells, utilizable for mother-of-pearl, that are importantly to be considered.

The fisheries bureau has devoted its attention wholly to the propagation of superior varieties of mussels, the shells of which have at present time a market value of $35 a ton.

SEES HIMSELF IN SPOTLIGHT

Bachelor Is Naturally Wondering If That Is How the Ladies Really Regard Him.

A Terre Haute bachelor stopped at a friend's house the other night to get him to accompany him to a community meeting. The friend was a "much married" man and his spouse did not wish him to go to the lecture. So she told her husband so.

They were in the next room and her husband was afraid the bachelor might hear her and he did not desire for the other man to think that he was so henpecked. So he raised a warning hand at his wife. But she continued in a voice louder than ever. "I don't care if he does hear. If there's anything that makes me tired it is some old bachelor going around cluttering up the earth."

The bachelor was startled. What he wants to know now is whether or not all women regard him in the same light.—Indianapolis News.

FURTHER USE FOR RADIUM

Its Employment in Pottery Is Said to Be Productive of Results of Great Benefit.

Water containing radioactive compounds is used as a curative agent for certain illnesses. Mere contact with such compounds for a sufficient length of time will make water slightly radioactive.

Pottery is now manufactured which has in it a small percentage of radioactive material. This is mixed with the clay and baked in the kiln. Water left in pottery of this nature for a short time will become radioactive by "induction," and a health-giving drink is made.

Such water may also be employed in the watering of plants with good results, since the presence of a radioactive compound near the roots of a plant is very helpful to its growth.—Popular Science Monthly.

GOVERNOR MAY REMOVE

Under New Highway Bill Introduced Governor Is Empowered to Remove Highway Commissioner.

St. Paul—The state commissioner of highways will be appointed for a six year term, but will be removable "at the pleasure" of the governor, under the highway administration bill introduced by the house committee on public highways.

This provision puts the department absolutely under the governor's control, but has been agreed to by Charles M. Babcock, the present and prospective commissioner. The governor does not have to assign any cause for removing the commissioner, and may do it without any notice at all. The bill, however, prohibits a removal for political reasons.

"The office of the commissioner of highways is hereby created," the bill reads. "The term of such office shall be six years, and the governor of the state shall appoint a suitable person thereto. The commissioner of highways may be removed from office by the governor and at his pleasure other than political.

"Until the appointment and qualification of the first commissioner of highways under this act, the commissioner of highways previous to the passage of this act shall act as commissioner of highways hereunder."

Whether the two deputy commissioners shall be appointed directly by the governor or by the commissioner is yet to be settled. The bill as it reads gives the appointment to the commissioner. His salary is made $6,000 and he may pay up to that amount for the deputies, who are to be expert highway engineers.

Oil Inspection Revise.

The oil inspection laws are revised in Senate File 371 introduced by Senator P. A. Gandrud. The measure extends the number of products subject to inspection, and requires high test gasoline to be a superior product. Instead of inspection fees being fixed by law, the measure authorizes the inspector to fix the rates at not to exceed 5 cents a barrel of 50 gallons.

The death penalty for first degree murder must be carried out by the penintiary warden or a deputy within 90 days after sentence is passed, and the mode of inflicting the penalty must be the electric chair, under a bill introduced by Senator J. H. Hall. The bill provides that newspapers shall print no stories about the executions, except statements issued by the warden.

FARMERS BEHIND MEASURES

St. Paul—On part reports of the first primary referendum conducted in the state, the Minnesota Farm Bureau federation announced its support of three measures involving marketing methods pending in the legislature.

As a result of the referendum, representatives of the state federation will appear at a joint hearing of the house and senate committee. They will urge passage of the public market bill compelling boards of trade or chambers of commerce to admit farmer selling agencies to membership as co-operative associations, and the future dealings bill, which defines gambling contracts in the sale of wheat and other farm products, declares them illegal and provides for the enforcement of the act by fines or jail sentences. The state federation also announced its support of the resolution requiring the board of grain appeal to restore Minnesota grain grade instead of the present federal grade.

Returns from the counties that have reported to the federation calling for a referendum were unanimous in their support of the grain gambling and board of trade bill. Only one county farm bureau voted in opposition to the establishment of Minnesota grain grade.

LEGISLATORS SEEK RAISE

By a unanimous vote the house committee on general legislation recommended for passage the Nimocks' bill, raising the salaries of house and senate members from $1,000 to $1,500 a checked roll call to prove that he had eighty-six members to vote in favor of the bill.

The bill, which was referred to the committee on general legislation, also increases the salary from $2,000 to $3,000 for the senatorial term, which is four years, while that of the representatives, for whom the bill would provide a salary of $1,500 is two years.

Bill Signed By Governor.

The soldier bonus bill, passed by the state legislature became a law Friday when Governor J. A. O. Preus attached his signature to the act. The bill provides for the immediate disposal of the remaining $4,538,000 bond issue, which means that the soldiers who have not yet received their bonus will be paid as the money is received from the sale of the bonds. The action of the legislature also makes it possible for the state bonus board to act upon the bids of the Minneapolis banks.

TO REFUND COUNTIES

Belief Prevails That Sums Spent on Highways by Counties Since 1919 Will be Refunded.

St. Paul—A prediction that all counties which have spent money on roads in the Babcock trunk highway system since 1919, will receive a refund from the state within the next ten years, was made by Senator L. H. Nord. He is chairman of a subcommittee which is working on the question of refunds, and which has sent a questionnaire to every county auditor in the state, seeking exact information as to the refund claims of each county.

"I am getting many inquiries," Senator Nord said, "asking whether I think there is 'any show' for this county or that to get back the money it spent in 1919 and 1920 on the Babcock roads.

"Not only is there a 'show,' but I can say that there is no serious difference of opinion in the legilature on the main question. It is the sense of the members that the counties will get refunds. The general opinion is that there should be no refunds in the next two years, while construction work on the system is being started. But after two years, I think, refund payments will start and inside of 10 years the counties will get back not only the principal expended, but the interest."

There is some difference of opinion on this. Some members are favoring repayment only of the principal, letting the counties defray interest charges on the money they have spent on roads.

Foreign Language Fought.

Minnesota schools are prohibited from requiring a foreign language on the curriculum in a bill introduced by Senator Arch Coleman of Minnesota. Another bill sponsored by Senator Sam Rask, makes it a gross misdemeanor to hire as a teacher any one convicted of violating the federal espionage act. Both these bills are backed by the American Legion.

Senator James Dwyer introduced a constitutional amendment exempting co-operative associations or persons farming and gardening, from taxation and marketing establishments.

The commissioner of highways shall assemble all Minnesota county commissioners each year in St. Paul to discuss highway propositions under Senate File 368, thrown into the hopper by Senators J. G. Callahan and G. A. Turnham.

Discrimination Bill Attacked.

Objections to Senator Magnus Johnson's unfair discrimination bill, voiced by members of the Northwestern Lumbermen's association at a meeting of the senate committee on commerce and corporation resulted in postponement of further consideration of the bill, pending an effort on the part of the author, together with supporters and opponents of the measure, to agree upon certain suggested changes.

J. B. Free of Melrose told the committee that "if co-operative lumber concerns do not get legislative assistance they will be stamped out in two years."

Chairman George Wicker of the house committee on taxes appointed the other four members of the subcommittee which will consult the attorney general as to the validity of the tonnage tax bills. The members are J. O. Haugland, C. M. Bendixen, A. C. Welch and C. H. Warner.

Gladiatorial combats between man and beast would be an offense against the law under a bill backed by the Minnesota Humane society, which is to be introduced this week in the legislature. The bill is prompted by the wild west show at the State Fair last fall, which aroused considerable adverse comment because of the rough handling of steers by the cowboys.

LEGISLATIVE SIDE LIGHTS

A bill to abolish the soldiers' bonus board and transfer its authority to the state auditor was introduced in the senate by Senator Sam A. Rask.

Evidence at hearings conducted by the railroad and warehouse commission may be taken by one commissioner, or, if it does not involve a raise in rates, by an employee, under H. F. 275, passed by a unanimous vote of the house.

Dealers in coal protested to the house committee on commerce, manufacturing and retail trade, against House File 99 introduced by Representative Guy Dilley of St. Paul, requiring dealers to remove slate and foreign substances from coal.

A bill for complete recodification of state road laws, changed only where necessary to carry out the so-called Babcock plan, was presented by a subcommittee and unanimously adopted by the public highways committee of the House of Representatives.

Five hundred farmers attending the meetings of stockholders in the Farmers' Terminal Packing plant, Newport, marched into the state capitol and presented to Speaker W. I. Nolan of the House of Representatives resolutions to be read before the chamber favoring the farm legislation program.

Senate bills already pased, increasing the license fee for a nonresident fisherman from $1 to $2, making the resident license for big game $2 instead of $1 and advancing the time for opening fishing season from May 1 to May 15 were favorably reported by the house fish and game committee.

Railroad attorneys arguing before the house committee on railroads against the full crew bill told members it was no time to pass the bill even though it were a meritorious measure. One railroad attorney said "a vote for this bill is a vote against reduction of railroad rates."

NATION IN DANGER

Farm Abandonment Has Created Most Serious Situation.

Food Supply Threatened Through the Drift of the Population to the Cities—Now Is Great Opportunity to Take Up Land.

The question, "How is the country to be fed if the population continues to drift to the cities?" is one that should create an agitation that will bring about a reply that will mean a solution. The census, recently completed, reveals a situation truly alarming, one that has never been known in the United States before. The urban population is now greater than that of the rural districts by about 4,000,000. Cities and towns, each with more than 2,500 inhabitants, contain 54,318,032 persons, or 51.4 per cent of the total population, while the farms and smaller towns together claim only 51,399,739 persons, or 48.6 per cent of the total.

As is pointed out by an influential Chicago daily, "the drift to the cities is thus proved and, reduced to figures, showing a top-heavy condition of the industrial life."

Farming is and must remain the basic industry of the world, and certainly should remain the basic industry of a nation with a continental area like ours. It is small profit to gain the markets of the world with manufactured goods if agriculture has decayed so badly as to furnish an uncertain subsistence for our people, and fluctuating crops are reflected in price changes that upset the economic life of the country. Yet we are within measurable distance of that condition, if the present or recent drift toward the cities continues.

Most writers on this topic take it for granted that young folks go from farms to cities merely to make more money. Doubtless that is something of a motive at all times and was a very strong one in the period immediately after the war, when city industries paid wages totally impossible for farmers to rival.

It is hoped that this drifting has reached its apex. Unless it has, and there still remains a possibility of its continuance, the effect cannot be foretold. The great wave of manufactures for war purposes has ceased, and with it the number of those employed in factories is diminishing by thousands daily. It is therefore hoped that there will again be heard the slogan, "Forward to the Land." If prices to which farm land has reached are prices prohibitive to many, the opportunity is still open elsewhere. There are states possessing large areas of good land that may still be had at prices within the reach of many, and it is doubtless true that in self-preservation it will be necessary to bring these lands under cultivation. The prices are not high, considering their value. Then, too, there are the lands of Western Canada, that hold out an inviting prospect. Reports from there show that the prosperity of the farmers there is not mythical. Farming there is conducted on scientific principles, and the climate is such as appeals. The production amply repays all the expenditure that may be made. The social conditions are of a character that make farm life a pleasure, and tends to keep the young man and young woman from pining for urban life with so many drawbacks. If conditions as above mentioned, showing such a large percentage of population in the cities and towns, continues, they will require food. The opportunity to supply it is by the means suggested. Go forward to the farm, become independent, and become a factor in supplying the world's needs in cattle, sheep, grain and such other commodities as the farm will produce and the resident of the city requires.—Advertisement.

Keep Your Blood Pure
Nature Will Do the Rest

Did you know that ninety per cent of all human ailments depend upon the condition of your blood?

Nature gives her warnings in various unmistakable ways, so that when the appetite fails, and you become weak and listless and a general run-down condition seems to take possession of the whole body, it is an unfailing sign that impurities will steadily accumulate until your general health will be seriously affected. You should recognize the importance, therefore, of very promptly cleansing out the system, and keeping the blood supply pure and robust.

Get a bottle of S. S. S. at your drugstore to day, and note how promptly it builds up the appetite and gives new strength and vitality. Write for free literature and medical advice to Chief Medical Adviser, 153 Swift Laboratory, Atlanta, Ga.

Certificate of Incorporation
of
The Huset Company

We, the unersigned, for the purpose of forming a corporation under and pursuant to the provisions of Chapter Fifty-eight (58) of the General Statutes of Minnesota for 1913 and the acts amendatory thereto and supplementory thereto, do hereby associate ourselves as a body corporate, and do hereby adopt the following Certificate of Incorporation.

ARTICLE I.

The name of this corporation shall be "THE HUSET COMPANY." The general nature of the business shall be to engage in and carry on a general wholesale and retail merchandise, implement and real estate business, at the Village of Strandquist, County of Marshall, State of Minnesota, and elsewhere, to buy and sell and otherwise dispose of and deal in all kinds of merchandise, implements, furniture, real estate and personal property, to buy or generate and sell electric current, to buy, sell and discount notes, bills and other evidences of debt, and the performing of all other acts which may be incidental to the proper carrying on and of the said merchandise, implement and real estate business.

ARTICLE II.

The principal place of the transaction of business of the corporation shall be in the Village of Strandquist, County of Marshall, State of Minnesota.

ARTICLE III.

The time for commencement of this corporation shall be February 15, 1921, and the period of its duration shall be thirty years.

ARTICLE IV.

The names and places of the residence of the persons forming this corporation are: Oscar J. Huset of Brainard, Minnesota, William H. BonDurant of Thief River Falls, Minnesota and Elmer O. Huseth of Strandquist, Minnesota.

ARTICLE V

The management of this corporation shall be vested in a Board of Directors, composed of not less than three and not more than five members. The names and addresses of the first Board of Directors are: Oscar J. Huseth, Brainard, Minn., William H. BonDurant, Thief River Falls, Minn., and Elmer O. Huset, Strandquist, Minn. The first officers of this corporation shall be: President, Oscar J. Huset; Vice President, William H. BonDurant; Secretary and Treasurer, Elmer O. Huset. All of the above named officers shall hold their respective officers aforesaid until the next annual meeting of the corporation to be held January 10, 1922, at which time and annually thereafter a Board of Directors shall be elected from and by the stockholders of this corporation. The annual meeting of this corporation shall be held at its principle place of busines on the second Tuesday in January in each year. Immediately after the election of directors, or as soon thereafter as practicable, the directors shall meet and elect from their number a president and vice president, and from their number or from the stockholders a secretary and treasurer. Any office except that of president and vice president may be held by one person. The directors and officers of this corporation shall hold their respective offices until their successors have been duly elected and entered upon the discharge of their duties. The first meeting of the stockholders and of the Board of Directors shall be held at Strandquist, Minnesota on the 15th day of February 1921, at 10 and 11 o'clock A. M., respectively.

ARTICLE VI.

(Continued to next column)

The amount of capital stock of this corporation shall be Fifty Thousand Dollars ($50,000.00), which shall be paid in, in money or property, or both, in such manner, at such times, and in such amounts as the Board of Directors shall order. The capital stock shall be divided into One Thousand shares of the par value of ($50.00) each.

ARTICFE VII.

The highest amount of indebtedness or liability to which this corporation shall at any time be subject shall be the sum of Fifty Thousand Dollars ($50,000,00).

IN TESTIMONY WHEREOF, We have hereunto set our hands and seals this 24th day of January 1921.

MORTGAGE FORECLOSURE SALE

Default having been made in the payment of the sum of Two dollars and fifty cents ($2.50) which became due on the 1st day of July, 1918, and in the payment of other amounts since falling due upon a certain mortgage executed and delivered by Christian O. Nygaard and Karen Nygaard, his wife, mortgagors, to Merchants State Bank of Red Lake Falls, mortgagee, bearing date the 22nd day of July, 1915, and duly filed for record in the office of the Register of Deeds of Marshall County, Minnesota, on the 13th day of August, 1915, at 8:00 o'clock A. M., in Book 73 of Mortgages, on Page 149 thereof; and whereas pursuant to the terms and conditions of said mortgage by reason of said default the whole principal sum of said mortgage remaining unpaid, to-wit: Seven dollars and fifty cents ($7.50) became at once due and payable and was so declared by the mortgagee, and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of Nine dollars thirty-three cents ($9.33), and the further sum of Seventy dollars ($70.00) with interest thereon at 7 per cent per annum since July 1st, 1918 and the further sum of Seventy dollars ($70.00) with interest thereon at 7 per cent per annum since July 1st, 1919, and the further sum of Seventy dollars with interest thereon at 7 per cent per annum since July 1st, 1920, the three latter amounts being for interest paid by the mortgagee under the terms of said mortgage upon a prior mortgage of One thousand dollars ($1,000.00) on said land, default having been made in the payment of same by said mortgagors, the total amount so claimed to be due and payable at the date of this notice being Two hundred and forty dollars and sixty cents ($240.60) and said mortgage containing a power of sale and no action or proceedings having been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof;

Now Therefore, Notice Is Hereby Given that by virtue of said power of sale and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

The Southwest quarter of the Southwest quarter (SW 1-4 of SW 1-4) of Section Four (4), the South half of the Southeast quarter (S 1-2 of SE 1-4) of Section Five (5), and the Northeast quarter of the Northeast quarter (NE 1-4 of NE 1-4) of Section Eight (8) in Township One hundred fifty-six (156) North of Range thirty-nine (39) West, in Marshall County, State of Minnesota, which sale will be made by the sheriff of said Marshall County at the front door of the Courthouse in the City of Warren in said County and State, on the 21st day of February 1921, at 10:00 o'clock in the forenoon at public vendue, to the highest bidder for cash to pay said debt of Two hundred forty dollars and sixty cents ($240.60) and interest from date of this notice and taxes if any, and an attorney's fee of Twenty-five dollars ($25.00) as stipulated in said mortgage and the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Entered as second-class matter Sept. 22, 1911, at the post office at Holt, Minnesota, under the act of March 3, 1879.

Tax payers meeting to-night.

Knute Brown went to Bemidji Tuesday on business.

A baby boy was born to Mr. and Mrs. Alfred Gryttdel Sunday.

Dr. Turley will be in Holt Monday Feb. 21st, to do dental work.

Misses Mary Short and Lillian Brown went to Bemidji last Friday.

A baby boy was born to Mr. and Mrs. Peter Hanson early Monday morning.

Mrs. Carl Engebretsen and children of Thief River Falls visited in Holt last Thursday.

More street lights have been put up the past week and the town is now pretty well lighted.

Mr. and Mrs. Docken returned home from their visit at Hillsboro and Grand Forks Monday.

Chas. Holgren of Minneapolis came Wednesday to look after business for a couple of days.

Rev. M. Strom was called home from Strathcona last week Thursday by the sickness of Mrs. Strom.

Our Southeast of Holt items, the obituary of Mrs. Knute Olson and creameay report are crowded out this week.

Mrs. Quam of Portland, N. D. came Saturday to visit at the homes of her sons, A. C. and J. M. Jahr and families.

Mr. and Mrs. Emil Johnson of Alvarado visited over Sunday at the home of his parents, Mr. and Mrs. Erik Johnson.

Mrs. Carl Christoferson who has been spending several weeks here with relatives, returned to her home in Duluth Monday.

Every taxpayer in the village is invited to attend a meeting of vital importance to them at the Woodman hall to-night.

Mrs. Albert Severson and Robert Steinhauer came from St. Hilaire Friday to visit a couple of days at the Fred Steinhauer home.

Mrs. Kautz returned Monday from a three weeks visit with relatives and friends at Crookston and several other points in Minnesota and Dakota.

Miss Amanda Hanson came from Middle River last week to stay for sometime at the home of her brother, Pete Hanson and family.

Miss Gertie Moe, whose home is in Laukin, N. Dak., came Tuesday from Minneapolis where she has been working, to visit at the home of her aunt, Mrs. H. A. Fosholm.

The old board composed of L. Wegge, J. Engstrom. T. B. Folden and J. A. Sorum Secy,—Treas, were all re-elected by acclamation, at the annual creamery meeting Monday.

They also voted to grade cream and to buy eggs if considered advisable by the board.

R. A. Holmgren returned home Monday from Duluth and resumed work at the depot Tuesday morning. While in Duluth he had his tonsils removed as the physicians found them to be greatly enlarged and stated they were the cause of the rheumatism from which he has been suffering.

Meeting to-night for taxpayers

Notice!

Notice is hereby given that an open meeting of the village council will be held at the Woodman hall at 8 o'clock to-night to consider the making of a contract with a Crookston company for furnishing the village with electric current, for lights, power and heat. Every taxpayer is invited and should be out promptly at 8 o'clock.

Y. W. and Y. M. Meeting

The Y will meet again Sunday Feb. 20th. at 8 o'clock sharp. Special music will be rendered and a permanent organization will be made. Every one out to make it a success.

The meeting last Sunday was well attended and much interest and enthusiasm was shown.

See These Games

The Newlolden basket ball team are coming to Holt next Thursday night to play our mens' team. The Newfolden high school boys' team will come at the same time and will play the Holt boys. This gives the people a chance to see two games next Thursday night Feb. 24, for 35 and 15 cents, the regular price for only one game.

The mild winter has been hard on the coal barons.

The ladies gave Mrs. L. Monson a surprise party Friday afternoon.

The seed catalogs have been sent out and this is a pretty good sign of spring.

Mixed farming pays best. Its not safe to put all your eggs into one basket.

The Girl Scouts Carnival

A Hummer

A Whirl of Jollity and Pleasure From Start to Finish

The Girl Scouts' Carnival given at the Holt Public School building under the direction of the school faculty, was one of the most unique and pleasurable entertainment enjoyed by the people of Holt and vicinity. Those, if any, thought it not worth while to attend, missed the time of their life.

As one entered the wide spacious hall, walking beneath a canopy of rainbow colors, the first attraction which met the eye, was the daintily decorated Post Office presided over by one of Holt's fair maids, adorned in red ribbon and hearts. To the left, a gayly trimmed booth with an array of home made candies to satisfy the "sweet tooth" were in evidence. And then the Egyptian mummy, thousands of years old was a rare curiosity which brot to ones mind the Egyptian History of the Dynasty of the Pharaohs. As one ascended to the upper rooms the first thing which caught the eye was "Fortunes Told" and from the stream of applicants entering this secret "Sanctum Sanctorum" was evidence enough that the "Wizard" was doing a land office business.

We visited the fattest and tallest women in the world and the monster with three heads all of which was viewed in silent awe. But this feeling soon vanished after visiting the Minstrel show with their happy songs and the performance of the sweet electric dolls.

The clowns, Romeo and Juliet, afforded more fun than a brass monkey on wheels. There seemed to be an affinity between Juliet and the young men, however the latter extricated themselves from her encircling arms and in time recovered from the shocks. The Juvenile Boxing Match was met with many applause and the Chemical Demonstration by Fridjof Knutson was a great success and did credit to himself and teacher. The program given at the last was varied and each number brot forth applause and appreciation.

The proceeds taken in was something over $30. The crowd in a happy frame of mind dispersed feeling that the evening was one not to be soon forgotten.

To The Public.

The Girl Scouts wish to extend their hearty thanks and appreciation for the loyal support and cooperation which the community has shown in the interest of the Girl Scouts Organization.

The boys will practice basket ball on Mondays and Wednesdays after school.

The Girl Scouts' Carnival was a decided success. The receipts came to $30.70 and the expenses were small. The Scouts wish to thank the community for the splendid co-operation they have shown by supporting every movement of the Scouts.

Miss Elizabeth Hanson, County Nurse, started examining the school children Tuesday afternoon. During the afternoon sixteen children were weighed and measured, and of these six were found to be underweight. Realizing the importance of a normal weight the students are eagerly awaiting their turn that they may learn in which class they belong. The fat ones are fat generally because they eat too much, the normal ones are as a rule in good physical condition and should use every effort to remain so. The underweights are "skinny" most often because they are suffering from defects which retard their physical developement. Therefore these last ones should have their defects corrected in order that they may have an opportunity to attain their normal weight.

The Thief River Falls girls will play their return game here March 4th.

Girls' basket ball Badger vs Holt, at Holt March 11th.

Game at Badger.

We arrived in Badger about 2:30 and were met and welcomed by the girls of the Badger team.

We spent the afternoon visiting the school and a visit to a private museum was of special interest.

We were served a light lunch about 5:30 by the Domestic Science Dept., afterwhich we departed for the hall. We could see immediately that the baskets were much higher than ours, so we spent an hour or more shooting baskets.

At 8:30 the game started with lots of pep and vim. The Badger rooters gave several cheers. At the end of the first quarter the score was 2 to 3 in Holt's favor. The second, was the quarter in which Badger scored the highest.

The score at the end of the first half was 17 to 5 in favor of Badger.

The second half was started out with equal enthusiasm, Badger scoring for the third quarter. The fourth quarter we had Badger held, so that a basket was impossible for them to make. The score when the whistle blew was 25 to 13 in favor of Badger. The game was a clean hard fought one, showing good sportsmanship on both sides. When Badger comes here we hope to give them the same hospitality we received and intend to be the victors on our home floor.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

HOW WOMEN OF MIDDLE AGE

May Escape the Dreaded Sufferings of that Period by Taking Mrs. Block's Advice

Hopkins, Minn.—"During Change of Life I had hot flashes and suffered for two years. I saw Lydia E. Pinkham's Vegetable Compound advertised in the paper and got good results from taking it. I recommend your medicine to my friends and you may publish this fact as a testimonial."—Mrs. ROBERT BLOCK, Box 542, Hopkins, Minn.

It has been said that not one woman in a thousand passes this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms. Those dreadful hot flashes, sinking spells, spots before the eyes, dizzy spells, nervousness, are only a few of the symptoms. Every woman at this age should profit by Mrs. Block's experience and try Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., about your health. Your letter will be opened, read and answered by a woman, and held in strict confidence.

In the Gallery.

The late William Dean Howells, in the days when he was a magazine editor in New York, liked to visit the Bohemian low-priced theaters, and when he went to the opera he always sat in the gallery.

"In the gallery," he said one day, "the people listen to the music intensely. They don't laugh and chatter as they do downstairs. In the gallery, too, they keep their seats till the performance is over. Downstairs they put on their wraps and leave in the midst of the glorious final climax."

Mr. Howells chuckled.

"The theater," he added, "is like the human body. The brains are always at the top."

COMMITTEE BACKS BILL

Grain Marketing Bill Passes House Committee by Vote of 15 to 5 After Bitter Fight.

St. Paul—Passage of the House bill to "open" the Minneapolis Chamber of Commerce, the Duluth Board of Trade and the South St. Paul Livestock exchange and to provide regulation for such, was recommended by a vote of 15 to 5 by the House markets and marketing committee of the Minnesota Legislature.

Debate on the bill in committee was bitter, Representative Asher Howard of Minneapolis vainly attempting to have the measure referred to the house judiciary committee before the vote was taken on recommendation. Mr. Howard was supported in his stand by Representatives Thomas H. Girling and W. I. Norton.

Mr. Girling said the committee was being "carried away on a wave of possible good intentions." R. A. Wilkinson, author of the bill, charged those favoring referment to the judiciary committee with dilatory tactics.

Representative Howard said no bill could be passed which "would deprive men of property which the state has invited them to build up. If this bill is passed we should introduce another one, writing from our statute books the law which invites organizations similar to the Chamber of Commerce to be formed," he said. "Mr. Wilkinson started forming this legislation long before the legislative session began.

Charges Bill Is Being Railroaded.

"If you want to railroad this law through you can do it," he told the committee.

After the committee had recommended the bill for passage, it instructed Chairman Elias Nordgren to refer the bill to the attorney general and the judiciary committee for legal opinions and constitutionality.

By a vote of 40 to 21 the Senate passed the G. H. Sullivan bill giving the Railroad and Warehouse commission certain powers to regulate the routing and service of suburban street car lines. The bill provides that appeals may be taken from decision of local governing bodies to the state commission. The bill contains some of the principles underlying the Brooks-Coleman bill, now pending in the Senate.

Take Up Bill on "Futures."

The committee then took up H. F. No. 23, which defines gambling contracts, and presents dealing in futures in grain.

Representative Howard said this bill was one of the most important ever considered by a Minnesota legislature, and asked that a time be set for extensive consideration. The committee decided to consider this measure.

The railroad committee of the house by a vote of 9 to 4, recommended for pasage the "full crew" bill. This measure requires railroads to provide an additional brakeman for trains of more than 40 cars. The committee also recommended for passage a proposed law requiring railroads to build crossings over tracks, the same width as the road leading to the tracks. This measure will require the railroads, in many cases, to build crossings from 20 to 30 feet in width.

Expect Fight on Fuel Yard Bill.

When a minority and majority report on a bill permitting establishment of municipal fuel yards in all cities and villages of the state was presented to the senate, probabilities of a hot floor fight on the measure developed. The bill was ordered printed, and will take its place on general orders.

The senate unanimously passed a bill legalizing acts of the acting state auditor. The object of this measure was to allow Acting Auditor M. J. Desmond to sit on the state bonus board.

Senators James Dwyer and O. A. Devold of Minneapolis attempted to put the senate on record in favor of government owned coal mines, but were defeated. The committee on labor had reported favorably a resolution indorsing the Calder coal investigation by congress, and Senator Dwyer offered an amendment asking for government ownership. The committee resolution was adopted after defeat of such amendment.

Passage of the bill to tax royalties, paid to owners of iron ore lands, was recommended for passage by the House committee on taxes after a public hearing during which protests were made against such legislation. The main question discussed at the hearing was whether the royalties were incomes or part of the purchase price of ore lands.

Frank Spellman of Duluth made the principal argument against the bill. He contended that the income from royalties in reality amounted to installments on the sale price of the ore, since ever yton of ore removed from the ground constituted a reduction of the principal of the owner, and, that when the ore was all gone there would be no more royalties.

Fred B. Snyder of Minneapolis, president of the University Board of Regents, E. C. Gale, Minneapolis, and others backed up the arguments made by Mr. Spellman.

CREDIT BILL PASSED

Lower House Votes Favorably On Rural Credits Amendment—Other Measures Passed By House.

St. Paul—The rural credits constitutional amendment bill and a bill to restore the Minnesota grain grades were among a dozen passed by the House of Representatives.

The measure governing the licensing of osteopaths was amended to strike out authorization for the practice of major surgery and in other respects and laid over. The measure to amend the law relating to removals by the governor of public officials also was laid over. Reversal of a ruling made the previous day reinstated on general orders the bill to give the railroad and warehouse commission jurisdiction over the rates and service on the St. Paul-Stillwater electric line. A resolution for investigation of available sites near the capitol for a state office building by a committee of five, was referred to the committee on rules.

Introduce Auto Bond Bill.

A $5,000 bond or liability insurance policy to secure personal injury claims would have to be filed with every Minnesota motor vehicle license application under one of fifteen new bills introduced in the House. The measure, by Representative Erling Swenson, Minneapolis, was referred to the committee on public highways.

Similar reference was made of a bill by Representative Elias Nordgren and Thomas Girling for interim investigation of state-owned cement making and rock crushing plants.

PASS CO-OPERATIVE MEASURE

Organization of a national co-operative selling agency to handle perishable farm produce may proceed under the co-operative bill, which became a law with the signature of Governor Preus.

The bill, the first of the present Legislature's co-operative marketing program to be enacted, was passed by both Houses of the Legislature, the Senate acting last week. Copies of the law were sent to local organizations of the farm bureau.

The new law amends the provisions of the co-operative laws passed at the previous legislative session, extending the scope so that local co-operative associations may federate in state or intrastate bodies to sell their products co-operatively.

The Farm Bureau Federation proposes to take advantage of the law at once by organizing a national selling agency to handle perishable farm produce. The agency will be modeled somewhat along the lines made famous by the California Fruit Growers' association.

LEGISLATIVE SIDE LIGHTS

Creation of a state industrial accident compensation board and establishment of an industrial insurance fund is provided in a bill introduced in the Senate by Senators Jackson and Boylan.

Representative J. O. Grove set in a bill requiring telephone companies which operate exchanges to furnish physical connections and service to rural lines.

Senator Fred Bessette put in a bill allowing school boards to lease or build structures to house teachers and another measure permitting school boards to hire attorneys when necessary and pay them by the month or year.

Three departments, hotel inspector, boiler inspector and the minimum wage commission are abolished in a series of bills put into the house hopper. The duties of these departments are transferred to the commissioner of labor.

The owner of property on which a mechanics lien has been filed, may have the lien released by posting sufficient cash in court, and $12 for each $100 in the lien, in a bill recommended for passage by the house judiciary committee.

Representative A. J. Samec, George Nordlin and B. J. Keller have introduce a bill requiring employers to give 24 hours rest each seven days to employees. Exceptions are made in the cases of watchmen, janitors, caretakers of livestock, fire tenders and others.

Counties of less than 100,000 population may appropriate $20,000 or less as a memorial to soldiers and sailors, the memorial to be built in the courthouse square or public park of the county seat, or, if the county seat has no park, at some other location in that town or city. These provisions are specified in a bill now before the senate.

Rent profiteering went one step nearer to destruction when Representative F. E. Nimock's measure making rent profiteering a crime was recommended for passage by the house general legislation committee. Carrying of firearms without a permit from the police chief or sheriff is made a felony in a measure recommended favorably by the same committee.

It will be unlawful after Jan. 1, 1922, to bring any goods into Minnesota for sale without marking thereon the manufacturer's cost, the manufacturer's selling price, the name of the purchaser and the price to be asked at retail, under H. F. 570, sponsored by Representative F. E. Miner and B. J. Keller.

By vote of 72 to 29, the House of Representatives yesterday passed a bill designed to make it possible for William M. Nash, former county attorney of Hennepin county removed by Governor Burnquist, to have his case reopened.

HAD STRANGE NEWS TO TELL

Boy's Information Might Have Been Conveyed in More Intelligent Manner, However.

A boy, apparently very much agitated, rushed into a house and said to the lady:

"I don't want to alarm you, but I've got big news to tell you. The man sent me up from the livery stables to tell you."

"Yes, yes! What is it?"

"Why, you know, your little boy, Aleck, what the man can't keep out of the livery stables round the corner?"

"Yes, yes! Well?"

"I told Aleck just now not to go into the stables among the horses, but he wouldn't mind me."

"Oh, dear! What has happened?"

"He said he wanted to see what a mule would do when you tickled its heels with a straw."

"Oh, dear, dear!" gasped the lady, and clung to the chair for support.

"So Aleck got a straw," continued her informant, "crept up behind the mule, tickled him on the heels, and—"

The woman started for the door.

"And the sleepy old mule never lifted a hoof," called the visitor. "Never as much as switched its tail."—Pittsburgh Chronicle-Telegraph.

ADVERTISING IN OLDEN DAYS

Collection in Pennsylvania Museum Shows It Was a Fine Art a Few Generations Ago.

Advertising was a fine art in Philadelphia when Dock street was a canal. The proof that the merchants and business men of those days were cognizant of the value of printer's ink is a large collection of billheads, cards, newspapers and other advertising media that has just been purchased by the Pennsylvania museum for display in Memorial hall.

In those days every business man of note used the columns of the newspapers. The front pages of the dailies of the time were devoted largely to advertising matter.

Virtually all of the business men also used elaborately decorated billheads, generally copper plate engravings. The custom was copied from England, although the Philadelphia printers often struck an original style.—Philadelphia Public Ledger.

LIQUIDATION N. D. BANK THREATENS

Agreement on Amended Industrial Program Likely to Be Reached Soon.

JOINT MEETING HELD

President Townley of League, North Dakota, and Minnesota Business Men and Officials Map Out Program to Relieve Situation.

Fargo.—Liquidation of the Bank of North Dakota under the direction of a liquidation committee headed by John Steen, state treasurer, and agreement to limit the industrial program to projects already undertaken, coupled with the dissolution of the North Dakota Homebuilders association, are in prospect as a result of a conference held in Minneapolis between representatives of the state administration, bankers of North Dakota, and representatives of one big Minneapolis financial institution present.

Under the terms of the proposed compromise, which would in no manner affect the investigation of state industries being conducted at Bismarck by the house of representatives, the following general policy would be put into effect:

The state administration would—

Enact laws that would permit the liquidation of the Bank of North Dakota down to a farm loan institution only;

Pass laws that would make the sale of state bonds possible;

Bring about legislation safeguarding public moneys on deposit in private banks, and make the state bank ineligible to receive public moneys;

Dissolve the North Dakota Homebuilders association when work started is completed;

Restrict the industrial program to the erection and operation of the flour mill and elevator at Grand Forks.

The bankers would—

Undertake the sale of $2,000,000 bank series bonds with which to capitalize the Bank of North Dakota as a rural credit bank, and to provide a $1,000,000 fund for financing the operation of the state mill and elevator when it is completed.

Seek a market for $2,500,000 mill and elevator bonds with which to complete the construction of the industry, and to repay the $1,000,000 borrowed in Chicago to finance the construction work so far done.

Back the sale of $3,000,000 of farm loan bonds with which to take up farm mortgages placed by the state bank, making that money available for return to the political subdivisions of the state, and to seek a market for such additional bonds as may be necessary to finance future farm loan operations of the state bank.

HARDING'S PLANS PROGRESS

President-Elect Is Closing Pre-Inaugural Conferences With Leaders.

St. Augustine, Fla.—Final problems relating to the personal and initial policies of the coming administration will be reviewed in great detail by President-elect Harding during the next few days in conferences with the two men directly in charge of the political machinery which brought about his election.

Will E. Hays of Indiana, chairman of the Republican national committee and understood to be in line for the postmaster generalship, came to St. Augustine and will remain several days.

Harry M. Daugherty of Ohio, head of the Harding pre-convention campaign and generally regarded as the next attorney-general, is to reach here the middle of the week for a like session of consultation with the president-elect. It is with these two that Mr. Harding talks most in regard to the patronage of his administration and the conversations with them this week are expected to relate to many prospective appointments from the cabinet down. It is also likely that such questions as the inaugural address and plans for the special session of congress will be considered. In describing the purpose of the visit of his two managers, Mr. Harding said he would talk with them about general business for the good of the order."

O'Callaghan Will Not Be Deported

Washington.—No order has been issued for the deportation of Lord Mayor O'Callaghan of Cork, and he will not be deported, Michael F. Doyle, one of his counsel, said after a conference with Secretary of Labor Wilson. For O'Callaghan to go back at this time, he added, would mean giving himself into the hands of his enemies, and his legal status and rights will be defended to the utmost to obtain for him freedom to enter Ireland at his own convenience

The Young Mother

Youth, with its vitality, makes for the young mother's health and happiness. But later, maternal experiences bring a different result. The care of a family, multiplied household duties, and very often the weakness caused by womanly disease, tend to prolong the suffering and to make convalescence a slow and weary process. Many women—perhaps your own neighbors—have had beneficial experience with Dr. Pierce's Favorite Prescription, which prepares the prospective mother. It promotes the appetite, ends nervousness and sleeplessness, and gives a consciousness of buoyant health. It is unexcelled as a strength-giving tonic for mothers during the period of convalescence. This Favorite Prescription was prescribed by Dr. Pierce with great success over 50 years ago. It's still good today. Ask your neighbor!

This notice was posted on the schoolhouse door when the pupils arrived. "This school will be closed today, election day, so that the new citizens will have a chance to vote."

"New citizens?" wondered a sixth grader, "I don't get that."

"Why the women teachers," scornfully explained a girl, standing near, "They get to vote this year."

"Oh," the little fellow stood there a minute and then a triumphant light came into his eyes. "They'll close it every election day," he drawled and then his voice arose to a yell: "Hurrah for woman suffrage! Hurrah! Hurrah!"

Rents for $10,000,000.

Ten million dollars in rent from one building will be received by Capt. John Jacob Astor during the next 20 years, under the terms of a lease signed up last week in New York city. NAVY DUE FOR SLASH JULY 1

House Quietly Votes Enlisted Strength Down to Only 100,000 Men.

MARINES MAY BE CUT

Apparent Indifference Marks Consideration of Armament Questions in House, Though Fireworks Are Expected This Week.

Washington.—The house accepted without comment the provision for reducing the enlisted strength of the navy from 143,000 to 100,000 men after July 1.

During consideration of the naval appropriation bill no objection was raised to the section providing funds sufficient only for a force of 100,000 during the coming fiscal year.

It elicited neither criticism nor friendly comment and remained in the bill intact.

Clauses providing for a reduction of the marine corps personnel from approximately 27,000 to 20,000 men and for an appropriation of $90,000,000 to carry on the 1916 building program of the navy during the next fiscal year, probably will be reached this week.

Chairman Kelley of the subcommittee which drafted the bill said he expected a field day of oratory on disarmament when the construction program section is considered.

The question has been discussed for a brief period. After Representative Green, Republican of Iowa, ranking Republican member on the ways and means committee, had urged reduction of armaments, Representative Garrett, Democrat of Tennessee, for ten minutes took the Republican party to task for "scrapping the only definite disarmament program ever laid before the world—the league of nations."

Representative Britten, Republican of Illinois, wanted to know if the league of nations meant disarmament, why nations already in the league had taken no steps to reduce the strength of their armies and navies.

"Because the United States isn't in the league," shouted Mr. Garrett, "we're trying to build the biggest navy in the world. I don't believe nations in the league can or will agree to armament reduction as long as we continue to strengthen our navy."

HARDING'S PLANS INDEFINITE

President-Elect Says Cabinet and Association of Nations Both Uncertain.

St. Augustine, Fla.—While the cabinet problem is taking on new elements of uncertainty, President-elect Harding let it be known that his plans for international peace and disarmament also are far from definite formulation. Taking note of published reports that a disarmament conference would be called early in the new administration, Mr. Harding said he had made no such plans, although the idea fitted in with his general scheme for an association of nations. It was a feature of the problem, he added, to which he would give no specific attention until he came into the presidency and was formally advised as to the status of diplomatic relations with other powers.

Late cabinet developments concern chiefly Charles G. Dawes and Frank O. Lowden, both of Illinois, and mentioned for the position of secretary of treasury and secretary of navy, respectively.

Mr. Dawes spent more than an hour in consultation with Mr. Harding recently, and afterward refused to answer any questions about cabinet prospects.

To Organize Community Production.

St. Paul.—Promoters of co-operative marketing and the organization of communities on a commodity basis of production is the object of a new department just established by the American Farm Bureau Federation. It is to use every means at its disposal to develop co-operation as the most effective means of obtaining for the farmer beetter and more staple prices and a regulated flow of his crops to market. C. H. Gustafson, chairman of the committee of 17 and a member of the livestock marketing committee of 15, has taken charge of the new department as director.

Milk Cows on Increase.

Grand Forks.—Excepting milk cows, the number of livestock on North Dakota farms shows a decrease on January 1, 1921, as compared with a year before. Despite the plentitude of forage, sales have been heavy and the gross value of stock in the state decreased from $153,063,000 January 1, 1920, to $99,876,000 the first of this year. The decline in price was not sufficient to account for this slump.

Committee of 17 Meets

Fargo.—Dr. E. F. Ladd, United States senator-elect, has gone to Kansas City, where a meeting of the Committee of 17 will be held this week. It is Dr. Ladd's hope and belief that at this meeting a final agreement on a wheat marketing plan will be reached by the members of the committee. The experts employed by the committee have the required data in such shape that Dr. Ladd believes the committee will be able to speedily reach a conclusion on this matter

WELL TO DO FARMER GAINED 20 POUNDS

H. W. Boring Says He Is In Better General Health Than He Has Been in Years Since Taking Tanlac.

H. W. BORING
of Overland Park, Kansas

"Since Tanlac has overcome my troubles I have gained twenty pounds in weight and am in better general health than for years past," was the straight-forward statement made a few days ago by H. W. Boring, a prominent and well-to-do farmer living at Overland Park, Kans.

"During the two years I suffered I tried everything I knew of to get relief, but nothing seemed to reach my case until I tried Tanlac. My appetite was poor and my digestion was so bad I could hardly retain my food. Nothing agreed with me; in fact I was almost a confirmed dyspeptic. My whole system seemed to be cut of shape. I would have pains across the small of my back so bad at times I could hardly move around.

"My nerves were all unstrung and I would become up-set at the least little thing. I seldom slept well at night and, finally, became so weak and run-down that I lost weight rapidly. I was also troubled a great deal with catarrh and of mornings had to spend a half hour or more clearing up my head.

"This is just the condition I was in when I began taking Tanlac and it certainly has been a blessing to me. It just seemed to be made especially for my case. I improved from the very first. My digestion now is perfect and regardless of what I eat I never suffer any bad after effects.

"The pains across my back have entirely disappeared. The catarrh has left me, too, and my head is perfectly clear. I am no longer nervous and rest well every night. I have regained my lost weight and am feeling better and stronger than I have in years. I am going to keep Tanlac in my house so it will be handy at all times."

Tanlac is sold by leading druggists everywhere.—Adv.

Rheumatism Comes From Tiny Pain Germs

First of all, get it firmly fixed in your mind that all the liniments in the world have no effect whatever on Rheumatism.

A very common form of Rheumatism is caused by millions of tiny disease germs which infest the blood. The one and only sensible treatment, therefore, is one which cleanses the blood of these germs, and routs them entirely out of the circulation.

This is why S.S.S., the greatest known blood purifier is so successful in the treatment of Rheumatism. It is a powerful cleanser of the blood, and will remove the disease germs that cause your Rheumatism, affording relief that is genuine.

S.S.S. is sold by all druggists. Free literature and medical advice can be had by writing to Chief Medical Adviser, 154 Swift Laboratory, Atlanta, Ga.

Origin of "Gob."

A side-light was thrown upon the word "gob" by the Scotsman of August 4, 1889, which said that when a meeting of the coastguard takes place the men indulge in protracted yarns, a draw of the pipe, and a friendly chew. Such a session is invariably productive of a considerable amount of good-natured banter, as well as free expectoration all around, wherefrom our friends came to be known as "gobbies" (from "gob" the mouth). In the process of time gob and gobble came to be applied to the ships manned by the gobs.

End of a Perfect Day!

One tot at kindergarten had a habit of ending her stories with the remark, "And they lived happily ever after."

One day all were surprised to hear her conclude: "And the tiger ate her up, and she lived happily ever after."

Like many other features of life that are criticized, marriage continues to be pretty general.

Praise Where Due.

The good old minister naturally wished to speak well of all who had participated in the benefit concert, and, happily, could praise the efforts of most of the volunteer performers with sincerity and truth.

"And Miss Hightry?" some one asked, "Did she sing well?"

The old gentleman hesitated, then smiled beamingly.

"Miss Hightry's intentions were excellent—splendid—most to be admired!" he declared enthusiastically.

Had She Heard That?

"My dear, since it's impossible to dress my dolls decently, I never take them out."—Paris Le Journal Amusant.

An Insinuation.

"I would have you know, sir, that my family came of a very long line."

"Oh, I have no doubt its members had plenty of rope in their time."

It is estimated that about half the globe is composed of iron.

Holt Men Loose One and Tie One

Our men's basket ball team and a good bunch of rooters drove to Middle River Saturday to play the mens' team of that town. It was a good game all thru and showed good sportsmanship on both sides. The final score was 17 to 11 in favor of Middle River.

Our men are loud in their praise of the good treatment given them by the team and people of Middle River and will do their best to return the compliment when the return game is played here at a later date, not yet decided.

Our men's and boy's teams drove to Newfolden Monday and played their teams. The boys game resulted in a score of 19 to 14 in favor of Holt.

The mens game was tied with 21 scores apiece at the end of the last quarter. Soon after starting to play off the tie, one of Newfolden's players was hurt and they threw up the game.

The deciding game will be played here next Wednesday night.

The boys' teams will also play the same night.

Obituary.

Mrs. Knute Olson died, a christian, at the home of her daughter, Mrs. J. E. Erickson, at 11 o'clock Wednesday forenoon Feb. 9th, from asthma and a complication of diseases, aged 88 years, 1 month and 20 days.

She was born in Norway Dec. 20, 1832 and was baptized in January 1833. She emigrated to America and settled in Manitowoc, Wis., in 1861. In 1868 she was married to Knut Olson Frujord, by Rev. N. Brandt, now 97 years old and the oldest living minister in the Norwegian Lutheran church.

She was the mother of 5 children, 2 of whom are living, Gunder Olson of Canada and Mrs. Erickson. She moved from Manitowoc to Winnebago county, 2 years later she settled on a homestead near Lake Johnson, Pope county and resided there until 1891 when they moved on a farm near Thief River Falls and lived there until 12 years ago, when she moved to the home of her daughter, Mrs. Erickson, in Excel.

The funeral took place Saturday Feb. 12, and was attended by a large crowd. Rev. Ordahl conducted the services and spoke at the home from John 14: 1,2., and in the church, in Norwegian and English, from Heb.: 11, 16, "The Land of Heaven, the Christians Desire."

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

The Joy of Living

Comes to YOU if you have Fresh, Red Blood

The stomach is the center of the body from which radiates our vitality, strenuosity, our fighting strength. A healthy stomach turns the food we eat into nourishment for the blood stream and the nerves. Dr. Pierce's Golden Medical Discovery refreshes and tones up the stomach walls, removes the poisonous gases from the system, makes the blood richer.

The first day you start to take this reliable medicine, impure germs and accumulations begin to separate in the blood and are then expelled through the liver, bowels and kidneys. Get Dr. Pierce's Golden Medical Discovery today from any medicine dealer; or send 10 cents to Dr. Pierce's Laboratory in Buffalo, N. Y., for a trial package of the tablets. It is a powerful blood purifier and tonic. Tho' over 50 years old, over one million bottles were sold only last year.

80 Years Old —Was Sick

Now Feels Young After Taking Eatonic for Sour Stomach

"I had sour stomach ever since I had the grip and it bothered me badly Have taken Eatonic only a week and am much better. Am 80 years old," says Mrs. John Hill.

Eatonic quickly relieves sour stomach, indigestion, heartburn, bloating and distress after eating because it takes up and carries out the excess acidity and gases which cause most stomach ailments. If you have "tried everything" and still suffer, do not give up hope. Eatonic has brought relief to tens of thousands like you. A big box costs but a trifle with your druggist's guarantee.

ONE MAN RULE WINS

Backers of the Babcock One Man Highway Commissioner Defeat Amendment Favoring Three Man Rule—Grain Grading Bill Progresses.

St. Paul—Babcock as the lone highway commissioner, or Babcock on a commission of three men, for administration of Minnesota highway legislation, provoked the hottest debate of the session and ended in a victory for the single commissioner plan, by a vote of 37 to 84 on the three commissioner amendment.

Mr. Haugland, speaking for the amendment, said too large an amount was to be handled for one man to take charge, and there was too much responsibility for one person. The people must have more assurance, he said, and the bill fails to check and requires no examination of the records or no accounting. Chairman O. A. Swenson directed him to read the bill and he would find his statement was wrong.

Mr. Jacobson, and all others opposing the one man plan, said no reflection was made on Mr. Babcock personally, but "he may die and somebody must fill the place."

Proposal to have an advisory board comprising the governor, secretary of state and attorney general, as a restrictive agency on the commissioner of highways in his expenditure of millions of the dollars to be spent under the good roads program, was voted down in the house by a vote of 69 to 52.

Bill to Regulate Boxing.

Boxing in Minnesota will be taken out of the realms of high finance, if the state legislature passes a bill soon to be introduced by the house and senate committees of military affairs. The bill, as now drawn by the National Guard association, which will press it for passage in legislatures all over the country, does these things:

Places boxing under the sole control of the Minnesota National Guard and Minnesota Naval Militia, through a state athletic commission to be made up of officers of those two organizations; bouts to be staged chiefly by units of the same organizations.

Permits boxing in all parts of the state, with no limit on the number of bouts, the bout duration limit raised from 10 rounds to 20 rounds and decisions not only permitted, but made compulsory.

Eliminates "millionaire purses" for fighters in Minnesota by fixing maximum admission prices at $3.

Committee Favor Grading Bill.

Designed to prevent conflict and confusion in federal and state grain grading in anticipation of restoration of Minnesota grades, a bill by Representative Nels Moen was recommended for passage by the house committee on grain and warehouses.

H. C. Flannery, assistant attorney general serving the state railroad and warehouse commission, prepared the bill. Chairman C. M. Bendixen pointed out that warehousemen must protect themselves against the possibility of being compelled to sell under federal grades grain bought on state grades. Representatives A. C. Welch and C. R. Wright answered that Minnesota farmers will be glad, nevertheless, to get back to Minnesota grain grades.

Quality will determine grain values regardless of grades, Commissioner O. P. B. Jacobson of the railroad and warehouse department said, because grain dealing is largely on sample, and favorable action followed.

The house municipal affairs committee recommended the "dog" bill to pass. This proposed law provides that in all communities except first class cities, counties and cities may license dogs, put the license money into a fund and use this money to pay damages to owners of livestock or fowl which are killed or injured by dogs. The county under the bill then may hold the owner of a dog for the damages paid out of this fund. The committee raised the license fee to $5 on male and $5 on female dogs. Country members said they vigorously would oppose this bill on the floor of the house on the ground that the average farmer required from one to three dogs.

Food Bill Killed.

The committee on public health killed Representative F. E. Miner's bill prohibiting the manufacture or preparation of food in basements. Several protested against the bill, saying it would require rebuilding of the finest hotels in the state to comply with this law if passed.

Public Market Bill Legal.

Proposed legislation to make the Minneapolis Chamber of Commerce, Duluth Board of Trade and South St. Paul Livestock Exchange "public markets and open them up to co-operative organizations of any kind is constitutional, Clifford L. Hilton, attorney general, ruled. The opinion of the attorney general was given to Representative Elias Nordgren, chairman of the House committee on markets and marketing, in response to a request from the committee.

TONNAGE TAX LEGAL

Attorney General Hilton Holds Proposals Constitutional. Measure Now Held Sure of Passage.

St. Paul—Drafting of a new iron ore tonnage tax bill on lines suggested by Attorney General Clifford L. Hilton is under way. It will be introduced by the tax committee of the house as a committee bill, and its passage is considered a certainty.

In his opinion, Mr. Hilton says:

"I am of the opinion that the Legislature has the power to impose an occupation tax by providing for the taxation of those engaged in mining substantially as provided for in the submitted bills. It is not restrained from so doing by any provision of the state or federal constitution."

The attorney general, however, holds the tax should be in addition to all the present taxes levied.

The opinion was interpreted by supporters of tonnage tax legislation as making practically certain adoption of a tonnage tax schedule by this session of the Legislature.

Attorney General Hilton's opinion given to the house subcommittee holds as follows:

First—The tonnage tax as an occupational tax is constitutional.

Second—That the bill if passed should make the tonnage tax a surtax, that is, a tax in addition to other taxes now levied on mining properties and ore.

Third—The bill should be amended to provide for a deduction from the amount of the tonnage tax, the advalorem tax levied on ores for the year in which the tonnage tax is levied.

Fourth—The title of the bill should be amended to correspond to the suggestions in this opinion.

Fifth—The Warner bill, which provides for a constitutional amendment authorizing the levying of a tonnage tax and also the creation of a permanent trust fund, into which half the receipts from the tonnage tax are to be paid, does not violate any provision of the constitution of the United States. Such trust fund may be made inviolable, the interest and income to be used only for the purpose of such trust fund.

DRAFT MINERAL LAND BILL

St. Paul—Another of the important measures of the session, a bill to restore the practice of leasing state mineral lands, will be reported back to the Senate this week by the committee on public domain.

A motion will be made to make the bill a special order, Senator John L. Wold of the subcommittee which had charge of the bill, said. The special order porbably will be asked for some day next week in order to give the senators time to study the bill, Senator Wold said.

The bill, as introduced by the interim committee, has been amended by substituting a board for the state auditor in charge of the sale of exploration permits and leasing. The board will consist of the state auditor, the attorney-general and state treasurer.

The house committee on taxes recommended for passage a bill requiring warehousemen to file annually with assessors a statement of all personal property stored in their warehouses. Warehousemen from Minneapolis, St. Paul and Duluth were given a hearing and protested against the bill.

This committee also recommended for passage Representative Thomas Girling's bill exempting the heads of families from taxation on $200 worth of personal property, provided they have more than two children under 16 years of age.

LEGISLATIVE SIDE LIGHTS

Voters, physically unable to get to the polls could cast their ballot by mail under S. F. 500, sponsored by Senator J. H. Hall.

Members of the senate general legislation committee refused to constitute themselves a board of musical experts and killed two bills each advocating a state song for Minnesota.

Mink, fisher and marten may be trapped only from Dec. 1 to March 1. instead of April 1, as the law now stands, if Representative Henry Spindler puts through H. F. 673. The restriction is asked because of the growing scarcity of these animals.

Attorney General Clifford L. Hilton's opinion on the tonnage tax bills seems to have pleased everybody. Messrs. Welch, Bendixen, Warner, Trowbridge and Wilkinson, who introduced tonnage tax laws, all expressed themselves as satisfied, and opponents of any tonnage tax claim the opinion will make a tonnage tax impossible this session.

Sharp words passed before the house educational committee on a hearing over the bill providing part time education for children and adults. Mrs. F. A. Kingsley of Minneapolis said it made a "fetish" of vocational education. Dr. C. A. Prosser vigorously defended the measure and said it would give working boys and girls a chance for training.

Favorable action on the Brooks-Coleman bill giving state control of street railway rates is expected soon by the senate committee on general legislation. Hearings on the bill ended and a subcommittee is drafting amendments to meet constructive criticism of the bill as it stands.

Because chickens may scratch gardens with impunity and there is no remedy, because they are taxable, Representative A. E. Nollet has introduced a bill providing that they may be impounded and damages assessed against owners of the fowls, in case they scratch too freely.

SKIPPER REGRETTED HIS FIB

Persistent Questioner, in the Classic Language of the Street, "Got Back at Him."

The deep-sea fisherman often has a sharp tongue and is not likely to get the worst of a verbal duel. But George, the skipper of a Yarmouth trawler, who figures in "North Sea Fishers and Fighters," by Mr. Walter Wood, certainly met with his match once whether he knew it or not.

"There's land people who come and bother you with foolish questions," he complained in recounting the hardships of a skipper's life. "I try to put 'em off, but can't allus do it. There was an old lady who worried me past endurance with her questions, askin' if the herrin's were caught in barrels, as she'd sometimes seen 'em that way in shops. I told her no, and then she aggravated me to that extent that I told the only fib I ever spoke in my life.

"'How do you kill 'em when you've caught 'em?' she asked.

"'We bite off their heads,' I answered.

"She looked at the catch of herrin's we had. 'My! My!' she murmured, walkin' away. 'How tired your poor jaws must be!'"

NOT A TERM OF OPPROBRIUM

But Really It Seemed as Though Mother Had Some Strong Grounds for Complaint.

The following story is told of a certain school in central New York. Dr. L——, the health officer, had just made the customary physical examination and filled out the various health certificates.

One afternoon he received a visit from an irate mother.

"I should like to know," she said belligerently, "what you mean by calling my boy 'a poor nut'?"

"Madam," said the astonished physician, "I haven't an idea what you are talking about. To the best of my knowledge I have never applied the epithet you mention to any person."

"It's down in black and white," continued his visitor unappeased. "My Jim has just been transferred to D—— school, and it's on his health card as plain as can be, 'Poor Nut.'"

The light of comprehension dawned on the bewildered doctor. He smiled.

"Ah—I see! 'Poor Nut,' my dear madam, is merely an abbreviated way of saying 'poor nutrition.'"—Youth's Companion.

Must Have Been.

"He went across to the fire place and stood with his back to its warmth, staring into the fire with unseeing eyes.—From a popular magazine.

CUT IMMIGRATION TO 355,000 YEAR

The Senate Substitutes Drastic Measure for House Bill, With Only Two Opposed.

EFFECTIVE 15 MONTHS

Dillingham Measure Passes 61 to 2 in Record Time, Placing Far-Reaching Limitations on Eligibility for Entrance to U. S.

Washington.—A drastic measure against immigration during the next year has been adopted by the senate which, by a vote of 61 to 2, passed the Dillingham immigration restriction bill after adding amendments to increase its restrictive features.

In the form adopted, the bill, it is estimated, would limit the number of immigrants during the next 12 months to slightly over 355,000.

The bill was adopted as a substitute for the Johnson bill passed recently by the house. The latter would bar for a year all immigrants except relatives of aliens now in this country. The bill now goes to conference for adjustment.

Advocates of the Dillingham substitute declared it would keep out more immigrants than the Johnson measure.

Effective More Than a Year.

Both bills would go into effect within two months, with the Dillingham measure effective for fifteen and the Johnson bill for fourteen months.

It took the senate less than five hours to dispose of the immigration legislation, a record according to leaders, for a subject of such importance. Senators who opposed passage of the bill were: France, Republican of Maryland, and Reed, Democrat of Missouri.

Forty per cent less immigrants would be admitted under the Dillingham bill as it passed the senate than as reported by the senate immigration committee. This was accomplished by reducing the basis of immigration from 5 per cent to 3 per cent of the total number of aliens in this country, according to the 1910 census.

Number of Eligibles Reduced.

Under another amendment, wives and children of aliens who have applied for citizenship would be given preference in admission. Another amendment struck out a clause authorizing admission when deemed justifiable as a "measure of humanity."

The 3 per cent standard of the bill, according to committee estimates, would permit the following number of immigrants during the next year after the bill becomes law:

Where They Come From.

Belgium, 1,482; Denmark, 5,440; France, 3,523; Germany, 75,040; Netherlands, 3,694; Norway, 12,116; Sweden, 19,956; Switzerland, 3,745; United Kingdom, 77,206; or a total of 202,212 from western Europe.

The maximum number estimated from northern and southern Europe is: Austria-Hungary, 50,117; Bulgaria 345; Serbia, 139; Montenegro, 161 Greece, 3,038; Italy, 40,293; Portugal 1,781; Rumania, 7,978; Russia, 51,974 Spain, 663; Turkey in Europe, 967; Turkey in Asia, 1,795; or a total of 153,249 from that district.

House leaders who favor restriction of immigration predicted that the senate bill probably would receive house approval.

EVOLVE NEW MARKET PLAN

Dr. Ladd Explains Method to Be Tried by Committee of 17.

Fargo.—Dr. E. F. Ladd, North Dakota member of the Committee of 17, who has returned to Fargo from the committee's Kansas City meeting, is confident that a portion of the 1921 crop will be marketed by the National Sales agency which is being promoted by the committee, and that within a few years the sales agency will market the bulk of all American crops.

The marketing plan of the Committee of 17 provides, essentially, contracts either with individual farmers or existing farmers' organizations for the sale of crops, and also for the formation of a great financial corporation for the financing of these operations.

As Dr. Ladd explains the plan, it begins with the individual farmer Contracts for the sale of the farmers' crops will be entered into, either with individual farmers, or with associations of farmers already organized, such as the Equity, the Farmers' union, and others. Wherever there are farmers' elevators, for instance, it is proposed that these existing agencies be utilized and that contracts be signed with the individual farmers through these existing institutions.

Dean Keene New A. C. Head

Fargo.—Dean E. S. Keene of the engineering department of the North Dakota Agricultural college has been placed in charge of that institution by the state board of administration. Dean Keene will act as head of the school until the board has selected a successor to Dr. E. F. Ladd, who resigned as president a few weeks ago. Dr. Ladd leaves March 1 to take his seat in the United States senate as junior senator from North Dakota.

MRS. J. M. CRAIG, of Los Angeles, Calif., who says no one can feel more grateful for what Tanlac has done than she does. Declares she has gained twelve pounds and her health is now better than in years.

"Of all the people who have taken Tanlac, I don't believe there is anyone who feels any more grateful to it than I do," was the statement made recently by Mrs. J. M. Craig of 674½ East Fortieth street, Los Angeles.

"Like so many other families during the influenza epidemic last year we all had it, and my own illness, together with the worry over the rest of our family, brought on a case of genuine nervous prostration.

"I was so weak I couldn't even sweep the floor, and during the day I would have to lie down four or five times. I tried to walk but found out half a block was all I could stand before I gave out. Nervous spells came on me often.

"Every medicine I tried failed to reach my case until finally my husband urged me to try Tanlac, and I am indeed thankful that he did, for it proved to be just what I needed.

"The first two bottles didn't seem to help me. I guess that was because I was so extremely bad off, but on the third bottle I could tell I was improving and that gave me more hopes than ever of getting well.

"My improvement from then on was rapid and by the time I had taken five bottles of Tanlac I was better and stronger than I had been in years. I was sleeping soundly at night and had gained twelve pounds in weight.

"That was several months ago and from then until now I have been in as good health as I ever was in my life and have been doing all the housework by myself.

"It is simply remarkable how Tanlac has built me up and I have told everyone of my friends and relatives what a wonderful medicine it is."

Tanlac is sold by leading druggists everywhere.—Adv.

FOREIGN LOANS POLICY DEBATED

William Randolph Hearst Seeks to Restrain Treasury from Further Transactions.

QUESTION RIGHT TO SUE

Hearst's Counsel Asserts Taxpayer Has Right to Question Government Finances—Dealings With Russia Are Reviewed.

Washington.—Foreign loans extended by the treasury during the war and since the armistice were vigorously defended by government officials in reply to protestants against any further exercise of the government's loan powers.

Secretary Houston of the treasury resumed testimony before the senate judiciary committee on the Reed bill directing the stoppage of further loan negotiations with the debtor nations, and Solicitor General Frierson responded in court to the suit brought by William Randolph Hearst to prevent further financial transactions with foreign governments.

Correspondence Heavy.

Mr. Houston was excused from further appearance before the committee after he had presented a mass of correspondence covering the entire subject of negotiations, and had pointed out the impossibility of his reading them in full in the few days preceding March 4.

Mr. Frierson filed with the District of Columbia supreme court a brief reviewing the transactions with the foreign powers and declared there was no necessity for the injunction brought by Mr. Hearst as a taxpayer, as Secretary Houston had no intention of establishing additional credits in favor of any foreign powers. The solicitor general reviewed at length the conditions under which money was advanced to the Kerensky government of Russia. He also asserted that Secretary Houston did not concede that the plaintiff possessed a status entitling him to call in question the various credits or that the court had any jurisdiction to determine such a controversy.

Taxpayer Free to Act.

Counsel for Mr. Hearst, replying to the solicitor general, declared the supreme court of the United States had never refused to entertain a suit by a taxpayer to prevent a federal official from disposing of the money or property of the United States in an alleged unlawful manner. It also was maintained that a taxpayer has all the interest that is required to restrain an executive official.

The senate committee confined its efforts to the French, Czecho-Slovakia and Liberian loans. Secretary Houston said he did not regard the armistice as causing "a situation which would prevent advances under the law" and that existing statutes gave him authority to continue loans until the president issued a proclamation of peace.

UNION CONFERENCE CALLED

Labor Federation Girds Self for Open Shop Dispute Looming Near.

Washington.—The executive council of the American Federation of Labor met here this week preliminary to opening the conference of heads of 109 national and international labor unions called by President Gompers to consider a "national policy" in connection with the present industrial situation.

The meeting of the council is regarded by labor officials as of prime importance in connection with the meeting. Means of conducting an organized campaign against general institution of the "open shop" will be the chief consideration of the conference, according to Frank Morrison, secretary of the Federation.

"The conference will consider the publicity and other methods of our opponents," Mr. Morrison said, "and it is possible that labor will launch an opposing movement against those who imagine they control every avenue of publicity. I believe labor will formulate a plan to expose the pretense of men who are only interested in cheap labor and a continuation of a policy of profiteering.

"The trade union movement is alert to the forces arrayed against it and proposes to act vigorously and courageously."

Wage reductions proposed or ordered in organized industries, recent developments in anti-strike laws and compulsory arbitration are subsidiary propositions to be considered by the labor heads.

Home Rule Effective April 5

London.—The privy council has decided that the home rule act for Ireland shall go into effect April 5. The first step under the act is to be the issuance of writs for elections to the new parliaments, which probably will take place three weeks afterwards. The Belfast parliament will assemble in June.

The present prospects seem to be that few candidates will come forward for the southern parliament, and it seems doubtful whether this parliament will be formed.

EMPLOYED "NOM DE PHONE"

Few People Will Blame Mr. Kraemberlicht for Pressing John Henry Smith Into Use.

"Is Mr. Smith in?" inquired the visitor at the office of a Newark business man.

"Mr. Smith? Mr. Smith? I don't think we have any person by that name," replied the office boy.

"John Henry Smith was the name," said the caller. "He gave it to me over the telephone."

"Were you looking for John Henry Smith?" inquired a member of the firm who was passing by. "You want to see our Mr. Kraemberlicht. This is a new office boy, and he is not aware that John Henry Smith is the telephone name of Mr. Kraemberlicht. Mr. Kraemberlicht found that it was impossible to make any one understand his name over the telephone, so he simplified it to John Henry Smith. A nom de phone."

"I see," said the visitor "You might also call it a phoney name."—Newark Sunday Call.

SIMPLE ROAD TO HAPPINESS

As Benevolent Old Gentleman Pointed Out, Desired Result Might Easily Be Attained.

The beautiful young woman, dressed in fashion's most pronounced style, entered the street car and sat beside a rather benevolent-looking old man. As the car started she happened to glance out the window at a bunch of little girls playing on the sidewalk.

"Don't they look happy," she gushed. "But no wonder. Why, I remember my happiest days were when I used to wear short, little gingham dresses."

Now, the man had seen her enter the car, and he was well informed about the length of the dress she was wearing, so there was no mistaking his hint. "You might try gingham instead of the silk you're now wearing," he suggested.

Knew All About It.

There was a small passageway between the dining room and kitchen in Frederick's house that was recently fitted out for use as a breakfast room.

One day at school Frederick's teacher had occasion to ask if anyone knew what a "nook" was.

Frederick, with the new breakfast room in mind, answered. "It's a place where you eat breakfast to keep the dining room clean."

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

Certificate of Incorporation of The Huset Company

We, the unersigned, for the purpose of forming a corporation under and pursuant to the provisions of Chapter Fifty-eight (58) of the General Statutes of Minnesota for 1913 and the acts amendatory thereto and supplementory thereto, do hereby associate ourselves as a body corporate, and do hereby adopt the following Certificate of Incorporation.

ARTICLE I.

The name of this corporation shall be "THE HUSET COMPANY." The general nature of the business shall be to engage in and carry on a general wholesale and retail merchandise, implement and real estate business, at the Village of Strandquist, County of Marshall, State of Minnesota, and elsewhere, to buy and sell and otherwise dispose of and deal in all kinds of merchandise, implements, furniture, real estate and personal property, to buy or generate and sell electric current, to buy, sell and discount notes, bills and other evidences of debt, and the performing of all other acts which may be incidental to the proper carrying on and of the said merchandise, implement and real estate business.

ARTICLE II.

The principal place of the transaction of business of the corporation shall be in the Village of Strandquist, County of Marshall, State of Minnesota.

ARTICLE III.

The time for commencement of this corporation shall be February 15, 1921, and the period of its duration shall be thirty years.

ARTICLE IV.

The names and places of the residence of the persons forming this corporation are: Oscar J. Huset of Brainard, Minnesota, William H. BonDurant of Thief River Falls, Minnesota and Elmer O. Huseth of Strandquist, Minnesota.

ARTICLE V

The management of this corporation shall be vested in a Board of Directors, composed of not less than three and not moro than five members. The names and addresses of the first Board of Directors are: Oscar J. Huseth, Brainard, Minn., William H. BonDurant, Thief River Falls, Minn., and Elmer O. Huset, Strandquist, Minn. The first officers of this corporation shall be: President, Oscar J. Huset; Vice President, William H. BonDurant; Secretary and Treasurer, Elmer O. Huset. All of the above named officers shall hold their respective officers aforesaid until the next annual meeting of the corporation to be held January 10, 1922, at which time and annually thereafter a Board of Directors shall be elected from and by the stockholders of this corporation. The annual meeting of this corporation shall be held at its principle place of busines on the second Tuesday in January in each year. Immediately after the election of directors, or as soon thereafter as practicable, the directors shall meet and elect from their number a president and vice president, and from their number or from the stockholders a secretary and treasurer. Any office except that of president and vice president may be held by one person. The directors and officers of this corporation shall hold their respective offices until their successors have been duly elected and entered upon the discharge of their duties. The first meeting of the stockholders and of the Board of Directors shall be held at Strandquist, Minnesota on the 15th day of February 1921, at 10 and 11 o'clock A. M., respectively.

ARTICLE VI.

(Continued to next column)

The amount of capital stock of this corporation shall be Fifty Thousand Dollars ($50,000.00), which shall be paid in, in money or property, or both, in such manner, at such times, and in such amounts as the Board of Directors shall order. The capital stock shall be divided into One Thousand shares of the par value of ($50.00) each.

ARTICFE VII.

The highest amount of indebtedness or liability to which this corporation shall at any time be subject shall be the sum of Fifty Thousand Dollars ($50,000,00).

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Owatonna—The Owatonna lodge of Elks will almost double its size today when it initiates a class of 135.

St. Paul—C. E. Brown, Elk River, was elected president of the Minnesota Crop Improvement association.

Winona—Miss Frances Smith was rescued by Charles Goetz after she had broken through the ice in Lake Winona.

Minneapolis—The Minnesota Retail Clothiers' association held its tenth annual convention in Minneapolis at Hotel Radisson.

Faribault—While the east is struggling with a foot of snow, Faribault cancelled a winter sports carnival because there is no snow.

Ruthton—A defective chimney caused a fire at the residence of G. A. Hill, farmer, southeast of here, which destroyed the building.

Moorhead — Charles Schumacher, Moorhead, was convicted on the charge of transporting liquor. He paid a fine of $250. The jury was out two hours.

Red Wing—P. J. Beltz, 52 years old, and for 10 years a resident of the city, was arrested and confessed to robbing the Stockholm (Wis.) State bank of nearly $2,200.

Little Falls—Lyle Binder of Brainerd was seriously injured on a road 3½ miles north of here when the automobile he was driving struck a rut and turned over three times.

Jasper—James H. Taylor, for the last 35 years actively in charge of the affairs of the First National bank of Jasper, has sold his interests in the institution to A. K. Hanson and William Lowe.

St. Paul—S. B. Duea, of Pipestone, former state senator, will succeed A. H. Turritin of Minneapolis, as private secretary to Governor Preus. His appointment was announced by the governor.

Sleepy Eye—William Lawson, instructor in agriculture in the Sleepy Eye public schools, has accepted the position of county agent for Brown county and will enter upon his duties at once.

Stillwater—Londius Sargent, president of the Stillwater Manufacturing company and for many years prominent in civic affairs, is dead at his home here after an illness of several months.

So. St. Paul—For the third time in a year, citizens will vote on a bond issue to improve school facilities. A special election has been called for March 16 to vote on issuing $350,000 school bonds.

Minneapolis—Members of the all university council at the University of Minnesota have chosen Oct. 15 for the annual all college class scrap, it was announced. Nov. 5 has been set as Homecoming day.

Hastings—The trials of those taken in the South St. Paul purity squad raid several weeks ago were concluded when four men were sentenced to jail terms and one paid a fine, in Dakota county district court.

Willmar—H. E. Wheeler charged with robbing the Kandiyohi State bank of $870 was given a preliminary hearing in municipal court here, waived examination and was held to the March term of the grand jury.

Worthington—With large crews of men working night and day, the annual ice harvest has been in full blast at Lake Okabena here the last week. It is estimated a total of 25,000 tons will be cut this season.

Hutchinson—Complaints are coming in from the surrounding country regarding a band of dogs turned killers, Sheep, hogs and poultry are the victims of the pack, and farmers have organized to hunt down the animals.

Waseca—At the annual meeting of the Waseca Anti-Horse Thief association the complete list of old officers and directors were erected. The society is a relic of the days when horse thieves abounded. The members are now seriously considering turning their attention to the capture of automobile thieves.

Minneapolis—Governor J. A. O. Preus issued a proclamation Friday, calling upon the people of Minnesota to give liberally to the China Famine Relief Fund. He calls attention to the daily deaths of 15,000 from starvation and proclaims that America is the only country that is in a position to give any relief. Prompt action by the people of this country can save a large proportion of the fifteen million who otherwise face certain death.

Luverne—Fire destroyed the home of Edward Rootsaert, farmer, living near Hardwick. Mrs. Rootsaert and her six year old daughter had a narrow escape from the burning house after exits had been blocked twice by the flames.

St. Paul—Members of the Minnesota Editorial association declared themselves against radicalism in every form in their annual convention, and went on record with a pledge to do all in their power to help build up public confidence "by decrying messages of pessimism and giving no sanction to doctrines of discontent."

Detroit—R. J. Lindberg was Detroit's unanimous choice for mayor at the city election.

Clontarf—Michael Donovan, aged 83, a veteran of the Civil war, was buried here with military honors.

Fergus Falls—A new state bank with a capitalization of $20,000 will be established soon at Perham, this county.

Ivanhoe—The first death attributed to sleeping occurred when Anton Kaczrowski, 38 years old, died. Kaczrowski's case baffled physicians.

Spring Valley—Mrs. B. Wruck of Norwalk, Wis., visiting friends here, was stricken with heart disease while at a motion picture theater and died.

Pipestone—Fifty-four head of registered hogs belonging to Harold Axtell, were burned to death by fire which is supposed to have originated from a heater on a hog waterer.

Montevideo—Sam Robinson of Montevideo was found dead under a bridge north of here by a small boy who was on a hunting trip. The body was frozen. Death was due to bullet wounds.

Mankato—Florence Chenoweth of St. James high school won first place among the girls and Truman Quevel of Windom won first place among the boys at the final district contest in declamation.

Janesville—Mrs. Eugene Dieudonne was honor guest at a reception given in honor of her return from Washington, at which she described her trip to carry the Minnesota electoral vote to Washington.

Slayton—Dr. J. M. Schobel of Slayton had a narrow escape when his automobile jumped from a temporary bridge and turned completely over in its fall, landing right side up at the bottom of a ditch.

St. Paul—A. H. Turritin, private secretary to Governor Preus and former president of the Lincoln National bank, Minneapolis, resigned, giving as his reason the necessity for caring for his private business affairs.

Medford—At a special bond election in district 5, consolidated school district here, the proposition to issue bonds of $55,000 to build a new school carried 289 to 33. Interest was general and a large vote polled.

Faribault—Shattuck swimmers defeated St. Paul Central high school here, 45 to 23. Captain Hanft of Shattuck, a St. Paul boy, made the 100 yards back stroke in 1:15 2-4, shattering his own Northwestern record of 1:16.

Faribault—Forty head of pure bred Poland China hogs, the majority spring gilts, brought $2,400 to eight consigners of this county here at the first annual consignment sale. The highest price paid was $140 for a two year old sow.

Slayton—Nearly 1,000 taxpayers of Murray county attended the second annual meeting of the Murray County Taxpayers Service league here. The meeting was a protest against the excessive expenditures of the county board for roads and drainage.

Bowlus—The village fire fighting apparatus and four automobiles were destroyed when fire burned the Auto Service garage here. The blaze, the origin of which is undetermined, could not be fought successfully because the apparatus was housed in the building.

Minneapolis—Officials of the Federal Board for Vocational Education will be present when the summer session for training teachers in industrial education under the Smith-Hughes law begins, it was announced at Dunwoody institute. The date will probably be June 20.

Winona—The swift passing of the pioneers who developed this region was indicated in a report submitted at the annual meeting here of the Winona County Old Settlers association, showing the death of 27 members the last year. Four of the 27 were more than 90 years of age. Seven of them came here when Minnesota was a territory.

Warren—Four-fifths of the certified seed potatoes raised in Minnesota and more than were produced in any other state in the union came from the Red River valley last year, according to O. K. Berget, president of the Minnesota Red River Valley Certified Seed Potato Growers' association. More than 1,900 acres of certified seed potatoes were grown in the Red River valley last year.

Minneapolis—The Minnesota Branch of the China Famine Relief Fund has been organized and a concerted effort will be made to induce charitable Minnesotans to come to the aid of the fund being raised to save the 15,000,000 people of Northern China from death by starvation. The committee is composed of well known public men of the state, and offices will be maintained at 121 Chamber of Commerce, Minneapolis, where contributions will be received and forwarded hurriedly to China. The personnel of the committee is as follows: B. F. Benson, Chamber of Commerce president, is president of the committee. Aiding him are L. W. Hill of the Great Northern; Dr. L. D. Coffman, president of the University of Minnesota; Dr. W. J. Mayo, of Rochester; E. W. Decker, Minneapolis banker; Dr. J. D. Downey, dean emeritus of the University of Minnesota. The committee is looking for a hearty response by the people of Minnesota to this appeal for aid.

St. Paul—More than $40,000, the balance remaining from the $165,000 legislative appropriation to the Fergus Falls relief fund, will be reverted to the state revenue fund, according to the final report of the relief commission submitted to Governor Preus.

Fergus Falls—A pageant, symbolizing phases of the city's history, to celebrate the 50th anniversary of the founding of Fergus Falls, will be staged here as a feature of homecoming week. The first presentation will be on July 4, when between 500 and 700 persons will take part in the performances.

In Ye Olden Time

hoop skirts were worn by those who first asked the druggist for, and insisted on having the genuine Favorite Prescription put up by Doctor Pierce over fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago and never contained alcohol.

Beauty depends upon health.

Worry, sleepless nights, headaches, pains, disorders, irregularities and weakness of a distinctly feminine character in a short time bring the dull eye, the "crow's feet," the haggard look, drooping shoulders, and the faltering step.

To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for Dr. Pierce's Favorite Prescription.

This famous medicine strikes at the very root of these enemies of your youthful appearance. It makes you not only *look* younger but *feel* younger. It overcomes the weakness and builds you up.

Your druggist can supply you with liquid or tablets or send ten one-cent stamps to Dr. Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a trial package of the tablets will be mailed to you.

If you want business to pay attention to you, you must pay attention to business.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.

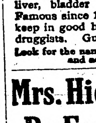
GROWING OLD TOO SOON?

Is backache wearing you out—making you feel years older than you are? Do you find it hard to keep going? It's time, then, you looked to your kidneys. A cold, or overwork may have weakened the kidneys and brought on that nagging backache and sharp, piercing pains. Don't wait! Strengthen the weakened kidneys with *Doan's Kidney Pills*. Doan's have helped thousands. They should help you. *Ask your neighbor!*

A Minnesota Case



Carl Knudsen, Seventh and Windum Aves., Montevideo, Minn., says: "I suffered from backache and was in bed for seven weeks. When I was able to get around I had pain and lameness in my back and also a good deal of lameness in my limbs. I was told it was due to disordered kidneys. My kidneys acted irregularly. I used several boxes of Doan's Kidney Pills and felt fine again."

FARM LOANS ARE AGAIN AVAILABLE

U. S. Supreme Court Decision Upholds Federal Land Bank Act.

HELP FOR NORTHWEST

Applications Filed in St. Paul Bank Pending Outcome of Kansas Suit Will Now Be Filled, Says Secretary.

St. Paul, Minn.—Thousands of North Dakota loans will be made by the federal land bank of St. Paul as a result of the supreme court decision, H. K. Edwards, secretary of the land bank, has announced. Pending the high court's decision the bank has refused to take applications for loans from any of the northwestern states, Edwards said.

Mr. Edwards said E. G. Quamme, president of the St. Paul federal land bank, is in Washington conferring with other bank officials and nothing would be done until he returned. Resumption of business by the federal land bank will greatly relieve the credit situation in the northwest, Edwards predicted.

Washington.—The federal farm loan act has been held constitutional by the Supreme court. This is the act under which land banks were established to extend loans to farmers.

The court in sustaining federal court decrees dismissing injunction proceedings brought by Mr. Smith, also held that congress had the authority to exempt the bonds of the bank from taxation.

Millions of dollars in loans to farmers have been held up pending a decision of the court in this case, which was brought by Charles W. Smith, a stockholder in the Kansas City Title & Trust company, who sought an injunction to restrain that institution from investing its funds in bonds by the farm loan banks.

The act was attacked on the grounds that congress was without constitutional authority to establish farm loan banks and to exempt their bonds from taxation.

In an opinion which Commissioner Charles E. Lobdell, of the farm loan board, declared "clears away every legal question and removes every shadow of question as to the legality of the banks or their bonds," the court held that congress had full authority to establish the land banks and the corelative authority to exempt their bonds from state taxation.

Tremendous Financial Operation.

Commissioner Lobdell announced that there would be an immediate issue of farm loan bonds "to an undetermined amount" to finance the hundreds of millions of dollars in loans which already have been approved by the board, and which were held up pending the court's decision.

"A bond offering will be made as soon as the bonds can be made ready," he said, "and immediately thereafter the distribution of funds begun. It will be at least 30 days, however, before funds are available for actual loaning.

"The farm loan board is hopeful that the market may absorb farm loan bonds equal to the borrowing demands of farms of the country, but no one can predict with safety the result of a financial operation of this magnitude.

The court, in a practically unanimous opinion, upheld the authority of the government in both instances. The power to designate fiscal agencies has been conceded to congress since the days of Chief Justice Marshall, the opinion held, and the tax exemption provision was a necessary protection.

SET ASIDE THE LEVER ACT

United States Tribunal Says It Is "Broad as Imagination."

Washington.—Sections of the Lever food control act under which the department of justice has brought many actions for alleged profiteering in necessities have been declared unconstitutional by the supreme court. Chief Justice White read the court's opinion.

Conviction of the L. Cohen Grocery company of St. Louis in having charged an unreasonable profit on sales of sugar was set aside by the court.

In taking this action the court sustained decrees of lower courts which had sustained a demurer to the indictment of the grocery concern. The specific charge was that the defendant charged $10.70 for 50 pounds of sugar, or at the rate of more than 20 cents a pound.

Youthful Robber Is Caught.

Bloomington, Ill.—William Dalton, 16-year-old bank clerk, who stole $772,000 worth of Liberty bonds in Chicago last week, an amount, the police say, that is the largest bond theft on record, was caught in a poolroom at Heyworth, Ill., near here, a few days later. All the bonds except one for $500, which he used for expenses, were recovered in a small leather bag he had tossed into a corner while he played pool as nonchalantly as if it contained old clothes.

YOUNG GIRL FINDS RELIEF

Wants to Tell Other Girls All About It

Evansville, Ind.—"I am eighteen years old and have been bothered for several months with irregular periods. Every month my back would ache and I always had a cold and felt drowsy and sleepy. I work in a millinery shop and I went to work every day, but felt stupid and would have such cramps. I had seen Lydia E. Pinkham's Vegetable Compound advertised and had heard several women talk of it, so mother got me some. This Vegetable Compound is wonderful and it helped me very much, so that during my periods I am not now sick or drowsy. I have told many girls about your medicine and would be glad to help anyone who is troubled with similar ailments. You may use my testimonial as you like."—STELLA LINXWILER, 6 Second St., Evansville, Indiana.

Some girls lead lives of luxury, while others toil for their livelihood, but all are subject to the same physical laws and suffer in proportion to their violation. When such symptoms develop as irregularities, headaches, backaches, bearing-down sensations and "the blues," girls should profit by Miss Linxwiler's experience and give Lydia E. Pinkham's Vegetable Compound a trial.

Habits are hard to break, so it is best to form good ones.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How to Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.—Relief comes so quickly.—Adv.

Didn't Seem Fair.

Dolly had been taken to church for the first time. On returning home her mother asked her what she thought of the service.

"I liked it very much," she replied. "But there was one thing I didn't think was fair."

"What was that, dear?" asked her mother.

"Why, one man did all the work, and then another man came round and got all the money."

Telephones on Public Works.

A complete automatic telephone system, with 101 stations and 1,227 miles of line, is to be built for the sole purpose of communication between the dams and hydraulic works now under construction by the War department along the Ohio river, says Popular Mechanics Magazine. There are 132 of these dams, designed to maintain nine feet of water.

North American Buffalo.

The total number of wild and tame buffalo on the North American continent at present is estimated at more than 9,000 head. Canada has 5,080. This is due to the fact that several years ago, when the Pablo herd in Montana, belonging to Michel Pablo, a half-breed Indian, was for sale, the Canadian government bought the animals, sufficient interest not being exhibited by Americans at that time to make it possible to retain them in this country.

WORKMEN BILL PASSED

Industrial Commission Created and Bill Providing for Changes in Compensation Schedule Passed.

St. Paul—Bills creating the state industrial commission and making numerous important changes in the compensation schedules for injured workmen, were passed by the house with only slight amendments to the drafts prepared by the house interim commission.

Provision for a rate making bureau to prescribe minimum rates and for transfer of the boiler-inspection department and the minimum wage commission to the department of labor and industries, were included in three other bills and passed as part of the industrial program.

The industrial commission as provided in the bill takes over the present state labor department. The only material amendment adopted to this bill was by J. B. Pattison, retaining civil service for inspectors and statisticians. It was adopted, 55 to 44, without serious opposition from the sponsor of the bill. W. I. Norton and John I. Levin, of the interim committee, led the fight. They defeated an amendment by O. D. Nellermoe, taking appointment of the industrial commission away from the governor.

There was prolonged debate over amendments to the compensation schedules. Mr. Levin pointed out that the benefits in the bill, including increases in the weekly maximum to $18 and the minimum to $12, all had been agreed to by representatives of labor and of the employers. The only important amendment adopted was by Erling Swenson, classing the loss of both legs as "total permanent disability."

There was a long fight over an amendment by Representative Nellermoe, providing compensation for an accident causing disfigurement, even when it does not affect the employability of the injured person. Supporters of the bill said the amendment conflicts with the whole theory of the law, which is to compensate for loss of earning power. It was defeated on a roll call, 24 to 78.

Farmers Ask Flood Relief.

Minnesota valley farmers, who have been drowned out by floods, appeared before the senate drainage committee urging a relief appropriation and measures to check future overflows of the river. They blamed drainage operations for increasing the river's flow in flood times. The hearing was continued.

Bills introduced in the house include one by Representative George E. Wicker creating a state public safety commissioner whose duty it shall be to co-ordinate the efforts of all the peace and prosecuting officers of the state to bring about the capture and prosecution of criminals; a bill by Representative F. J. McPartin forbidding the establishment of so-called "army and navy stores" by any one other than an officer of the United States army or navy; a bill by Representative E. W. Cameron authorizing the appropriation of money for soldiers' tuition accrued and unpaid for lack of funds, and one by Representative James Cummings providing old age and disability pensions for Ramsey county employes.

Tonnage Tax Action Deferred.

Action on the tonnage tax bills was deferred again at a meeting of the house committee on taxes, and it was voted to ask Attorney General Clifford L. Hilton to appear before the committee for making his legal grounds for making the proposed levy an "occupation tax." The meeting will be Friday at 9:30 a. m. Several members of the committee objected to the term.

The committee was called to take action on two bills recommended by a sub-committee. One is the statutory tonnage tax act, and the other the constitutional amendment proposed as a "follow up" measure to remove doubts as to constitutionality. Both were drafted by the attorney general and his staff, and the sub-committee recommended that they be introduced as committee bills. However, the "occupation" feature struck the members of the committee unfavorably.

Senate Hits "Pittsburgh Plus."

The trade practice known as "Pittsburgh Plus" was described by Senator George H. Sullivan in the senate as operating to "throttle the industries of the state" and the federal trade commission was asked, in a joint resolution, to issue a complaint against the practice. After a brief debate the resolution was unanimously passed under a suspension of the rules.

Fight Seen on Short Day for Women.

The eight hour day for women will be debated before the house committee on public welfare at 7:30 p. m. Domestics are excluded from provisions of the measure. Labor members will vigorously sponsor the proposed law and others will as vigorously oppose it.

A bill prohibiting roping of horses or other animals was returned to its author by the house public welfare committee. The measure, as drawn, would prohibit farmers and ranchers from properly "hog tying" fractious nags and bulls and prevent "rodeo" and roundup shows at fairs.

DECIDE ORE TAX RATE

House Committee Votes for Six Per Cent Tax as Proposed Tonnage Tax Rate.

After Attorney General Clifford L. Hilton had reaffirmed his opinion that the proposed state tonnage tax bill is constitutional, the committee on taxation of the house of representatives fixed the rate on iron ore at six per cent.

Previous motions setting the figure at 10 and 8 per cent, respectively, were lost overwhelmingly. The vote for 6 per cent carried, 9 to 7.

Senator James A. Carley introduced two tonnage tax bills, in the senate in line with the action taken by the house sub-committee. One bill provides a 6 per cent tax on net profits from ore output as an addition to the present ad valorem tax. The other bill is for a constitutional amendment, under which half the proceeds of the tax will go to current revenue and the other half into permanent funds. The tax bills must originate in the house, but the Carley bills can be considered in the senate while it is waiting for house action.

The committee voted to ask the house for a special order on the two bills Thursday at 2:30 p. m. The 6 per cent rate was included in the constitutional amendment bill by a vote of 11 to 4, after voting down a motion to strike out all reference to the rate. The bills were introduced in the house as committee bills.

HOUSE PASSES MARKET BILL

Four measures of major importance were passed by the House of Representatives. It was the largest day's business accomplished by the lower ness accomplished by the lower branch at this session.

Two of the bills passed have already passed the Senate and the other two now go to upper body for action. The bills follow:

The bill to make the Minneapolis Chamber of Commerce, Duluth Board of Trade and South St. Paul Livestock exchange public markets, opening their membership to all kinds of co-operative organizations. The vote was 95 to 13.

An amendment to the election law which will prevent candidates defeated in the primary from running as independents. The vote was 81 to 36.

The highways administration bill, providing for control by a single commissioner. The vote was 103 to 19.

A co-operative bill, providing that the state commissioner of agriculture shall assist in the organization and conduct of co-operative associations, auditing their books on request, etc. The vote was 98 for and none against.

Vote on Road Bill.

The vote on the highways bill came after consideration at three sessions. Twice attempts were made to amend the bill to provide for a commission to control the building of Minnesota's highways system.

On the final roll call the following representatives voted against the road administration bill: Anderson, Theodore Christiansen, Day, Eaton, Gartner, C. M. Gislason, Grove, Haugland, Iverson, Jacobson, Kozlak, L. E. Olson, Lars Olson, Spindler, Teigen, Thompson, Thorkelson, Washburn and Welch. The following were absent and not voting: Cameron, Emmons, T. J. Greene, Levin, Miner, O'Keefe, Pederson, Tim Perry and West. All the others were recorded in favor of the bill.

Primary Defeat Final.

By a vote of 81 to 36 the House passed the Senate bill to prevent a candidate defeated in the primaries from running for the same office at the general election following.

MAY VOTE ON DEATH PENALTY

Voters of Minnesota may have the opportunity to ballot on the question of death sentences for those convicted of first degree murder.

Representative F. E. Nimocks of Minneapolis, introduced a bill in the house, proposing to amend Article I of the constitution by adding this section:

"Section 19—Every person convicted of the crime of murder in the first degree, as now defined by law, shall be punished by death, provided the jury in finding such person guilty of murder in the first degree, shall include in its verdict a recommendation that the death penalty be imposed. The execution of such death sentence shall be by electrocution. Suitable laws shall be enacted by the legislature for the carrying out of the provisions hereof."

Kill Movie Censor Bill.

The motion picture censorship bill was officially killed in the Senate by the adoption of a report from the committee on general legislation recommending the measure for indefinite postponement. No minority report was presented and the majority report was adopted without objection.

Drafting Primary Reform Bills.

Hope for definite steps towards reform of the primary election laws through the introduction of bills providing for at least indorsement convention is strengthened. Members of the sub committees met and discussed what should be done. It was determined that the Senate committee make the first move. A bill will be drafted at once providing for legalized conventions to recommend candidates

Pure, Rich Blood Will Keep Your Body Vigorous and Healthy

When impurities creep into your blood the first symptoms are usually a loss of appetite, followed by a gradual lessening of energy, the system becomes weaker day by day, until you feel yourself on the verge of a breakdown.

Nearly everybody needs a few bottles of S. S. S., the great vegetable blood remedy, to cleanse out all impurities about twice a year. It is an excellent idea to take this precaution to keep the system in a vigorous condition so as to more easily resist disease to which every one is subject. S. S. S. is without an equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young.

Mortgage Foreclosure Sale.

Notice is hereby given that default has been made in the conditions of that certain mortgage duly executed and delivered by Oscar C. Sandberg, a single man, mortgagor, to Northwestern Trust Company, a corporation, of St. Paul Minnesota, mortgagee, bearing date the 29th day of April 1916, with power of sale therein contained duly recorded in the office of the Register of Deeds of the County of Marshall, State of Minnesota, on the 3rd day of May, 1916, at 10:00 A. M. in Book 82 of Mortgages on page 411, which said mortgage, together with the debt secured thereby was duly assigned by said Northwestern Trust Company, mortgagee, to Francis J. Schaefer by written assignment dated June 1st, 1916, and recorded in the office of said Register of Deeds on the 3d day of June, 1916, at 1:00 P. M., in Book 88 of Mortgages on page 446, and which said mortgage together with the debt secured thereby was further duly assigned by said Francis J. Schaefer to Northwestern Trust Company, a corporation of St. Paul, Minnesota, by written assignment dated August 1st, 1919, and recorded in the office of said Register of Deeds on the 17th day of April 1920, at 9:00 A. M., in Book 86 of Mortgages on page 340; which default has continued to the date of this notice by the failure and neglect of said mortgagor to make payment of the sum of $60.00 interest by said mortgage secured, which by its terms became due and payable on the 1st day of December, 1918, and other interest falling due later. And whereas the said Assignee of Mortgagee and holder of said mortgage has elected and does hereby elect to declare the whole principal sum of said mortgage due and payable at the date of this notice under the terms and conditions of said mortgage, and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $1000.00 with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1918, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1919, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $162.40 taxes paid by the undersigned on July 31st, 1919, with interest thereon at 6 per cent per annum since July 31st, 1919, being a total due at date of this notice of one thousand three hundred seventy-three dollars and twenty-eight cents ($1,373.28), and whereas the power of sale has become operative and no action or proceeding at law or otherwise has been instituted to recover the debt secured by said mortgage or any part thereof. Now therefore, notice is hereby given that by virtue of said power of sale contained in said mortgage and pursuant to the statute in such cases made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by the same, towit: the East half (E½) of the Northeast quarter (NE¼) of Section Twenty-six (26) and the West half (W½) of the Northwest quarter (NW¼) of Section twenty-five (25) in Township one hundred fifty-seven (157) North of Range thirty-nine (39) west of the 5th Principal Meridian in Marshall County, State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the court house in the City of Warren in said County and State on the 10th day of April, A. D. 1921, at 10:00 o'clock A. M., of that date, at public vendue to the highest bidder for cash, to pay said debt of $1,373.28 and interest and the taxes paid and to be paid if any on said premises, and $50.00 attorneys fees as stipulated in said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from date of sale as provided by law.

LABOR RULES BURDEN COSTS OF R. R. SERVICE

U. S. Railroad Labor Board Asked to Stop Payments for Work Not Done.

WOULD SAVE $300,000,000

Lower Cost of Service Can Be Secured Only by Cutting Expense, Atterbury Says.

Urging emergency action by the United States Railroad Labor Board to end "gross waste and inefficiency" prevailing under present working rules and conditions, General W. W. Atterbury, vice president of the Pennsylvania railroad, in a statement to the board in session at Chicago, said in part:

Many railroads are not now earning, and with present operating costs and traffic have no prospect of earning, even their bare operating expenses, leaving them without any net return and unable to meet their fixed charges.

The emergency presented can be met either by an advance in freight and passenger rates, or by a reduction in operating expenses.

With declining prices and wages in industry and agriculture, the country **demands that the solvency of the railroads must be assured by a reduction in operating expenses, and not by a further advance of rates.**

The National Agreements, rules and working conditions forced on the railroads as war measures cause gross waste and inefficiency.

Would Save $300,000,000

I estimate that the elimination of this waste would reduce railway operating expenses at least $300,000,000. It would be far better to save this sum by restoring conditions of efficient and economical operation than to reduce wages.

We believe that as the wages of railroad employees were the last to go up they should also be the last to come down, but we do insist that for an ample wage an honest day's work shall be given. The public has the right to insist that this must be obtained.

The public has also the right to expect that the railway executives, with the co-operation of the regulatory bodies and the employees, will as rapidly as possible reduce the cost of railway operation so as to insure eventually a reduction in rates. Ultimately a readjustment of basic wages will be required. Meantime it is to the interests of all concerned, including labor, that the rules and working conditions shall be made conducive to the highest efficiency in output per man.

Losses in Income Irreparable

When wages have been too low the harm done has been offset by retroactive increases. Losses of railway net operating income are irreparable. You cannot make retroactive tomorrow the savings that should have been made today.

The board cannot possibly write the rules and working conditions of every railroad in this country and adjust them equitably to varying geographical, operating and social conditions.

It rests entirely with the board to determine whether this whole situation shall drift into chaos, and orderly procedure become impossible except at the price of railroad bankruptcy, financial shock and still wider unemployment.

The Labor Board can prevent this catastrophe by declaring that the National agreements, rules and working conditions coming over from the war period are terminated at once; that the question of reasonable and economical rules and working conditions shall be remanded to negotiations between each carrier and its own employees; and that as the basis for such negotiations, the agreements, rules, and working conditions in effect on each railroad as of December, 31, 1917, shall be re-established.

If the board will do this, the Labor Committee of the Association of Railway Executives will urge upon every railroad company a party to Decision No. 2, that no proposal for the reduction of basic wages shall be made within the next succeeding ninety days. This will afford an opportunity to gauge the economies which can be accomplished through more efficient rules and working conditions.

It also will afford additional time in which to realize the benefits of a further decline in the cost of living.

Relief Imperative and Equitable

The course which we are recommending is not only imperative but equitable.

The War Labor Board declared that the war period was an interregnum, to be used neither by employer nor employee for the purpose of bettering or impairing the position of either.

To perpetuate as the normal rules and working conditions on the railroads, the extraordinary provisions of the war period is a distinct violation of all promises. The war has now been over more than two years. **The time has come when, if the railways are to be efficiently and economically operated, in accordance with the provisions of the Transportation act, normal conditions of employment and of working conditions must be restored and increased efficiency of labor be secured.**

Notice of Annual Election

Notice is hereby given that the regular annual village election for the village of Holt, Marshall County, Minnesota, will be held on Tuesday March 8th. 1921, between the hours of 9 o'clock A. M. and 5 o'clock P. M. in the Sollom Store Building, in said village for the election of the following officers:

President, Treasurer and Clerk for one year terms, Trustee for three years to succeed H. J. Oien, Assessor, 2 Justices and 2 Constables for two year terms each, also to vote upon the following question:

Shall the village Council be empowered to grant licenses for the operating of pool and billard tables?

And also to vote upon the following proposition:

Shall the Village of Holt, Marshall County, Minnesota, issue and negotiate its bonds in the sum of Twenty Thousand dollars ($20,000) with interest at six per cent per annum, payable sem-annually, for the improvement of the village's electric light plant, said bonds to be dated March 1st, 1921, and to mature on March 1st 1936?

By order of The Village Council.
Dated this 23rd day of Feb. 1921.

Obituary.

Daniel N. Nelson was born in Varmeland, Sweden, May 21st. 1836. He went to Norway at the age of 16 and in 1866 was married to Gunhild Olsdatter Slimsa. Five children were born to this union of whom two are still living: Mrs. Otto Johnson and Mrs. Gilbert Knutson both of Holt. Their mother died March 15th. 1886. Mr. Nelson was married again in 1888 to Thora Stromstien. Nine children were born to this union, 8 of whom are living: Andrew, Nels, Knut, Daniel, Gilbert, [illegible], Thea, Anna, and Mrs. Andrew Arnevik, deceased.

The family emigrated to America in the spring of 1904 and settled near Holt April 7th., the same year. Mr. Nelson was a stone mason by trade but spent his last years on a farm near Holt.

He died at his home at 3 o'clock P. M. Feb. 6th.. 1921 and was buried Feb. 10th. in the Holt cemetery.

The funeral services were conducted by Rev Ordahl at the Lutheran church in Holt.

Mr. Nelson was the father of 14 children, he had 50 grand children and 19 great grand children.

Card of Thanks.

We wish to thank our neighbors and friends for their help and sympathy during the sickness and death of our father and grandfather, Daniel N. Nelson, also for the beautiful floral offerings for the the funeral.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

'To him that hath shall be given' —

Was the Biblical version of our modern saying: "Nothing succeeds like success." So it was with Dr. Pierce, of Buffalo, N. Y., who, over 50 years ago, gave to the world a Prescription which has never been equalled as a tonic for the weaknesses of women. Many women in every hamlet, town or city will gladly testify that Dr. Pierce's Favorite Prescription did them a world of good. Ask your neighbor.

Another of this great physician's successful remedies is known as Dr. Pierce's Golden Medical Discovery and, like the "Prescription," is now sold by druggists everywhere, in both liquid and tablets. This medicine was a success from the start, for the list of men and women all over the universe who have successfully used it for indigestion and as a blood tonic and system builder, makes an amazing total of thousands.

Just Like Home.

The woman district attorney was on her first case. For half a minute she thundered oratory, piling question after question upon the quaking defendant, without giving him a chance for a reply. Then after her fifteenth: "Now, didn't you?" she paused for breath. In the ensuing silence those in the courtroom heard the judge murmur dreamily:

"Yes, my dear, you're perfectly right, perfectly right."—American Legion Weekly.

ALLIED FORCES IN RAPID ADVANCES

First Contingent French Troops Within Six Miles of Dusseldorf,

GERMANS MAKE APPEAL

Will Ask League of Nations to Halt Occupational Move—Final Alternative Plan Rejected by Allies.

Berlin.—The first contingent of French troops assigned to participate in the occupation of Duesseldorf is reported to have arrived at Benrath, six miles southwest of Duesseldorf.

London.—The Rome correspondent of the London Times quotes the Epoch as saying the Italian cabinet met Monday and approved the attitude of the Italian delegates in London. It emphasized, however, that the active support of Italy could not be counted upon in the event of a movement against Germany.

Germany will appeal to the league of nations against the action of the allies in imposing penalties for nonfulfillment of her reparations.

Dr. Simons in his reply to Mr. Lloyd George said:

"Germany is not a member of the league, but she has signed the pact of the league, and I therefore announce in the name of the German government an appeal to the assembly of the league of nations against the sanctions with which we are menaced."

Ultimatum Reluctantly Signed.

London.—The negotiations over the German indemnity have been broken. Action has come with the march of French, British and Belgian forces into Germany and the occupation of a large section of her richest manufacturing country. The allied troops are on the move, a late Berlin dispatch saying French troops who will occupy Duesseldorf have advanced to within six miles of that city.

The allied ultimatum was foreclosed apparently with reluctance by the British prime minister. The French do not appear regretful, while the Germans left Lancaster House, where the conferences have ben held, plainly depressed, to start home tomorrow.

WOOD GIVEN ISLAND MISSION

General Will Not Be Governor of Philippines But Special Investigator.

Washington.—Major General Leonard Wood has been detailed at the request of President Harding to go to the Philippine islands and make a study of conditions there in the light of Philippine aspirations for independence.

The mission was formally intrusted to General Wood at a conference between him and the president, at which Secretary Weeks of the war department also was present. It was decided that such a plan would be preferable to Mr. Harding's original plan to make the general governor of the islands.

In making the original offer of the Philippine governorship to General Wood, Mr. Harding is understood to have been moved primarily by a desire to obtain full information about the details of Philippine conditions. It is believed that General Wood himself made the suggestion that he could conduct the inquiry more effectively by retaining his rank in the army than by leaving it to accept a civil appointment as governor.

CALL FIRST CABINET MEETING

President Harding Dines With Leaders and Plans Extra Session.

Washington.—Legislative policies of the new administration were discussed by President Harding with Republican congressional leaders at a dinner Monday night at the White House. Tuesday the president presided at the first meeting of his cabinet. The call went out the day before and the hour was fixed at 11 a. m.

It was said the cabinet session would be of a general character and that the president would take up in particular the question of relations of Costa Rica and Panama, and the program for the special session of congress. Information and advice received at the dinner is expected to be laid before the cabinet by Mr. Harding and a decision on a date for calling congress into session may follow.

No definite schedule of cabinet meetings has been agreed upon.

The question of the special session of congress was discussed by the president with Senator Underwood of Alabama, who is understood to have urged that a date some time early in April be selected.

Petrograd In Flames.

London.—The Central News correspondent at Helsingfors reports receipt of news of the most serious character from Petrograd. The advices said many of the residential and business quarters were in flames.

The soviet government, the message continued, was dispatching a large number of troops from Moscow to Petrograd to assist in restoring order. The Petrograd rebels, it was added, were planning to extend to these troops a friendly reception in the hope of winning them over.

RUB OUT SORENESS, SPRAINS, BACKACHE WITH OLD ST. JACOBS OIL

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now, listen! That's lumbago, sciatica, or maybe from a strain, and you'll get blessed relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil!" Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin.

Limber up! Don't suffer! Get a small trial bottle from any drug store, and after using it just once you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years. Stop drugging kidneys! They don't cause backache, because they have no nerves, therefore can not cause pain.—Adv.

The Perpetual Smile.

"Do you disapprove of pink tea diplomacy?"

"I don't know anything much about diplomacy," replied Uncle Bill Bottletop, "except that it depends on a man's suavity and his ability to conceal his feelings. I should say anybody who could drink pink tea and go on pretendin' he was havin' a perfectly pleasant time ought to have the makin' of a good diplomat."

Dismal Forebodings.

Arbuthnot Browne, the Boston millionaire, was talking about masterful wives.

"Masterful wives," he said, "were in the minority heretofore, but with the coming of universal suffrage the majority of wives are getting pretty masterful.

"Believe me," Mr. Brown concluded, "it won't be only in his office that the husband of the future, when he starts to dictate, will be taken down."

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.—Adv.

Many Claim Columbus as Native.

Italy, Spain, possibly Portugal, and now Corsica (and therefore France) claim Christopher Columbus as their own. An increasing number of historians and scholars in Galicia believe that he was a Galician. The origin of the belief was that one of his ships was called La Gallega (the Galician), and sailed from Pontevedra.

GERMANS ADHERE TO FIRST POSITION

Dr. Simons Is Forbidden from Going Beyond Counter Proposals Already Made.

CONFERENCE TO END

Most Optimistic of German Delegates Do Not Hope for Acceptance of Proposals and London Meet May Soon Break Up.

Berlin.—After conferences by members of the cabinet, reichstag leaders and technical advisers, it is authoritatively stated, instructions were sent to Dr. Simons at London in which he was told that the German government would not permit him to exceed the counter proposals already made.

London.—A private conference was held among Premier Lloyd George, Premier Briand of France, and Dr. Walter Simons, the German foreign minister, at the residence of Earl Curzon, the foreign minister. The conference was arranged by Lord d'Abernon, British minister to Germany.

Statement and Counter Proposals.

Unless new instructions are received from Berlin, Dr. Simons, German foreign secretary and head of the German delegation on reparations, was to read a long statement designed to refute the argument made by Premier Lloyd George before the conference last week.

This statement will be followed by counter proposals which the most optimistic of the German delegation do not believe the allies will accept.

Conference May Break Up.

In such event, the reparations conference will break up and the penalties outlined by Mr. Lloyd George will be enforced.

Dr. Simons and his colleagues have spent the greater part of the time since the delivery of the ultimatum in drawing up a reply thereto. The foreign minister will present figures in an effort to prove that Mr. Lloyd George's statement respecting German taxation was inaccurate, and will ask the allies to suggest a means whereby Germany can meet their economic demands.

MARINES TO PANAMA

United States Seeks to Drive Out Costa Ricans.

First Notes of New Secretary of State Aimed at Solution of Territorial Dispute.

Washington.—The United States is preparing to send a force of marines and will back them up with military troops to drive the Costa Rican army from Panama if it is not immediately withdrawn, it was learned on high authority here.

Although the notes sent to both the Panamanian and Costa Rican governments are precisely alike, the power of the United States is aimed exclusively at Costa Rica. Panama, it was learned officially, had already agreed to cease hostilities. The question is now solely one between Costa Rica and the United States, it was stated at the Panamanian legation. It was pointed out that the note was sent solely because Costa Rica has invaded a section of Panamanian territory not involved at all in either the award by President Loubet or the interpretation by Chief Justice White of the United States supreme court.

Rear Admiral Bryan, in charge of the American fleet in Latin American waters, has been instructed to set with the utmost delicacy and not to land forces except in gravest emergency without first reporting conditions to the state department.

Washington.—Cessation of hostilities between Costa Rica and Panama is demanded in identical notes which the state department dispatched to the governments of those two countries by Charles Evans Hughes, the new secretary of state.

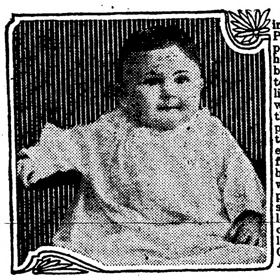
This action was the first of the Harding administration in the realm of foreign affairs and was said to have been based on the grounds of broad expediency as the dispute between the Central American republics involved American interests in the Panamal canal zone.

A peaceful solution of the dispute over the territory of Coto on the basis of the White award is understood to have been suggested.

Retiring Senator Fired Upon.

Washington.—Former Senator Chas. B. Henderson of Elko, Nev., was shot and slightly wounded in the forearm by Chas. A. Grock of Takoma Park, Md., but a former resident of Reno, Nev. The shooting occurred in Mr. Henderson's office in the senate office building, where he was cleanretirement from the senate. Grock ing up some loose ends after his was turned over to the police.

Mr. Henderson said the man had been treated in Nevada for mental trouble.



DARLING BABY BRIGHTENS HOME

Children's Laughter a Pleasing Sound

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We had six children die almost at birth. From one hour to nineteen days is all they have lived. Before my next one was born I took a dozen bottles of your Vegetable Compound, and I can say that it is the greatest medicine on earth, for this baby is now four months old, and a healthier baby you would not want. I am sending you a picture of her. Everybody says 'That is a very healthy looking baby.' You have my consent to show these few lines to anybody."—Mrs. C. W. BENZ, 131 3rd Avenue, Altoona, Pa.

Mrs. Janssen's experience of interest to childless wives.

Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are fond of children, and for a considerable time after we were married I feared I would not have any. I began taking Lydia E. Pinkham's Vegetable Compound, and it strengthened me so I now have a nice, strong, healthy baby girl. I suffered very little at childbirth, and I give all the credit to your medicine, and shall always recommend it highly."—Mrs. H. H. JANSSEN, Millston, Wis.

Mrs. Held of Marinette, Wis., adds her testimonial for Lydia E. Pinkham's Vegetable Compound. She says:

Marinette, Wis.—"I was in a nervous condition and very irregular. My doctor advised an operation. My husband brought me one of your booklets and asked me to try Lydia E. Pinkham's Vegetable Compound. It overcame my weakness so that I now have a healthy baby girl after having been married nine years. I am glad to recommend your medicine, and you may use my letter as a testimonial."—Mrs. H. B. HELD, 330 Jefferson St., Marinette, Wis.

There are many, many such homes that were once childless, and are now blessed with healthy, happy children because Lydia E. Pinkham's Vegetable Compound has restored the mother to a strong and healthy condition, as it acts as a natural restorative for ailments as indicated by backache, irregularities, displacements, weakness and nervousness.

Women everywhere should remember that most of the commoner ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative. It can be taken with perfect safety and often prevents serious troubles.

Therefore if you know of any woman who is suffering and has been unable to secure relief and is regretfully looking forward to a childless old age, ask her to try Lydia E. Pinkham's Vegetable Compound, as it has brought health and happiness into so many homes once darkened by illness and despair.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

LOOKED LIKE PROMISED MAN

Victim of Carelessness Came Back With Pointed Remark Concerning Companion's Immediate Future.

Two negroes were working in a coal bin in a Mississippi town, one down in the bin throwing out the coal and the other wielding a shovel. The one inside picked up a large lump and heaved it carelessly into the air, struck the other a resounding blow on the head.

As soon as the victim had recovered from his momentary daze he walked over to the edge of the bin and, peering down at his mate, said:

"Nigger, how come you don't watch where you throws dat coal? You done hit me smack on the haid."

The other looked surprised.

"Did I hit you, nigger?"

"You sho' did," came the answer. "And I jes want to tell you, I'se been promising the debil a man a long time, and you certainly does resemble my promise."—New York Evening Post.

New Alloy Promises Much.

A metal lighter than any yet known and as strong or stronger than steel has for years been the dream of many, and every now and then rumors are circulated to the effect that at last it has been discovered. The latest report relates to a new magnesium alloy said to have been discovered by a metal company in Montreal. The new alloy, it is stated, is only two-thirds the weight of aluminum, and is "as strong as steel." It is said to be especially suitable for pistons and connecting rods of aero and motor car engines, where strength and lightness are desirable.

Will Rheumatism Again Bind You Hand and Foot?

If you had Rheumatism last year and treated only the pains of the disease by rubbing with liniments and lotions, you can be sure that soon again you will be in the shackles of this relentless foe. You may get some slight temporary relief from the pains of the disease by the use of these local remedies, but Rheumatism is too real and relentless a disease to be rubbed away.

So many cases of Rheumatism come from a tiny germ in the blood, that you should try a remedy that has proven so thoroughly satisfactory in these cases. S.S.S., the fine old blood remedy cleanses the blood of all impurities, and removes all disease germs that may creep into the blood. Begin taking S.S.S. today, and if you will write a complete history of your case, our medical director will give you expert advice, without charge. WOULD GET RID OF "JUNK"

Writer Protests Against Custom, All Too Common, of Keeping Useless Old Household Goods.

Articles which owe their value to their utility may become unserviceable, but the owners, instead of getting rid of them, find some niche in the home in which to store them, or, worse still, keep the old goods in a place of honor with modern furnishings and make their homes ugly as well as comfortless.

Where families have lived in one house for years, miscellaneous articles of useless furniture will be found lumbering up the place. If the more sensible and practical members of the family ask for their disposal, and comment on their uselessness they get a lecture entitled sentimental value.

The amazing part of the sentimental value plea is the little regard these misers of rubbish place on the tastes and desires of other members of the family. The worshipers of household goods are likely to become exacting, and unhappily these failings increase as they grow older.—San Francisco Chronicle.

UNWILLING TO TAKE CHANCE

Colored Man Evidently Had Little Confidence in His Own Judgment in Important Matter.

A visitor in Kentucky came across that rare specimen, an unmarried colored man.

The negro was a quiet, elderly person, not shiftless, but quite industrious, so the northern man felt curious and determined to find out why he had remained single.

"Uncle Jim, how does it happen that you are so opposed to matrimony?" The old fellow looked up with a grave face, but there was a twinkle in his eye, as he replied: "Me suh! I ain't erposed to matrimony."

"Well, why is it you have never married?" his inquisitor continued. "Haven't you seen anyone you liked?"

"Lawdy! yessah—but you see it's thisaway; I couldn't resk my judgment."

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Hastings—The garage of J. M. Rinardy, at Hampton, was robbed of $700 worth of automobile casings and tires.

Hastings—At a meeting of the Hastings board of education tonight E. A. Durbahn was elected superintendent of schools for the coming year.

Luverne—Authorities are looking for Eddie Mortensen, an Omaha passenger brakeman, who it is alleged, appropriated a draft for $700 and fled.

Hutchinson—At a meeting of the McLeod county agricultural association, the date for the 1921, or 49th annual fair, was fixed for Sept. 27 to 30, inclusive.

Marshall—D. E. Brunskill and Louis Hanson, both of Russell were badly injured when the automobile in which they were riding crashed in the road and turned over.

Winona—James B. McNelty of Avoca, Wis., was elected county agricultural agent for the Winona county farm bureau at a meeting of the board of directors here.

Worthington—Henry Wasslund, 54 years old, for 29 years a farmer in Dewald township, committed suicide by hanging himself from a rafter in a barn on his farm.

Clinton—Discing and dragging of fields already has been begun in several fields in this section, the mild open winter having put the ground in excellent condition for such work.

Hutchinson—Mildred Prindle, of Hutchinson, won the district high school declamatory contest, here last night, in which girls representing high schools of Cokato, Buffalo and Hutchson participated.

St. Paul—Thomas Dixon, Negro, who on February 22 shot and instantly killed Mrs. Alberta Williams and Miss Rose Brown, was sentenced to Stillwater prison for life when he pleaded guilty to murder in the second degree.

Hibbing—More pulpwood has been cut in the woods of northern Minnesota the last five years than ever before in the history of state logging, according to John McKusick, who has several camps located near International Falls and Pengilly.

Montevideo—Turning the valley of the Minnesota river into a state park as means of solving the problem of flood control in this section is being considered here. The subject already has been suggested publicly and, it is said, further action may be taken.

Bemidji—A modern junior and senior high school building will be erected on the site of the school recently destroyed by fire, the board of education decided. The new school will have a capacity of 800 students and will be one of the best educational buildings in the northwest.

Rochester—M. O. Smith, former alderman at large, was found guilty in district court here of grand larceny in the second degree. The charge against Smith was that while a city officer he refused a check to pay election clerks and judges but that he paid only part of these and converted the balance to his personal use.

Minneapolis—Pat Murphy, alleged millionaire lumberman of Gilbert, who operates a soft drink place for diversion, was one of the 18 men arrested by federal prohibition agents in a series of raids last night at Eveleth, Gilbert, Little Falls, Chaska and Waconia, Paul D. Keller, supervising federal prohibition agent, reported.

Owatonna—A controversy between factions of the city council which has extended over two years, has ended with the issuance of a permit by the council to allow the Standard Oil company to build an oil filling station. Property owners in the district, however, declare their intention of fighting the matter in the courts.

St. Paul—Every possible aid to "those who knock at our doors" is urged by Royal A. Stone, state Americanization chairman of the American Legion, in a bulletin which just has been issued. The bulletin urges aid in education by establishment of evening schools where none now exist, and by aiding new arrivals to obtain employment.

Fergus Falls—Ross Petrie killed himself at his home, near this city. A party in honor of his twenty-second birthday anniversary was held and when it was over he expressed a wish to shoot himself. A gun was taken away from him, but he slipped away in the night and hanged himself to a tree. Disappointment in a love affair given as the cause.

St. Paul—Minnesota, ranking 17 in population among states in the Union, comes 15th in the number of motor vehicles registered in 1920, according to figures compiled by the American Automobile association. It possesses approximately 231,250 vehicles, of which 204,300 are passenger cars, 19,400 commercial cars and 7,550 motorcycles.

Owatonna—A final meeting of the Steele county organization for raising funds for European relief council and the Near East relief showed that with a quota of $11,240, Steele county raised a total of $11,305.

MRS. BARRETTE TELLS OF SPLENDID RESULTS

Prominent New Hampshire Woman Says Tanlac Brought About a Wonderful Change in Her Condition.

MRS. AURORE BARRETTE of Manchester, New Hampshire

"Tanlac is a grand medicine, and I think every suffering woman ought to know about it," was the statement made recently by Mrs. Aurore Barrette, at her residence, 133 Second Street, Manchester, New Hampshire. Mrs. Barrette is a well known and highly respected resident of that city.

"I have not felt at all well for the past year or more," she continued. "I haven't been sick enough to be in bed. but I was far from being a well woman. At times I thought I had kidney trouble, for I suffered almost constantly from severe pains across my back, just over the kidneys. Whenever I tried to do any housework at all that dull pain would be there, and if I attempted to stoop over it just felt as though my back would break. I would get so weak and worn out I would have to sit down and rest several times a day, and I felt tired all the time.

"This condition made me awfully nervous, so that I rarely ever slept well at night, and every now and then I would jump in my sleep, as if in a fright, and my condition was really becoming serious.

"Only two bottles of Tanlac have brought about a wonderful change in my condition. In fact, the results I have received from this medicine have really surprised me. Those terrible pains in my back which used to trouble me every day have almost disappeared, and I am going to keep on taking Tanlac until they leave me entirely. I have lots of energy now, and am not only able to do my housework, but I get through the day without feeling the least bit tired. I am no longer nervous like I was, and I sleep well at night.

"I shall always be thankful for what Tanlac has done for me."

MORTGAGE FORECLOSURE SALE

Notice is hereby given that default has been made in the conditions of that certain mortgage duly executed and delivered by Oscar C. Sandberg, a single man, mortgagor, to Northwestern Trust Company, a corporation, of St. Paul Minnesota, mortgagee, bearing date the 29th day of April 1916, with power of sale therein contained duly recorded in the office of the Register of Deeds of the County of Marshall, State of Minnesota, on the 3rd day of May, 1916, at 10:00 A. M., in Book 82 of Mortgages on page 411, which said mortgage, together with the debt secured thereby was duly assigned by said Northwestern Trust Company, mortgagee, to Francis J. Schaefer, by written assignment dated June 1st, 1916, and recorded in the office of said Register of Deeds on the 3d day of June, 1916, at 1:00 P. M., in Book 82 of Mortgages on page 446, and which said mortgage together with the debt secured thereby was further duly assigned by said Francis J. Schaefer to Northwestern Trust Company, a corporation of St. Paul, Minnesota, by written assignment dated August 1st, 1919, and recorded in the office of said Register of Deeds on the 17th day of April 1920, at 9:00 A. M. in Book 86 of Mortgages on page 340; which default has continued to the date of this notice by the failure and neglect of said mortgagor to make payment of the sum of $60.00 interest by said mortgage secured, which by its terms became due and payable on the 1st day of December, 1918, and other interest falling due later. And whereas the said Assignee of Mortgagee and holder of said mortgage has elected and does hereby elect to declare the whole principal sum of said mortgag due and payable at the date of this notice under the terms and conditions of said mortgage, and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $1000.00 with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1918, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1919, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $152.40 taxes paid by the undersigned on July 31st, 1919, with interest thereon at 6 per cent per annum since July 31st, 1919, being a total due at date of this notice of one Thousand three hundred seventy-three dollars and twenty-eight cents ($1,373.28), and whereas the power of sale has become operative and no action or proceeding at law or otherwise has been instituted to recover the debt secured by said mortgage or any part thereof. Now therefore, notice is hereby given that by virtue of said power of sale contained in said mortgage and pursuant to the statute in such cases made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by the same, towit: the East half (E½) of the Northeast quarter (NE¼) of Section Twenty-six (26) and the West half (W½) of the Northwest quarter (NW¼) of Section twenty-five (25) in Township one hundred fifty-seven (157) North of Range thirty-nine (39) west of the 5th Principal Meridian in Marshall County, State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the court house in the City of Warren in said County and State on the 19th day of April, A. D. 1921, at 10:00 o'clock A. M., of that date, at public vendue to the highest bidder for cash, to pay said debt of $1,373.28 and interest and the taxes paid and to be paid if any on said premises, and $50.00 attorneys fees as stipulated in said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from date of sale as provided by law.

The man with a well filled silo is pretty generally a well satisfied farmer. Almost any kind of green feed can be successfully stored in a silo, and will pay good dividends if fed to the dairy cows during the winter months.

Tell us the news and help your home paper.

All weather indications point to an early spring and the prudent farmer is already planning the seasons work, crops, etc.

Winter is a good time to plan the work ahead for next summer. One thing is certain; different methods of farming will have to be followed, or the sow thistle will take possession of everything.

FROZEN SEED

Wheat which has been stored in the bin so it has been subject to moisture, freezing and thawing, after sifting snow and driving rains, will be sure to have a large percentage of the grains entirely dead and many others so weak that it will be impossible for them to send up plants sufficiently strong to be of much crop value.

Test your seed in blotter. It should grow 95 per cent strong.

Several more ministers came Wednesday to attend the circuit meeting at the Lutheran church. This makes a large number of ministers and delegates in attendance and they have been having good meetings and good attendance.

The Legion has discontinued showing pictures at Holt and several exhibition of pictures from the University will be given for the benefit of the school. Schools are taking greater interest in public speaking and athletics, and we need special funds to give Holt a start this year. The schools in this part of the state have just organized and will have a speaking contest and athletic meet at Middle River before the end of the school year. We shall use the profit from the moving pictures on the following projects as far as the money will reach: a stage, a screened-in tennis court, a regulation basket ball court, a volley ball court. The school should be a public playground and if properly equipped will give both old and young healthful fun and exercise. We would appreciate large attendance at the movies.

Your money will entitle you to the show and to a permanently equipped playground. The flat expense in putting on the show is about $12. The pictures are educational, interesting, and varied.

Following is the program for Saturday night. None of these pictures have been shown here before.

War film, showing action- two reels, Thru the Panama Canal, A mile in the sky, Hawaiian Islands and "As others see us" by 2 monkey actors. These pictures will be shown Saturday night and Monday at 12:30.

Movies Saturday night.

School Attendance

All parents should make a special effort to have regular attendance the rest of the school year. The work from now to the end of the year may make the difference between passing and failing in the grade of a pupil. Regular attendance is especially important in the case of children who are hauled. If the attendance were regular enough, transportation would cost the district nothing as the state pays the district 8 cents a mile per pupil for each day of attendance. Based on the average attendance of the first six months of school we shall lose several hundred dollars. Regular attendance will still mean considerable money saved.

The Holt high school girls won the basket ball game at this place Friday night against the Badger high school girls by a score of 10 to 8, and then went to Middle River Saturday night and won the game with the school girls there by a score of 24 to 9.

The Holt men's team won a hard fought game here Monday night with the Middle River team by a score of 20 to 16.

Our men's basket ball team went to Middle River Wednesdoy night and were defeated by the team of that place by a score of 20 to 8.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

STOMACH PAINS GONE

Eatonic Made Him Well

"After suffering ten long months with stomach pains, I have taken Eatonic and am now without any pain whatever. Am as one raised from the dead," writes A. Percifield.

Thousands of stomach sufferers report wonderful relief. Their trouble is too much acidity and gas which Eatonic quickly takes up and carries out, restoring the stomach to a healthy, active condition. Always carry a few Eatonics, take one after eating, food will digest well—you will feel fine. Big box costs only a trifle with your druggist's guarantee.

STATE RESTS IN HAMON TRIAL

Attempt to Clinch Dying Declarations by Last Testimony Heard.

DEFENSE BEGINS CASE

Close of Sensational Ardmore Murder Trial Draws Near—Mrs. Hamon Tells of Visits to Husband's Hotel Home.

Ardmore, Okla.—The state has rested its case in the trial of Clara Smith Hamon, charged with having murdered, last November, Colonel Jake L. Hamon, Republican national committeeman from Oklahoma and millionaire oil and railroad man. The defense, casting aside its right to make an opening statement to the jury, rushed through the greater part of its witnesses. As court adjourned the defense informed the court Clara Hamon's sister and niece would precede the defendant on the stand and with Clara's testimony, the defense would rest its case.

Mrs. Hamon Visits Fated Suite.

Mrs. Jake L. Hamon, the widow, clad in full mourning, took the witness stand and testified that on two occasions she had visited the suite in an Ardmore hotel occupied by her husband and the defendant.

Speaking in a well modulated voice and plainly making a struggle to retain her selfcontrol, Mrs. Hamon told the court that on one occasion she had been in the rooms when Clara Hamon came in, tossed gloves and hat on the bed and, seeing Mrs. Hamon, ran out.

Administrator Last Witness.

Once, the widow said, she took a small pistol from Clara's room. On that occasion, Mrs. Hamon testified, her husband took her to a train and sent her back to Chicago within one hour and a half after she had been to the suite.

The state's final effort was an attempt through Frank L. Ketch, former business manager for Colonel Hamon and now administrator of his estate, and Mr. Dunlap, also a business associate, to clinch its alleged dying statements from Mr. Hamon that the young defendant, former wife of a nephew of Colonel Hamon and with whom he had lived here for several years, shot him as he lay on the bed in his own room.

REDS ADVANCING ON POLAND

Uprisings and Bloody Advances Mark Struggle in Russia.

Stockholm.—The Aftonbladet's Riga correspondent says that from 18 to 20 Bolshevik divisions with artillery and an aviation corps are advancing against Poland in the districts of Smolensk, Vitebsk, Orsha Mohilev and north of those places.

Copenhagen.—Advices from Helsingfors say the fortress of Krasnoye Gorka has been recaptured from the Russian revolutionaries by soviet troops and the garrison now consists chiefly of a cadet corps.

Leon Trotzky, soviet war minister, has ordered big howitzers to Oranienbaum, on the Gulf of Finland, opposite Kronstadt, after executing M. Kolesov, chief of the flying station, and 44 other rebels, the advices say.

The Moscow uprising is reported quelled after the severe street fighting.

Conditions in Kronstadt are said to be serious, owing to lack of food, none having been received from the American Red Cross or the Finnish relief depots. Because of the large civilian population the garrison's rations are extremely scanty.

NEW FARM LOAN BOND ISSUE

$75,000,000 to Be Floated at 5 Per Cent for Relending at 6 Per Cent.

Washington.—A new issue of farm loan bonds of approximately $75,000,000 will probably be offered for subscription in the next few days, treasury officials announce.

Issuance of new bonds, Commissioner Lodbell said at the time of the supreme court decision on February 28 upholding the legality of the federal farm loan act, would be made as soon as possible, but he intimated that it would be at least 30 days before the funds would be available for actual loaning.

"In the present money market the bond rate will have to be advanced to 5 per cent," he said. "The interest rate to the borrowers will have to be correspondingly advanced to 6 per cent.

"The farm loan board is hopeful that the market may absorb farm loan bonds equal to the borrowing demands of the farmers of the country, but no one can predict with safety the result of a financial operation of this magnitude."

Growing Old Gracefully

Are *you* growing old gracefully? Who wins in the race of life? Is it the man who is thin-blooded, weak, tired all the time?

An athlete trains for every race. A man is as strong as his blood and as old as his arteries. Make your blood redder, your health better by taking that old fashioned blood tonic—sold fifty years ago and still "good as gold"—namely, Dr. Pierce's Golden Medical Discovery. This tonic and blood purifier is made up of Blood root, Oregon Grape root, Queen's root, Stone root, Cherry Bark, without alcohol, in liquid or tablet form. It puts vim, vigor, vitality into your blood and arteries. Try it now. Sold by all druggists, or send 10 cents to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for a trial package of Golden Medical Discovery tablets, and write for free confidential medical advice.

In Gangs.

"It's queer how these robbers all get into gangs," remarked Mr. Smith, looking up from his evening paper.

"How is that?" asked his wife, looking up from the society page.

"Oh, I see here on the front page how the Brown family's cook married the owner of their apartment house," he explained.

RUB RHEUMATIC PAIN FROM ACHING JOINTS

Rub Pain right out with small trial bottle of old "St. Jacobs Oil."

Stop "dosing" Rheumatism.

It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacob's Oil" is a harmless rheumatism liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Limber up! Get a small trial bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment, you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.—Adv.

One Was Enough.

"Could I see Mr. Grumpson?" asked the brisk caller.

"I suppose so," said the clerk, gloomily, "if you don't care what happens to you. I got one good look at him as he came in this morning and I assure you that will last me all day."—Birmingham Age-Herald.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How to Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.—Relief comes so quickly.—Adv.

MILLION DOLLAR SEED FUND READY

Special Federal Agent in Fargo to Direct Field Operations of Project.

IS A NEW UNDERTAKING

First Agitation for Government Seed Loans Made in This State—County Agents Will Aid in Properly Distributing Assistance.

Fargo.—That C. W. Warburton has left Washington and is expected in Fargo this week to take charge of field operations in connection with the distribution of the $2,000,000 federal seed fund in North Dakota and Montana, is the word received by Senator E. F. Ladd from the department of agriculture.

Mr. Warburton will immediately take steps toward organizing his field forces.

County Agents to Assist.

County agents have been asked to give the widest publicity as to the filling out of application blanks. Mr. Warburton has full authority to approve the applications, also to issue checks for the purchase of the necessary seed.

The department of agriculture has requested Senator Ladd to urge the farmers to submit all inquiries to the county agents so as to expedite matters and relieve the head office of all unnecessary detail.

One Million Dollars for N. D.

One million dollars will be lent to farmers in drouth-stricken areas of North Dakota of the $2,000,000 appropriated by congress to be loaned to farmers for the purchase of seed, the balance being apportioned to Montana, according to information received at the office of the North Dakota Farm Bureau federation in Fargo. President U. L. Burdick has tendered the use of the state farm bureau office here to Mr. Warburton.

The bill making the appropriation, which was introduced by Congressman James Sinclair, provides:

"That the secretary of agriculture is hereby authorized, for the crop of 1921, to make advances or loans to farmers in the drouth-stricken areas of the United States, where he shall find that special need for such assistance exists, for the purchase of wheat, oats, barley and flaxseed for seed purposes only, to procure such seed and sell same to such farmers. A first lien on the crop to be produced from seed obtained through a loan, advance or sale made under this section shall, in the discretion of the secretary of agriculture, be deemed sufficient security therefor. The total amount of such advances, loans or sales to any one farmer shall not exceed the sum of $300."

Proposition a New One.

The proposition of applying for federal aid for drouth-stricken areas was first broached at a farm bureau meeting held at Minot last January when a resolution introduced by M. O. Hall of Mohall was unanimously adopted, asking for federal aid for the purchase of seed by farmers in the dry areas.

Counties in the state in which the local farm bureau will function in distributing the funds include Bottineau, Hettinger, Divide, Mountrail, Pierce, Slope, Ward, McKenzie, Morton, McLean, Grant, Kidder, Mercer, Golden Valley, Emmons, Williams, and western Stutsman, Renville and Burleigh counties have farm bureau organizations but no county agents, and the other counties in the drouth-stricken area, which have no county agents include Bowman, Oliver, Burke, McHenry, Rolette, Sioux, Dunn, Billings, Sheridan, Stark, Logan, Adams and McIntosh. All of the farm bureau counties have wired their congressman asking for federal aid.

It has been calculated that the fund of $1,000,000 will provide seed loans for more than 3,300 farmers of North Dakota if each secures the maximum allowance of $300.

TEXT OF YAP MANDATE OUT

Discloses That Japan Guarded Against Discrimination Elsewhere.

Washington.—Japan accepted the mandate for former German possessions in the Pacific north of the equator, including the island of Yap, with the reservation that Japanese citizens should not be subjected "to a discriminatory and disadvantageous treatment" in other mandate territories.

This was disclosed in the complete text of the mandate granted Japan by the league of nations which has been obtained at the state department. The reservation stipulated by Japan was similar to one advanced by the American government in reference to Mesopotamia.

American Sailors Killed.

Mexico City.—Four sailors, said to be Americans, were killed in Tampico recently, according to newspaper dispatches received here. The United States embassy here received no reports of the killing other than the newspaper advices for more than a day.

The men, who were part of the crew of the Norwegian ship Sazon, were attacked as they were boarding a launch by five masked men in another launch, the press dispatches say. The bodies have not been recovered.

JOSEPH A. YORK, well-known business man of Portland, Me., who says he feels twenty years younger and has gained sixteen pounds on four bottles of Tanlac. Declares he can now eat three square meals a day.

"I am now able to eat three square meals a day for the first time in two years," was the emphatic statement made recently by Joseph A. York, well-known business man and highly respected citizen of Portland, Maine.

"I am now sixty-nine years of age, and in all my life I have never run across a medicine that I consider in a class with Tanlac. I have just finished my fourth bottle and this medicine has benefited me even beyond my greatest hopes. Besides gaining sixteen pounds in weight, I have been built up and strengthened until I feel all of twenty years younger.

"For the past two years I have been in a miserably run-down condition, and was compelled a short time ago to give up all idea of business as I was too weak to look after anything. I was nervous, worn-out, had no appetite, and suffered most all the time with indigestion. Some days I would eat scarcely anything; in fact I was afraid to eat because I knew I would suffer afterward. Sometimes I had such severe cramping pains after eating that I would almost die. My nerves were all unstrung and the least thing would worry me and I never could get a good night's sound sleep. In fact I just lost interest in everything and was greatly discouraged over my condition.

"The ordinary treatment failed to do me any good, and as I had read so many statements from people I know here in Portland who had been benefited by Tanlac, I decided to give it a trial. And now I know for myself what it will do, for I have simply taken a new lease on life. I am now able to look after my work as usual, and never felt better in my life. I am able to eat three hearty meals a day and everything agrees with me perfectly. I eat anything I want and never feel a touch of indigestion. I never thought there was a medicine that could do me so much good, and I am only too glad to have the facts about my case given to the public."

Tanlac is sold by leading druggists everywhere.—Adv.

Motors Drive Out Horses.

The rapidity with which automobiles are superseding horse-drawn vehicles, has been proved by an experiment at a popular point of the state highway, at Burlingame, California, some 16 miles from San Francisco and one of the main arteries leading into the city. Keeping check at a given point from 6 a. m. to 8 p. m., it showed that 11 horse-driven vehicles against 19,581 motor-driven vehicles passed in the 14 hours. Last year a much greater number of horse-drawn vehicles was shown in a similar experiment.

The Vanishing Point.

Mary Garden on her return from Monte Carlo said at a dinner in New York:

"You will hardly believe it, but in France skirts are getting shorter. On the Promenades des Anglais in Nice and on the Casino terrace in Monte Carlo it almost seemed as if they shortened an inch or so every day."

"Where will this thing end?" a movie king asked in awed tones.

"If skirts," Miss Garden answered, "get much shorter, they will end in being nothing but—a hem! a hem!"

Your New Home should be made artistic, sanitary and livable.

These walls should be Alabastined in the latest, up-to-the-minute nature color tints. Each room should reflect your own individuality and the treatment throughout be a complete perfect harmony in colors.

The walls of the old home, whether mansion or cottage, can be made just as attractive, just as sanitary, through the intelligent use of

Alabastine

Instead of kalsomine or wallpaper

How much better, when you have a new home, to *start right* than to have to correct errors afterward from former treatment with other materials, when you come to the use of Alabastine, as does nearly every one sooner or later.

Once your walls are Alabastined you can use any material over it should you desire, but having used Alabastine you will have no desire for any other treatment.

Alabastine is so easy to mix and apply—so lasting in its results—so absolutely sanitary—and so generally recognized as the proper decorative material in a class by itself that it is becoming difficult to manufacture fast enough to supply the demand.

Alabastine is a dry powder, put up in five-pound packages, white and beautiful tints, ready to mix and use by the addition of cold water, and with full directions on each package. *Every package of genuine Alabastine* has cross and circle printed in red.

WHEN THE CENTURY BEGAN

Mode of Reckoning Is Simple, Yet the Matter Is Frequently Subject of Dispute.

The Twentieth century began on the first day of January, 1901. In common usage the First century means the years A. D. 1 to 100; the Second century the years 101 to 200; and the Nineteenth century the years A. D. 1801 to 1900. The Fifth century before Christ was 500 to 401 B. C. A century begins with the beginning of the first day in its first year, and does not end until the close of the last day in its hundredth year. The mode of reckoning is often confused with the common mode of stating the age of a person. A person born at the beginning of the Christian era would be called one year old during his second year, that is during the course of the year two; he would be called two during the year three; and forty during the year forty-one, etc.

KIND-HEARTED LITTLE BOBBY

He Meant Well, but He Won't Go to the Movies With Mamma Again for a While.

Bobby, a four-year-old Columbus boy, is an observing youngster; also, he is kind-hearted and willing to oblige, characteristics that were brought out in a recent incident which was embarrassing to his mother. Bobby's mother is young and pretty, and to enhance her good looks has frequent recourse to a powderpuff, with the usual remark that she fears her face is shiny.

One night this week Bobby sat with his mother in a movie, and directly in front of them sat a bald-headed man. His head was shiny, and this attracted Bobby's attention.

"Say, mother," he said excitedly, "that man's head is awful shiny, isn't it?" His mother's look of distress evidently was interpreted by Bobby to mean sympathy for the man with shiny head, for he said, loud enough to be heard for several rows of seats, "Mother, couldn't you lend him your powderpuff?"—Indianapolis News.

Some Flying.

During the year just passed pilots at March field have flown a distance equal to forty-six times around the globe. Jules Verne's hero accomplished the feat of going once "around the world in 80 days." According to March field statistics, this record would be far and away bested, as forty-six times around in 365 days would reduce the time for one circumnavigation to 7 days 26 hours and 26 seconds, to get down to minute details.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Cass Lake—H. N. Harding was elected president of the village council here without opposition at Tuesday's election.

Pipestone—Thirteen former service men qualified in an examination here to receive vocational training provided by the government.

Winona—John W. Dye of this city, has been named United States consul at Juarez, Mexico, according to word received by relatives here.

Fergus Falls—Wreck of a fast freight train on the Great Northern railroad at Parkdale, south of this city, blocked traffic over that line several hours.

Mankato—All postal records and mail in the postoffice at Cambria, Minn., a small village 20 miles northwest of this city, have been destroyed by fire.

New Richland—Plans were made for a fast semi-professional baseball club here this summer at a meeting which formed the New Richland Baseball association.

Owatonna—Announcement has been made that the annual meeting of the first district group, Minnesota Bankers association, will be at Winona, June 8th and 9th.

Pipestone—Paving and waterworks extension bonds to the amount of $54,000 were sold by the city council to a St. Paul firm. The bond will bear six per cent interest.

Grand Rapids—The farmers institute meetings planned for Itasca county March 15 to 19 inclusive are attracting considerable attention from the farmers in the county.

Waseca—The Waseca county farm bureau is completing organization of township units through which to carry on its work. About half of the county already has been organized.

Winona—A referendum vote is to be taken at the city election here in April on the question of repealing the recently passed ordinance by the city council, renaming 90 of Winona's 91 streets.

Minneapolis—G. S. Redmon of Pipestone, has been elected grand patriarch of the grand encampment of the I. O. O. F. of Minnesota, according to results of an election, returns of which have just been tabulated.

Jackson—Norman Hoovel and Ernest Berner were badly injured when the automobile in which they were riding struck a rock and overturned. Hoovel was pinned beneath the car but Berner was thrown clear.

Warren—A rare operation for a dislocated neck has been successfully performed on 5-year-old Eleanor Swanson of Warroad, and when the cast was removed from the child's neck physicians announced she would recover.

Minneapolis—County farm bureaus throughout the state were urged by officials of the Minnesota Farm Bureau federation to co-operate with the state employment department of the American Legion, St. Paul, in seeking employment for the idle former service men registered at the Legion headquarters.

Duluth—Farmers and real estate men representing counties in northern Minnesota and northern Wisconsin, left for Spooner, Wis., to attend the conference called to launch a land clearing campaign. Adjoining counties of the two states have been working in conjunction in the development of cutover and wild lands of the northwest.

Fort Snelling—Reserve officers, National Guardsmen, non-commissioned officers and enlisted men of the regular army and others with military training, have an opportunity to obtain appointments as second lieutenants in a competitive examination which will be held April 25th. Applications should be submitted to the nearest military post.

Redwood Falls—A referendum to decide whether to permit the showing of motion pictures here on Sunday, is proposed as a result of Sunday feature programs given in a church. The manager of the theater declares the showing of pictures at the church brought about a demand that his place be kept open on Sunday. If the proposed referendum is conducted the subject probably will be presented in such a manner as either to exclude Sunday pictures from both theater and church or to permit them to be shown at both.

McIntosh—Miss Marjorie Gullickson, a sophomore of the Moorhead high school, won first place in the girls' division in the ninth district declamatory contest here while Lester Smith of Bemidji, took first honors in the boys' division.

Detroit—Mrs. Nick Rewier, wife of a farmer living near here, is in jail awaiting preliminary hearing on a charge of killing her 4 months old baby. According to reports here, the woman decapitated the infant and then tried to drown herself in a tub of water. She was prevented from doing so by neighbors, it is charged.

Eruptions of the Skin Cause Torturous Itching

If you are afflicted with any form of skin disorder, you are well acquainted with the flaming, burning itching that these diseases produce.

Skin diseases are caused by an impurity or disorder in the blood, and there is no real and genuine relief within your reach until such impurities are removed.

S.S.S. has given great satisfaction in the treatment of these disorders, because it is such a thoroughly satisfactory blood purifier. It cleanses the blood of all impurities, and thus counteracts the effects of the germs that attack the skin.

Begin taking S.S.S. today, and if you will write a complete history of your case, our medical adviser will give you expert advice without charge. Address Chief Medical Adviser, 158 Swift Laboratory, Atlanta, Ga.

Simple, but Effective.

A woman went to her doctor, complained to him of her husband breaking out into violent tempers, and asked if he could recommend a cure.

"The remedy," replied the doctor, "is simple. I have here an excellent water which I give to most of my patients who suffer from the same complaint. Should your husband become violent again, you need only take half a cupful of the water in your mouth and hold it there for a few minutes; the warmer the water becomes in the mouth the more visibly will your husband's wrath melt away. Repeat the dose in very severe cases."

The water was ordinary well water. The result was domestic happiness.

Some people fail to recognize opportunity when it comes up and shakes hands with them.

Willing to Support Her.

Two young women boarded a crowded street car and were obliged to stand. One of them, to steady herself, took hold of what she supposed was her friend's hand. They had stood thus for some time when, on looking down, she discovered that she was holding a man's hand. Greatly embarrassed, she exclaimed: "Oh! I've got the wrong hand!"

Whereupon the man, with a smile, stretched forth his other hand, saying: "Here is the other one, madam."

Very Seldom.

THIS YOUNG MOTHER

Tells Childless Women What Lydia E. Pinkham's Vegetable Compound Did for Her

Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are very fond of children and for a considerable time after we married I feared I would not have any owing to my weak condition. I began taking Lydia E. Pinkham's Vegetable Compound and now I have a nice strong healthy baby girl. I can honestly say that I did not suffer much more when my baby was born than I used to suffer with my periods before I took Lydia E. Pinkham's Vegetable Compound years ago. I give all the credit to your medicine and shall always recommend it very highly."—Mrs. H. H. Janssen, Millston, Wisconsin.

How can women who are weak and sickly expect or hope to become mothers of healthy children? Their first duty is to themselves. They should overcome the derangement or debility that is dragging them down, and strengthen the entire system, as did Mrs. Janssen, by taking Lydia E. Pinkham's Vegetable Compound and then they will be in a position to give their children the blessing of a good constitution.

Tamed by Marriage, Perhaps.

"In a characteristic attitude, of course?"

"Yes, but not his most characteristic pose. That would require the artist to paint him with his fountain pen poised over his checkbook and an inquiring look on his face, meaning 'How much?'"—Birmingham Age-Herald.

MORTGAGE FORECLOSURE SALE

Notice is hereby given that default has been made in the conditions of that certain mortgage duly executed and delivered by Oscar C. Sandberg, a single man, mortgagor, to Northwestern Trust Company, a corporation, of St. Paul Minnesota, mortgagee, bearing date the 29th day of April 1916, with power of sale therein contained duly recorded in the office of the Register of Deeds of the County of Marshall, State of Minnesota, on the 3rd day of May, 1916, at 10:00 A. M., in Book 82 of Mortgages on page 411, which said mortgage, together with the debt secured thereby was duly assigned by said Northwestern Trust Company, mortgagee, to Francis J. Schaefer, by written assignment dated June 1st, 1916, and recorded in the office of said Register of Deeds on the 3d day of June, 1916, at 1:00 P. M., in Book 82 of Mortgages on page 446, and which said mortgage together with the debt secured thereby was further duly assigned by said Francis J. Schaefer to Northwestern Trust Company, a corporation of St. Paul, Minnesota, by written assignment dated August 1st, 1919, and recorded in the office of said Register of Deeds on the 17th day of April 1920, at 9:00 A. M., in Book 86 of Mortgages on page 340; which default has continued to the date of this notice by the failure and neglect of said mortgagor to make payment of the sum of $60.00 interest by said mortgage secured, which by its terms became due and payable on the 1st day of December, 1918, and other interest falling due later. And whereas the said Assignee of Mortgagee and holder of said mortgage has elected and does hereby elect to declare the whole principal sum of said mortgag due and payable at the date of this notice under the terms and conditions of said mortgage, and wherefore there, is actually due and claimed to be due and payable at the date of this notice the sum of $1000.00 with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1918, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1919, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $152.40 taxes paid by the undersigned on July 31st, 1919, with interest thereon at 6 per cent per annum since July 31st, 1919, being a total due at date of this notice of one thousand three hundred seventy-three dollars and twenty-eight cents ($1,373.28); and whereas the power of sale has become operative and no action or proceeding at law or otherwise has been instituted to recover the debt secured by said mortgage or any part thereof, Now therefore, notice is hereby given that by virtue of said power of sale contained in said mortgage and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by the same, towit: the East half (E½) of the Northeast quarter (NE¼) of Section Twenty-six (26) and the West half (W½) of the Northwest quarter (NW¼) of Section twenty-five (25) in Township one hundred fifty-seven (157) North of Range thirty-nine (39) west of the 5th Principal Meridian in Marshall County, State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the court house in the City of Warren in said County and State on the 19th day of April, A. D. 1921, at 10:00 o'clock A. M., of that date, at public vendue to the highest bidder for cash, to pay said debt of $1,373.28 and interest and the taxes paid and to be paid if any on said premises, and $50.00 attorneys fees as stipulated in said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from date of sale as provided by law.

James, deceased, to Northwestern Trust Company, a corporation, of St. Paul, Minnesota, by written assignment dated April 14th, 1920 and recorded in the office of said Register of Deeds on the 17th day of April, 1920, at 9:00 A. M. in Book 97 of Mortgages on page 433; which default has continued to the date of this notice by the failure and neglect of said mortgagor to make payment of the sum of $48.00 interest secured by said mortgage, which by its terms became due and payable on the 25th day of January, 1919, and other interest falling due later. And whereas the said Assignee of Mortgagee and holder of said mortgage has elected and does hereby elect to declare the whole principal sum of said moregage due and payable at the date of this notice under the terms and conditions of said mortgage, and whereas wherein is actually due and claimed to be due and payable at the date of this notice the sum of $800.00 with interest thereon at 6 per cent per annum since January 25th, 1921, and the further sum of $48.00 interest coupon with interest at 6 per cent per annum since January 25th, 1919, and the further sum of $48.00 interest coupon with interest thereon at 6 per cent per annum since January 25th, 1920, and the further sum of $48.00 interest coupon with interest thereon at 6 per cent per annum January 25th, 1921, and the further sum of $172.04 taxes paid by the undersigned on July 1st, 1919, and interest thereon at 6 per cent per annum since July 1st, 1919, being a total due at date of this notice of one thousand one hundred forty-six dollars twenty-six cents ($1,146.26); and whereas the power of sale has become operative and no action or proceeding at law or otherwise has been instituted to recover the debt secured by said mortgage or any part thereon, Now therefore, notice is hereby given that by virtue of said power of sale contained in said mortgage and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by the same, to-wit: the West half (W½) of the Southeast quarter (SE¼) and the East half (E½) of the Southwest quarter (SW¼) of Section ten (10) in Township one hundred fifty-six (156) North of Range Forty (40) West of the 5th Principal Meridian in Marshall County, State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the court house in the City of Warren in said County and State on the 19th day of April, A. D. 1921, at 10:00 o'clock A. M. of that date, at public vendue to the highest bidder for cash to pay said debt of $1,146.26 and interest, and the taxes paid and to be paid if any on said premises, and $50.00 attorneys fees as stipulated in said mortgage in case of foreclosure and the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Dated March 1st, 1921.

Do you know the
Facts about building costs

Do you know that lumber and building materials are down?

Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

School Notes

Alice Faiman and Emma Lunke
News Reporters

The girls' basket ball season ended by the girls being victorious in half the games played.

Friday Mar. 11th a return game was played with Badger. The final score was 8 to 10 in favor of Holt.

After the game both teams departed for the school house where light refreshments were served.

Saturday March 12th, we played a return game at Middle River when the final whistle blew, the score was 9 to 24 in Holt's favor. After the game we were served a fine lunch at the school house.

This basket-ball season has been very successful and the girls have received splendid exercise and much joy from the practice and outside games. It is hoped that next year will be even more successful as this is the first year of real basket-ball, the girls have experienced.

The scale that the Girl Scouts purchased for the weighing and measuring of the children has arrived. Reports of weight and measure will be sent home with each child's report card. This is the most recent movement in public health work to aid parents in rational feeding of children to produce perfect health.

The Girl Scouts had a candy sale at the men's basket ball game Monday March 14th.

The children in Miss Lawrence's room had an Easter Candle light party Thursday afternoon.

The teachers entertained Alice and Millie Faiman at dinner Monday evening.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

MRS. HAYDOCK SAVED FROM AN OPERATION

Followed Advice of Her Druggist's Wife and Took Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. Haydock, 6824 St. Lawrence Avenue, Chicago Illinois.

Because Lydia E. Pinkham's Vegetable Compound saved Mrs. Haydock from an operation we cannot claim that all operations may be avoided by it,—but many women have escaped operations by the timely use of this old fashioned root and herb medicine.

"Sure thing."

"Well, say, I went fishing yesterday and I carried the worms in a can just like you're doing, and I never got a bite all day."

"That's strange."

"Oh, I don't know. I reckon fish don't like canned worms."

St. Paul—After serving the Minnesota farm bureau federation in an emergency capacity for six months, J. S. Jones, in charge of county organization for the federation, has been retained on a permanent basis, it was announced.

Prior Lake—Mrs. S. A. Sutton, a resident of Spring Lake, was fatally burned when a can of kerosene which she was using to kindle a fire, exploded. Her clothing was rapidly enveloped in flames and she died a few hours after the accident.

St. Paul—Ramsey county commissioners awarded the contract for paving the White Bear road from the city limits to the lake shore to Fielding & Shepley, St. Paul contractors, for the sum of $329,86.45. The pavement will be of Warrenite bitulithic.

Hampton—R. H. Miles, mayor of the village, was arrested for violation of the prohibition laws. Ten gallons of moonshine and several cases of extract are alleged to have been found in his restaurant. The arrest was made by a federal inspector.

Minneapolis—Minneapolis rum runners pulled the biggest coup of the year when they smuggled 65 cases of Canadian liquor into Long Lake in a carload of coal, unloaded it literally "under the noses" of Long Lake residents, and escaped in motor trucks, according to information received by federal prohibition agents.

Winona—The Olmsted County Cooperative association, which operates retail stores at Rochester, Eyota and Viola, has been adjudged bankrupt and a meeting of creditors has been set by the referee in bankruptcy for March 26 in this city. The association is said to have assets of approximately $100,000 and liabilities of practically the same amount.

St. Paul—The Macalester college debating team triumphed over Northland college at Ashland, Wis., by proving, to the satisfaction of three judges, that immigration should not be further restricted by law.

MRS. NANCY SHARP, of Los Angeles, who says she received the greatest surprise of her life when Tanlac completely restored her health after she had almost lost hope of ever getting well. Suffered twelve years.

"After seeing the wonderful results my husband obtained from Tanlac I began taking the medicine myself, and now we both agree that it is the grandest medicine on earth," said Mrs. Nancy Sharp, a prominent and highly esteemed resident of Los Angeles, Calif., living at 921 Camulus street, whose husband is proprietor of the Merchants' Express Co.

"During the twelve years that I suffered with indigestion and stomach trouble I tried nearly every medicine I heard about, but nothing helped me and I lost faith in everything. So, my wonderful restoration to health has been the greatest surprise of my life.

"I began to feel an improvement on finishing my second bottle of Tanlac, and now after taking six bottles I am like a new woman. I have a splendid appetite, eat three hearty meals a day, enjoy them thoroughly and am never troubled in the least with indigestion or any other disagreeable after effects.

"Before taking Tanlac most everything I ate caused my stomach to rebel and I would suffer for hours afterwards. I was so dreadfully nervous that many nights I never closed my eyes in sleep, but now I am not the least nervous, and I sleep like a child. My strength has been wonderfully increased, and I have much more energy.

"I just wish it was so everybody troubled like I was knew about this wonderful medicine."

FINDS HUSBAND STREET BEGGAR

Virginia Girl's Dream of Romance Is Rudely Shattered in San Francisco.

DOG REVEALS SECRET

"Rags" Recognized Mistress and Reveals Husband as Street Corner Mendicant—Tales of Fifth Avenue Home a Myth.

San Francisco.—When Lillian Geraldine Leitch of Richmond, Va., visiting San Francisco for the first time, met James Robert Van D'Loye, she promptly fell in love with the aristocratic name and the distinguished bearing of the young man who modestly admitted he was the son of a New York millionaire. The affection was returned when Van D'Loye learned that her parents were also wealthy, although of course, not in the Van D'Loye class.

Van D'Loye after telling the girl that he was banished by his father because of his wanderlust, and reduced to a mere pittance of $100 a week spending money, proposed and was accepted. They were married soon after and went to housekeeping in a cozily furnished apartment. For a time everything went smoothly and the young husband showered his bride with flowers and bonbons.

Secured a Position.

Then the husband announced that he had secured a position, although he always seemed to have plenty of money. He would not divulge the nature of his work but left the house in their limousine every morning, accompanied by his faithful dog "Rags." Van D'Loye continued to maintain his wife in every luxury and she had no desire to return to her Virginia home.

One day, a month after her wedding, she decided to visit the curb market of San Francisco. While picking her way through a busy street, a dog jumped against her and she recognized "Rags." She looked for her husband but did not see him. Then her eyes followed the chain attached to the animal's collar until they came to the hand that held it.

I AM DEAF DUMB & BLIND

Gave One Pull on His Whiskers.

The hand belonged to a ragged individual on whose breast was a sign reading "I am deaf, dumb and blind."

Beard Gives Way.

She also noticed that the beggar's cup contained quite a sum of money. His placard was partly covered by a long, flowing, white beard. "Rags" continued to prance about her and she was wondering how he came in the possession of the beggar when an idea struck her and she gave one pull on the white whiskers. They gave way and there stood her husband.

"Horrors! My husband!" she exclaimed, while the little dog, who used to lead his "blind" master from the office where he changed his gentleman's apparel to the mendicant's garb, to the street corner where he begged the rich offerings of the sympathetic San Franciscans, barked in great glee. While she upbraided her husband, a crowd gathered and gibed the fake panhandler. Then she hastened home, packed her belongings, and her divorce suit, now in the San Francisco courts, followed.

LIES WEEK IN CHURCH BELFRY

Demented Man Found by New York Sexton When Bell Refuses to Ring.

New York.—The sexton in the Eighteenth Street Methodist Episcopal church pulled the bell rope before services, but no sound went forth from the belfry.

He climbed to the steeple and found Timothy Jones, 24, lying over the rope in a semi-delirious condition.

After being revived at a police station, Jones said he climbed to the belfry a week ago to escape the cold, and had lain there a week, trying to forget his hunger.

He was removed to a hospital, where physicians said his condition was serious.

A man, claiming to be a relative, said that Jones' mind had been affected by overstudy at an institution in Philadelphia.

SUCH A NICE YOUNG MAN!

This Minister Evidently Not One of the New School of Blunt and Direct Speech.

Though scare-head scoops and front-page news "stories" do not come often from the department of Frank N. Wallace, state entomologist, nevertheless reportial drones who buzz around the bee division of Mr. Wallace's domain may count always on at least one good daily story. Here is the latest one:

He was a young minister of the old school. He did not follow the modern doctrine of frankness in his speech, especially with the lambkins of his flock. Flustered and "fussed," he stood before a large gathering of smiling, good-looking up-to-the-minute peppy lamkinettes and in guarded tones reminded them of the pitfalls and evils of this wayward world. He reached the climax of his address and with a blush of ultra-modesty he said: "And, my dear young friends, do you know that even this very day there has come to mine ears a rumor that there is in this very community a band of bold, bad bootlimbers!"—Indianapolis News.

REALLY DESERVING OF PITY

Those Who Allow Themselves to Get Into the Habit of Self-Excuse Are Unfortunate.

The tendency to self-excuse is typical of the conceited. They simply will not see themselves for what they are—persons who have a great deal to learn. And because they will not admit even to themselves that they need self-improvement they remain perpetually in need of it.

Are not persons thus conditioned more deserving of pity than of contempt? Even their monumental self-satisfaction should not make people laugh at them. Poor souls! Life to them is a game of blind man's buff, in which they are forever "it," forever groping wildly, but never grasping.

No truer words have been penned than Ruskin's, "Conceit may puff a man up, but not prop him up." And how sadly hard it is to convince the conceited that they are conceited, and thus save them from the painful penalties of conceit.—H. Addington Bruce in Chicago Daily News.

ONLY ONE BILL MEETS A VETO

Governor Changes Some Other Measures by Exercise of Partial Veto.

APPROPRIATION KNIFED

Motor Vehicle Department and Highway Commission Lose $201,500 and Many Other Items Are Pruned —City Taxes Are Limited.

Bismarck, N. D.—Governor Lynn J. Frazier has finished signing the bills passed by the seventeenth legislative assembly.

Only one, senate bill 71, was vetoed. It provided for payment of hail insurance taxes in semi-annual installments. Ambiguity in the wording of several clauses which left the meaning of the measure in doubt was given as the reason for the veto.

The governor exercised his right of partial veto over the omnibus appropriation bills by clipping $232,000 from the biennial appropriation for the state government and its institutions.

Highway Fund Knifed.

The biggest cut was in the veto of the $101,500 appropriation for the motor vehicle registration department and $100,000 for the state highway commission.

The reason given by the governor for the elimination of the two appropriations was:

"They are insufficient to meet the demands of the department of motor vehicle registration and the department of state highway commission and for the further reason that paragraph 2 of section 11 of chapter 44 of the special session laws of the sixteenth legislative assembly makes annual provision to defray the expenses of the state highway commission and for maintaining the motor vehicle registration department."

Other cuts were:

State treasurer $4,000, a contingency fund to be used in connection with clerk hire in case of the sale of state bonds.

Superintendent of public instruction, $1,000 for use in preparation of schoolhouse plans.

Travelers Lose Fares.

Department of public health, $2,400, a salary of the superintendent of public health, rendered unnecessary because of the appointment of Dean H. E. French of the University of North Dakota to that position.

Bottineau normal school, $500 traveling expenses of the head of the school.

Minot normal school, $1,500 for independent water system, $700 for traveling expenses, $800 for gymnasium and music apparatus, and $10,000 for additional land.

Dickinson normal school, $500 traveling expenses for head of school.

Insane hospital, $600 for water cups for dairy cows, $1,000 for furnishing superintendent's house, and $1,000 for automobile.

Reform school, $1,500 for irrigation plant, $1,400 for improvements of grounds, and $250 for traveling expenses.

Presidential electors $300 for expenses.

Missouri Slope Fair association, $5,000 for 1923 fair.

City Taxes Limited.

Among the bills signed by the governor was House Bill 25, limiting the tax levies of the political subdivisions to the average of the levies for the last three years. Considerable opposition on the part of city officials and county officers developed against the measure, but hundreds of letters came from private taxpayers asking that the bill be signed.

Governor Frazier pointed out that the bill permits increase of taxes of 25 per cent over the average by a majority vote of the citizens of the subdivision. "If there is any real need for greater taxes, I think this provision of the bill will take care of the matter," said Governor Frazier.

EASTER REVOLT SPREADING

Death Lists in Occupied Territory Have Reached Two Score.

Dublin.—The death list in the pre-Easter revolt that has swept with increasing violence through the occupied district now totals 35.

This is the result of a three-day offensive, latest developments in which were the killing of two soldiers and wounding of six others when a lorry was bombed in this city. Three bombs were thrown into the lorry.

To combat the renewed outburst officials in Dublin announced more stringent curfew laws. No person will be allowed on the street for any cause between 10 p. m. and 5 a. m., it was stated. The new ruling went into effect this week and probably will be continued until after the Easter holidays.

Four Cases of Beer a Month

Chicago.—Ralph W. Stone, federal prohibition director for Illinois, has conferred with Prohibition Commissioner Kramer regarding the formulation of new rules, based on the opinion of former Attorney General Palmer that beer may be prescribed as medicine.

"The new regulations," he said "will likely permit physicians to issue two prescriptions to one patient every 30 days. The maximum amount of beer obtainable on each prescription it is thought, will be two cases, 48 bottles."

"I Feel as Tho' I Could Not Drag Thru the Day's Work"

is the complaint of many a woman in the household, office or factory. After suffering pain, feeling nervous, dizzy, weak and dragged-down by weaknesses of her sex—with eyes sunken, black circles and pale cheeks—such a woman is quickly restored to health by the Favorite Prescription of Dr. Pierce. Changed, too, in looks, for after taking Dr. Pierce's Favorite Prescription the skin becomes clear, the eyes brighter, the cheeks plump. It is purely vegetable and contains no alcohol.

Druggists sell it in tablets or liquid, or send Doctor Pierce, at Invalids' Hotel in Buffalo, N. Y., 10 cents for trial package. After taking this well-known remedy you will feel strong and healthy. Such a change in feelings, too—there's sparkle in the eyes, a tint in the cheeks, for one has rich, red blood. There's elasticity in every movement and a spring in the step. Love comes to every woman who has bounding health—but when she is pallid, dull-eyed, languid, she has no magnetism, nor does she appeal to any man.

SETTLE IT LIKE POKER

W. W. Atterbury of Pennsylvania Road Says Railroad's Individual Problems Must Be Settled Around the Table.

Chicago.—W. W. Atterbury, vice president of the Pennsylvania railroad and former chairman of the railway executives' labor committee, took an emphatic stand against national agreements, which he termed "prolific of misunderstandings" in a heated all-day crossexamination before the railroad labor board.

Questioning by Frank P. Walsh, counsel for the unions, brought vigorous replies from General Atterbury and time and again the witness replied by crossquestioning his interrogator. Charges that the union leaders did not really represent the employes and that national rules were used to procure employment for more men and extract money from the railroads on technicalities were hurled across the table as the general took a stand against all rules of national application.

The gist of General Atterbury's testimony may be summarized as follows:

National Rules Hinder Roads.

Rules should be negotiated between officials of the road and their own employes, across the conference table "like a game of poker."

The eight-hour day could not be universally applied to all employes, especially train service men, "because the Lord didn't build the railroads that way."

The establishment of the hourly basis of shop work has destroyed the energy and initiative of shop employes and the abolition of piece work would be the "most dreadful thing that could happen to railroad employes."

National rules constituted a dog collar around the neck of the railroads who would be free to negotiate their own rules with their own employes "the minute the board cuts the dog collar."

Witness a Friend of Labor.

The reference to the dog collar was taken, General Atterbury explained, from a cartoon in a union bulletin. He exhibited the cartoon which showed a small dog labelled "railroads" with a collar labelled "national agreements" and led by labor. The dog was made to say "the collar doesn't fit" and the caption said "but we'll make it fit."

Two charges against union officials were laid down by the general in the climax of the day's testimony. He declared that although the national agreement had the object of employing more men, he was "a better friend of my men than of any union men at this table." The declaration brought from Mr. Walsh a query whether General Atterbury represented the section hands of his roads.

"No, but you do not. Those men are not represented here," General Atterbury replied.

STAMP SEED APPLICATIONS

Revenue Lack on First Papers Causes Delay to Applicant.

Fargo.—The first formal application for a seed loan received at the federal seed loan office in Fargo had to be returned to the applicant because he had failed to affix revenue stamps to the note, as required by law. This will involve a delay in acting upon that particular application of at least four days, even if the utmost possible promptness should attend the correction of the error and the handling of the papers in the mails.

This incident serves to emphasize the warning to which the press has been asked to give publicity, that the seed grain note which accompanies the application must bear a two cent revenue stamp for each $100 or fraction thereof of the amount for which it is drawn. That is, all notes for $100 or less must bear a two cent stamp and those for more than $100 must bear stamps to the amount of four cents. The limit of the loan to any individual is $200. Internal revenue stamps, which can be obtained at any bank, must be used and the mistake must not be made of putting on postage stamps, as they do not meet the requirements of the law.

Small Matter to Young Woman That She Was Also Holding Up Busy Street Traffic.

"Traffic gets held up in queer ways," said a cop at Forty-second street and Fifth avenue. "It was only just the other day that we had a blockade that tied things up for half an hour.

"I noticed a young woman pounding something against the curb. Looked funny to me, and I could not figure what it was. People passing by started to run, looked again and crowded around her. I headed for the middle of the bunch and saw she had busted open her package and was breaking a lot of mirrors on the sidewalk, one by one.

"What's all this about?" I asked.

"'Oh, mister officer,' she says, 'I broke a mirror a while ago and if I don't break seven more right quick I'll have seven years bad luck. By rights they should be broken all at once, but I could only do it one at a time. And now, please, won't you help me get out of this crowd?'"—New York Sun.

Notice is hereby given that default has been made in the conditions of that certain mortgage duly executed and delivered by Oscar C. Sandberg, a single man, mortgagor, to Northwestern Trust Company, a corporation, of St. Paul Minnesota, mortgagee, bearing date the 29th day of April 1916, with power of sale therein contained duly recorded in the office of the Register of Deeds of the County of Marshall, State of Minnesota, on the 3rd day of May, 1916, at 10:00 A. M., in Book 82 of Mortgages on page 411, which said mortgage, together with the debt secured thereby was duly assigned by said Northwestern Trust Company, mortgagee, to Francis J. Schaefer, by written assignment dated June 1st, 1916, and recorded in the office of said Register of Deeds on the 3d day of June, 1916, at 1:00 P. M., in Book 82 of Mortgages on page 446, and which said mortgage together with the debt secured thereby was further duly assigned by said Francis J. Schaefer to Northwestern Trust Company, a corporation of St. Paul, Minnesota, by written assignment dated August 1st, 1919, and recorded in the office of said Register of Deeds on the 17th day of April 1920, at 9:00 A. M., in Book 86 of Mortgages on page 340; which default has continued to the date of this notice by the failure and neglect of said mortgagor to make payment of the sum of $60.00 interest by said mortgage secured, which by its terms became due and payable on the 1st day of December, 1918, and other interest falling due later. And whereas the said Assignee of Mortgagee and holder of said mortgage has elected and does hereby elect to declare the whole principal sum of said mortgag due, and payable at the date of this notice under the terms and conditions of said mortgage, and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $1000.00 with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1918, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1919, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $152.40 taxes paid by the undersigned on July 31st, 1919, with interest thereon at 6 per cent per annum since July 31st, 1919, being a total due at date of this notice of one thousand three hundred seventy-three dollars and twenty-eight cents ($1,373.28), and whereas the power of sale has become operative and no action or proceeding at law or otherwise has been instituted to recover the debt secured by said mortgage or any part thereof. Now therefore, notice is hereby given that by virtue of said power of sale contained in said mortgage and pursuant to the statute in such cases made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by the same, towit: the East half (E½) of the Northeast quarter (NE¼) of Section Twenty-six (26) and the West half (W½) of the Northwest quarter (NW¼) of Section twenty-five (25) in Township one hundred fifty-seven (157) North of Range thirty-nine (39) west of the 5th Principal Meridian in Marshall County, State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the court house in the City of Warren in said County and State on the 19th day of April, A. D. 1921, at 10:00 o'clock A. M., of that date, at public vendue to the highest bidder for cash, to pay said debt of $1,373.28 and interest and the taxes paid and to be paid if any on said premises, and $50.00 attorneys fees as stipulated in said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from date of sale as provided by law.

Dated March 1st, 1921.

Do you know the

Facts about building costs

Do you know that lumber and building materials are down? Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

FRECKLES

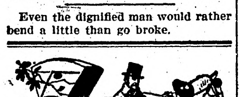
Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.

Even the dignified man would rather bend a little than go broke.



A Friend of the Family

Over fifty years ago a young physician practiced widely in Pennsylvania and became famous for his uniform success in the curing of disease. This was Dr. R. V. Pierce who afterwards established himself in Buffalo, N. Y., and placed one of his prescriptions, which he called his "Golden Medical Discovery," in the drug stores of the United States so that the public could easily obtain this very remarkable tonic, corrective, and blood-maker. Dr. Pierce manufactured this "Discovery" from roots and barks without alcohol—a corrective remedy, the ingredients of which nature had put in the fields and forests, for keeping us healthy. Introduce pure red blood into the system, and health is assured. When you feel run-down, out of sorts, blue and despondent try the energizing influence of this reliable tonic. You can obtain Golden Medical Discovery in tablet or liquid form at all drug stores, or send 10c for a trial package to Dr. Pierce's Laboratory in Buffalo, N. Y.

SUPREME COURT DEFINES INCOME

Three Victories Won in Cases Involving Taxation of Incomes.

VAST SUMS INVOLVED

Belief of Solicitor General Is That Bulk of Last Year's Tax Problems Are Settled by Federal Court's Action.

Washington.—Three sweeping victories have been won by the government in the supreme court interpretation of the term "income" for the assessment of taxes under the income and excess profits act.

The court held that any gain derived from corporate securities or corporate assets, and any increase in the value of a capital investment when realized, is taxable as income. In each case the opinion was indorsed by the entire court.

Settles Horde of Disputes.

Solicitor General Frierson, who heard the opinions read, interpreted them as upholding in every particular the contentions of the government. He believed elimination of problems involved in cases decided today would go far toward relieving the treasury department of inconveniences it has suffered as a result of multi-angled tax litigation facing it the last year.

No estimate could be obtained as to the amount in dollars and cents affected by the action.

Apparently wtih a view of clearing the docket early of all important tax questions, the court, before recessing until April 11, advanced to that date hearing of arguments in the insurance dividend case, the corporation reorganization and inheritance tax case.

Key Cases Selected.

The first involves taxation of dividends applied as partial payment to insurance premiums, the second applies to stock received from the reorganization of a corporation—in this case, the Dupont Powder company—and the last, whether inheritance taxes can be deducted from taxable income.

The "key case" selected by the court for income tax decisions was the appeal brought by the Merchants Loan & Trust company, as trustee of the estate of Arthur Ryerson, of Chicago, from decision of Illinois courts upholding assessments levied by internal revenue officials upon profits realized through the sale of certain trust assets.

Collection of a tax on the difference in value between March 13 and the date of sale, as income, was upheld by the court in the decision.

The word "income" was defined by the supreme court in a case under the corporation excise tax act of 1919, Justice Clark said, as a "gain derived from capital, from labor, or from both combined."

FARMERS WAIT ON CONGRESS

General Get-Together Meeting Called In Washington April 14.

Washington.—A "get-together meeting" of farmers' organizations represented here is announced for April 14, at which time it was said an effort would be made to unite upon an agricultural program for recommendation to President Harding and congress.

Lower freight rates, tariff and revenue legislation, more liberal extension of credits, regulation of future grain exchanges, and extension of the co-operative and marketing associations are some of the matters which it was said will probably be considered.

The movement to get together was said in agricultural circles to have been "spontaneous," although partly an aftermath of the airing of differences before the house banking and currency committee during the last session of congress.

The American Farm Bureau federation has announced a meeting in the national capital beginning April 11. The National Farmers' union has called a meeting here for April 20. The National Grange, the Pennsylvania State Grange, the Milk Producers' association, grain and livestock men, cotton growers and other farmers' organizations are expected to meet here about the same time.

Holdup Attempt Foiled.

Grand Forks, N. D.—An attempt to hold up Hugh Keir, ticket agent at the Great Northern, failed when Keir yelled for help. The would-be bandit, who had his face covered with a bandana handkerchief, fled into the residence district and made his escape. Keir had locked the office and the outer door when he was confronted by the bandit. He was forced to open both doors, and the bandit ordered him to open the safe, but instead Keir yelled for help.

League a Political Organization.

St. Paul, Minn.—The state senate has passed a bill declaring the Nonpartisan league a political organization.

Before its passage, Oluf Gjerset, author of the bill, explained that it did not apply to a number of organizations such as the State Federation of Labor and the Farm Bureau federation, which he held to be "educational and civic organizations." He contended that only organizations advocating "governmental policies" were affected.

WOMEN WHO CANNOT WORK

Read Mrs. Corley's Letter and Benefit by Her Experience

Edmund, S.C.—"I was run down with nervousness and female trouble and suffered every month. I was not able to do any work and tried a lot of medicine, but got no relief. I saw your medicine advertised in a little book that was thrown in my door, and I had not taken two bottles of Lydia E. Pinkham's Vegetable Compound before I could see it was helping me. I am keeping house now and am able to do all of my work. I cannot say enough for your medicine. It has done more for me than any doctor. I have not paper enough to tell you how much it has done for me and for my friends. You may print this letter if you wish."—ELIZABETH C. CORLEY, care of A. P. Corley, Edmund, S. C.

Ability to stand the strain of work is the privilege of the strong and healthy, but how our hearts ache for the weak and sickly women struggling with their daily rounds of household duties, with backaches, headaches, nervousness and almost every movement brings a new pain. Why will not the mass of letters from women all over this country, which we have been publishing, convince such women that Lydia E. Pinkham's Vegetable Compound will help them just as surely as it did Mrs. Corley?

Feel All Worn Out?

Has a cold, grip, or other infectious disease sapped your strength? Do you suffer backache, lack ambition, feel dull and depressed? Look to your kidneys! Physicians agree that kidney trouble often results from infectious disease. Too often the kidneys are neglected because the sufferer doesn't realize they have broken down under the strain of filtering disease—created poisons from the blood. If your back is bad, your kidneys act irregularly, and you feel all run-down, use *Doan's Kidney Pills. Doan's* have helped thousands. *Ask your neighbor!*

Federal Bill Against Dealing in Futures Fails to Approve in Committee—New Bill Due.

St. Paul—Following a long drawn out battle in the house committee on markets, in which the measure to memorialize congress to pass the Capper bill to prevent dealing in futures failed of favorable action, a subcommittee was appointed to draft another measure. Objection was made to the wording of the bill under consideration.

Insanity Divorce Bill Killed.

Insanity will not be a ground for divorce in Minnesota for some time to come. The house judiciary committee killed a bill by N. T. Moen, making insanity for 10 years ground for permanent separation. Members of the committee expressed the opinion that unfortunates are sometimes driven crazy by erring spouses and should not be victims of something over which they had no control.

Contempt Measure Up.

The judiciary committee is considering a measure which will give a probate judge power to adjudge a guardian or administrator guilty of contempt of court for not obeying court orders with reference to renewing bonds, which have expired or were canceled.

"Full Section Crews" Favored.

After hearing both railroad workers and officials, the house railroad committee has recommended to pass a bill requiring "full section crews." Officials contended it would add heavy expense and employees countered with the argument that public safety and efficiency demanded the crews.

Livestock License Bill Recommended.

Authority of the railroad and warehouse commission to license brokers, factors and agents, who handle live stock, is given in a bill sent to the house with recommendation to pass by the markets committee.

Newsboy Measure Kept Alive.

After rollcall on the bill prohibiting newsboys under 12 years of age from selling papers on the streets, had been started, Senator F. L. Palmer, author, was permitted to withdraw his motion for final passage and the bill was kept alive on the calendar. Due to light attendance, the bill would have failed to pass, had the rollcall continued.

Iron Range Trial Bill Favored.

The senate judiciary committee has favorably recommended a measure permitting the trying of railroad and mining cases on the range at the courthouse nearest the place where the cause of action arose. The present law was objected to on grounds that corporations tried a majority of these cases at Duluth to the inconvenience of witnesses and litigants on the range.

Elections Bill Favored.

The committee on elections gave the Senate elections bill legalizing party conventions for the purpose of adopting platforms and indorsing candidates for state offices a clean bill of health, and not only recommended that it pass, but that the bill be printed that the members may study it.

House Approves Motor Tax.

The House passed the motor tax bill as submitted by the highways committee, voting 110 to 0. Following the passage of this the Child bill was taken up for consideration. The bill provides for limiting the wheelage tax that may be levied on motor vehicles by any city or village to half the tax levied by the state.

The motor tax bill as passed, provides a tax of 1.8 per cent on the value of passenger cars, F. O. B. factory, and 2 per cent on the value of trucks. The minimum tax on passenger cars under 2,000 pounds weight is $12; over 2,000 pounds, $15. The minimum on trucks is $15. An effort to reduce the minimum tax on light cars to $8 was defeated this morning.

The House rejected by vive voce vote the Keller amendment to the Child bill limiting wheelage tax to half the state motor tax and then unanimously passed the Child bill.

The House also passed the Dilley-Sweitzer bill permitting the St. Paul council to refund excess wheelage taxes collected under the city ordinance which will be made invalid by the passage of the Child bill.

No sooner had the bill passed by just the necessary votes than the Farmer-Labor contingent began an offensive to put over the Welch bill. Representative Welch, Nonpartisan league floor leader, led the fight for his bill, which establishes a system whereby all banks must come into the fund.

The House, by a vote of 68 to 55, followed the lead of Mr. Welch and put its official "Okeh" on the bill.

Senate Adopts Political Party Bill.

After a debate the senate passed Senator Oluf Gjerset's bill "to define political parties," which would class the Nonpartisan league as a party and compel it to disclose its receipts and expenditures under the corrupt practises law. The bill will now go before the house elections committee. The vote on the bill was 35 to 21. Opposition to the bill was based on the ground that it would apply to such organizations as the State Federation of Labor, Farm Bureau Federation, Anti-saloon league, League of Women Voters, etc.

Two Systems Favored

Two bills providing for guaranty of deposits received favorable action in the Senate.

By a vote of 66 to 54 it passed a bill for a voluntary system for the guaranty of bank deposits, after having first killed the same bill.

By a vote of 68 to 55 it passed a bill providing for a compulsory system for the guaranty of bank deposits.

By a vote of 50 to 71, it killed one voluntary bill.

It postponed indefinitely still another voluntary bill.

It returned to its author one compulsory bill.

Two Bills for Senate.

As matters now stand, two bills will go to the Senate from the House, one of them establishing a system whereby banks have the option of participating, and the other of establishing a system whereby banks will be forced to participate in a guaranty fund.

The first bill passed had been killed receiving only 65 votes, lacking the one vote necessary to insure passage. After a recess, and after a remarkable changing of votes, the bill turned up with the required 6 votes.

This measure was the one recommended by the committee on banking and it had the approval of the bankers of the state because it provided for the optional system. Under its terms, it was left to the banks themselves to determine whether or not they wanted to participate. It was argued that the advertising participating banks received would make all banks enter the system.

Occupational Tax Held Back.

Before it takes action on the bill to impose an occupational tax on mining, members of the Senate committee on taxes will find out from members of the State Tax commission just how effective the present ad valorem system is in reaching iron ore property.

This was determined at a hearing. Senator Gjerset, chairman, announced that at the next meeting he would have the commissioners present to submit data on the effectiveness of the present system of taxation.

Bond Bill Goes Thru House.

Issuance of $1,000,000 in bonds for additions to the Glen Lake sanatorium was assured, when the House of Representatives passed the bill, giving the commissioners of Hennepin county the necessary authority. The Senate has passed the bill earlier and it now goes to the governor for his signature.

The original request was for authority to issue $1,500,000 in bonds, but the amount was cut down to $1,000,000 because of financial conditions.

Measures to Speed Up Justice.

Following the suggestions of Governor Preus in his special message to the Minnesota Legislature last week, both houses have had under consideration measures intended to halt the crime wave prevalent in the larger Minnesota cities.

While house members were considering two rival bills aimed at "gun toting," Senator Charles R. Fowler introduced a bill in the other branch carrying out the governor's ideas for bringing criminals speedily to justice.

The Fowler bill, which has the governor's approval, reverses the rule in handling criminal cases. It provides that bail cases shall have precedence in trial instead of jail cases. It provides for expediting trial of all criminal cases, with strict rules against granting continuances.

After a prisoner has been found guilty, he is to be sentenced forthwith and kept in custody, bail not being allowed unless the trial judges or three supreme court judges file a certificate of probable cause for granting a new trial. Sureties on bail bonds are required to file detailed schedules of information as to their property and county attorneys are permitted to examine them under oath as to their statements. No stay is permitted in a criminal case except as provided in the act. It applies only to counties of 200,000 population.

Teachers' Tenure Bill.

After further consideration, the committee on education amended and recommended to pass the teachers' tenure bill, introduced at the request of the St. Paul divison of the Minnesota Educational association. The bill would provide that after three years no teacher should be dismissed or reduced in rank or pay without a hearing before an impartial tribunal. The amendment merely repeals inconsistent acts.

Experimental Farms Meet Defeat.

County boards will not be able to provide for county experimental farms, the senate committee on towns, counties and municipalities having killed a bill making this provision. This committee also put the ax on a measure authorizing county boards to acquire land for public parks and tourist camping grounds up to $25,000.

Bonus Proposals for Vets Fail.

Two attempts to overturn house appropriations committee reports were unsuccessful. The committee killed a proposal for the state to pay for a "white way" on the capitol grounds, and another to give the state bonus to veterans of the Spanish-American war, Boxer rebellion and Philippine insurrection.

Flood Control Up in Both Houses.

Both the senate and house have a measure appropriating $60,000 for a drainage and flood control survey of the Red River valley and Minnesota valley districts. It is probable that all drainage bills will be made a special order early in April.

Gambling Prevention Bill Favored.

Officials who do not enforce the law and prevent use of punchboards, slot machines and other gambling devices, may be summarily removed from office by the governor. This is provided in a bill recommended to pass by the house commerce committee.

RESULTS REMARKABLE SAYS NEW YORK MAN

Prominent Rochester Citizen Tried Ten Years To Get Relief, But Tanlac Is Only Thing That Helped Him.

One of the latest to testify regarding the powers of Tanlac, the celebrated medicine which has been accomplishing such remarkable results, is James J. Beasley, 102 Elmdorf Avenue, Rochester, New York. Mr. Beasley has been chief record keeper for the Department of Water Works, city of Rochester, for thirty years and is a well known and highly respected citizen. In referring to the remarkable recovery of his health by the use of Tanlac, Mr. Beasley said:

"I have been trying for ten years to find relief from a case of dyspepsia. Nothing ever helped me to amount to anything until I got Tanlac. This is saying a great deal, for I did everything it seems that a man could do to find relief. Of course, I was hardly ever sick enough to go to bed and was most always able to keep going, but I just never felt right. At times during those ten years, my stomach would become sour like vinegar. I would have an uncomfortable bloated up feeling after eating that would last for hours. I suffered a great deal from nausea. At times my heart would flutter and palpitate and I would become alarmed over my condition. My nerves were on edge all the time, and I became irritable, nervous and restless. I had no strength or energy to do anything. In fact I wasn't like myself at all. Even a week or two ago it was an effort for me to get out of my chair and I felt as stiff and clumsy as an 'old work horse.'

"It is really remarkable what Tanlac has accomplished in my case. It has relieved me entirely of indigestion. I never have that distressing feeling any more after eating, and I feel perfectly fine in every way. I will always feel grateful for what this wonderful medicine has done for me and I am only too glad to give it my heartiest endorsement."

Begin Right Now to Conquer Your Rheumatism

If you are going to again rely upon the liniment bottle to try to rub your Rheumatism away, you will be doomed again to nothing but disappointment. A disease that can cause so much pain and suffering is not on the surface of the skin, and cannot be rubbed away.

Many forms of Rheumatism are caused by a tiny disease germ in the blood, and in such cases the only logical treatment is to search out and remove these germs from the blood.

For this purpose there is no more satisfactory remedy than S.S.S., the fine old blood remedy that has been in use for more than fifty years, and has given such general satisfaction for Rheumatism.

MORTGAGE FORECLOSURE SALE

Notice is hereby given that default has been made in the conditions of that certain mortgage duly executed and delivered by Oscar C. Sandberg, a single man, mortgagor, to Northwestern Trust Company, a corporation, of St. Paul Minnesota, mortgageee, bearing date the 29th day of April 1916, with power of sale therein contained duly recorded in the office of the Register of Deeds of the County of Marshall, State of Minnesota, on the 3rd day of May, 1916, at 10:00 A. M., in Book 82 of Mortgages on page 411, which said mortgage, together with the debt secured thereby was duly assigned by said Northwestern Trust Company, mortgagee, to Francis J. Schaefer, by written assignment dated June 1st, 1916, and recorded in the office of said Register of Deeds on the 3d day of June, 1916, at 1:00 P. M., in Book 82 of Mortgages on page 446, and which said mortgage together with the debt secured thereby was further duly assigned by said Francis J. Schaefer to Northwestern Trust Company, a corporation of St. Paul, Minnesota, by written assignment dated August 1st, 1919, and recorded in the office of said Register of Deeds on the 17th day of April 1920, at 9:00 A. M., in Book 86 of Mortgages on page 340; which default has continued to the date of this notice by the failure and neglect of said mortgagor to make payment of the sum of $60.00 interest by said mortgage secured, which by its terms became due and payable on the 1st day of December, 1918, and other interest falling due later. And whereas the said Assignee of Mortgagee and holder of said mortgage has elected and does hereby elect to declare the whole principal sum of said mortgage due and payable at the date of this notice under the terms and conditions of said mortgage, and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $1000.00 with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1918, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1919, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $152.40 taxes paid by the undersigned on July 31st, 1919, with interest thereon at 6 per cent per annum since July 31st, 1919, being a total due at date of this notice of one thousand three hundred seventy-three dollars and twenty-eight cents ($1,373.28); and whereas the power of sale has become operative and no action or proceeding at law or otherwise has been instituted to recover the debt secured by said mortgage or any part thereof. Now therefore, notice is hereby given that by virtue of said power of sale contained in said mortgage and pursuant to the statute in such cases made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by the same, towit: the East half (E½) of the Northeast quarter (NE¼) of Section Twenty-six (26) and the West half (W½) of the Northwest quarter (NW¼) of Section twenty-five (25), in Township one hundred fifty-seven (157) North of Range thirty-nine (39) west of the 5th Principal Meridian in Marshall County, State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the court house in the City of Warren in said County and State on the 19th day of April, A. D. 1921, at 10:00 o'clock A. M., of that date, at public vendue to the highest bidder for cash, to pay said debt of $1,373.28 and interest and the taxes paid and to be paid if any on said premises, and $50.00 attorneys fees as stipulated in said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from date of sale as provided by law.

Dated March 1st, 1921.

PRESS COMMENT ON PHILIPPINES

The Philippines!

(Shenandoah (Ia.) Post.)

Our idea of the Philippine question is to "get out as quickly as possible and stay out. What do you say?

Our Little Brown Cousins

(Argus, Rock Island, Ill.)

There is no mistaking that Filipinos want their independence. And it is just possible, as they insist, that they in the islands, better than we Americans over here, are the best judges of whether they are fitted for independence. The United States wants no outburst in the Philippines as England faces in Ireland. The easiest way to head off a rebellion is to give the islands their independence before they have cause to rebel.

Shall We Let Philippines Go?

(Cedar Rapids (Ia.) Republican.)

The United States cannot continue to hold the Philippines unless this nation wants to give the lie to its own professions in the matter. The United States must keep faith with the world. The American people do not want the Philippine Islands to become their Irish question.

Filipinos Are Making Headway

(Mt. Vernon (O.) Republican-News)

The Filipinos are making an intensive and intelligent campaign for independence. They are urging their claims with shrewdness and vigor. They declare that they have proven beyond question that they are capable of self-government, and they believe that with independence the Filipino will so conduct himself as to gain the respect of the world.

CONGRESS HEARS DRAMATIC PLEA FROM FILIPINO

Philippine Resident Commissioner Isauro Gabaldon

Washington. — "Must the heart of America beat only for the freedom of Ireland, of Poland and of the Czecho - Slovaks, and not for the independence of the Philippine Islands?"

This was the question Resident Commissioner Isauro Gabaldon of the Philippines adressed directly to the membership of the House of Representatives in a speech which was given very close attention and was frequently applauded.

"At one time," said Commissioner Gabaldon, "Congress had before it no less than thirty resolutions expressing sympathy with the aspirations of the Irish people, if not actualy urging England to grant independence to Ireland. At that time, also the Filipinos were knocking at your door. Out of the womb of war, many European republics were born, and America has rejoiced to uphold the same. And yet the claim of the Filipinos is still unheeded. Must there be exceptions, then, in international justice?

"My plea, gentlemen of the American Congress, is that you ignore no longer the repeated requests of a deserving people for an independence that rightfully belongs to them. The granting of independence now affords the United States a golden opportunity to give to the world unanswerable proof of its sincerity, its consistency and its altruism. It will be the greatest example of square dealing in the history of the ages.

"Do not think we are not appreciative of all you have done for us. We are. America has truly treated the Filipino people as no other nation has ever treated an alien race in all history. The high points of the American policy in the Philippines have been consistently inspired by altruism. We know that you were actuated in your labors by the desire to contribute to our own welfare.

"And we love you perhaps most of all for your solemn promise to grant us that which we hold dearer than life itself—our freedom. Independence is our national ideal. It is our all absorbing aim. It grows stronger every hour. For the spirit of nationalism never dies. Much less can it be subdued. We believe that we can never hope to be a sturdy nation if we are to rely forever on the magnanimity of the United States.

"America's task in the Philippine Islands is finished. What you have assumed as your sacred obligation in that part of the world has been fulfilled. A people with a medieval system of institutions has been transformed into a conscious nation, imbued with all that is modern in the activities of nations. And if you give us independence our gratitude to you will increase a thousand fold; it will last forever if you keep faith with us.

"There is but one issue in the Philippine question, and that is: Is there today a stable government on the Islands? In the Jones law you promised independence upon the establishment of such a stable government. Your own Governor-General has officially reported that there is a stable government in existence today, and we also have submitted plenty of evidence to substantiate its existence. Therefore, we hope and expect America will now carry out its pledge."

FINE HAT MAKING A PHILIPPINE ART

This Filipina is making a Philippine hat, which is becoming quite popular with both men and women in the United States, and is usually a source of great pride to the wearer.

FILIPINO INDEPENDENCE, BUT NO GUARANTY

(Chicago Tribune.)

We do not blame the Filipino people for wanting their complete freedom. It is the natural aspiration of mankind.

School Attendance

All parents should make a special effort to have regular attendance the rest of the school year. The work from now to the end of the year may make the difference between passing and failing in the grade of a pupil. Regular attendance is especially important in the case of children who are hauled.

If the attendance were regular enough, transportation would cost the district nothing as the state pays the district 8 cents a mile per pupil for each day of attendance. Based on the average attendance of the first six months of school we shall lose several hundred dollars.

Regular attendance will still mean considerable money saved.

Do you know the

Facts about building costs.

Do you know that lumber and building materials are down?

Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

St. Paul—Minnesota mines in 1920 supplied 58 per cent of all the iron ore mined in the United States.

Duluth—J. M. O'Gorman, 68 years of age, for 20 years a member of the Duluth Board of Trade, is dead.

Marshall—Mrs. W. D. Lovelace, age 71, who came to Lyons county in 1872, died at her home in Cottonwood.

St. Paul—St. Paul will enlarge its citizens vigilance committee in an attempt to curb reckless automobile driving.

Northfield—After suspending business for six months the Northfield Milk Products company has resumed operations.

Montevideo—The county board of Chippewa county has sold $75,000 in refunding bonds to the Northwestern Trust company of St. Paul.

Minneapolis—Kindness to Animals week will be April 11 to 17, and prizes from $2 to $5 will be offered for the best pictures of common dogs.

Luverne—The county board of Rock county has advertised for bids for graveling the state road known as No. 8. The bids will be opened April 19th.

Faribault—Thomas H. Quinn, an ex-service man and young lawyer, and R. A. Tomadt were nominated for mayor in the nonpartisan city primary election.

Owatonna—M. M. Johnson was elected senior counsel of the Owatonna council, United Commercial Travelers, at the annual meeting of that organization here.

Fergus Falls—Frank J. Evans, cashier of the Fergus Falls National bank for 35 years and one of this city's most prominent citizens, died here from heart trouble.

Fergus Falls—The board of county commissioners opened bids for the construction of a new courthouse to replace the building destroyed by a tornado two years ago.

Northfield—Fourteen 2 year old heifers, all of which will be used in the boys and girls club work in Todd county, were shipped. The average price paid was $200 a head.

Albert Lea—The Citizens bank of Glenville, seven miles south of here, was burglarized, it was learned when officials opened the bank. The loss has not yet been determined.

Chatfield—Members of Company G, Third Battalion Motor Corps of the state troops stationed here, received honorable discharge this week from the state safety commission.

Olivia—State and federal army officers conducted an inspection of Company H, Minnesota National Guard. The inspection is the first since the reorganization of the company.

Waseca—The municipal coalyard, established in this city last year, has accumulated net profits of $1,400 above all costs, according to a report submitted to the local city council.

Winona—Navigation on the river Mississippi was opened here when the Steamer Minnesota, a pleasure vessel owned by the Mayo brothers of Rochester, docked at the levee after a drop down the river from its winter quarters at Fountain City, Wis.

St. Paul—The state supreme court refused a second trial to Orren Shea, otherwise known as "Tacoma Johnny" Doyle, convicted in Ramsey county district court on an indictment charging him with complicity in the murder of Mrs. Alice McQuillan Dunn in 1917.

Luverne—With the lowest bid for construction of the proposed new public school building here, $127,000 above the $350,000 fund available for the structure, the board of education had decided to await lower prices before letting the contract for the building.

Hibbing—Logging operations in the north woods are virtually completed, according to information received here from woodsmen returning to this section. According to the woodsmen, there is considerable snow remaining along the Canadian border, but the Minnesota loggers have completed their tasks and will take out but little additional timber this season.

Minneapolis—Half the drunkenness called to the attention of the court in Minneapolis, with the situation now more deplorable than in the palmy days of liquor saloons, comes from the sale of Jamaica ginger, lemon extract, perfumery and hair tonic, according to information in the hands of the council license committee, furnished by Judge C. L. Smith, who offered actual court records to substantiate his statements.

Minneapolis—Leasing of land near Minneapolis by the state for aviation and radio purposes will bring $500,000 of equipment to Minnesota and an annual expenditure of $40,000 by the war department, according to Lieutenant Colonel W. C. Garis of the adjutant general's department. A bill has been prepared authorizing such a lease by the military board.

Crookston—One hundred towns and villages in every county in northwestern Minnesota adopted resolutions calling on the Minnesota legislature to pass the bill appropriating $25,000 for the eradication of the barberry bush.

Brainerd—Peter B. Lasher, 72 years old, father of 19 children, and Civil war veteran, is dead at his home here.

Litchfield—Mrs. W. P. Robertson was elected president of the newly organized women's auxiliary of the American Legion of this city.

Litchfield—The Meeker County Farm bureau will contribute a car of corn as its share in the campaign to help the starving and famine stricken people in China.

Royalton—Fanned by a strong west wind, fire today destroyed the frame building occupied by the Thomas Garber stores, entailing a loss estimated at from $25,000 to $35,000.

Luverne—John Kuehl, a farmer living near Beaver Creek, is dead from an internal hemorrhage suffered in lifting a heavy wagon box from a truck and placing a hog rack on the truck.

Tracy—Nine horses, a number of milch cows and several hogs were burned to death when lightning struck the barn on A. Trudeau's farm, near here. The loss is estimated at $8,000.

Bemidji—Police on the range have been asked to join in a search for George Merwin, 84 year old farmer of Cromwell, Minn., who has been missing from his home for several days.

Montevideo—The Bergen church congregation has let a contract for a new $26,000 building to be erected on the site of the one destroyed by fire a year ago. Work is expected to start soon.

Duluth—Dye, applied to a pair of shoes while on his feet, is believed to have been responsible for development of bloodpoisoning in the lower limbs of Roger W. Spencer of this city.

Olivia—Hog cholera again has appeared in this section, breaking out on at least two farms in Renville county. Quarantine measures have been adopted in an effort to stamp out the disease.

Winona—Clyde Woodward, aged 35, a teamster employed by a transfer company, was drowned in the Mississippi river. He slipped into the stream at the levee here while unloading wood from a barge.

Duluth—While its mother was waiting with it in a railroad station to take a train for Rochester for treatment, the 11 months' old infant son of Mr. and Mrs. Irving O'Brien, South Hibbing, died as a result of swallowing a tack.

Rochester—M. O. Smith, a former alderman, found guilty at the February term of district court of grand larceny in connection with the paying of election judges, was sentenced by Judge Callaghan to pay a fine of $100 or spend 60 days in jail.

Minneapolis—One hundred and thirty-five seniors of the School of Agriculture of the University of Minnesota, received their diplomas in graduation exercises in the auditorium at the University farm, at which members of the class gave practical demonstrations of farm activities.

Willmar—Fifteen years in the state penitentiary at Stillwater was the sentence meted out to Henry E. Wheeler of Minneapolis in the district court here after he had pleaded guilty to robbery in the first degree in connection with the holdup of the State Bank of Kandiyohi in February.

Fergus Falls—A company has been organized here which has arranged to purchase busses for the establishment of a daily bus service between Perham, Fergus Falls and Pelican Rapids and between Wadena, Fergus Falls and either Wahpeton or Elbow Lake. The service is to start in May.

Grand Rapids—Henry Nelson, 57, was killed and Peter and Ernest Nelson, cousins, and Edward Comstock, all of Marble, Minn., were seriously injured when their automobile plunged through the railing of an overhead railroad crossing seven miles from here. The machine landed bottom side up on the rocks 20 feet below the road level. Henry Nelson's neck was broken. The others are expected to recover.

Tracy—When Marvin S. Peterson, dry goods merchant of Garvin, went to his store to bank the furnace he had a narrow escape from death. As he entered the place, Peterson was commanded to throw up his hands, but instead of doing so, ran for the door. The intruder fired twice at Peterson, one bullet passing through his coat sleeve and the other through his hat. The robber fled before Peterson could return with assistance.

Austin—A new automobile trail is to be laid out between Minneapolis and Chicago, by the Oak Dale Trail Association recently formed and whose headquarters are at Owatonna, Minn. The project is organized and financed and the work of blazing the trail is to begin at once. The trail will leave Minneapolis and pass thru Owatonna, Austin, McGregor, Madison and Milwaukee. It will practically follow the line of the Chicago, Milwaukee & St. Paul railroad, and in addition to regular markings every tenth telegraph pole along the route is to bear the emblem of the trail composed of the initials "O. D. T."

St. Paul—Fires in Minnesota during the year 1920 caused property losses estimated at $6,097,274, according to a statement issued by George H. Nettleton, state fire marshal. The value of this property is placed at $64,947,568 and was insured at $43,859,254. The total number of fires reported during the past year is given at 2,486.

St. Paul—Following a suitcase that he smashed through a window of the train on which he was being taken to St. Peter, a violently-insane patient leaped from the Pioneer Limited as it was pulling out of the Union depot and escaped

KEEP FAMILY IN REIGN OF TERROR

Mysterious Death Threats Pinned on Front Door With Butcher Knives.

BLAME FORMER SUITOR

For More Than Year Chicago Family Has Been Kept in State of Constant Terror by Black-Hand Letters.

Chicago.—Mysterious death threats pinned to the front door with butcher knives; crude skulls and crossbones drawn on window panes by an unseen enemy; black-hand letters demanding money—these are some of the experiences which have caused the family of Jacob Kolb, a machinist of 4846 Altgeld street, to live a life of terror for the last year.

The climax came at ten o'clock one night recently when Mrs. Sophie Kolb answered the telephone.

"This is Black-Hand Kite!" came a man's voice in gruff tones. "If you don't come across with that $5,000, we'll blow up your house! This time we mean business! Bring——"

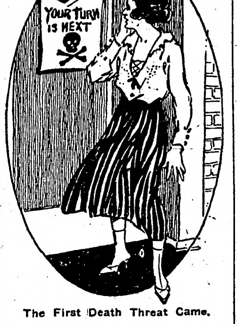
Woman Faints at Threat.

Mrs. Kolb heard no more. She sank to the floor in a faint, leaving the receiver dangling. Motorcycle Policemen Anderson and Maloney were rushed from Shakespeare avenue station and the Cragin station was notified. Mrs. Kolb was hysterical.

"I'm sure I recognized that voice," she said after she had been calmed. "It sounded like Frank Pobloski, a young man about eighteen years old, who used to run around with Conrad Braemer of 1767 Clybourn avenue, who tried to go with my oldest daughter, Amelia, sixteen. I knew Braemer had been arrested, so I forbade him to see my daughter.

"'I'll get even with you,' he threatened, but I've never seen him since.

"A year ago, when we lived at 4944 Belmont avenue, the first death threat came. A note was pinned to the front door with a butcher knife. The note read: 'Your turn is next.' It was signed with a skull and cross bones. Four months later a letter came demanding $5,000 be brought to an ice cream parlor at Cicero and Fullerton avenues. It stated our house would be blown up if the money was not paid.



The First Death Threat Came.

Fright Almost Kills Son.

"Two more letters came, then another butcher knife was found imbedded in the door. My little son, Jacob, saw it, and collapsed from fright on the car tracks. A motorman stopped the car just in time. Then Julia came home one day and found a message and crossbones smeared in tar on the glass panel of the door. It said: 'You're next.'

"Both Jacob and Julia were so frightened they were under the care of Dr. Martin Schupman for three months. My health broke down, and Amelia is on the verge of nervous collapse. She has been receiving anonymous phone calls threatening her and ordering her to meet some man at different places. A few days ago they tried to lure her to the Alexian Brothers' hospital on the pretext that a 'dear friend' was dying.

"A man named Kite runs a dry goods store next door to where Braemer lives. That's why that fellow tonight used the expression 'Black-Hand Kite.' We notified the Irving Park police on the former occasions, but nothing ever came of it."

A police guard was stationed at the Kolb home.

Pension for Horses.

Greenville, S. C.—Dan, the faithful horse of Capt. O. K. Breazele, which has carried United States mail a total distance of more than 75,000 miles on one route, was retired one day recently with a pension after 17 years' service. Captain Breazele, the mail carrier, also was pensioned.

Curious Egg.

Lancaster, Ky.—Perry Long has a curiosity in the shape of an egg presented to him by one of his favorite hens. It is an exact replica of a well-developed kershaw, though not so large as a kershaw, displayed a few weeks ago.

FINE CROPS SURE

Farmers in Western Canada Jubilant at Prospect.

Splendid Winter Weather Has Put the Naturally Fertile Land in Splendid Condition, and Bountiful Yields Are Assured.

"What a delightful winter we have had," is an expression that could be heard almost anywhere when the topic of the weather became the subject of conversation. Not only in the Middle West and "down east" could it be heard, but also in the Far West, up in the Canadian West. There the same remarkable features that brought forth a wonderful winter existed. Reports from all parts of the country, from famed Medicine Hat in Alberta to Winnipeg in Manitoba, indicate that all through the winter season very little cold weather was experienced. In December, we read that golf playing had put into the discard all ice sports, that farmers were caught "red-handed" plowing their fields. In January, the Alberta yeoman got out his tractor and in his shirt sleeves was seen preparing ground for the 1921 crop. During February, in Saskatchewan, one farmer harrowed fifty acres and planted the seed. "Why, yes, of course, in March," said an Iowa farmer, who had just heard from his son, who was looking after the Western Canadian farm, "my boy writes me they had some snow, and a few cold dips, but what did that matter? The cattle and the horses came through the winter in better condition than they looked three or four months ago. Grass was plentiful on the prairies, the stubble was rich and valuable as food, and the straw stacks and groves proved ample for shelter."

Spring is now fully upon the Western Canada farmer, his machinery is all in shape for a spring's work, and he is looking forward to an excellent crop year. Last fall there was a splendid lot of moisture that permeated the ground sufficiently to leave a perfect seed bed. Indications are now that the crop will go in in the condition required for successful germination. Then, with the lengthened days of May and June, the many hours of sunshine that they bring, accompanied by showers of rain, and with a soil of which there is none richer nor more generous, there will be seen preparing for a ripening harvest the hundreds of thousands of acres of wheat, oats, barley, rye, alfalfa and corn that will make the hearts of the Western Canada farmers swell with pride as they reasonably look forward to an abundant harvest.

There is a great deal that can be said in favor of the climate of Western Canada. The most important is that those who live there, and have lived in other countries, prefer it to any they have experienced elsewhere. It is true the winters as a rule are colder than are those in countries lying much farther south, but it is also true that they are tempered by a dryness of the atmosphere that makes a lower temperature preferable to that several degrees higher where greater humidity prevails. Enervation and listlessness are unknown; the air is bracing, but the cold is not penetrating. Then the summers and the autumns—they could not be more enjoyable.—Advertisement.

GERMANY SEEKS SUPPORT OF U. S.

Recognize Their Moral Obligation and Suggest Means of Meeting It.

WOULD PAY WAR DEBTS

Germany Ready to Undertake Interest and Amortization Payments of Foreign Obligations—Offer to Help in Restoring France.

Washington.—Paraphrases of the informal exchanges between the German and American governments regarding reparations, in which the United States holds Germany "morally bound to make reparation, so far as may be possible," have been made public at the state department.

Describing the German communication as an "unequivocal expression" of the recognition of that obligation, the American reply expresses the hope that renewed negotiations which Germany says it plans to initiate, "may lead to a prompt settlement which will at the same time satisfy the just claims of the allies and permit Germany hopefully to renew its productive activities."

Germans Would Pay Allied Interest.

Included in the German communication is the suggestion that the only solution of the reparations problem is in an internatoinal loan, in favor of which the allies and associated powers would waive the general mortgage on German assets created by the treaty of Versailles. In this connection the German government says it "would not be unwilling to assume the obligation of the interest and the amortization of the foreign debts of the allied and associated powers, within the limit of her capacity."

Germany invites the examination "by unbiased experts of its own ability to make payment," and says she stands ready to meet any proposal which appears feasible "for the solution of the economic and financial problems of Europe."

The American reply makes no reference either to the proposed consolidation of allied debts as a German obligation or the suggestion for the determination of unbiased experts of the ability of Germany to pay.

Slow Restoration of Battle Areas.

Another consideration with regard to reparations presented by Germany is that of the rehabilitation of devastated regions. The German government says it stands ready to offer to France good offices and resources in whatever form acceptable. It asserts that for the immediate rehabilitation of the devastated regions it has "repeatedly proffered labor, technical advice and material assistance," but that these offers have not been accepted.

Germany declares that there exists in France only a limited degree of concern for the rehabilitation of the devastated regions, because advance indemnities have been given to former occupants of the soil who have settled in other parts of France and the work of clearing the war areas "has been undertaken by influential groups of promoters who are making no effort to expedite the performance of their contracts."

The German communication is in the form of a memorandum of Dr. Walter Simons, minister for foreign affairs, dated March 23 and transmitted through American Commissioner Dresel at Berlin, who has had informal conversations with the German government on the subject for some time. The American reply is officially termed a "statement" sent to Commissioner Dresel for communication to Dr. Simons. It is dated March 29.

SOON TO END STATE OF WAR

Harding Administration Plans on League Made Known to Viviani.

Washington.—The Harding administration intends to terminate the war between the United States and Germany by congressional resolution, M. Viviani, French envoy extraordinary to this country, is understood to have been informed at a dinner at the home of Senator McCormick of Illinois.

The former premier was also informed, it was said by senators present, that the program of the administration does not contemplate entrance of the United States into the league of nations.

Those at the dinner stated that M. Viviani had been told frankly that it was useless to discuss the possibility of American membership in the league of nations. Most of the Republican members of the senate foreign relations committee and Colonel George Harvey of New York, prospective ambassador at the Court of St. James, were among those present.

JOY BROUGHT INTO HOME

By Lydia E. Pinkham's Vegetable Compound, Restoring Mrs. Benz to Health

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We have had six children die almost at birth. From one hour to nineteen days is all they have lived. As I was going to have another, I took a dozen bottles of your Vegetable Compound and I can say that it is the greatest medicine on earth, for this baby is now four months old and a healthier baby you would not want. I am sending you a picture of her. Everybody says, 'That is some healthy looking baby.' You have my consent to show this letter."—Mrs. C. W. BENZ, 131 3rd Ave., Altoona, Pa.

No woman can realize the joy and happiness this healthy babe brought into the home of Mrs. Benz, unless they have had a like experience.

Every woman who suffers from any ailments peculiar to her sex, as indicated by backaches, headaches, bearing-down pains, irregularities, nervousness and "the blues" should not rest until they have given Lydia E. Pinkham's Vegetable Compound a trial.

Oh How Glorious to Be Free From Rheumatism's Tortures!

Just suppose you could be free from your deepseated, agonizing rheumatic aches and pains, your stiff joints and unsightly swellings! Wouldn't you give anything to get rid of them?

You have doubtless rubbed on outside treatments; most rheumatism sufferers have. Some of these take the edge off the terrible pains for a few hours, but they do not strike at the cause, which nearly always lies in the poisoned, impoverished blood.

When this is so, you need an internal remedy, one that will take out the impurities that are torturing you, one like famous S.S.S., which has relieved thousands of cases of rheumatism all over the country just this way.

HAS AN EDUCATIONAL VALUE

Good Newspaper Is Very Much More Than a Mere Purveyor of the World's News.

The newspapers are made up by men trained in bringing together all the most important of the world's happenings and condensing them so that you can grasp them with little difficulty.

If yours is a good newspaper, it is interesting, for nothing is really news that isn't interesting. Read it carefully. It is your history of the most interesting of all the periods of the world's history—the times in which you are living.

You can get an excellent education by reading the newspapers attentively and following up the suggestions that come to you while reading them.

If you do not read them, and read them carefully, you will always be rusty and behind the times, though you have taken all the degrees the greatest university can confer.—John Blake, in Chicago Daily News.

A Sharp Speaker.

Mrs. Sheridan, the beautiful young Anglo-American sculptor who recently went to Russia and made busts of Lenin, Trotzky and the other Bolshevik leaders, succeeded particularly well with her bust of Trotzky.

Mrs. Sheridan, who was Miss Moreton-Frewen before her marriage, said at a dinner party:

Trotzky, you know, is famous for his sharp speeches. When I exhibited his bust in Petrograd, a lady said to Lenin:

"'What a likeness! You can see the quiver on his lips.'

"'Yes,' said Lenin, 'and the arrows coming out of it.'"

His Theory.

Wilbur, age seven, rushed into his home after school and his first request was for bread and jam. His grandmother, after complying with the request, jokingly told the boy that he would "never grow up" if he continued to eat so much bread and jam, whereupon Wilbur answered:

"Grandma, I believe that's why you're so old. You don't eat any bread and jam."

AMEND ROAD MEASURE

Senate Approves Measure—Now Before House for Final Consideration —Aid for Dowling School.

St. Paul—After unanimously passing the highway administration bill, as amended, the senate ordered 1,000 copies printed for consideration of the house members and public in general. The bill will now go to the house for final consideration.

One of the most important amendments to the bill in general limits the amount that might be spent for hard surfacing to 20 per cent of the construction fund for each year. The house had fixed the limit at 25 per cent. The idea back of the limit is to permit the proper grading and graveling of the roads within the next two years before much hard surfacing is done.

After a sharp debate an amendment striking out the provision prohibiting advertisements along the trunk highways, was adopted.

One of the amendments, made by agreement with the Hennepin county senators, will make it possible for Hennepin county to raise $750,000 and to continue improvements on certain street extensions, leading into southern Minnesota.

An amendment was adopted permitting counties to hire engineers for county work without getting the permission of the state highway commissioner and to remove the engineer without his approval.

State Aid Granted Dowling School.

State aid will be granted to the city of Minneapolis for the Michael Dowling school for crippled children, under the bill by Senator W. F. Brooks and Thomas H. Girling, which now has passed both houses. The state aid amounts to $200 a year for each pupil. The senate passed the bill Tuesday and on motion of Mr. Girling the house suspended the rules yesterday and rushed the bill through.

Industrial Budget $575,123.

The new state industrial commission has presented its budget to the appropriations committee, asking a total of $575,123 a year to cover all the activities in its charge. This includes $43,200 a year for boiler inspection, which is offset by fees paid into the general revenue fund. It includes $15,000 for the minimum wage commission. The largest part of the money is for inspectors and referees to handle workmen's compensation cases and factory inspection.

"Land Sharks" Attacked.

Intending to deprive "land sharks" of some of their profits, Theodore Christianson is fathering a measure requiring a mortgagee to advertise his intention for four weeks, before commencing foreclosure proceedings. If, in the meantime, the mortgagor pays the interest and installment due, no proceedings may be started.

Peat Experiment Plan Changed.

After killing a bill providing for an appropriation of $50,000 for peat experiments under the state auditor, the house and senate appropriations and finance committees favor a bill to spend this amount for this purpose under the university school of mines, which has the equipment and can do the work cheaper.

Clothiers Protest Measure.

Clothing manufacturers and dealers protested before the senate committee on agriculture against the bill by Senator A. L. Ward, requiring cloth and fabrics to be labeled to show what material is used and the percentage of pure and shoddy wool. No vote was taken on the measure.

Full Crew Bill Delay Asked.

A majority and minority report on the railroad full crew bill was returned by the senate railroads committee, the majority favoring indefinite postponement of the measure. The reports were tabled and will be fought out in the near future.

Insanity Divorce Bill Killed.

Insanity will not be a ground for divorce in Minnesota for some time to come. The house judiciary committee killed a bill by N. T. Moen, making insanity for 10 years ground for permanent separation. Members of the committee expressed the opinion that unfortunates are sometimes driven crazy by erring spouses and should not be victims of something over which they had no control.

Bill Postponed.

The bill to authorize the State Board of Control to transfer inmates of the Sauk Center state home school for girls to the women's state reformatory at Shakopee, was recommended for postponement following an explanation that a like bill had been defeated in the senate.

Hospital Bill Approved.

The bill creating a Minnesota General hospital at the University of Minnesota, to work in harmony with the hospitals throughout the state, and also with institutions under the board of control, has been recommended to pass to the senate.

Death Penalty Urged to Pass

F. E. Nimocks' proposed constitutional amendment, permitting the people to vote on the question of restoring the death penalty for Minnesota, was recommended to pass in the house. A statutory bill restoring the death penalty was killed in committee.

Safety Body Favored.

After a bitterly fought battle over the Nolan police bill its passage was finally secured by a vote of 41 to 22. The bill is a companion of one introduced in the house by Representative Wicker, and provides for creating the office of state safety commissioner to co-ordinate police activities.

The measure was introduced by Senator W. A. Nolan. There is a companion bill in the house introduced by Representative George Wicker.

Under the terms of the bill the state safety commissioner, who is to be appointed by the governor, has power to direct all peace officers within the state, local and county. It is provided that the commissioner establish a bureau of identification at the capitol to assist local police officials in tracking criminals. It is also provided that the commissioner hold a school in criminology for local peace officers.

Motor Vehicle Regulation.

A complete code of regulations for vehicles using the highways of the state was introduced in the house by the committee on highways. In addition to all the rules now in use with regard to driving, stopping, rounding curves or parking, the bill provides numerous rules and regulations of the committee's own. For instance, no motor vehicle may be left standing on any street or road with the motor running. Trailers may be provided with blocks to prevent their running back, if they should break loose while being pulled up hill.

Ordinary motor cars, however, are forbidden to use chains or lugs, except in "particular places" and at particular times, when they may be necessary, and then the cross pieces on the chains must be at least one foot apart.

Cars must be provided with mufflers, but NO cutout may be used within the limits of any city or village, or when passing teams or livestock on the road.

The width of tracks is limited to 96 inches, but tractor engines may be 108 inches wide. NO single vehicle may be longer than 30 feet, nor longer than 85 feet with trailers.

Soldiers' Bonus Bill.

The long looked for soldiers' bonus bill, to take care of deserving service men who were excluded from the benefits of the bonus act passed in 1919, was introduced in the house by the committee on soldiers' home and state bonus.

The bill provides that men who claimed exemption on account of marriage when the marriage took place after they had been rejected for age or physical disability shall not be considered an attempt to evade service.

It provides that any soldier who entered the service prior to November 11, 1918, or who saw active service on or after that date, or who still is in the service under honorable conditions, at the time of making application, shall be entitled to $15 per month for the time of service up to July, 1920.

The bill expressly deprives deserters, or those who left service under dishonorable conditions; conscientious objectors who refused to serve, those who refused to don the uniform; aliens who were discharged from the service because of their lienage, and slackers generally, of the benefits of the bonus act.

It also provides that soldiers who left the ranks to accept commissions and those who accepted pay as civilian employes, shall not participate. Officers and civilians were also barred under the original bill. The bill was referred to the Soldiers' Home and State Bonus committee.

Newsboy Measure Kept Alive.

After rollcall on the bill prohibiting newsboys under 12 years of age from selling papers on the streets, had been started, Senator F. L. Palmer, author, was permitted to withdraw his motion for final passage and the bill was kept alive on the calendar. Due to light attendance, the bill would have failed to pass, had the rollcall continued.

Experimental Farms Meet Defeat.

County boards will not be able to provide for county experimental farms, the senate committee on towns, counties and municipalities having killed a bill making this provision. This committee also put the ax on a measure authorizing county boards to acquire land for public parks and tourist camping grounds up to $25,000.

Tax Receipt Statement to Stand.

The house killed a bill which would repeal the law requiring counties to print on the back of tax receipts how the tax money was distributed. This precipitated a sharp debate, in which it was said some counties did not conform to the law and that "taxpayers should know where their money goes."

Capper O. K. Defeated.

Following a long drawn out battle in the house committee on markets, in which the measure to memorialize congress to pass the Capper bill to prevent dealing in futures failed of favorable action, a subcommittee was appointed to draft another measure. Objection was made to the wording of the bill under consideration.

Property Exemptions.

Heads of families with two or more dependent children will be given an extra $100 personal property exemption upon passage of the bill by Representative T. H. Girling, which was advanced to the calendar in the house, subject to amendment.

To Show Deed Considerations

A bill to require filing affidavits showing considerations which are not disclosed in deeds presented for record, was advanced to the calendar subject to amendment after a long debate. It was claimed that the consideration would guide assessors and that the bill was indorsed by tax officials and experts, but Representative Theodore Christianson asserted that affidavits would not be necessary in case the deed contained the words "$1 and other good and valuable consideration." Then it was advanced subject to amendment.

PITTSBURG MAN MAKES WONDERFUL STATEMENT

Declares Tanlac Enabled Him to Eat Better, Sleep Better and Work Better. — Has Gained Thirty Pounds.

"I consider Tanlac the grandest medicine in the world, for I have actually gained 30 pounds in weight since I began taking it. It has just simply filled me with new life and energy and for the first time in years I can sit down to the table and enjoy three square meals a day like other people. In fact, Tanlac has made me eat better, feel better, sleep better and work better, and I guess that's all a man can expect of a medicine.

"Before I took Tanlac, I was off 25 pounds in weight and was so badly run down I was hardly able to do my work. Nothing seemed to agree with me and my food invariably soured on my stomach. I would always have an uncomfortable bloated up feeling in my stomach, and although I tried many kinds of medicines, I never got relief until I took Tanlac.

"I also suffered considerably at times from Rheumatism, but this has all disappeared. In fact, this wonderful medicine has made a new man out of me in every way. I feel years younger and can do as much work as in any day of my life.

"Of course, I am only too glad to give you my testimonial because I want other people who are suffering as I did to take this medicine and get relief."

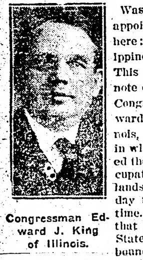
CONGRESSMEN FAVOR FILIPINO INDEPENDENCE



Congressman Edward J. King of Illinois.

Washington.—"The appointed hour is here: let the Philippines be free." This was the keynote of a speech by Congressman Edward J. King of Illinois, (Republican) in which he reviewed the American occupation of the islands from the first day to the present time. He declared that the United States was honor bound to grant independence without further delay.

Congressman King is one of an increasing number of Republicans in the House who are urging quick action on Philippine independence. Mr. King is the author of a bill which provides that within one year the Philippine government, under presidential proclamation, may assemble a convention and frame a constitution.

After the constitution is ratified by the Filipino people the President may recognize the Philippine islands as "a separate and self-governing nation." The transfer of authority is to be completed within one year. Provision is made for safeguarding American investments in the Philippines and for the providing of coaling stations and submarine bases in the islands by the United States.

Word from the Philippines is that the people expect early independence and will be sorely disappointed if they do not get it.

"No nation has the right," said Congressman King "to hold another people in peonage, even though it may be argued by the professoriate that the condition is simply one of 'tutelage.'

"A little more observance of the golden rule in national and international affairs would soon dispel that desire for exploitation, the fiercest foe of freedom in the world today.

"When we went to the Philippines we declared before the whole world that we were not actuated by any selfish desire of conquest or territorial aggrandizement, but solely by humanitarian impulses."

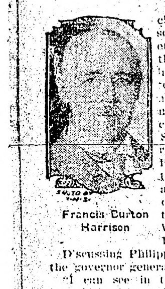
Congressman King called attention to the fact that Filipinos are now raising funds to erect a monument to Admiral Dewey, which he said was indirectly a tribute to the American people as well as to Dewey. He recalled the cable that Dewey had sent to President McKinley, which was as follows:

"In my opinion these people (Filipinos) are superior in intelligence and more capable of self government than the natives of Cuba, and I am familiar with both."

Congressman King then recited the preamble to the Jones law, passed August 29, 1916, and declared it was a definite pledge of independence. The preamble stated "It is as it has always been the purpose of the people of the United States to withdraw their sovereignty over the Philippine Islands and to recognize their independence as soon as a stable government can be established therein."

Congressman King stated there was no question but that the Filipinos had established the specified stable government and, therefore, it is the solemn duty of the United States to grant the promised independence.

ASKS INDEPENDENCE FOR PHILIPPINES



Francis Burton Harrison

Manila. — Francis Burton Harrison, former governor general of the Philippine Islands, offered to tender his resignation eighteen months ago upon condition that the Secretary of War recommend to President Wilson that a Filipino be appointed his successor. He made the offer while in Washington in 1919.

Discussing Philippine independence, the governor general said:

"I can see in the future a very beautiful vision. When the flag of the Philippine republic shall be hoisted, when the Stars and Stripes will come floating down to the strains of 'The Star Spangled Banner'—that flag, Old Glory, so rich in happy and honorable achievements, will be made doubly dear because it will mean that the United States will have kept its word to the people of the Philippine Islands."

CHILD SAVING WORK IN ARMENIA TOLD BY AN AMERICAN

Charles V. Vickrey Gives Facts of Near East Relief Program for Orphans.

Charles V. Vickrey, general secretary of the Near East Relief, has returned from a trip of inspection throughout Central Europe and the Near East, and made a report to the trustees of the Near East Relief in which he covers in detail the actual work of child saving now being conducted by the great American relief organization in the Near East. Mr. Vickrey believes that "a few millions of dollars wisely expended at this time in the education of the children of the Near East, in character building and in moulding these young lives, will be worth vastly more to the world than billions of dollars spent later in suppressing international warfare and strife."

CHARLES V. VICKREY.

Mr. Vickrey considers the need in the Near East and especially in Armenia greater than anywhere else in the world, because, as he says, "In the countries of Central Europe there are going governments which have merely been temporarily impoverished by war. In the Near East, on the other hand, there is no such thing as stable government. The whole fabric of the state has to be created from the beginning, and the innocent and helpless children have to be trained to the responsibilities of future citizenship. Peace in the Near East and, in great measure, throughout the world, will depend very largely on the character of the citizenship of the peoples of the Near East."

Irresistible Appeal of Orphans.

Describing the orphanage work of the Near East Relief in the Armenian Republic, Mr. Vickrey said:

"We have at Alexandropol in the Caucasus, one orphanage where there are approximately 10,000 homeless children, fatherless or motherless, many of them having no known living relative. Some of them do not even know their own names, or the place of their birth. They have shown wonderful recuperative powers, and to see them play their kindergarten or other games under the direction of our American relief workers, one could never believe that they had passed through the years of suffering that most of them have experienced since they, or their parents, were driven from their homes in Central Turkey five years ago.

"For the accommodation of these orphans there are sixty splendid stone buildings, erected as barracks for the Russian army. These buildings are now given to us by the Armenian government for a period of ten years and lend themselves admirably to relief purposes.

"This orphanage at Alexandropol is but one of the 229 orphanages that the Near East Relief is now operating in various parts of the Caucasus, Anatolia, Cilicia, Syria and the Constantinople-Straits area.

"Thirty miles from Alexandropol, at Kars, there is another group of Russian army barracks, which were given us by the Armenian government for relief purposes. I was going through the dormitories of this orphanage at Kars when the young American college girl in charge turned to me and said: 'Mr. Vickrey, it sometimes makes me feel just a little older than Methuselah to be called "Mother" by 6,000 of those Armenian children.' And that is exactly what she was—the only mother that these 6,000 Armenian children have, except as she avails herself of the organized assistance of native Armenian women, in caring for this large family.

"In the hospital at Kars I found 1,150 beds, which, the day I was there, were occupied by 1,263 patients, it frequently being necessary to put two or more children in a single bed. At Alexandropol we have in one hospital, or group of hospital buildings, 1,560 trachoma patients. At Karaklis, forty miles east of Alexandropol we have an orphanage devoted exclusively to the care and training of the blind children. At Delijan we have another orphanage, located on a mountain side, for the care of tubercular children, this segregation being as much for the welfare of the healthy children in the orphanages as for the care of the unfortunate consumptives. At Erivan we formerly had twenty-six distinct orphanages, though they have now been reduced and consolidated to seven in number. There are something more than 3,090 orphans in the region of Harpoot."

John Hagberg expects to go to Minneapolis Monday as a delegate from the Holt lodge to the state convention of the Yeoman.

The appropriations committees of both branches of the state legislature have approved of an appropriation of $25,000 for making final surveys of Red Lake and Clearwater rivers for the drainage board. Supt. Selvig, president of the board, says this gives sufficient funds to prepare final plans at once.

We are obliged to charge for "Cards of Thanks" and announcements of any and all doings where an admission price is charged or a collection taken. This includes church, school, lodge and notices of all kinds published for the purpose of raising money. Much as we regret to do this, the force of circumstances compels us to take this course.

MORTGAGE FORECLOSURE SALE

Notice is hereby given that default has been made in the conditions of that certain moregage duly executed and delivered by Joseph B. Ness, a single man, mortgagor, to Farmers' State Bank of Grygla, a corporation, mortgagee, bearing date the 25th day of January, 1917, with power of sale therein contained, duly recorded in the office of the Register of Deeds of the County of Marshall, State of Minnesota, on the 31st day of January, 1917, at 2:00 P. M., in Book 84 of Mortgages on page 240, which said mortgage together with the debt secured thereby was duly assigned by said Farmers State Bank of Grygla, mortgagee, to the Northwestern Trust Company, a corporation, of St. Paul, Minnesota, trustee under the last will and testament of William T. James, deceased, by written assignment dated February 27th, 1917, duly recorded in the office of said Register of Deeds on the 14th day of March, 1917, at 2:00 P. M., in Book 85 of Mortgages on page 217, which said mortgage together with the debt secured thereby was further duly assigned by said Northwestern Trust Company, trustee under the last will and testament of William T. James, deceased, to Northwestern Trust Company, a corporation, of St. Paul, Minnesota, by written assignment dated April 14th, 1920 and recorded in the office of said Register of Deeds on the 17th day of April, 1920, at 9:00 A. M., in Book 97 of Mortgages on page 493; which default has continued to the date of this notice by the failure and neglect of said mortgagor to make payment of the sum of $48.00 interest secured by said mortgage, which by its terms became due and payable on the 25th day of January, 1919, and other interest falling due later. And whereas the said Assignee of Mortgagee and holder of said mortgage has elected and does hereby elect to declare the whole principal sum of said moregage due and payable at the date of this notice under the terms and conditions of said mortgage, and whereas wherein is actually due and claimed to be due and payable at the date of this notice the sum of $800.00 with interest thereon at 6 per cent per annum since January 25th, 1921, and the further sum of $48.00 interest coupon with interest at 6 per cent per annum since January 25th, 1919, and the further sum of $48.00 interest coupon with interest thereon at 6 per cent per annum since January 25th, 1920, and the further sum of $48.00 interest coupon, with interest thereon at 6 per cent per annum January 25th, 1921, and the further sum of $172.04 taxes paid by the undersigned on July 1st, 1919, and interest thereon at 6 per cent per annum since July 1st, 1919, being a total due at date of this notice of one thousand one hundred forty-six dollars twenty-six cents ($1,146.26); and whereas the power of sale has become operative and no action or proceeding at law or otherwise has been instituted to recover the debt secured by said mortgage or any part thereon. Now therefore, notice is hereby given that by virtue of said power of sale contained in said mortgage and pursuant to the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises described in and conveyed by the same, to-wit: the West half (W½) of the Southeast quarter (SE¼) and the East half (E½) of the Southwest quarter (SW¼) of Section ten (10) in Township one hundred fifty-six (156) North of Range Forty (40) West of the 5th Principal Meridian in Marshall County, State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the court house in the City of Warren in said County and State on the 19th day of April, A. D. 1921, at 10:00 o'clock A. M. of that date, at public vendue to the highest bidder for cash to pay said debt of $1,146.26 and interest and the taxes paid and to be paid if any on said premises, and $50.00 attorneys' fees as stipulated in and by said mortgage in case of foreclosure and the disbursements allowed by law subject to redemption at any time within one year from date of sale as provided by law.

Dated March 1st, 1921.

School Attendance

All parents should make a special effort to have regular attendance the rest of the school year. The work from now to the end of the year may make the difference between passing and failing in the grade of a pupil. Regular attendance is especially important in the case of children who are hauled. If the attendance were regular enough, transportation would cost the district nothing as the state pays the district 8 cents a mile per pupil for each day of attendance. Based on the average attendance of the first six months of school we shall lose several hundred dollars. Regular attendance will still mean considerable money saved.

MORTGAGE FORECLOSURE SALE

Notice is hereby given that default has been made in the conditions of that certain mortgage duly executed and delivered by Oscar C. Sandberg, a single man, mortgagor, to Northwestern Trust Company, a corporation, of St. Paul Minnesota, mortgagee, bearing date the 29th day of April 1916, with power of sale therein contained duly recorded in the office of the Register of Deeds of the County of Marshall, State of Minnesota, on the 3rd day of May, 1916, at 10:00 A. M., in Book 82 of Mortgages on page 411, which said mortgage, together with the debt secured thereby was duly assigned by said Northwestern Trust Company, mortgagee, to Francis J. Schaefer, by written assignment dated June 1st, 1916, and recorded in the office of said Register of Deeds on the 3d day of June, 1916, at 1:00 P. M., in Book 82 of Mortgages on page 446, and which said mortgage together with the debt secured thereby was further duly assigned by said Francis J. Schaefer to Northwestern Trust Company, a corporation of St. Paul, Minnesota, by written assignment dated August 1st, 1919, and recorded in the office of said Register of Deeds on the 17th day of April 1920, at 9:00 A. M., in Book 86 of Mortgages on page 340; which default has continued to the date of this notice by the failure and neglect of said mortgagor to make payment of the sum of $60.00 interest by said mortgage secured, which by its terms became due and payable on the 1st day of December, 1918, and other interest falling due later. And whereas the said Assignee of Mortgagee and holder of said mortgage has elected and does hereby elect to declare the whole principal sum of said mortgag due and payable at the date of this notice under the terms and conditions of said mortgage, and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $1000.00 with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1918, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1919, and the further sum of $60.00 interest coupon with interest thereon at 6 per cent per annum since December 1st, 1920, and the further sum of $152.40 taxes paid by the undersigned on July 31st, 1919, with interest thereon at 6 per cent per annum since July 31st, 1919, being a total due at date of this notice of one thousand three hundred seventy-three dollars and twenty-eight cents ($1,373.28), and whereas the power of sale has become operative and no action or proceeding at law or otherwise has been instituted to recover the debt secured by said mortgage or any part thereof. Do you know the

Facts about building costs

Do you know that lumber and building materials are down?

Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

"I have actually gained twenty-five pounds and I just think Tanlac is the grandest medicine in the world," said Mrs. Robert O. Reynolds, 127 North Denver St., Kansas City, Mo.

"For ten long years I suffered from a very bad form of rheumatism, stomach and nervous troubles. My appetite was very poor. What little I did eat soured on my stomach and I suffered the most severe pains in my back, hips and shoulders. My rheumatism was so bad that I could not raise my hands to comb my hair and my arms hurt me to my finger tips. I became so weak and run down that I lost all my energy and life had become almost a burden. I tried many things but nothing helped me.

"I had only taken my first bottle of Tanlac when I noticed my appetite was improving and I could sleep better at night. I have taken three bottles and the way it has helped me and built me up is really astonishing. I can eat anything and everything without the slightest disagreeable aftereffects. I sleep just fine at night and am in better health than I have been for years. I am glad to give this statement, hoping that any who are suffering as I did may experience the same wonderful results which I believe they will if they give Tanlac a fair trial."

Tanlac is sold by leading druggists everywhere.—Adv.

BRITISH STRIKE CRISIS PASSES

Conference of Owners, Miners and Government Officials Consider the Case.

LLOYD GEORGE PRESIDES

Prospects Are Favorable for a Settlement This Week of Coal Tieup Which Is Costing England $80,000,000 Per Week.

London.—The respective contentions of the mine owners and striking miners are now in the hands of the prime minister, who was to take them under advisement, and meet the representatives of the two sides in the coal dispute early this week.

The conference of the owners and miners, with government officials participating, met at the board of trade, and at the request of the premier submitted exhaustive statements of their cases, which Mr. Lloyd George has arranged to discuss with them separately, meeting the mine owners at 11 in the morning and the miners at 12:30, after which the joint conference will be resumed.

Settlement Looks Probable.

The prospects, therefore, are favorable, although it is still too early to say that the crisis has been averted. The mine owners, even if they were willing to make new wage proposals, were unprepared with any concrete scheme and the present indications are that the conference proceedings will be protracted.

The London Times warned its readers against expectation that the negotions would proceed smoothly, or that work be immediately resumed, as the fundamental difference between the parties still remained acute.

Estimates of the cost of the miners' dispute to the country, including the loss of unmined coal, unpaid wages, decreased railway traffic and the cost of emergency measures place the bill which the country is paying because of the strike at nearly £16,000,000 sterling per week.

No Sabotage Is Noted.

Leaders of the triple alliance of labor viewed the situation this week as being considerably improved, John Robert Clyne, chairman of the parliamentary party, being quoted as saying he was satisfied a solution of the problem could be found.

Information has reached the government, says the London Times, that everywhere but in Fifeshire the miners are observing instructions from their officials not to interfere with safety measures and pumping, which has already been begun in South Wales and elsewhere.

1921 LAKE TRAVEL BEGINS

Lake Traffic Officially Opened by Tanker, in Record Time.

Duluth, Minn.—Making the trip from Whiting, Ind., on Lake Michigan, in 72 hours, the steamer William P. Cowan, an oil tanker, docked at the head of the lakes this week. The arrival of the Cowan marked the official 1921 opening of the local harbor to interlake traffic. It was the first vessel to dock here this season from a lower lake port.

The Cowan carried a cargo of 42,000 gallons of gasoline consigned to local dealers. The craft is owned by the Standard Oil company and is one of a large fleet of tankers operated by this corporation on the Great Lakes.

Captain C. D. Brown said he encountered but little ice on the trip. Forty hours after Cowan left Whiting the tanker passed Sault Ste. Marie. The trip from the Soo to the Twin Ports was made in 30 hours. The time for the entire trip compares well with the average summer run and, according to local mariners, sets a new record for time on the initial trip, up the lakes.

CORK MAYOR DUE OUT JUNE 15

Donal O'Callaghan Given Six Weeks in Which to Leave U. S.

Washington.—Unless the courts intervene, Donal O'Callaghan, lord mayor of Cork, who came to this country last January as a stowaway and without a passport, must depart on or before June 5.

Orders that immigration inspectors take O'Callaghan into custody, should he be found within the United States after that date, were issued by Secretary Davis, of the department of labor. At the same time it was disclosed that on last Wednesday the state department denied the lord mayor's petition contending that he was entitled to asylum in the United States as a political refuge.

Would-Be Murderer Suicides.

Finley, N. D.—With the finding at sundown Sunday of the dead body of John Nagel, 30, with a bullet through his heart, a week's search for the would-be murderer of Mr. and Mrs. Martin Hendrickson, farmers living south of here, ended.

A son of C. H. Wang, a farmer, driving cows home, saw a black coat near a strawpile, and in reaching for it discovered the lifeless body of Nagel.

The revolver, with one chamber empty, was found beside the body

WOMEN OF MIDDLE LIFE

A Dangerous Period Through Which Every Woman Must Pass

Practical Suggestions Given by the Women Whose Letters Follow

Afton, Tenn.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. During the Change of Life I was in bed for eight months and had two good doctors treating me but they did me no good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, which I did, and in a short time I felt better. I had all kinds of bad spells, but they all left me. Now when I feel weak and nervous I take the Vegetable Compound and it always does me good. I wish all women would try it during the Change of Life for I know it will do them good. If you think it will induce some one to try the Vegetable Compound you may publish this letter."—Mrs. A. KELLER, Afton, Tenn.

Mrs. Mary Lister of Adrian, Mich., adds her testimony to the value of Lydia E. Pinkham's Vegetable Compound to carry women safely through the Change of Life. She says:

"It is with pleasure that I write to you thanking you for what your wonderful medicine has done for me. I was passing through the Change of Life and had a displacement and weakness so that I could not stand on my feet and other annoying symptoms. A friend told me about Lydia E. Pinkham's Vegetable Compound and the first bottle helped me, so I got more. It cured me and I am now doing my housework. Your medicine is certainly woman's friend and you may use this testimonial as you choose."—Mrs. MARY LISTER, 608 Frank Street, Adrian, Mich.

It is said that middle age is the most trying period in a woman's life, and owing to modern methods of living not one woman in a thousand passes through this perfectly natural change without experiencing very annoying symptoms.

Those smothering spells, the dreadful hot flashes that send the blood rushing to the head until it seems as though it would burst, and the faint feeling that follows, as if the heart were going to stop, those sinking or dizzy spells are all symptoms of a nervous condition, and indicate the need for a special medicine.

Lydia E. Pinkham's Vegetable Compound is a root and herb medicine especially adapted to act upon the feminine system. It acts in such a manner as to build up the weakened nervous system and enables a woman to pass this trying period with the least possible annoying symptoms.

Women everywhere should remember that most of the commoner ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative and often prevents serious troubles.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

FORGET PASSAGE OF TIME

Neither at Work or in the Hours of Play Does It Pay to Watch the Clock.

At only one time does the average human being measure time with effort, and that is when he is goaded by fear. Scare a man with impending disaster, with bodily danger or with death and he becomes really active. Time doesn't drag then. The clock hands, if he took time to look at them, would seem like racehorses in their speed.

Don't be a clock watcher. Work while you work with so much energy, so much interest that time doesn't matter.

Play when you play with so much abandon, so much enthusiasm that the day passes without your measurement.

The man who measures time in cycles or circles is wrong.

Time must be computed in a straight line along which there is no backward motion.

You can never have yesterday again. If you wasted it, try and make today do double duty. But you can't do that if you watch the clock.—F. A. Walker in Chicago Daily News.

Too many men are looking for trouble instead of work.

FAITHFUL TO OLD VEHICLE

Ox-Cart Still Used as Method of Transportation in Parts of the South and in India.

"Tractors are crawling over the snow-covered fields of northern Greenland carrying the supplies of the Lange Koch expedition. This novel use of a new-born vehicle recalls that some of the oldest transportation methods still are employed in regions whose civilization is older than that of the Greenland Eskimo," says a bulletin of the National Geographic society.

"The ox-cart still serves the southern 'darky' in North Carolina, Georgia and Alabama, as well as in other portions of the South, as his coach and four for the Sunday 'go-to-meetin'. During the week the stolid beast plows tobacco and cotton fields. In India bullocks hitched to a wagon with an ornate beehive-shaped or elongated covering, not unlike the picturesque tobacco schooner, convey the Burmese man and his family along the road to Mandalay. Nor does this animal cease being a means of transportation upon his death. The natives blow up his skin and use it as a float or raft on which they cross the rivers."

Sarcasm is often the refuge of the weak and timid.

Got Skin Disease?

Purify Your Blood

A great part of the maddening and mortifying skin troubles that plague humanity are due solely to disorders of the blood. Relief from these can be had only by removing from your blood stream the impurities that cause the itching.

For this you must take an internal blood remedy. Outside applications have no effect on the cause of the torture. Their relief is shortlived. You must get right after the blood itself.

BUILD IGLOOS OF CONCRETE

Eskimo Indians No Longer Satisfied With the Primitive Houses of Snow of Their Fathers.

It is a matter of government recognition that the Eskimo Indians of the Pribilof islands are rapidly gaining in sophistication; as the prices of the sealskins and blue and gray fox pelts they sell mount higher and higher. Those bits of frozen land in Bering sea, whose total area is less than seventy square miles, have only about 350 inhabitants, yet they are being assailed by all the aspirations of prosperity and are beginning to buy the most interesting items the mail-order catalogues offer. So United States engineers are building them igloos of concrete, says Popular Mechanics Magazine, thus substituting the most substantial of materials for what seems, from the temperate-zone viewpoint, the most ephemeral. The builders, however, are careful to adhere closely to the native style of architecture.

GATHER HERBS IN MOUNTAINS

Carolinians Derive Fair Income Collecting Materials From Which Drugs Are Ultimately Made.

An interesting trade in the Carolina mountain counties of Ashe, Allegheny and Watauga is that in what are known as crude drugs; in other words, herbs, plants, roots, etc. Some families have for many years devoted all their time to gathering these from the mountainsides, live in tents and move from place to place until all the materials in range are gathered. A considerable number of farmers spend part of their time in this line of work and get more money than is paid in wages in that region, while at the same time living near to nature, the most healthful life imaginable, amid the cliffs and with numerous rattlesnakes to be watched for also. Wild cherry bark, hazelwood leaves, mandrake, cohosh, ginseng and golden seal are sought after.—Manufacturers' Record.

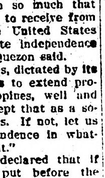
School Attendance

All parents should make a special effort to have regular attendance the rest of the school year. The work from now to the end of the year may make the difference between passing and failing in the grade of a pupil. Regular attendance is especially important in the case of children who are hauled.

If the attendance were regular enough, transportation would cost the district nothing as the state pays the district 8 cents a mile per pupil for each day of attendance. Based on the average attendance of the first six months of school we shall lose several hundred dollars.

Regular attendance will still mean considerable money saved.

ASKS INDEPENDENCE WITH OR WITHOUT PROTECTION



Manuel L. Quezon President Philippine Senate

Manila, P. I.—The people of the Philippines want independence in whatever form they can get it, Manuel Quezon, president of the Philippine senate, declared in an address before that body.

"Let the Americans in the Philippines and those in the United States know that the people of the Philippines covet their freedom, liberty and political emancipation so much that they will not hesitate to receive from the Congress of the United States complete and absolute independence without protection," Quezon said.

"If the United States, dictated by its own interests, decides to extend protection to the Philippines, well and good. We would accept that as a solution of our problems. If not, let us have absolute independence in whatever form we can get it."

President Quezon declared that if the question were put before the Filipinos for a vote, 98 per cent would favor absolute independence.

Certificate of Incorporation of the Carlson Mercantile Company, Incorporated.

We, the undersigned, for the purpose of forming a corporation under and pursuant to the provisions of Chapter fifty-eight (58), General Statutes of Minnesota, for 1913, and any amendments thereof, do hereby associate ourselves as a body corporate, and do hereby adopt the following certificate of incorporation:

ARTICLE I.

The name of this corporation shall be CARLSON MERCANTILE COMPANY INCORPORATED. The general nature of its business shall be to manufacture, buy, sell and otherwise dispose of and deal in all kinds of merchandise, and for that purpose to acquire, own, sell, mortgage, lease and otherwise dispose of and deal in such real estate as may be necessarily incidental to the transaction of said business. The company may use and apply its surplus earnings or accumulated profits to the purchase or acquisition of its own capital stock from time to time and to such an extent and in such manner and to such an extent and in such manner and upon such terms as its Board of directors shall determine. The principal place of transacting the business of this corporation shall be in the village of Middle River, County of Marshall and State of Minnesota.

ARTICLE II.

The time for the commencement of this corporation shall be March 20th, 1921, and the period of its duration shall be thirty years.

ARTICLE III.

The names and places of residence of the persons forming this corporation are Arvid Carlson, of Middle River, Minnesota, Anton L. Carlson, of Holt, Minnesota, and Victor M. Carlson of Minneapolis, Minnesota.

ARTICLE IV.

The management of this corporation shall be vested in a Board of Directors, composed of not les than three (3) and not more than seven (7) members. The names and addresses of the first Board of Directors are Arvid Carlson, Middle River, Minnesota, Anton L. Carlson, Holt, Minnesota, Victor M. Carlson, Minneapolis, Minnesota, Ole C. Johnson, Holt, Minnesota, Olger S. Green, New Folden, Minnesota, and Henry C. Wendt, Middle River, Minnesota. The officers of this corporation shall be: President, Arvid Carlson; Vice President, Victor M. Carlson, Secretary and Treasurer, Anton L. Carlson. All of the above named officers and directors shall hold their respective offices, aforesaid, until the next annual meeting o the corporation to be held on the third Saturday in February, 1922, at eleven o'clock A. M., at which time and annually thereafter, a Board of Directors shall be elected from and by the stockholders of this corporation, The annual meeting of this corporation shall be held at its principal place of business on the third Saturday in February in each year at ten o'clock A. M. Immediately after the election of directors, or as soon thereafter as practicable, the directors shall meet and elect from their number a president and a vice president, and from their number or from the stockholders a secretary and a treasurer. Any two offices except those of president and vice president may be held by one person, The directors and officers of this corporation shall hold their respective offices until their successors have been duly elected and entered upon the discharge of their duties. The first meetings of the stockholders and of the board of directors shall be held at Middle River, Minnesota, on the third Saturday of February, 1922, at ten o'clock and eleven o'clock respectively.

ARTICLE V.

The amount of the capital stock of this corporation shall be One Hundred Thousand ($100,000.00) Dollars, which shall be paid in, in money or property, or both, in such manner, at such times and in such amounts as the Board of Directors shall order. The capital stock shall be divided into One Thousand (1000) shares of the par value of One Hundred ($100.00) Dollars each.

ARTICLE VI.

The highest amount of indehtedness or liability to which this corporation shall at any time be subject shall be the sum of Seventy-five Thousand ($75,000.00) Dollars.

MORTGAGE FORECLOSURE SALE

Notice is hereby given that default has been made in the conditions of that certain moregage duly executed and delivered by Joseph B. Ness, a single man, mortgagor, to Farmers' State Bank of Grygla, a corporation, mortgagee, bearing date the 25th day of January, 1917, with power of sale therein contained, duly recorded in the office of the Register of Deeds of the County of Marshall, State of Minnesota, on the 31st day of January, 1917, at 2:00 P. M., in Book 84 of Mortgages on page 249, which said mortgage together with the debt secured thereby was duly assigned by said Farmers State Bank of Grygla, mortgagee, to the Northwestern Trust Company, a corporation, of St. Paul, Minnesota, trustee under the last will and testament of William T. James, deceased, by written assignment, dated February 27th, 1917, duly recorded in the office of said Register of Deeds on the 14th day of March, 1917, at 2:00 P. M., in Book 85 of Mortgages on page 217, which said mortgage together with the debt secured thereby was further duly assigned by said Northwestern Trust Company, trustee under the last will and testament of William T. James, deceased, to Northwestern Trust Company, a corporation, of St. Paul, Minnesota, by written assignment dated April 14th, 1920 and recorded in the office of said Register of Deeds on the 17th day of April, 1920, at 9:00 A. M., in Book 97 of Mortgages on page 498; which default has continued to the date of this notice by the failure and neglect of said mortgagor to make payment of the sum of $48.00 interest secured by said mortgage, which by its terms became due and payable on the 25th day of January, 1919, and other interest falling due later. And whereas the said Assignee of Mortgagee and holder of said mortgage has elected and does hereby elect to declare the whole principal sum of said moregage due and payable at the date of this notice under the terms and conditions of said mortgage, and whereas wherein is actually due and claimed to be due and payable at the date of this notice the sum of $800.00 with interest thereon at 6 per cent per annum since January 25th, 1921, and the further sum of $48.00 interest coupon with interest at 6 per cent per annum since January 25th, 1919, and the further sum of $48.00 interest coupon with interest thereon at 6 per cent per annum since January 25th, 1920, and the further sum of $48.00 interest coupon with interest thereon at 6 per cent per annum January 25th, 1921, and the further sum of $172.04 taxes paid by the undersigned on July 1st, 1919, and interest thereon at 6 per cent per annum since July 1st, 1919, being a total due at date of this notice of one thousand one hundred forty-six dollars twenty-six cents ($1,146.26); and whereas the power of sale has become operative and no action or proceeding at law or otherwise has been instituted to recover the debt secured by said mortgage, or any part thereon. Now therefore, notice is hereby given that by virtue of said power of sale contained in said mortgage and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by the same, to-wit: the West half (W½) of the Southeast quarter (SE¼) and the East half (E½) of the Southwest quarter (SW¼) of Section ten (10) in Township one hundred fifty-six (156) North of Range Forty (40) West of the 5th Principal Meridian in Marshall County, State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the court house in the City of Warren in said County and State on the 19th day of April, A. D. 1921, at 10:00 o'clock A. M., of that date, at public vendue to the highest bidder for cash to pay said debt of $1,146.26 and interest and the taxes paid and to be paid if any on said premises, and $70.00 attorneys fees as stipulated in and by said mortgage in case of foreclosure and the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Dated March 1st, 1921.

Do you know the

Facts about building costs

Do you know that lumber and building materials are down?

Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

Mr. and Mrs. B. Docken spent Sunday at Winger.

L. A. Jensen left Monday to visit his brother at Barnesville.

Francis Holmgren of Thief River Falls visited over Sunday here with his brother, Randy.

Miss Amanda Mickelson visited Saturday and Sunday with her parents and other relatives and friends.

Gus Bjerken came Thursday from Mahnomen to attend the funeral of Mr. and Mrs. Peter Bjerken's baby boy.

Mr. and Mrs. D. B. Bakke and son, Edwin, spent Sunday with relatives at Middle River and Thief River Falls.

C. L. Heinze and son Harry came home Sunday night from Thief River Falls to help put in the spring crop on their farm.

Carl Sorenson and family moved out of the hotel Monday and S. Morck of Viking is the new proprietor of Hotel Holt.

Sam Mickelson is making some repairs on the Kolden building that is now occupied by Iver Engebretsen with his harness shop.

George Dahn and family of St. Paul arrived here Saturday. Their car came the day before and they moved onto the Ramaley farm, east of town, which they have rented.

Mr. and Mrs. Elmer Hagglund have moved their household goods to the home of her parents, Mr. and Mrs Gilbert Knutson, where Mrs. Hagglund and baby will stay while Mr. Hagglund is in Canada.

John Hagberg returned home Friday from the Yeoman convention in Minneapolis. The District Manager, Peterson was elected as a delegate to supreme convention to be held in Denver in June.

C. L. Sandberg sold silos this week to T. O. Dovre, John Benitt and John Augustine. This is just what the country needs.

We have the creamery, and now all we need is the cows and silos to make this a rich country.

Sixty one cases of eggs and thirty eight tubs of butter were shipped from this station Saturday. This beats selling grain and don't rob the soil either, but builds it up by keeping the manure for the fields.

A baling machine was shipped here Monday, for the company who own the flax straw that is stacked here and the work of baling the straw will commence as soon as their agent, Mr. Sanberg, can get the wire.

Fires and Near Fires

A fire in Mud Lake Monday destroyed the buildings on Alfred Sollom's place, and those on his brother Kittle's place were barely saved by his neighbor, H. Moberg.

The fire bell called out a crowd Monday noon, and a bad chimney fire was soon extinguished on Albert Hagglund's building. Prompt work probably saved a large part of the town, as it was very dry and windy and there would have been a terrible fire had it ever got started.

Mr. Olson, who recently moved in here, set a fire on his place Monday which gave the neighbors and himself a bad scare. No great damage was done but it was a rather narrow escape of what might have been a very bad fire. Some timber was burned and in some places the fire jumped across the road and it took hard work to put it out.

The Farmers' Picnic

The farmers picnic was not largely attended Monday as many farmers were very busy with their field work, and the county agent was delayed in getting started and found the roads a little rough in places, so that he did not arrive in Holt until about 2:30 and some who would have been there had gone home in the meantime. The ladies furnished a fine lunch and those who were not there missed something mighty good.

Mr. Taylor spoke briefly on some of the work being done thru the county agents and was anxious to get the work started here.

It was voted to hold the meetings on the second Saturday night in each month. The next meeting will be held in Holt and a couple of good speakers are expected and a lunch will be provided.

All the farmers are invited to attend these meetings.

Axel Nelson was a Thief River Falls visitor Tuesday.

B. Docken has practically closed a deal for the sale of a 280 acre farm near Holt.

A good garden will help to cut the high cost of living for every family. It's worth trying.

The Free Mission Ladies Aid will serve in the church basement next Thursday afternoon. Everybody invited.

Elmer Hagglund and Chris Knutson left Wednesday for Grand Prairie, Alberta, Canada, to look at the country.

Marvin Sandberg, Albert and Lawerence Hagglund drove up to Strathcona Tuesday after a load of evergreens.

Chas. Hagglund came from Humbolt, Friday and has moved his family into the section house vacated by his son, Elmer and family. They expect to stay there while waiting for the section to open at Humboldt, which has been temporarily closed.

Mr. Johnson of Grygla came over to Holt Monday with county agent Taylor. This was Mr. Johnson's first visit to Holt and he was well pleased with the town and country.

The following students are enrolled in State Contests:

Potato growing—Leonard Ellestad, Henry Nohre, Ole Nygard, Alfin Simonson, Mildred Pederson and Myrtle Reierson.

Gardening—Verna Hagberg, Emma Short, Cora Brown, Helen Hoffmann, Eliza Haarstad, Alfa Strom, Evelyn Christianson, Ella Kiehne and Alice Sandberg.

Bread Baking—Myrtle Reierson, Alfa Strom, Mildred Pederson, Eliza Haarstad, Verna Hagberg, Emma Short, Anna Engebretson Evelyn Christianson, Alice Swan, Alice Sandberg, Cora Brown and Helen Hoffmann,

Gladys Hagberg has been absent from school on account of being ill.

William Davis entered the third grade, last Monday.

The Strathcona Play Was Good

The hall was well filled Saturday night for the Strathcona home talent play. People were in attendance from the surrounding villages, country and Thief River Falls.

"The Poor Married Man" certainly had a hard time and had the sympathy of the audience. Some of the parts were especially hard to give, but each one did their part so well that the audience were well pleased with the play. This play is a sure cure for the blues and the dyspepsia, as the audience was in a continual roar of laughter.

The burlesque given at the close, showed good acting and was just too funny for anything, unless a fellow happened to be thirsty.

Mr. and Mrs Gilbert Knutson took their daughter, Minnie, to the tri-county sanitarium at Thief River Falls Friday for treatment.

Clover hay makes more milk and butter, than wild hay does. Corn stocks, mangels and rutabagas are also good for making milk and butter, and helping to get the land in good shape for other crops.

A big year is forecast for boys and and girls' club work in Minnesota. Graduates of the school of agriculture at University Farm are going out as county club leaders. A score or more of counties will have a leader six months this summer.

Memorial

In loving memory of our dear wife and mother, Agusta Severson who left us one sad year ago April 20th, 1920.

Through all pain at times she smiled, a smile of heavenly birth.
When the angels called her home she smiled farewell to earth.
Heaven retaineth now our treasure.
Earth the lonely casket keeps and the sunbeams love to linger where our Darling mother sleeps.

Sadly missed by
Tom Severson and children.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

MOST IMPORTANT NEWS OF WORLD

Big Happenings of the Week Condensed for Benefit of Busy Readers.

TOLD IN A FEW WORDS

Kernels Culled From News of Moment in All Parts of the World—Of Interest to All the People Everywhere.

Washington

Washington—Complete liberation of the Dominican republic was asked of President Harding by President Carvajal.

Washington—The recess appointment of Edward H. Shaughnessy, Chicago, to be second assistant postmaster general, was announced at the White House.

Washington—Approval of an application for a $2,000,000 loan for financing cotton exports to several foreign countries was announced by the war finance corporation.

Washington—The boundary between Oklahoma and Texas follows the south bank of the Red River, the supreme court held in deciding the dispute between the two states.

Washington—Secretary Weeks indicated today a determination to see that the government receives a fair return for surplus supplies sold through the War department.

Washington—Prohibition against the shipment of arms and munitions to any country where they might be used for revolutionary purposes has been asked of congress by the state department.

Washington—Damage of $85,715,747 was caused by forest fires which burned over 45,483,307 acres in 45 states from 1916 to 1920, inclusive, reported the forestry service. Minnesota was the chief sufferer with a loss of $36,895,868.

Washington—Assistant Secretary of the Navy Roosevelt will leave Washington April 30 to review the Atlantic fleet at Guantanamo, Cuba, and make the return trip north with it. He will travel to Miami, Fla., by train, and thence to Havana by seaplane.

Washington—Bills designed to cover some of the more important problems before the present Congress were introduced in the House. They included the emergency tariff, repeal of some war taxes and proposals for new ones, soldier bonus and soldier relief Federal budget, restriction on immigration, and Federal road building.

Washington—William D. Haywood and 79 other Industrial Workers of the World who were convicted before Federal Judge Landis at Chicago in 1918 of attempting to obstruct the government's prosecution of the war, must return to federal prison as a result of the refusal of the Supreme court to review their convictions.

Sporting

Madrid—Georges Carpentier is pleased with the selection of New Jersey as the site for his meeting with Jack Dempsey for the world's championship, he said here. He has booked passage for America on May 7.

St. Paul—Billy Metcalf and Jimmy Mitchell, St. Paul bowling cracks, in a measure had revenge for the defeat thrust upon them in a 32 game match by De Vito and Marino of Chicago, when they trimmed them by a margin of 248 pins in an eight game match.

New York—If the attendance of the opening day means anything, baseball is back with a stronger heartbeat than ever. The attendance at every major league park showed there is nothing wrong with the old game. The only trouble is in the parks—there isn't room enough.

Domestic

Santa Barbara, Calif.—The Ambassador, one of the largest hotels in the west, was destroyed by fire.

Boston—The historic statehouse, built in 1748 and housing many revolutionary war relics, was damaged by fire.

Chicago—Two men and one woman have volunteered to be inoculated with scarlet fever in an attempt to find a serum to kill the germ.

Cambridge, Mass. — Winnecke's comet, which approaches the earth every five years and eight months, will come "very near" in June.

Chicago—Clara Smith Hamon won't appear in the silent drama in Chicago, according to resolutions adopted by the Illinois Exhibitors Alliance.

New York—For the first time since his illness Enrico Caruso tried out his voice and friends who heard the trial pronounced its quality as unimpaired.

Covington, Ky.—Four persons were killed, four seriously injured and two others badly hurt in a collision of an automobile and a Chesapeake & Ohio railroad engine at a crossing here.

San Francisco—The world's record for an opera attendance was broken at Mary Garden's appearance in "Carmen," when 6,500 persons paid admission.

Chicago—The International Harvester's annual report showed profits of $16,000,000, $4,000,000 less than last year, but a large increase in foreign business.

New York—A special warning against icebergs, reported as only 30 miles from the track of westbound tran-Atlantic steamers in New York was issued here by the United States hydrographic office.

Springfield, Ill.—The house of representatives adopted a resolution for recognition of the "Irish republic" by a vote of 101 to 11.

Chicago—Jobs for women but none for men in 15 central states was the condition reported at a conference of Salvation Army members.

New York—Drugs valued at $250,000 were seized in a residence in Brooklyn. A man giving the name of Charles Nancin was arrested on a charge of violating the Harrison Act.

New York—Federal prohibition directors were advised by their superiors in Washington that hereafter physicians prescribing wines will not be limited to one pint in 10 days.

Detroit, Mich.—William E. ("Pussyfoot") Johnson, American prohibition worker, was hooted out of Windsor and followed by a shower of bricks, eggs and beer bottles as he boarded the ferry for Detroit.

New York—The American schooner Conniscliffe, from Mobile for Arecibo, Porto Rico, has been destroyed by fire and its crew rescued from lifeboats by the British steamer Parthenia, a wireless message from the Parthenia said.

Chicago—S. B. Witkowski, cashier of the State Bank of Cicero, a suburb, shot up and defeated a gang of six automobile bandits. He killed one robber, wounded two, captured two and only the driver of the car, who remained outside the bank, escaped.

New York—Substantial reductions in the base selling prices of the products of the United States Steel corporation and its subsidiaries were announced by Elbert H. Gary, head of the corporation, after consultation with the presidents of the various companies.

Northwest

Winnipeg, Man.—Father Damase Dundurand, 102 years old, died at St. Boniface.

Ann Arbor, Mich.—Charles Sumner Burt, a member of the Burt family of Marquette, pioneers in the development of iron ore mining in the upper Peninsula died here.

Billings, Mont.—The Absarokee Oil development company, which will develop the Northern Pacific railroad's holdings on oil structures on Montana, opened headquarters here.

Butte—Five robberies netted burglars about $550 in cash and $50 worth of merchandise. The largest haul was made at the Purity cafeteria, where the safe was cracked and $527.50 taken.

Cedar Falls, Iowa—Citizens of Cedar Falls voted overwhelmingly against the operating of moving picture theaters on Sunday. The vote was 1,457 against the proposal to 427 in favor of the Sabbath movies.

Winnipeg—Western farmers in many districts will be at work on the land by the end of this week and in 10 days to two weeks seeding should be general. Fine weather is general in the three provinces and the ground is drying rapidly.

Anaconda, Mont.—Coroner Kendrick is conducting an investigation into the death of Dan Gallagher, aged 39. Gallagher appeared at his home with a jagged gash over his right eye, supposed to have been the result of a fall. A few hours later he dropped dead.

Lewiston, Ida.—Five banks in this region were closed. One of them, the First National of Clarkston, Washington, was closed on orders of the comptroller of the currency, it was announced. The other four, all state banks in Idaho and correspondents of the national institution, were closed on receipt of word that the Clarkston establishment had been closed. They are: The State bank of Kamaiah, in Lewis county; The State bank of Kooskia, Idaho county; the State bank of Peck, Nez Perce county, and the Fidelity State bank at Orofino, Clearwater county.

Foreign

Athens—The Greek losses in Asia Minor are estimated at 600 killed and 3,400 wounded.

London—Lord Chalmers, permanent secretary of the treasury, will leave here for Washington to negotiate with the treasury department the funding of the British debt to the United States, according to the Daily Mail.

Weimar, Germany—Thieves plundered Weimar museum, taking Rembrandt's portrait of himself and pictures by Gerard Terburg and Kaspar, Netscher, famous Dutch painters, valued at millions of marks.

Belgrade—A dispatch to the Tribuna from Nikshich, Montenegro, says armed bands attacked Colonel Jackson, chief of the American Red Cross mission in Montenegro and Albania, on the Blek-Velautcha road.

Ottawa—The house of commons defeated 100 to 79 a motion to approve the United States reciprocity offer made in 1911.

WANTS OWN FARM

Why One Youth Seeks the Land of Opportunity.

Beckoning Hands of Independence and Wealth Stretch Out From Western Canada to Those Who Have Faith and Courage.

Strolling around the exhibit room of the Canadian government office in St. Paul, studying the grain, and picking up an odd piece or two of literature describing farming and its results in Western Canada, a dapper, well-built, strapping six-footer said to the manager, "I've been having a grand whirl of living for the past few years. I used to work on my uncle's farm in Iowa. I heard of the big fat pay envelopes that the city chaps were getting every week. I went to the city, and I began getting them, too. I had all the excitement they would bring—theaters, dinners, swell clothes and taxis. I surely saw a lot of that life that in days gone by I had anxiously gazed upon and secretly wanted to try.

"But I'm driven to earth now. I'm still working, but the pay envelope is thinner. Not working steadily, you know, and I sort of miss those silk-shirt times. I went to Western Canada once, and I think I'll make another trip.

"I was up there five years ago. I want money, and lots of it; I want to be my own boss, but I haven't much coin to start with. I want to get into that class that don't have to worry about a buck or so. I know fellows out there in Canada who went there, a few years ago, got a quarter section—some homesteaded and some bought on easy payments—and they are well off today. A number of the boys from my own state paid for their lands from a single crop. I may not be as successful as they were, but I want to try."

He wanted to talk, and the manager was a good listener. He continued: "I want to have my own home and raise my own cattle; I want hogs and poultry, and milk and eggs to sell. Can I get a market?"

He was assured that he could, and that he could get a decent-sized crop to thrash every fall.

"You know," he said, "if the farmers on five-hundred-dollar-an-acre land can make money, my reasoning leads me to believe that I can grow as many dollars an acre from that cheaper land in Western Canada."

This period of semi-unrest is causing more thinking and planning for the future than probably at any time in the past. The desire for personal and financial independence is growing. To secure this, the first real source of wealth is the land itself. That is the solution. During the era of high prices, doubtless there was some inflation of land values. So the new man—the young man wishing to make a start on a farm—was confronted with the problem of the land he wanted having gone beyond his limited capital. He must seek elsewhere. Two decades ago, and less, good farming land could be bought in Canada at four dollars an acre, but as the demand increased and its productivity was proven, prices advanced. There has been no undue inflation, though, and prices today are very reasonable. Some day, when the country is settled, land will bring a much higher price in Western Canada. Today land prices range for unimproved, $18 to $25 an acre; improved, at $30 up.

The productive value is almost beyond estimate. The reports of those who have been farming these lands, making money and enjoying every personal freedom, are available and can be secured on application.

It is apparent that this last big available farming area of Western Canada will tend, to no small extent, to dispel some of the unrest that is so prevalent today among the younger men, who have had a taste of better things and who intend to have them in the future.—Advertisement.

Couldn't Reach It.

Three-year-old Robert of Franklin has a fondness for playing with his mother's jewelry case, much to her annoyance, and after dropping a ring in the register he was warned not to touch the jewelry case again. One day his mother, while out of the room, thought, in order not to tempt him, she would place the jewelry out of his reach on a mantel. When she returned, the youngster met her and shouted, triumphantly:

"I didn't touch the jewelry, mother. I—I couldn't reach it."—Indianapolis News.

IRELAND NEEDS 100 MILLIONS

Harry Boland Tells American Sympathizers Finance Is Big Question.

JUSTICE GOFF CHAIRMAN

Over 5,000 Delegates Attend Convention of Association for Recognition of Irish Republic in Chicago—Cheer Sinn Fein Leaders.

Chicago.—Ireland will ask American sympathizers for a loan, probably $100,000,000, in addition to some $10,000,000 already subscribed to finance its fight against England. Harry J. Boland, personal representative of Eamonn De Valera, announced at the first annual convention of the American Association for the Recognition of the Irish Republic.

"The struggle has resolved itself into a question of money," said Mr. Boland. "We will come to you again for a new loan to the Republic of Ireland. This great convention must give the answer to England's challenge, and resolve here so to organize the association that when the call comes from Ireland for a new loan you will be prepared to supply $10,000,000 should Ireland ask it in the name of liberty.

"It can be done—it will be done. With the 20,000,000 of Irish blood—aye, with you 110,000,000 of free men and women—you will send a message today to the cradle land of your race that you are with your own blood to the last man and woman, if need be, to the last dollar."

Noted Leaders Attend.

The convention opened with more than 5,000 delegates from all parts of the country present. Several times the delegates rose from their seats in a mass to cheer the entrance of one of their international leaders—Peter and Mary MacSwiney, the Walsh sisters, Mr. Boland, Donal O'Callaghan, the stowaway Lord Mayor of Cork and others.

Mayor William Hale Thompson delivered an address of welcome in which he assured the delegates that he was "personally in hearty sympathy with the struggle of the Irish people for political independence."

Justice Goff Named Chairman.

The Rev. Peter C. Yorks, of San Francisco, declared "recognition means that the United States acknowledges the Irish republic as the sole and lawful government of the Irish people. It is a political and diplomatic act. It is demanded by the principles of the Declaration of Independence. If governments derive their just powers from the consent of the governed, then we stultify ourselves every time we recognize the ambassador of Great Britain and Ireland.

Justice John W. Goff, of New York, was elected permanent chairman of the assemblage. The convention voted to send thanks to all senators and congressmen who have supported Ireland's cause.

MANY WAGE EXHIBITS FILED

Scores of Roads Argue Before Wage Board for Sweeping Reductions.

Chicago.—Eastern railroads, appearing before the United States railroad labor board, have opened their drive for sweeping wage reductions for all unskilled labor and, in some instances, for shop and train service employes.

Over the protest of the labor organizations, the board decided to proceed with the wage hearings certified by 93 railroads from all sections of the country. There are three vacancies due to the fact that congress has not yet confirmed President Harding's appointees, and that one member is absent. Five members, a quorum, remained and the board ruled there was no reason for postponing the case.

Scores of exhibits, most of them dealing with cost of living and wages for similar labor in other industries, were filed with the board as carrier after carrier laid its evidence before the board. Following a protest earlier in the day by the employes, the board had extended the time limit for each side's testimony to five days of five hours each.

Bloody Fight Between Friends.

Dublin.—Battling fiercely in a darkened bar room at Castle Coonel, County Limerick, two groups of British soldiers killed three men and wounded several more before it was discovered that neither side was Sinn Fein.

The fight started when a crowd of soldiers in civilian clothes walked into the bar room with drawn revolvers. Civilians at the tables started emptying their own revolvers at the supposed Sinn Fein. The lone lamp in the room was shattered at the first volley. The proprietor, acting as bartender, was the first to be shot down.

Drives Train Through Flames.

Fergus Falls, Minn.—Presence of mind of the engineer on the Great Northern westbound fast mail train probably averted a serious wreck. Rounding a curve near Albany, the engineer noticed a bridge just ahead burning. It was too late to stop the train, so putting on more speed, the engineer shot across the structure in safety.

The Oriental Limited coast passenger train was a short distance behind but had to be detoured to the Breckenridge division.

WIFE TAKES HUSBAND'S ADVICE

And Is Made Well Again by Lydia E. Pinkham's Vegetable Compound

Springfield, Mass.—"The doctor told my husband that I had to have an operation, otherwise I would be a sickly woman and could not have any more children on account of my weakened condition. I refused to have the operation. My husband asked me to try Lydia E. Pinkham's Vegetable Compound to see if it would not help me. For the first four months I could do but little work, had to lie down most of the time, was nervous and could eat hardly anything, but my husband was always reminding me to take the Vegetable Compound, which I did. Of my eight children this last one was the easiest birth of all and I am thankful for your Vegetable Compound. I recommend it to my friends when I hear them complaining about their ills."—Mrs. M. NATALE, 72 Fremont St., Springfield, Mass.

Sickly, ailing women make unhappy homes, and after reading Mrs. Natale's letter one can imagine how this home was transformed by her restoration to health. Every woman who suffers from such ailments should give Lydia E. Pinkham's Vegetable Compound a fair trial. It is surely worth while.

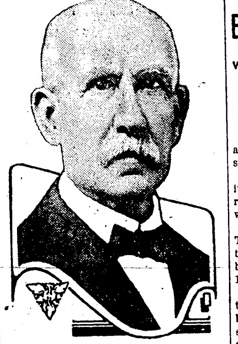
PROMINENT NEW YORK MAN PRAISES TANLAC

John F. Hyatt, of Albany, N. Y., Is Relieved of Severe Attack of Rheumatism of Many Years' Standing.



JOHN F. HYATT
227 Pearl St., Albany, N. Y.

"I am now seventy-two years old and am just getting rid of a fifteen-year case of rheumatism that had me so crippled up I could not walk," said John F. Hyatt, 227 Pearl St., Albany, N. Y., in relating his remarkable experience with Tanlac, recently. Mr. Hyatt was chairman of the committee in charge of building the Albany County Courthouse and was four times elected a member of the County Board of Supervisors. At present Mr. Hyatt is Assistant Superintendent of the Albany County Courthouse, with offices in the building.

"I don't believe," he continued, "anybody could have rheumatism any worse than I did, and my case was of such long standing I didn't expect to ever get over it. I was unable to walk except for a short distance, supported with a cane, and even then the pains struck me every time I took a step. My legs, hips and ankles hurt something awful and my joints were stiff and achy. I couldn't cross my leg without having to lift it up with my hands, and to turn over in bed, why, the pains nearly killed me.

"My appetite was gone and the sight of food nauseated me. My stomach was out of order, and I had a sluggish, heavy feeling all the time. I was weak, off in weight and discouraged so that it looked like I might as well quit trying to ever get well.

"I had no idea Tanlac would relieve my rheumatism when I began taking it last Spring. I took it because I saw where it would give a fellow an appetite. Well, sir, I was the most surprised I ever was in my life when the rheumatic pains began to ease up. I took seven bottles in all and, it's a fact, I didn't have an ache about me, was eating fine and simply felt like I had been made over again.

"I have been in the best of health ever since, with only a slight twinge of rheumatism at intervals. I do not need my cane now, but as I had been unable to walk without it for several years, I got into the habit of carrying it and so still take it along. I am enjoying life and health once more and can conscientiously recommend Tanlac as the greatest medicine I have ever run across in all my experience."

Tanlac is sold by leading druggists everywhere.—Adv.

MEANT GIFT TO BE USEFUL

Sender of Wedding Present Knew Quite Well What Her Sister Would Need in Time.

"What a peculiar choice for a wedding present," remarked an Englishwoman, trying not to laugh, as she inspected a huge flatiron which her charwoman had just purchased.

"Aint it, ma'am?" said the charwoman. "It's my sister that's getting married, and I'm repaying her for the gift she sent on for me on my weddin' day."

"Did she send you something very ugly, then?"

"Deed, no, ma'am. Her's was a beautiful present. But, you see, ma'am, a little bird whispered to me that her future husband's a man of violent temper, and I thought I'd send her something that would be useful in case of family disputes. She has the straightest aim with a flatiron I ever seed!"—Houston Post.

Sounds Reasonable.

Three-year-old Artie wasn't feeling very well. Papa said: "Let me see your tongue. Your head seems quite hot." After looking at it, papa said, "Your tongue has a little coat on it."

Artie looked surprised. "Is it the little coat that keeps my head hot, papa?" he asked.—Boston Transcript.

Maud—He always does.

Rather Skeptical.

"Did you hear about those booze hounds being used by prohibition officers to locate 'stills'?" asked Mr. Gadspur?

"Yes," said Mr. Gumpson. "I have also heard about a pig in Mississippi that's a better hunter than half the bird dogs in the state, and I once heard of a man who had a pet rattlesnake that took the place of an alarm clock and woke him up every morning by coiling on his chest and rattling, but thank heaven I don't have to believe everything I hear."—Birmingham Age-Herald.

Fashionable.

"As far as your new enterprise is concerned," said Colonel Clinchpenny "I can at least admit it is fashionable."

"I don't believe I get your drift," replied Umson.

"Better say 'you don't get my draft.'"

"You call my scheme fashionable?"

"In that it resembles the latest gown from Paris."

"How?"

"It has absolutely no backing."—Youngstown Telegram.

(a) Normal kernel of wheat.
(b) Cross section of normal kernel.
(c) Smutted kernel or smut ball.
(d) Cross section of smutted kernel.
(e) Head of wheat infected with scab.

There are three serious diseases: Smut, scab and rust. Rust cannot be prevented by seed treatment. The other two can. Damage from rust can be partially avoided by selecting a good quality of Marquis seed and by early seeding in order to get an early maturity.

Blow out with a fanning mill as many of the smut balls as possible or remove them from the grain by other means. There are a number of ways of treating the seed with formaldehyde. Perhaps the simplest and most successful method is to mix one pound of common commercial formaldehyde with forty gallons of water. Provide two tubs or half barrels; raise one of them on a box higher than the other, which will be on the ground. Fill the top tub half full of the solution, then pour wheat in loose. Stir it around until it is all thoroughly wet and the smut balls, trash, shriveled kernels and many weed seeds will float. Skim off the floating stuff and destroy it by burning it and feeding it to chickens after it is dry. Don't feed it whole because many weed seeds, being indigestible, will find their way back to the fields.

After skimming take a short piece of hose, fill it in the top tub and quickly throw one end of it over into the other tub. This will act as a siphon and draw off the solution. When drained dump the moist seed from the upper tub onto a clean canvas or platform. Reverse the position of the tubs and proceed as before. Cover the treated seed with sacks or blankets or another canvas which have also been treated in the solution. Leave covered for several hours or over night. Don't let the seed freeze while damp.

Another very successful method is to put the wheat in a tight wagon box, drive along after the seeder in the field, sprinkle and shovel over the seed, then shovel the wet seed into the seeder box and sow it wet. Be careful that you don't clog your seeding spouts.

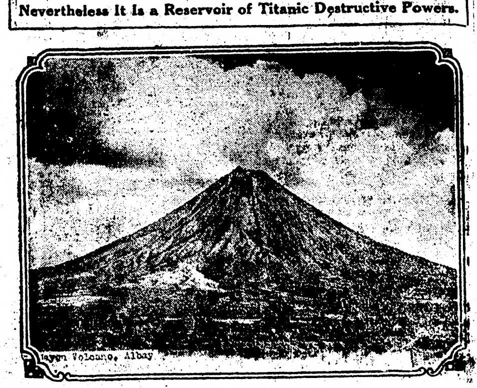
The formaldehyde treatment of the seed frequently increases the yield more than would be naturally expected from simply replacing the smutted heads with sound ones. A substantial gain is made from the use of formaldehyde. Increases of over four bushels per acre have been found in spring wheat in which only a little over one and one-half bushels were actually destroyed by smut. This is probably due to the fact that the grain is affected by other seed-borne parasites than smut and scab and which are as effectually checked by the treatment.

EARLY SOWING.

Spring wheat should be sown in the spring as soon as the seed bed can be properly prepared. Germination takes place in the ground when the temperature is about 42 to 50 degrees. The acreage quantity of seed per acre sown is about 1½ bushels. Sometimes a little less and sometimes a little more will be better. Your own experience will tell you how much. Drilling is better than broadcasting. The use of the corrugated roller is recommended. The seed usually should be sown about two to three inches deep. The important thing is to get it into the soil sufficiently moist to insure germination. In heavy wet soil one or two [illegible] will be deep enough.

The World's Most Beautiful Volcano!

Nevertheless It Is a Reservoir of Titanic Destructive Powers.



Mayon Volcano, now quiet, but which in the recent past has taken many lives and destroyed much property. The Philippine Islands are one of the most interesting lands in the world for the American tourist to visit.

Mount Mayon, in the province of Albay, Philippine Islands, is declared to be one of the most beautiful volcanoes in the world. No matter from which side the mountain is viewed, the cone is almost perfectly symmetrical. The setting of the volcano has much to do with its exquisite beauty, as it rises to a height of 7,943 feet from an almost level plain. The peak is visible for more than 60 miles, its regular, bare slopes near the top giving rare reflections from the illumination of the sun, while at its base is one of the most productive and picturesque landscapes to be seen anywhere in the world. A magnificent road, 120 miles in length, circles the mountain at its base, passing through the most varying scenery. Mayon has a history as an active volcano. It has destroyed whole towns. The most destructive eruption was in 1814, when 1,200 persons were killed. It last came to life in 1900, sending a river of lava into the sea at a distance of 8 miles from the crater. Since then it has been quiet.

A TEST OF FAITH

(Chattanooga News.)

We have frequent occasion to protest against the efforts of Japan to impose her dominion upon unwilling peoples, yet we have thus far failed to exemplify the ideals which we recommend to Japan. If we should withdraw our sovereignty from the Philippines, in accordance with our repeated promises, we could the more consistently ask Japan to follow a similar course toward Shantung, Manchuria and Siberia. Our plea would have a great deal more force if we could make it with clean hands. To say that the Philippines are not ready for independence is merely to express an arbitrary, gratuitous opinion. It is perfectly easy to create conditions—in one's own mind—that no people ever could comply with. Our delay about respecting our own pledge is a reflection on our national good faith and a constant invitation to international complications in the far east.

INDEPENDENCE OF PHILIPPINES

(Atascadero (Cal.) News.)

. . . The Philippines should be given absolute independence, which is their natural right, even if we are well aware that they have not yet reached the full stature of Americanism. We ourselves have not reached it so long as we insist upon governing other peoples against their will.

The farmers have all been busy, this nice weather, with the field work.

John O. Johnson has been fixing up the old bank building for the barber shop.

F. W. Ramaley of Minneapolis was here this week to look after his farm interests.

Rev. Raaum has been building a garage, during spare moments, so he can keep his auto at home.

C. W. Bailey of Minneapolis, who owns the Silbaugh farm, came on Tuesday to visit Tony Peterson.

D. B. Bakke and grandson, Melvin Bakke, left Monday on a business trip to southern points.

The Minnesota Farm Bureau has about 65,000 members and the national organization about 2,000,000.

Richard Larson has built a wood shed for his mother, Mrs. A. E. Anderson, on her place in the east part of town.

Plant more spuds this year, they are good for the land and worth raising on that account, even tho the market prices may be low.

We would like to see every farmer plant just a few more acres of corn this year and a larger patch of potatoes. Also experiment with rutabagas, mangels and sugar beets.

They raise sugar beets in Pennington county and why can't we do the same?

County Agent B. B. Houser, writes from Warren that boys and girls who want to take up club work this summer, should send to him at once for information as the time is getting late. The following subjects will be taken up: baby beef, dairy calf, pig, sheep, poultry, potatoes, gardening and canning work.

Some splendid results were made last year in 71 counties of the state, for better sires and stock. Over 1200 registered bulls were procured, 1600 registered boars, 1800 registered cows, and nearly 1500 high grade cows were added to herds in 46 counties, under the direction of the farm bureau. In 27 counties over 600 cows were discarded as unprofitable by cow testing associations, of which 29 were in operation testing over 10,000 cows, more than 1200 farmers were given help in balancing rations for stock, in only 56 counties. 1200 silos were built in 49 counties, 24,000 animals were tested for tuberculosis, 26,000 hogs were vaccinated for hog cholera control, in only 32 counties.

School Attendance

All parents should make a special effort to have regular attendance the rest of the school year. The work from now to the end of the year may make the difference between passing and failing in the grade of a pupil. Regular attendance is especially important in the case of children who are hauled.

If the attendance were regular enough, transportation would cost the district nothing as the state pays the district 8 cents a mile per pupil for each day of attendance. Based on the averag attendance of the first six months of school we shall lose several hundred dollars.

Regular attendance will still mean considerable money saved.

Do you know the
Facts about building costs

Do you know that lumber and building materials are down?
Have you talked to us lately about building?
Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?
Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

Mrs. A. L. Halvorson and children of Hillsboro, N. D. came Wednesday to visit relatives for several days.

Mrs. Arvid Carlson and son Alton returned to Middle River Wednesday after a few days pleasant visit with relatives here.

Mrs. John Benitt and children returned home Saturday from an extended visit with her mother, Mrs. D. Holst, at Goodhue.

Miss Johanna Larson returned Tuesday from Strathcona where she has just finished teaching a seven months term of school.

A nine pound baby boy was born to Mr. and Mrs. J. H. Knutson Saturday April 23rd. Mother and baby are both doing well.

Miss Evelyn Wegge who has been employed at the hospital in T. R. Falls for several months, returned home Saturday and will stay at home this summer.

Mrs. Fred Holst went to Crookston Saturday to attend the funeral of her grandfather, Henry Merkens. She also visited her parents, at Ada, before returning home.

John O. Johnson is able to be out again after an attack of the rheumatism and his brother, Gilbert has been in bed several days with the same disease, but is now able to be out again.

Mrs. B. Docken and daughter Lorna returned home Tuesday from a few days visit with relatives and friends at Thief River Falls and Winger. Mrs. Clarence Docken and little daughter of Grand Forks met Mrs. B. Docken at Winger and returned to Holt with her for a few days visit. She will also visit her parents, Mr. and Mrs. Peter Stengelson, near Viking.

Our postmaster, Miss Hazel Barnes, has received notice from Washington that her office has been advanced from the fourth to the third class, effective April 1st. 1921, and the salary has been fixed at $1100.00, for the first year. The government also makes an allowance for rent, clerk hire, fuel etc. THE NEWS congratulates Miss Barnes on her good fortune, and the good people of Holt and vicinity who have helped to [illegible] possible.

Will Have Office Day In Holt

County Agent J. W. Taylor of Grygla called in town Wednesday, on the way to Thief River Falls. He reports that he is expecting to have an office day in Holt in the near future, and that it will be on every Wednesday until winter. This will be a great help to the farmers of this community and all of them are invited to call and get acquainted, also to go to him with any of their problems.

The Jefferson Highway

Some of our business men attended an enthusiastic meeting of the Commercial Club in Thief River Falls last Thursday, at which time the matter of re-routing the Jefferson Highway across Marchall County was taken up and discussed.

The majority seem to favor the east route which takes in Steiner, Holt, Middle River, Strathcona and across to Karlstad. After the meeting a bunch of autos made the trip over the proposed route and reported the roads good.

Auto Licenses

Applications for auto licenses should be made before May 15th. on blanks which will be found at all banks. If this is done in time you will be allowed to use your old license plate until a new one is sent you. The license fee is 2 per cent of the factory list price for the first three years. The value of autos during the fourth and fifth years of use are reckoned at 25 per cent less than the factory price, after that one half factory price. The minimum fee is $12.00 for cars under 2000 pounds and $15.00 for the heavier ones.

Basket Ball Game

The basket ball game at this place last Thursday night resulted in a score of 35 for Holt to 10 for Greenbush. A couple of Thief River men wanted to play with Holt and were allowed to do so, but the first half was too one sided as Greenbush was unable to bring along only two men of their first team. At this stage of the game three Thief River men got into the fight on the Greenbush side, and made things lively for the last half. Prof. Clark of Middle River refereed the game to the satisfaction of the big audience, which was made up of people from all the surrounding villages and Thief River Falls.

Martin Nygaard went to Warren Saturday to apply for his citizenship papers.

Elmer Hagglund and Mrs. G. H. Knutsen will have an auction of their personal property on Monday May 16th.

Rip Van Winkle is comming to Holt Saturday May 7th. and will show here that evening and again Monday at noon.

C. L. Sandberg has a force of men at work baling and shipping the flax straw which he bot last fall for a Duluth firm.

Olai Sovde has had the old bank building painted and fixed up and moved his barber shop in there Tuesday night and is now shaving faster than ever before.

Alfred Sollom and Ole Moen of Middle River, stopped here Wednesday to feed their 6 four horse teams while moving their outfit to Mahnoman where they have a big job of road grading.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

Latest News of the Work of the State Legislature Condensed for the Busy Reader

PASS MANY NEW LAWS

Ore Tax, Road System Operations, Farmers Program Among Important Measures on Statute Books.

IMPORTANT BILLS PASSED.

Tonnage tax on iron ore.

Women's compensation insurance law, creating an industrial commission.

Provisions for pre-primary indorsement conventions to be held by political parties.

Enactment of a series of laws to put into effect the highway program.

Recodification of the state educational and school aid laws.

Enactment of an elaborate program of farmers' legislation.

Per capita tax limitation for local and school purposes, affecting particularly communities on the Iron Range.

Increasing the membership of the Board of Control to five members to permit the appointment of two women.

Passage of laws making women eligible to serve as jurors.

Laws putting more teeth in the prohibition enforcement acts, including one to permit the seizure of automobiles carrying liquor.

Submission of a Constitutional amendment for an occupation tax on mining.

Submission of a Constitutional amendment providing for rural credits.

Creation of a state securities commission.

Recodification of the military laws.

Recodification of the laws relating to dairy and food.

Recodification of the laws relating to drainage.

Important amendments to the soldiers' bonus law.

St. Paul—The outstanding results of the Minnesota 1921 legislature are summarized briefly above.

Among the two important measures enacted into law are ore taxation and the farmers program. These formed the chief issues of the last campaign.

Tonnage Tax.

After three months of discussion, a law was passed providing for a 6 per cent tax on the occupation of mining. The attorney general had ruled that the original tonnage tax bills should be so redrafted as to provide for an occupation tax. Considerable opposition to a tax, based on the occupational theory, developed, but it was not sufficient to stem the tide for some sort of a tax on the iron mining industry.

Enactment of the occupation tax on mining, the so-called tonnage tax substitute, means that the issue has now been transferred to the courts of the land. It is certain that the mining companies will wage a bitter legal battle in testing the validity of the law.

Constitutional Tax Amendment.

The people of Minnesota will have an opportunity to pass on the theory of an occupation tax on mining. Both houses passed the bill to submit a constitutional amendment on the subject to the voters at the next election.

Limiting Tax Expenditure.

Following the signing of the so-called tonnage tax measure, Governor Preus got behind a bill to limit the expenditures on the Iron Ranges. A bill finally passed both Houses, placing a limitation of $100 per capita for local purposes and $60 per capita for school purposes. The fight on the per capita tax bill, coming in the closing hours of the session, was one of the most spectacular and acrimonious of the entire 90 days. The original bill provided for a limitation of $50 for local purposes and $40 for schools. The House made the amendments to increase these amounts.

The Farmers Program.

The Minneapolis Chamber of Commerce, the Duluth Board of Trade and the South St. Paul Livestock Exchange have been declared open markets, and the farmer is given the right to come on to these markets with his co-operative selling agencies.

Legislation affecting the farmers of Minnesota took the lead from the very start. As result an agricultural program of far-reaching importance was enacted into law, the outstanding features of which are:

The co-operative law of 1919 was extended to permit the Federation of local co-operative associations into large buying and selling units.

The law of 1919, establishing the state Department of Agriculture, has been so amended as to give that department supervision over all dealers in farm products outside of hay, grain and livestock.

Rural Credits.

Under an act passed, the matter of establishing state rural credits will be submitted to the voters at the next regular election.

Provision is made for the organization of land mortgage associations.

Counties are permitted, under the Bissette law, to appropriate money for the clearing of lands that are agricultural in character.

A resolution passed by both the House and Senate provides that unless the desired changes in the federal grain standards be granted by the Bureau of Markets at Washington, the State Board of Grain Appeals is required to re-establish Minnesota grades based upon the standards in vogue prior to the passage of the Federal Grain Standards act.

Highway Legislation.

The state road tax on motor vehicles was fixed at 2 per cent of the list price of a car. The House originally fixed the tax at 1.8 per cent, and the Senate at 2.25 per cent. The 2 per cent tax was the compromise. This tax law provides for a tax of 2 per cent of the list price of a car for the first three years. The tax for the fourth and fifth years in the life of a car is fixed at 2 per cent of three-quarters of the list price. After the fifth year the value of a car is figured at one-half of the list price. The minimum tax under this law is $12 and, it is said, that the average tax will be approximately $18.

Under the terms of the third big bill in the highway program counties which had the foresight to develop the trunk highways included in the Babcock system will be reimbursed out of the highway fund. Approximately $23,000,000 was spent in this manner by 28 counties.

Workmen's Compensation.

A series of laws was passed covering this whole subject. The main one provides for the creation of an industrial commission, made up of three members, which will not only administer the compensation insurance law, but will take over supervision of the Labor department and all its branches.

Pre-Primary Conventions.

A law was passed during the session permitting political parties to hold pre-primary conventions, for the purpose of endorsing candidates for state and congressional offices.

Only one other law affecting elections was passed. It prohibits a candidate defeated at the primaries from filing again for the same office as an independent.

Public Utilities.

Street railway systems in Minnesota are placed under control of the State Railroad and Warehouse commission so far as the making of rates and valuations are concerned.

The law gives to city councils complete control over service, extentions, and routing, and makes the local governing bodies parties to the valuation proceedings before the state commission. The state commission, however, is given exclusive and initial right to regulate rates, subject to appeal to the courts.

Taxing Telephone Earnings.

Gross earnings of telephone companies, now taxed at 3 per cent, will be taxed at 4 per cent under the law.

Women Jurors.

Three bills, having for their purpose the making of women eligible as jurors were passed. The first amends the law, specifying the qualifications for jurors to include the words "men or women, or both." The second gives the district court the power to excuse women from jury service at its discretion. The third provides for the appointment of women bailiffs in all cases where there are women on juries.

Maternity Hospitals.

A bill permitting cities to take advantage of the so-called Shepard-Towner bill appropriating money for maternity and infancy work was passed.

Street Trades Law.

The so-called street trades bill, affecting newsboys, was sponsored by women's organizations, particularly the League of Women Voters, so it can be included under the general head of women's bills.

Soldiers' Bonus.

Amendments to the soldiers' bonus act were passed, making it possible for certain aliens who did not claim exemption on the grounds of alienage to participate in the bonus. Increases in the bonus fund were also made.

Tax Commissions.

Both House and Senate authorized the appointment of interim commissions to study the whole question of taxation and revenues in Minnesota.

City Measures.

Two laws having to do with the charter were passed. The first, termed the charter enabling act, was practically a repassage of the original charter bill, in order to cure all possible defects. The second, known as the charter curative act, defines more clearly the purposes of the charter. It specifically includes all "special and general laws" as being included under the purposes of the charter. It also includes all moneys and credits in the city valuation on which bonded indebtedness may be made to the amount of 10 per cent.

An additional judge for Hennepin county was provided for in another law.

A law originally sponsored by the Duluth delegation, but also affecting Minneapolis, providing for improvement of wharfage and docks, was passed. It makes possible the issuance of $150,000 worth of bonds for dockage on the Mississippi river water front.

Amendments to the acts relating to firemen's pensions were passed. Several measures, increasing salaries in Hennepin county, particularly so far as clerks are concerned, also was passed.

MRS. REIFENSTEIN, AGED 67, GAINS 25 POUNDS

Declares She Would Like To Put a Bottle Of Tanlac In The Hands Of Every Sick Man, Woman and Child In This Country — Never Saw Its Equal.

"I am sixty-seven years of age, but in all my experience I have never known a medicine like Tanlac. Think of it! At my age to gain twenty-five pounds in weight, but that is just what I have done," said Mrs. Emma Reifenstein, of No. 337 Webster avenue, Syracuse, N. Y.

"If I had it in my power," she continued, "I would put a bottle of Tanlac in the home of every sick man, woman and child in this country, for I know what this wonderful medicine would do for them. For almost two years I was almost a nervous wreck. I did not dare to leave the house or even go up town unless my husband went with me. I was afraid to even cross the street and had a feeling of dread all of the time.

"My stomach was weak and easily upset. For days at a time I would go without solid food. I could not rest at night to do any good and felt tired and worn out all of the time. Some days I could hardly drag myself across the room and was so weak and miserable I was ready to give up.

"My health is fine now and I eat anything I want and never have a touch of indigestion. I have never slept better than I do now. My recovery is the talk of our neighborhood, as it was generally believed I could not last but a few weeks longer. This grand medicine has brought me health and happiness and I just can't say enough in its praise."

Mr. J. Reifenstein, in commenting on his wife's statement, said: "Yes, her recovery has been a happy surprise to us all. A few weeks ago I had no idea she would be able to pull through, but now she is in better health than I have ever seen her and the credit is due to Tanlac. We have been married fifty-two years today and I don't believe I have ever seen her looking any better."

Tanlac is sold by leading druggists everywhere.—Adv.

Cement-Coated Nails.

Approximately one-tenth of the wire nails manufactured are now cement coated, according to H. A. Knight, who writes on the subject to the Iron Age. The nails are coated by shaking them up in a hot tumbling barrel with a compound consisting mainly of resin, from which they issue with a thin, tough coating which greatly increases their holding power. The friction of the driven nail with the wood melts the cement and forms a glue, which cakes fast the nail.—Literary Digest.

Not So Encouraging.

"Your father merely grunted when I told him I wanted to marry you."

"Don't be discouraged, Alexander. Father is an elemental creature and expresses pleasure as well as anger by grunts."

"Yes, dear, but this was a fortissimo grunt. In fact, there was so much power behind it I'm afraid it was a snort."—Birmingham Age-Herald.

A farmer becomes accustomed to solitude—and it isn't so bad.

Jubilant Jubilee.

"Some years ago," says an American who used to live in London, "before Queen Victoria's death and about the time the queen's jubilee was to be celebrated, there was overheard this conversation between two old Scotchwomen on a street corner:

"'Can ye tell me, wumman, what is it they call a jubilee?'

"'Weel, it's this,' said the other. 'When folk has been married twenty-five years, that's a silver wuddin'; and when they have been married fifty years that's a golden wuddin'. But if the mon's dead then it's a jubilee.'"

Who Can Tell?

You cannot always tell. The patriot who is quickest to rise when the band plays "The Star-Spangled Banner" is often slowest to get up when the government asks for his income tax.—Arthur H. Folwell in Leslie's.

Unfair of Him.

"It was cruel of you to throw Reginald over the way you did."

"I know; but what could I do? He quit smoking my favorite brand of cigarettes."

Easily Explained.

She—"I shall never forget how crazy you looked when you proposed to me?"
He—"I was crazy."

TAKES CARE OF 5 CHILDREN

Mrs. Taylor's Sickness Ended by Lydia E. Pinkham's Vegetable Compound

Roxbury, Mass.—"I suffered continually with backache and was often despondent, had dizzy spells and at my monthly periods it was almost impossible to keep around at my work. Since my last baby came two years ago my back has been worse and no position I could get in would relieve it, and doctor's medicine did not help me. A friend recommended Lydia E. Pinkham's Vegetable Compound and I have found great relief since using it. My back is much better and I can sleep well. I keep house and have the care of five children so my work is very trying and I am very thankful I have found the Compound such a help. I recommend it to my friends and if you wish to use this letter I am very glad to help any woman suffering as I was until I used Lydia E. Pinkham's Vegetable Compound."—Mrs. MAUDE E. TAYLOR, 5 St. James Place, Roxbury, Mass.

Backache is one of the most common symptoms of a displacement or derangement of the female system. No woman should make the mistake of trying to overcome it by heroic endurance, but profit by Mrs. Taylor's experience and try Lydia E. Pinkham's Vegetable Compound

SEED LOAN FUND COVERS ALL NEEDS

Work of Federal Aid Office in Fargo Nears Conclusion This Week.

NEARLY 10,000 HELPED

Applicants From Four Drought Stricken States Get Million and Half—31 North Dakota Counties Benefited.

Fargo.—The government's $2,000,000 fund for seed loans to the farmers of the northwest states will be sufficient to care for all applications, according to announcement by C. W. Warburton, in charge of the Fargo office established for the distribution of these loans, which will complete the bulk of its work this week.

Of the $1,385,403.25 distributed in the states of North Dakota, Montana, Idaho and Washington up to last week, farmers of last year's drought-stricken districts of this state had received $663,256.25. Divide county, North Dakota, was given the most help of any single county in the area in which loans were made, receiving aid totaling $121,410, and Wells county received the least, one application for $200 having been granted.

Although it had been expected when the federal loan was first authorized that the fund would be insufficient to care for the demands of the farmers, Mr. Warburton explained that the department had apportioned the loans in such a manner that every farmer-applicant believed to be in need has been given assistance. He said that in many cases the applications for loans had been cut, but that the department had been of the opinion that it would be better to help as many farmers as possible, even though some of them failed to receive all they applied for, than to issue $200 loans to all first applicants and deplete the fund before all requests had been acted upon.

Work Nears an End.

Mr. Warburton estimated that the remainder of the applications would be considered this week and the most of the department's work in Fargo closed. He said that he would remain in charge of the local office with a small force until about the middle of May to attend to remaining details in connection with the work.

Following is a list of the number of loans and the amounts loaned in the four states entitled to federal aid:

State	Number	Amounts

NO MORE BEER FOR MEDICINE

Volstead Introduces Bill Forbidding Liquor Prescriptions.

Washington—As the first step of the fight in congress to tighten up the Volstead prohibition enforcement law, a bill designed to prohibit the sale of beer to the sick on a doctor's prescription, has been introduced in the house by Chairman Volstead of the judiciary committee.

Declaring there was no real necessity for beer as a medicine, Mr. Volstead announced his bill was put forward to meet the situation created by the opinion of former Attorney General Palmer that beer and wine, under the Volstead act, could be prescribed for the ailing.

Noted Financier to Help

Fargo.—Bernard M. Baruch, New York financier and chairman of the war finance corporation during the World war, has agreed to arrange for the finances of the United States Grain Growers, Inc., according to Usher L. Burdick, president of the North Dakota Farm Bureau federation and a member of the Grain Growers board of directors, who has returned from Chicago where he attended a conference of the board. Mr Baruch is recognized as one of the leading financiers of the country.

Swiss Lakes Disgorge Relics.

The recent drought in Switzerland has lowered the lakes so much that archaeologists are having a great opportunity to examine the old lacustrine or pile dwellings which date back to the stone age. Old pottery is being discovered in two lake dwellings revealed on the shores of Lake Neuchatel, says a cablegram to the New York Times, and hundreds of piles in perfect preservation and on which these dwellings originally rested are now clearly visible. Many persons have volunteered help for excavating the remains of these ancient dwellings, which, according to Doctor Kellerchief, the Swiss authority on the subject, ceased to be inhabited about the first century of the Christian era. Numerous boats, which apparently were wrecked and sunk in past times, are now visible.

The best way to cure those sore muscles, made so by digging in the garden, is to dig some more.

Must Pay Price for Success.

Read of the lives of three-quarters of the successful men, and you will see that they started poor and became successful without "pull." If that is being done today, as it is, you can do it. But you can't do it by souring on the world. You have got to want to succeed, and want to succeed more than anything else. If you don't want to succeed enough, you will not succeed. But it won't be unfairness and favoritism in the world that holds you back. It will be your unfairness and favoritism to yourself.—John Blake in Chicago Daily News.

"A NATION SAVED BY AMERICA," SAYS CLEVELAND H. DODGE

New York Business Man Describes Vast Armenian Work of Near East Relief.

Cleveland H. Dodge, New York banker and business man, director of the National City Bank, and treasurer of The Russell Sage Foundation and of the Near East Relief, declares that "a nation has been saved by American philanthropy, and the generosity of the American people through the Near East Relief, in its work for the Armenians.

"The lowest official estimate indicates that one million persons are living today who would not be alive had it not been for this relief." Mr. Dodge continued, "I have an autograph letter from Dr. H. Ohandjanian, president of the Armenian Republic, in which he writes: 'America literally saved us from starvation.'

CLEVELAND H. DODGE.

"Wholly aside from adults who have been saved from starvation, we today have in orphanages and elsewhere under our care 110,000 homeless, fatherless or motherless children who are absolutely dependent upon us. This is exclusive of 63 hospitals with 6,552 beds, 128 clinics, rescue homes for girls and unnumbered thousands of refugees who are being helped through our industrial relief and in other ways.

"The Near East Relief has during the past four or five years commissioned and sent to the Near East more than 1,000 American relief workers, of whom 500 are still in the field, all of them working at great financial sacrifice—the standard of salary being $50 per month and maintenance—and many of them facing great personal danger and hardship in the performance of their life-saving service. A score of them have died from typhus or other diseases more or less related to their faithfulness in the performance of relief service.

"Nor is that all. We have raised and disbursed during war times and in a war-torn area, in large measure under enemy control, more than $41,000,000 in cash, and, including flour, Red Cross and other supplies administered by our agents, a total of cash and supplies in excess of $50,000,000. The official reports show that on June 30, 1920, we had in orphanages 54,000 children, and that we are partially supporting outside of the orphanages 56,000 children, making a total of 110,000 boys and girls now under the care of the Near East Relief."

Mr. Dodge considers the work of the Near East Relief one of the most stupendous undertakings of disinterested philanthropy the world has ever seen.

"In countries whose population totals more than 30,000,000 souls, American idealism exemplified by the work of the Near East Relief constitutes today a torch of enlightenment and an influence for peace throughout the whole Near East," he maintains. "Our American ideal of liberty, industry and helpfulness has brought us as a people happiness, prosperity and fulfillment. Out of the fullness of this heritage we are furnishing a faithful and undaunted Christian people the brotherly aid which will enable them to reach the same fulfillment that God has given us.

"It is an achievement of which every American may well be proud."

A big year is forecast for boys and and girls' club work in Minnesota. Graduates of the school of agriculture at University Farm are going out as county club leaders. A score or more of counties will have a leader six months this summer.

We would like to see every farmer plant just a few more acres of corn this year and a larger patch of potatoes. Also experiment with rutabagas, mangels and sugar beets. They raise sugar beets in Pennington county and why can't we do the same?

County Agent B. B. Houser, writes from Warren that boys and girls who want to take up club work this summer, should send to him at once for information as the time is getting late. The following subjects will be taken up: baby beef, dairy calf, pig, sheep, poultry, potatoes, gardening and canning work.

Clover hay makes more milk and butter, than wild hay does. Corn stocks, mangels and rutabagas are also good for making milk and butter, and helping to get the land in good shape for other crops.

Do you know the

Facts about building costs

Do you know that lumber and building materials are down?
Have you talked to us lately about building?
Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?
Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

VOL. XI. HOLT, MARSHALL COUNTY, MINNESOTA, FRIDAY MAY 6, 1921 NO. 1

Movies on Saturday and Monday May 7 and 9.

B. J. Bakke of Thief River Falls was a visitor here Friday.

Sam Mickelson is building a house for Henry T. Olson, north of town.

You can see how coal is mined by going to the movies Saturday night or Monday noon.

Revs. Myhrer and Strom went to Spooner Friday to hold meetings for several evenings.

County Agent Taylor will be in Holt every Wednesday and will have his office at the bank.

"The Making of a Nation" will be played at the schoolhouse on the 16th of May at 8 o'clock P. M.

There will be services at the Mission church at 8 o'clock Sunday evening. All are invited.

Miss Bernice Hanson of Roseau came Sunday to visit at the home of her uncle, Pete Hanson and family.

Mrs. Ingebretsen of Fertile visited here a few days the past week with her sister, Mrs. Jacob Nelson and family.

Did you ever see Rip Van Winkle? He's coming to Holt Saturday night May 7th, and again on Monday at noon.

Mrs. B. J. Bakke and son, Melvin, and Mrs. Peter Hoglin came up from Thief River Falls Tuesday to visit relatives.

Albert Cairns, auditor of the Red Lake Falls Milling Co., came Tuesday to look after weighing the grain in their elevator here.

Mrs. Albert Mathison and baby and Ed Bjerk and lady friend drove from McIntosh Saturday evening for an over Sunday visit with relatives and friends.

Tom Larson, who has been visiting his mother for a couple of weeks, left Saturday for Breckenridge where he will do road work this summer.

A number of our people attended the play at Newfolden Friday evening, that was given by Stranquist home talent for the benefit of their ball team.

John Haggberg and Loyd Adams have been working this week on the basement and foundation of the house occupied by Mr. and Mrs. Knute Brown and family.

A class play entitled "Making a Nation," will be given at the school house Monday evening May 16th. This is sure to be something good and everybody sdould see it.

Mr. and Mrs. C. L. Sandberg went to Thief River Falls Wednesday with their baby, to see a doctor about its health, which has been poorly for sometime.

Section foreman Hanson received orders Tuesday afternoon to get four more men for work on the track. This gives him five men for a section ten miles long. The wages paid are the same as last year, $3.88 for eight hours work.

O. H. Nohre went to Hazel Saturday, where his partner, P. P. Reierson, has lived this winter. Mr. Nohre took along several teams they had been keeping here this winter, Arnold Boernstein, Ed and Dick Nyberg went with Mr. Nohre and will help them with their road work this summer.

Mrs. Jacob Nelsen was taken suddenly sick Friday. Dr. Froehlich was called and pronounced her trouble as a stroke of paralysis. Her whole left side was almost helpless at first, but she is getting better, we are glad to report. Recovery from paralysis is always very slow and Mrs. Nelson may be confined to her bed for sometime.

Good Work Done

Following is a short summary of the report of the county agricultural agent for eastern Marshall county, for the month of April.

162 office calls, 154 letters written, 18 farm visits made, 15 schools visited regarding club work, 14 farm bureau and farmer clubs visited, 890 miles traveled, $189 worth of grass seed sold through the office, 13 tons of phosphate sold to farmers at a saving of $4 per ton, 7 demonstrations started with application of phosphate on peat, 16 bushel of certified potatoes sold, 5 hired men placed on farms, 5 purebred and high grade cattle bot for farmers, 8 demonstrations conducted, 178 girls and boys enrolled in club work, 21 club members visited, 7 fields of winter grain inspected, 9 applications made for testing cattle, 4 applications made for potato field certification.

Office days as follows:
Mondays at Grygla, Wednesdays at Holt, (at bank), Fridays at Middle River.

Farmers having seeds for sale should list them with the County Agent.

The following meetings for eastern Marshall county have so far been scheduled:
May 7, New Solum. May 8, Rollis.
May 13, Cedar. May 14, Holt.
May 15, Veltwood. May 21, Middle River. May 22, Benville.

O. H. Lind, state scale inspector, was in town Tuesday testing scales and measures.

Mr. and Mrs. John Melquist of McIntosh visited Sunday at the Pete Hanson home.

L. A. Jensen came from Minneapolis Saturday and Monday commenced helping P. L. Anderson with the work in the creamery.

Rev. Kriedt of Thief River Falls will hold English services in the Lutheran church at 2:30 Sunday afternoon May 15th.

Everybody come and have a real nice time at the Basket Social in the new school house in Dist. No. 158, on Saturday evening May 7th.

Casper Snare of Greenbush was a business visitor here Monday afternoon. We understand Mr. Snare is expecting to soon start giving moving pictures in Holt again.

Six cows, a heifer, four calves, 23 chickens, 4 turkeys, a horse, cream separator, a lot of 2x4s, Victrola, household goods, etc., will be sold by Mrs. G. H. Knutson and Elmer Hagglund, at public auction on the Frank Coppay farm near Holt, on Monday May 16th.

Mr. and Mrs. James Barnes' little four year old son was taken sick Saturday night with an acute attack of appendicitis. Dr. Spinks was called Monday and in company with the mother and Miss Hazel Barnes took the little fellow to the Thief River Falls hospital where he was operated upon that night and at last reports was getting along nicely.

The T. R. Falls Times last week contained an article thats hard to understand. They make the claim that the meeting held there for that purpose, favor the Pembina trail against the proposed east route, thru Steiner, Holt, Middle River and Strathcona.

We will venture the prediction that before the summer is over these very same people will be mighty glad to travel the east route.

This is a free country and those who want to travel the "lonesome trail" without towns, telephones or farm houses, may continue to do so.

Movie Saturday night.

Change of Firm

Dehard Johnson closed a deal Monday for the sale of his confectery store and lunch room to Magnus Spjut of Roseau. Mr. Spjut took possession Tuesday morning and Mr. Johnson intends to take a course in one of the governments vocational schools.

The News wishes both young men success in their ventures.

Dr. J. T. Turley will be in Holt again Monday, May 16th, to do dental work.

A dance will be given every Friday night at 9:30 in the rink at Thief River Falls.

Good moving pictures will be shown at the Woodman hall Saturday night and Monday at noon.

Rip Van Winkle is comming to Holt Saturday May 7th, and will show here that evening and again Monday at noon.

All ex-service men are urged to apply for theis victory medals at once, for Memorial Day.

The two county agents will be the principal speakers at the farmers picnic Saturday night May 14th.

Mrs. D. B. and B. J. Bakke, Mrs. Hoglin, Mrs. Docken and Mrs. Halvorson went to Middle River Tuesday to help Mrs. Spinks celebrate her birthday.

Next Sunday will be observed as "Mothers' Day." Wear a red flower if your mother is living, and a white one if she has passed away. This is a beautiful costume and should be more generally observed.

Mr. and Mrs. Ben Eide and children and her sisters, the Misses Ruth and Emma Tobiason autoed up from Warren Sunday for a visit at the home of the ladies' parents, Mr. and Mrs. T. A. Tobiason. Miss Emma remained here for a more extended visit at home.

Newfolden voted fifty five in favor of the electric high line to five against. This means they will sell $13000 worth of bonds, and they have already sold enough stock to insure getting the line as soon as it can be built. The company is now selling stock to the farmers between Newfolden and Argyle.

A big crowd from Holt attended the ball game at Middle River Sunday afternoon, between the teams of the two towns. The game was a tie at the completion of the ninth inning, each team having one score to their credit. Middle River made another score in the last part of the tenth inning.

P. L. Anderson, who umpired the game, says it looked like a frame-up that Middle River was to win on account of Arvid Carlson and L. A. Jensen having a big side bet of a dollar on the outcome of the game.

A Play Day is to be held at Sunnyside School, District 59, three mile east and 1 mile north from Holt, Saturday, May 14. This Play Day is given by the Rural Schools east of Holt. The program will open at ten o'clock with a declamatory contest. Basket lunch at noon followed by the athletic contests in the afternoon when Mr. Luttrell is expected to be present. The contests are open to the pupils from the schools east of Holt. The public is invited.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

THIS WOMAN'S EXPERIENCE

Brings a Ray of Hope to Childless Women

Lowell, Mass.—"I had anemia from the time I was sixteen years old and was very irregular. If I did any housecleaning or washing I would faint and have to be put to bed, my husband thinking every minute was my last. After reading your text-book for women I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash, and have never felt better than I have the last two years. I can work, eat, sleep, and feel as strong as can be. Doctors told me I could never have children—I was too weak—but after taking Vegetable Compound it strengthened me so I gave birth to an eight pound boy. I was well all the time, did all my work up to the last day, and had a natural birth. Everybody who knew me was surprised, and when they ask me what made me strong I tell them with great pleasure, 'I took Lydia E. Pinkham's Vegetable Compound and never felt better in my life.' Use this testimonial at any time."—Mrs. ELIZABETH SMART, 142 W. Sixth St., Lowell, Mass. This experience of Mrs. Smart is surely a strong recommendation for Lydia E. Pinkham's Vegetable Compound. It is only one of a great many similar cases.

VALUE OF STATE FARM LANDS UP

Federal Census Report Shows Healthy Gain in Rural Wealth.

NEARLY 80,000 FARMS

Interesting and Enlightening Data Compiled on Crops and Farm Animals in State Last Ten Years.

Fargo.—A tremendous increase in the value of North Dakota farm lands in the period of 1910 to 1920 is disclosed in the preliminary announcement of the farm census by the United States bureau of census.

An increase in the number of farms, an increase in the acreage under the plow, an increase in the number of tenant farmers and an increased mortgage indebtedness are features of the report.

The total farm mortgage debt in the state for April is $108,000,000. This is the first authoritative statement covering the farm mortgage debt situation available in 10 years, and it is interesting particularly because of the supposition that the farmers were burdened with more than $300,000,000 of indebtedness.

N. D. Farms Increase.

The number of farms in North Dakota January 1, 1920, was 77,690 compared with 74,360 on April 15, 1910, an increase of 4.5 per cent.

The total acreage of the farms in 1920 was 36,214,751, of which 24,290,219 acres were improved. In 1910 the total acreage was 28,426,650, of which 22,445,092 acres were improved. The increase in the total acreage is 27.4 per cent, and the increase in the improved acreage is 18.7 per cent.

Value of All Crops.

The value of all crops harvested in North Dakota in 1919 was $301,782,935. Corn was valued at $5,427,636; oats at $24,235,260; wheat at $147,696,970; barley at $13,860,815; rye at $23,626,848 and flaxseed at $13,225,765. The value of hay and forage was $56,555,024 and of potatoes $10,142,747. As compared with 1909, the total value of crops shows an increase of 67.4 per cent; wheat, 35.3 per cent; barley, 15.9 per cent; potatoes, 387.8 per cent, and flaxseed a decrease of 14.6 per cent. Corn values increased 125.8 per cent.

Acreage and Yield Data.

The acreage of corn harvested in 1919 was 191,428, representing an increase of 3.4 per cent, as compared with 185,122 acres in 1909. The acreage of wheat was 9,098,042 in 1919, as against 8,188,782 acres in 1909, an increase of 11,1 per cent. That of oats was 2,073,162 acres in 1919 and 2,147,032 acres in 1909, a decrease of 3.4 per cent. The acreage of barley in 1919 was 1,085,329 and in 1909 1,215,811, a decrease of 10.7 per cent. The most pronounced shift in crops during the decade was the increase in the acreage of rye and the decrease in the flaxseed acreage.

The average yield of corn per acre in 1919 was 20.3 bushels; of oats, 14.6 bushels; of wheat, 6.8 bushels; of barley, 11.1 bushels; of rye, 6.7 bushels; and of flaxseed, 4.6 bushels. The corresponding figures for 1909 are 26.7 bushels of corn, 30.7 bushels of oats, 14.3 bushels of wheat, 21.7 bushels of barley, 14.3 bushels of rye, and 9.6 bushels of flaxseed.

There were 82,561 acres in potatoes in 1919, representing an increase of 52.7 per cent, as compared with 54,067 acres in 1909.

INDICT STEEL CORPORATION

Federal Trade Commission Issues Complaint Alleging Unfairness.

Washington.—A formal complaint against the United States Steel corporation and eleven subsidiary companies, alleging unfair competition in interstate commerce, has been issued by the federal trade commission. Thus the commission finally has decided that it has sufficient jurisdiction to take the long standing complaints by various users of steel products and others against the alleged use by the corporation of the device known as "the Pittsburgh plus price."

It was announced, however, that the commission had divided, three to two, Chairman Thompson and Commissioners Hollard and Nugent voting for issuance of the complaint, and Commissioners Gasgell and Murdock dissenting.

The steel corporation and its subsidiaries are given 30 days, or until May 31, to make formal answer to the complaint after which the case will proceed to trial on its merits. The complaint was issued under the Clayton anti-trust act and the law establishing the commission.

Pleads for Larger Army.

Washington.—Chairman Kahn of the military affairs committee, told the house that an enlisted force of 168,000 men, as fixed by the army appropriation bill was too small and at the proper time he would offer an amendment increasing the number to 175,000.

"I am not an alarmist, I am not afraid of war, but we all know that world conditions are unsettled," he declared. "And in the interest of true economy, in the interest of the welfare of the country, I shall appeal for amendment increasing it to 175,000.

Greek archaeologists have unearthed an imposing temple at Rerras, Thessaly. The structure is in an excellent state of preservation and is stated to be as large as the temple of Jupiter at Olympia.

The bronze inscriptions establish the date at 400 B. C. Numerous tablets also have been found bearing indications of laws of ancient civilization.

This is the second temple which has been discovered within a month, the first having been found near the city of Volv. The work is continuing.

TIMELY BEAUTY HINTS

Society women wash their own hair, not because it is a fad, but because they wish to obtain the greatest possible hair beauty and be sure they are not using anything harmful. They have found that in washing the hair it is never wise to use a makeshift, but is always advisable to use a preparation made for shampooing only. Many of our friends say they get the best results from a simple home-made canthrox mixture. You can use this at a cost of about 3 cents a shampoo by getting some canthrox from your druggist and dissolving a teaspoonful in a cup of hot water. This makes enough shampoo liquid to apply to all the hair instead of just the top of the head, as with most preparations. Dandruff, excess oil and dirt are dissolved and entirely disappear in the rinsing water. Your hair will be so fluffy that it will look much heavier than it is. Its luster and softness will also delight you. Send 2c to cover postage for free trial package to H. S. Peterson & Co., Dept. 225, 214 W. Kinzie St., Chicago, Ill.

WORTH $100,000; LIVES IN BARN

Man Held for Property Law Violation, Spurns Bail; Says Jail Is Cheaper.

WORE COLLAR 6 YEARS

Has the Same $6 Suit for Four Years—Walks Six Miles to Save One Cent on Loaf of Bread—Hurts to Spend.

New York.—John Sangster, warrant officer of Jamaica, went to Ozone Park, Queens, to arrest William Mohrmann, 37 years old, for failure to appear in court after being summoned for alleged violation of a fire ordinance at his garage in Ozone Park. Sangster knew that Mohrmann, besides owning a garage, owned three apartment houses in Queens and was worth at least $100,000. He expected to find Mohrmann living in a fine house with many servants.

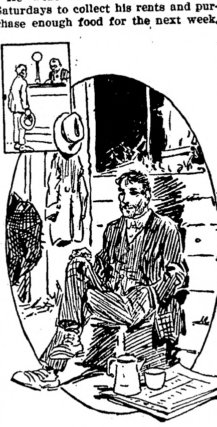
Home in Old Barn.

For that reason it was some time before he could locate his man. Finally he was directed to an old, dilapidated barn on the outskirts of the town, where he was told Mohrmann could be found. Sangster found the barn locked, but in the boards of one side he found a hole which had been stuffed with burlap. He pulled this out and a hand came through the crack from the inside and grabbed the burlap. Sangster seized the hand and pulled. He pulled out part of the barn and with the boards came Mohrmann.

Mohrmann was taken to Jamaica before Magistrate Conway. There he admitted his wealth, but he said he had been living in the old barn to defeat the high cost of living. He paid $6 four years ago for the suit of clothing he wore, and said rather proudly that he had worn the same collar for six years. His statement was not doubted by any one in court.

Walks Miles to Save Cent.

He went out of the barn only on Saturdays to collect his rents and purchase enough food for the next week.



Lived in a Barn.

And to get the food he walked six miles to a grocery that sold bread for a cent a loaf less than the ones in Ozone Park.

"I am living according to my own way," Mohrmann told the court, "and I do not care how much people laugh. I have no family to support, and I would rather live in a barn honestly than in a palace and be in debt. I enjoy it, and that is more than most men are doing nowadays. They are trying to do too much and live beyond their means. I am going to live long and within my means and in contentment."

Magistrate Conway held Mohrmann for further examination, and the man was asked if he would not send for some one to bail him out.

"Certainly not," he replied. "It is so comfortable here in the jail and, besides, the meals are free."

"Perhaps you will spend some of your money to buy necessary comforts?" a policeman suggested.

"I could not do it," said Mohrmann. "It hurts me much less to be "uncomfortable than to spend money."

GIRL HANGS BY HER HAIR

Caught in Shafting in Factory She Refuses to Have Tresses Cut Until Scalp Tears.

Burlington, N. J.—Refusing to permit companions to cut her beautiful hair when the strands were caught in the shafting above a loom she was operating in the Burlington Silk Mills, Miss Emma Hoffman, nineteen, hung suspended while rescuers tried to extract the hair, until her scalp was torn off.

Other young women fainted, but retaining consciousness despite her suffering, Miss Hoffman pleaded with fellow employees not to cut her hair, and they supported her weight while it was being extracted strand by strand from the pulley.

Dr. Richard Anderson found it necessary to remove more of the hair to stitch back and save about 20 square inches of scalp.

School Superintendent Learned That He Was Not Alone in His Devotion to Fair One.

The superintendent of schools in a small Indiana town recently persuaded the school board to revoke its ruling to employ only single women as teachers in the school. At the first school at which he called he tried to joke the young teachers. "Now you'll all be getting married," he laughed. "Have any of you been getting any proposals since the ruling was passed?"

Accidentally his eyes happened to meet those of the young teacher in whom every one knew he was interested. She thought the question was addressed to her and blushingly answered, "Just three others besides yours."

Amid the roars of the other teachers the young superintendent made his exit from that building. But never since that day has he mentioned the new ruling.—Indianapolis News.

Growth of the Kansas Language.

Judge J. C. Ruppenthal of Russell, author of a western Kansas dictionary, and student of American dialects to such an extent that he is recognized as an authority, is of opinion that much of the corrupted French the boys brought home from overseas will remain and become part of our language. "No doubt," he writes in the Luray Herald, "our language will permanently keep such words as bean tote, bone jar, by joe, bullion, calf, fox paus, Jenny's pa, silver plate, three beans and toot sweet."—Kansas City Star.

Hoary Old Asia.

The history of Asia goes back very far. One of the earliest events recorded and regarded as authentic is the founding of the temple of Bel at Nippur, 6000 B. C. The Accadian-Sunmerian kingdoms are placed at the head of the ruling powers. When they commenced is not clear but they continued to the year 2239 B. C.

Manhattan Losing Its Population.

The city of New York is losing its population on account of the high rents demanded. This is shown by the great increase in the number of commutation tickets which have been sold in the past few months to points on Long Island.

Gives Tanlac Credit For Splendid Health

T. J. PARKER
4246 Juneau Street, Seattle, Wash.

"I used to think all the Tanlac testimonials were exaggerated, but I have felt thankful a thousand times I ever believed in it strong enough to give the medicine a trial," said T. J. Parker, well-known saleman for Gately's Clothing Store, residing at 4246 Juneau St., Seattle, Wash.

"Several years ago I commenced having periodic spells of sickness and a few months ago I had an attack that I thought would finish me. When I did finally get up, I was scarcely able to go. I had no appetite and what little I forced myself to eat caused so much gas on my stomach I could hardly get my breath.

"At night I was often so bloated I couldn't breathe while lying down and just had to sit up and struggle for air. At times I had cramps so bad I could hardly endure it.

"My liver was sluggish and sometimes I got so dizzy I would nearly fall. I felt tired and miserable all the time, couldn't even sleep and for days at a time I wasn't able to go to work.

"Well, a friend of mine finally got me to try Tanlac, and it certainly has done a good job for me. My appetite is fine now and although I am eating just anything I want and as much as I please, my stomach never gives me the least trouble. I have picked up in weight, my strength has come back to me, and I am now enjoying the best of health.

"All the men at the store know Tanlac put me back on my feet, and I am glad to give this statement for what it may be worth to others."

Tanlac is sold by leading druggists everywhere.—Adv.

What Alcobronze Is.

Possessing the luster and color of gold, stronger, tougher, and harder than ordinary bronze, a new alloy of copper and aluminum bids fair to have a wide use. The new metal has been named alcobronze.

It is stated by its sponsors that the new alloy can be wrought, forged, or rolled without deterioration. It also resists the action of the air, acids, and salt water. This makes it particularly suitable for forgings, propellers, and other ships' parts.—Popular Science Monthly.

Absence of Disease Isn't Health; You Need Vitality, Energy

You may have no particular disease, and yet fall far short of enjoying real health. To be actually healthy you must be sturdy, alert, vigorous, a-sparkle with enthusiasm and the joy of living—fairly bubbling over with vitality and energy. Are you thus?

If you are well, yet listless and unambitious, it is because you lack some quality that would fill you with vim and drive, and nine times out of ten the sole cause of this lack is found to be disordered, weak blood.

Wholesome blood is the very fountain source of that energy which puts spring into your muscles, snap into your step and sparkle into your eyes. If you want all this, begin right now to enrich your blood stream.

You will find, as thousands of others have found in the last fifty years, that S.S.S. is an excellent remedy to do this for you, one that removes the poisonous impurities and helps build your blood into a rich, nourishing supply. S.S.S. is an herb compound, discovered by the Indians, and still made as they made it.

LIFE'S LITTLE JESTS

RECALLED FOND MEMORIES.

A director, who has a reputation for being rather harsh and overbearing in his methods was giving his leading man a tongue lashing that fairly turned the atmosphere blue. Through it all, however, the victim leaned gracefully against the wall and smiled happily.

"What the deuce are you grinning about?" barked the director. "Do you like to be cursed?"

"Why, yes. I rather enjoy it," chuckled the actor. "It recalls the good old days, you know, when I played Uncle Tom and was beaten to death every night by Simon Legree."—Film Fun.

Don't do it!

Strange—Passing Strange!

The city visitor was consulting the oldest inhabitant. "How many people in this town now?" he asked.

"Twenty-five, sir."

"How many did you have last year?"

"Twenty-five, sir."

"That's strange. Aren't there any babies ever born in this town?"

"Yes, sir. But most every time a baby is born, somebody leaves town."

Anticipating an Order.

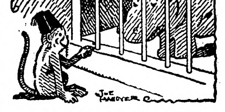
"Why did you throw those two pieces of toast out there on the grass?" asked the fat restaurateur.

"I wanted to see if a couple of quail would come around and lay down on 'em, sir," replied the white-capped chef.

All Serene.

"I notice they're on very peaceful terms with their next-door neighbors."

"Yes; the two families don't speak to each other."—New York Sun.



A PERTINENT QUESTION

Monk—Say, old chap, what are you behind the bars for?

In Botany.

"Of what are you afraid, my child?"
Inquired the kindly teacher.
"Oh, sir, the flowers! They are wild!"
Replied the timid creature.

Her Night.

Mr. Styles—Where in the world have you been, dear, in all this rain?

Mrs. Styles—Down to Mrs. Myle's playing bridge.

"But it's an awful night to be out."

"But I wasn't out tonight, dear; I managed to win."

Where Resemblance Stops.

"That Miss Gabbleish reminds me of a church bell, only she hasn't the sense of one."

"What do you mean?"

"Well, a church bell has an empty head and a long tongue, but it is discreet enough not to speak until it's tolled."

His Views.

"Can the ouija board read the future?"

"Well, I don't know. Sometimes I think the future is a blank page."

Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupify the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself, without consulting a physician.

Children Cry For Fletcher's CASTORIA

Have You Tried It?

Everybody has read the above headline; how many believe it? Have you a little-one in the home, and has that dear little mite when its stomach was not just right felt the comforts that come with the use of Fletcher's Castoria? You have heard the cry of pain. Have you heard them cry for Fletcher's Castoria? Try it.

Just help baby out of its trouble tomorrow with a taste of Castoria. Watch the difference in the tone of the cry, the look in the eye, the wiggle in the tiny fingers. The transformation is complete—from pain to pleasure. Try it.

You'll find a wonderful lot of information about Baby in the booklet that is wrapped around every bottle of Fletcher's Castoria.

"Good morning, sir," said the landlord to the new tenant. "Just called to see if it would be convenient to pay your month's rent."

"Do you know, landlord, that none of the doors in this house will shut?"

"New house, new house; you know it takes time for it to settle."

"Ah! then there's a pair of us. I'm a new tenant; it takes time for me to settle, too. Good morning. Call again."—Pittsburgh Chronicle-Telegraph.

Eatonic Works Magic

"I have taken only two boxes of Eatonic and feel like a new man. It has done me more good than anything else," writes C. O. Frappir.

Eatonic is the modern remedy for acid stomach, bloating, food repeating and indigestion. It quickly takes up and carries out the acidity and gas and enables the stomach to digest the food naturally. That means not only relief from pain and discomfort but you get the full strength from the food you eat. Big box only costs a trifle with your druggist's guarantee.

Thousands of Happy Housewives in WESTERN CANADA

are helping their husbands to prosper—are glad they encouraged them to go where they could make a home of their own—save paying rent and reduce cost of living—where they could reach prosperity and independence by **buying on easy terms.**

Fertile Land at $15 to $30 an Acre

—land similar to that which through many years has **yielded from 20 to 45 bushels of wheat to the acre.** Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. With such crops come prosperity, independence, good homes, and all the comforts and conveniences which make for happy living.

Farm Gardens—Poultry—Dairying

Do you know the
Facts about building costs

Do you know that lumber and building materials are down? Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

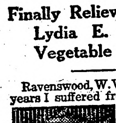
SUFFERED SEVEN LONG YEARS

Finally Relieved by taking Lydia E. Pinkham's Vegetable Compound



Ravenswood, W. Va.—"For seven long years I suffered from a female trouble and inflammation so that I was not able to do my housework. I consulted several doctors but none seemed to give me relief. I read in a paper about Lydia E. Pinkham's Vegetable Compound so I decided to try it, and before the first bottle was gone I found great relief so I continued using it until I had taken eight bottles. Now I am very well and can do my own housework. I can gladly recommend Lydia E. Pinkham's medicine to suffering women."—Mrs. BERTHA LIERING, R. F. D., Ravenswood, W. Va.

The ordinary day of most housewives is a ceaseless treadmill of washing, cooking, cleaning, mending, sweeping, dusting and caring for little ones. How much harder the tasks when some derangement of the system causes headaches, backaches, bearing-down pains and nervousness. Every such woman should profit by Mrs. Liering's experience. Remember this, for over forty years Lydia E. Pinkham's Vegetable Compound has been restoring health.

POLES INVADE UPPER SILESIA

Large and Well Equipped Army Holds Entire Disputed District.

DECLARATION TO ALLIES

Germany Lines Up With Italy and France in Seeking to Halt Korfhanty and His Insurgent Thousands in New "Free State."

Berlin.—Nearly 100,000 Poles, heavily armed and supported by artillery and airplanes, have overrun practically all of Upper Silesia, according to word reaching Berlin, and the allied troops with German reinforcements are arrayed against the insurgents.

Albert Korfhanty, former police commissioner in Upper Silesia, has declared the territory a free state and has formed a cabinet.

Italians Bear Brunt.

The Italian plebiscite commander, General Marini, announced at Oppeln that Italy has requested the allies to allow the use of the German reichswehr to combat the Poles. The Italian troops have borne the brunt of the fighting on the allied side and have suffered more than 100 casualties as well as losing artillery to the Poles.

The Prussian minister of the interior declared in the landtag that the French not only had ceased to fight the Poles, but that some of the French troops had given assistance to the Poles. Die Rote Fahne, communist organ, says the reichswehr has been mobilized and is restrained from advancing into the troubled territory only for fear of the action of the allies.

Korfhanty Makes Declaration.

Korfhanty, who is acting as a dictator, has made the following declaration:

"The Poles will not give up an inch of Upper Silesian territory. We have presented the allied mission at Oppeln with a communication containing the facts. We have asked the mission to accept our declaration of intentions. We are well prepared. We have thousands of men under arms, concentrated in the triangular industrial district of Upper Silesia."

Poland Should Disarm.

Maidstone, Eng.—Mr. Lloyd George, the prime minister, declares that if Germany disarms in accordance with the treaty of Versailles, she is entitled to ask that the allies insist on the disarmament of Poland.

Mr. Lloyd George made this declaration in addressing a meeting of 5,000 persons here under the auspices of the National Unionist association.

Great Britain, he said, believed in fair play, and if the treaty were enforced, it must be kept all along the line. The prime minister trusted that wise counsel would prevail in Germany.

GOVERNMENT TORN UP

Germany Undecided as to Her Course on Allied Demands.

Prominent Leaders Decline to Attempt Cabinet Organization and Grace Period Is Nearly Past.

Berlin.—Germany today is still without a government and still undecided whether to accept or reject the allied demands.

After three days of futile conferences and only a brief time of grace remaining before the allied troops march farther into their country, nothing but utmost confusion prevails in all political parties. Ambassador Mayer, who was recalled from Paris so that President Ebert might tender him the office of chancellor, has definitely declined the task of forming the cabinet.

Dr. Gustav Stresemann, who is regarded as a representative of the big industries, has forged to the foreground again but inability of the parliamentary parties to agree upon a course prevents him from forming a cabinet. Party leaders are completely worn out by the day and night conferences of the past week.

Don't Want to Meet Demands.

The reichstag leaders admit that no progress has been made in the direction of solving the present crisis. This announcement was made after a day crowded with party conferences and discussions between the cabinet and the foreign relations committee over the ultimatum of the allies on the reparations terms.

The German People's party and the Democrats, alone of the present coalition block, went on record as opposing any new cabinet which would accept the allies' ultimatum.

Explosion Leads to Murder Charge.

Thermopolis, Wyo.—Two men were killed, three injured, one seriously, and Burt Lampitt, 50 years old, oil field worker, was arrested, charged with murder, as the result of an explosion which partially wrecked the bunkhouse of the Ohio Oil company in the Grass Creek oil field.

At the shack of Lampitt, an automobile loaded with food supplies, a bed roll and an iron bar were found. The iron bar fitted indentations in the company's storehouse, which had been broken open.

Your New Home should be made artistic, sanitary and livable.

These walls should be Alabastined in the latest, up-to-the-minute nature color tints. Each room should reflect your own individuality and the treatment throughout be a complete perfect harmony in colors.

The walls of the old home, whether mansion or cottage, can be made just as attractive, just as sanitary, through the intelligent use of

Alabastine

Instead of kalsomine or wallpaper

How much better, when you have a new home, to *start right* than to have to correct errors afterward from former treatment with other materials, when you come to the use of Alabastine, as does nearly every one sooner or later.

Once your walls are Alabastined you can use any material over it should you desire, but having used Alabastine you will have no desire for any other treatment.

Alabastine is so easy to mix and apply—so lasting in its results—so absolutely sanitary—and so generally recognized as the proper decorative material in a class by itself that it is becoming difficult to manufacture fast enough to supply the demand.

Alabastine is a dry powder, put up in five-pound packages, white and beautiful tints, ready to mix and use by the addition of cold water, and with full directions on each package. *Every package of genuine Alabastine* has cross and circle printed in red.

WHY MRS. LOT LOOKED BACK

Reason Explained, but Today It Is the Man Who Usually Does the Turning.

The mystery of why Lot's wife turned around, womanlike, after being warned specifically not to, was explained by Alexander Black, novelist, at a dinner of the Society of Arts and Science, New York.

Mr. Black said Mrs. Lot merely wanted to see if she was being followed by a man.

The subject of profound debate was "Marriage Is a Success. Yes? No?" It was discussed with lights turned low under red shades.

Mr. Black said it is now the man who does the turning around and looking back, usually slightly down.

"Over their faces come curiously mingled expressions of bewilderment and amazement.

"I have seen them turned into cynics or into poets. I have seen them turned from their direction and struck by automobiles."

Too Much Agreement.

Edith—"I think Jack is simply wonderful." Ella—"Yes, the trouble is he thinks so, too."

What Did She Mean?

Edith—"Jack says he worships the ground I walk on." Miss Ryval—"Well, dear, he isn't crowded for space."

Of course, the man who thinks as much of himself as we do of ourselves is conceited.

A Happy Bald Headed Man.

Mr. Tom Morris, Room 302, 186 N. La Salle St., Chicago, Illinois, has a valuable recipe for the hair, given him by an old friend, a chemist for many years. Tom says it stops dandruff and itching scalp and makes the hair grow. So many of his friends have wanted to try it that he has had the recipe printed and will mail it free to any person enclosing a two-cent stamp.—Adv.

PLEA FOR PERSONAL PRONOUN

Argument of Humane Education Society Relating to School Children and Animals.

The Humane Education society of Pennsylvania is seeking to have the school children taught to speak of animals with personal instead of impersonal pronouns. The society fears that if children say "it" and "which" and "that" for their pets they will regard them as they do the lifeless train of cars, the soulless box of blocks, the witless ball or drum or sailboat. They will regard a tender little animal as though "it" were stuffed with invulnerable leather or sawdust; they will drag "it" about and bully-rag and maul "it" as though "it" had no feelings; they will degrade the animate creature to the level of the mere automaton started with a key and active only till the cogs run down.—Philadelphia Ledger.

Mr. Gloom Knew.

"Musicians are sadly underpaid!" carped the wild-haired man. "I play trombone in a jazz orchestra, and what do you suppose my salary is? Have you any idea what an expert jazz trombonist should get?" "Oh, yes," replied J. Fuller Gloom. "'The wages of sin is death.'"—Judge.

MOVIE ACTRESSES AND THEIR HAIR

Did it ever occur to you that every movie actress you have seen has lovely hair, while the most popular count their curls as their chief beauty? In fact, many are leading ladies just because of their attractive looks. Inquiry among them discloses the fact that they bring out all the natural beauty of their hair by careful shampooing, not with any soap or makeshift, but with a simple mixture by putting a teaspoonful of canthrox (which they get from the druggist) in a cup of hot water and applying this instead of soap. This full cup of shampoo liquid is enough so it is easy to apply it to all the hair instead of just the top of the head. After its use, the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. The hair is so fluffy that it looks much heavier than it is; its luster and softness are delightful. SUFFERING OF A LIFETIME ENDED

"Words Can't Express Gratitude I Feel Toward Tanlac," Says Mrs. Burrington.

"From childhood until I got Tanlac, I suffered from indigestion and stomach trouble," said Mrs. J. A. Burrington, 540 Stanford Ave., Los Angeles,

MRS. J. A. BURRINGTON
Los Angeles, Calif.

Calif., "and that's been a long time, for I'm now in my sixty-eighth year.

"I remember when I was a child I was kept on a strict diet of lime water and milk for weeks and I have been in constant distress all these years. I suffered terribly from bloating and had to be very careful of what I ate. I became so weak and nervous I could hardly go about my housework and was in a miserable condition.

"About two years ago my husband got such splendid results from Tanlac he insisted on my taking it and the medicine wasn't but a little while in ridding me of my troubles. It gave me a splendid appetite, and I could enjoy a good hearty meal, even things I hadn't dare touch before, without any fear of it troubling me.

"Then I had the influenza and became dreadfully sick and weak, but my stomach kept in good order and it only took four bottles of Tanlac to build me up again to where I'm now feeling better than at any time I can remember. I have gained eleven pounds in weight, too, and words can't express the gratitude I feel toward Tanlac. I keep Tanlac in the house all the time now, for I know it is a medicine that can be depended upon."

ASK SPECIAL BODY TO PROBE ROADS

Executive Council of Labor Federation Seeks Truth of Railway Situation.

SENATE STARTS QUIZ

While Upper House Delves Into Status of Carriers, A. F. of L. Would Create Special Public Invetsigating Commission.

Cincinnati, O.—The executive council of the American Federation of Labor in session here decided to ask the federation to call upon congress to authorize a special public commission to investigate the entire railroad situation.

The recommendation, which will be contained in the council's annual report to be presented at the annual convention of the federation in Denver, June 13, it was learned, asks that congress enact legislation providing for a commission comprised of representatives of the public, the railroad workers, railroad security holders, railroad executives, shippers, business, and the various other interests.

The council takes the position, it was learned, that such an impartial investigation is necessary to learn the truth about the railroad situation.

Senate Opens Hearing.

Washington.—Investigation of the whole railroad situation was opened by the senate interstate commerce committee. Julius Kruttschnitt, chairman of the board of the Southern Pacific company, was the first witness, and presented conditions from the standpoint of the railway executives.

The psesentation of the railroad case will be under the general charge of Alfred P. Thom, general counsel of the Association of Railway Executives.

AGENTS KILL 2 TRANSIENTS

Battle in Jungles at Jamestown Results in Death and Arrests.

Jamestown, N. D.—Two men are dead and another is unconscious with a bullet through his head and one through both legs, the result of a battle here between two Northern Pacific railroad detectives and three men.

The detectives, William Wyant and Henry Kearns, are held prisoners in the Stutsman county jail.

Acting on a tip that the robbery of a car was contemplated, the dectectives went to the "jungles" west of this city. The three men were cooking a meal near the tracks.

The detectives claim the men opened fire as soon as they were accosted, and that they returned the fire. One of the trio was instantly killed, and another fatally wounded. The third may live.

The first man is believed to be Fred Johnson, about 35. Two bullets entered his back, one coming ot over the heart. Another struck him in the arm, physicians said.

James Hartley, about 23, who was shot in the head, died later. He is from Chicago, according to a physician who prescribed for him several days ago.

BOOST N. D. RAILROAD RATES

Interstate Commerce Commission Holds Present Rates Unfair.

Washington.—North Dakota railroads have been ordered by the interstate commerce commission to advance passenger, Pullman, excess baggage and freight rates, applying the same percentage increases as were ordered last August by the commission in the general rate increase.

The passenger and excess baggage charges would be increased 20 per cent, the 50 per cent surcharge on Pullman space would be applied, and freight rates within the state would be increased 35 per cent. The order is effective on or before June 10.

The commission's decision follows a line of similar cases where rates and charges on traffic within a state were held to be prejudicial to interstate traffic.

Michigan Congressman Suicides.

Battle Creek, Mich.—Congressman William H. Frankhauser, 58, of the third Michigan district, committed suicide at a sanitarium here by cutting his throat with a razor. His body was found in a bathtub by attendants. Despondency over ill health is believed to have prompted the act.

Frankhauser, whose home was in Hillsdale, was elected to congress last November to succees Representative J. M. C. Smith, retired. He became ill after his election and never took his seat in congress.

New Burglarproof Mail Car.

Chicago.—The first trial trip of a new type of burglarproof mail car, designed to combat the efforts of the mail thieves whose loot is said to have passed the $100,000,000 mark in 1920, has been completed and one of the specially constructed cars has come from New York, carrying 27,000 pounds of mail and accompanied by a committee of postal officials who will decide on the adaptability of the car to general mail service.

The car consists of nine sectional containers locked like safes.

Why That Bad Back?

Is backache keeping you miserable? Are you "all played out," without strength or vigor for your work? Then find what is causing the trouble and correct it. Likely, it's your kidneys! You have probably been working too hard and neglecting rest and exercise. Your kidneys have slowed up and poisons have accumulated. That, then, is the cause of the backache, headaches, dizziness and bladder irregularities. Use *Doan's Kidney Pills.* Doan's have helped thousands and should help you. *Ask your neighbor!*

A North Dakota Case

"Every Picture Tells a Story"

Mrs. A. Witzig, North Side, Beach, N. D., says: "I suffered from an attack of kidney trouble. My back ached continually and work tired me. My kidneys acted irregularly, too. I had pains in the back and top of my head. I saw Doan's Kidney Pills advertised, so I got a box. They removed all the troubles and I have had no sign of complaint since."

NO NEED FOR EARLY DEATH

Full Life May Be Assured to Thousands Who Would Take Trouble to Earn It.

The death rate among males in this country is twice as great at forty as it is at twenty, according to The Nation's Business. This means that 50 per cent of the vital resistance is gone at that early age, an age when a man is supposed to be at the height of his power, an age when his vitality should be at least equal to that of a man of twenty. Why isn't it? Infections, poisons, mental strain, physical inactivity, too much food, too little food, badly balanced diet—a long list of causes, most of them traceable to the widespread and fallacious notion that a man can have health without working for it.

No man need accept the physical limitations which apparently doom so many to hit the downhill trail almost before they have come to the age that should endow them with the fullest physical and mental power. Right living and right remedial measures checked up and kept right by means of periodic examinations, form a combination that would insure a full life to thousands who have long since given up hope of such a thing.

BOUNDARY DRAWN BY NATURE

Caucasus Range Seems to Form Natural Dividing Line Between the Two Great Continents.

The Caucasus range, one of the most remarkable of all geological phenomena, is the boundary between Europe and Asia, and an almost impenetrable wall which can be crossed by vehicles or horsemen in only two places, known as the Dariel and the Manisson passes. From the beginning of history until the middle ages it was the boundary of the world, writes William Eleroy Curtis, in "Around the Black Sea." Beyond, all was mystery and fable, and for that reason the ancients made the Caucasus the scene of much mythological activity and the home of many marvels. They called the country Colchis, and it was there that Jason and the Argonauts found the Golden Fleece. Prometheus was chained to one of the peaks by the gods to punish him for giving fire to the mortals.

The first Europeans to find their way through the rocky labyrinths were Greek and Genoese traders, who crawled through the canyons on foot in the middle ages in search of customers.

His first love and his first shave are two things no man ever forgets.

MORTGAGE FORECLOSURE SALE

Whereas, defaults have been made in the conditions of a certain mortgage duly executed and delivered by Oliver A. Austin, a single man, Mortgagor, to D. A. Rake, Mortgagee, bearing date the 18th day of September, 1919, and with the power of sale therein contained duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 29th day of December, 1919, at 8 o'clock A. M., in Book 93 of Mortgages on page 515.

Which said Mortgage, together with the debt secured thereby, was duly assigned by said D. A. Rake, Mortgagee, to T. L. Stavn, by written assignment dated the 26th day of January, 1921, and recorded in the office of the Register of Deeds, on the 29th day of January, 1921, at 8 o'clock A. M., in Book 104 of Mortgages on page 202.

And whereas, the said T. L. Stavn, assignee of the Mortgagee and holder of said mortgage, has duly elected and do hereby elect to declare the whole principal sum of said mortgage due and payable at the date of this notice under the terms and conditions of said mortgage and the power of sale therein contained, and whereas there is actually due and payable and claimed to be due at the date of this notice upon said mortgage and the debt secured thereby the total sum of $2543,13, as follows: The sum of $159.25 being interest due September 13, 1920, which was not paid, and the sum of $2383.88 being the amount of principal and interest since Sept. 13, 1920, all of which is secured by the mortgage hereby be foreclosed. and whereas said power of sale has become operative, and no action or proceeding having been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof.

Now, Therefore, Notice Is Hereby Given, That by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, Viz:

The East Half (E1-2) of Northwest Quarter (NW1-4), the Southwest quarter (SW1-4) of Northeast Quarter (NE1-4), and Northwest Quarter (NW1-4) of Southeast Quarter (SE1-4) of Section Fourteen (14) in Township One Hundred Fifty-five (155) North of Range Forty-one (41) West of the Fifth Principal Meridian in Marshall County and State of Minnesota, with the hereditaments and appurtances, which which sale will be made by the Sheriff of Marshall County at the front door of the Court House, in the City of Warren in said County and State, on the 25th day of June, 1921, at 10 o'clock A. M. of that day, at public vendue, to the highest bidder for cash, to pay said debt of $2543.13, and interest, and the taxes, if any, on said premises, and Seventy-five Dollars attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Do you know the

Facts about building costs

Do you know that lumber and building materials are down? Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

All ex-service men should have a Victory Medal to wear on Memorial Day.

Rev. M. T. Strom went to Foston yesterday where he will hold meetings for several evenings.

Mr. and Mrs. K. O. Burtness came up from Thief River Falls last Thursday for a short visit with Holt friends.

Misses Bernice Hobbs, Edith Erickson and Goldie Jackman autoed to Middle River Tuesday night.

Mrs. Chas. Haggland went to Humboldt Tuesday to look after having their household goods shipped to Holt.

Farmers having wool to sell will do well to see the county agent, who will help them find a market that pays top prices.

Mr. and Mrs. T. O. Dovre and daughter Nora, were Thief River Falls visitors Tuesday. They were accompanied by Mrs. Lysne who had dental work done at that place.

Some men never run outof "gas", but it would be mighty hard work to coax an auto to go on gas made largely of mind, and that is the kind they sell on the lonesome trail.

The County Agent will be in Holt next Tuesday instead of Wednesday, due to a meeting of the Wool growers of eastern Marshall County at Grygla, on that date.

Memorial Day pictures at the Woodman hall May 28. A small admission will be charged to pay the expenses.

Mr. and Mrs. P. O. Reierson left Saturday for a visit with relatives at Goodridge and Thief River Falls. Mr. Reierson returned home Sunday night, his wife remaining for a little longer visit.

The school program and class play Wednesday night was well attended and the audience was well pleased with the evenings entertainment. Especially pleasing was the scene of the flag waving in the breeze of the early morn while the high school sang the Star Spangled Banner.

The entire evening entertainment showed much hard work on the part of teachers and pupils.

If the Jefferson should be re-routed by the way of Steiner, Holt, Middle River and Strathcona some of these towns might get a chance to sell a little gasoline and oil or once in a while fix an auto. Wonder if this is the reason certain parties want to stick to the lonesome trail?

Martin Nygaard and family have moved onto the Ole Bergstrom place.

Death of Mrs. John Nelson

Mrs. John Nelson died suddenly Tuesday afternoon while sitting in her chair. She had been sick for about a week but no one thought the end was so near.

Mrs. Nelson was past 80 years old and had livee with her husband on a farm near Holt for over 30 years. The funeral arrangements have not been made.

The first half of the real estate taxes are due this month.

Misses Mabel and Anna Larson were Thief River Falls visitors Tuesday.

W. H. Bakke returned home yesterday from an extended visit in Colorado.

Clarence Barnes returned home Tuesday from a couple of months stay in Dakota.

Davidson Bros. finished a 140 foot drilled well for John Benitt, one day this week.

Approximately $200,000 is to be spent in permanent improvements at the State Fair this summer.

Mangels are easy to raise and can be made to partly take the place of grain for poultry, hogs and cattle.

J. M. Swan's stock shipment on Saturday was made up mostly of veal calves and the rest of the car was filled with a few head of hogs and cattle.

County Agent Taylor returned Wednesday morning from Crookston where he attended a convention of county agents from this part of the state.

Peter Jonas and son John of Goodhue came Saturday to visit their daughter and sister, Mrs. Fred Voth, and the former's brother Jacob Jonas, who is very sick.

The firist shipload of American corn given by farmers to save lives of famine sufferers was due to reach Danzig, Poland, yesterday and a second steamer is in midocean with another cargo.

The vats at the creamery were not large enough to hold all the cream taken in on Monday, so it has been decided to take in cream 3 days a week, Mondays, Wednesdays and Fridays, commencing next week.

It takes on an average, one hundred and twenty nine pounds of wild hay fed to average cows to make a pound of butter, 75 pounds of timothy, 29 of clover and about 20 lbs. of alfalfa to make a pound of butter.

Co-operation is the watchword of the day, but despite this fact a few men at Thief River Falls want to raise money there to build bridges in Marshall county so they can travel by the lonesome trail and not have to go by the way of Steiner, Holt, Middle River and Strathcona. This co-operation is with the co head chopped off.

Magnus Spjut has been busy the past week or more tearing out partitions, booths, etc., and changing around counters and show cases, trying to get everything on one side, and remodeling and painting the interior of his confectionery and lunch room. R. L. Adams has been doing the carpenter work and painting for Mr. Spjut.

Forty eight tubs of butter and seventy cases of eggs were shipped by Holt's creamery and business men Saturday. These shipments brot to the farmers families a nice little sum of money and merchandice, for only one weeks produce, and cows and hens are still busy.

They are a steady source of income and readily respond to good care and feed.

Memorial Day

Memorial Day at Holt will be observed on Saturday night May 28th.

The Price of Peace, a five reel war picture will be shown at the Woodman Hall. This picture shows all sides of the war from the beginning to its end. Everyone should see this picture. The admission will be only 15 and 5 cents to cover expenses. One or two additional reels will be shown.

Play Day at Sunnyside

A rural school Play-day or athletic field meet was held at the school in Dist. 59, northeast of Holt on Saturday May 14th. Three school participated in the event.

The play-day was a success in spite of the unfavorable weather and a good bunch of athletes were selected who will be eligible to represent the Holt Section in contests with other Sections of the county at the County Fair in Warren on July 5th.

Small cash prizes were given the successful contestants by the teachers, Miss Clara E. Larson, Miss Mary Havle, and Miss. Frances O. Keefe.

Honor badges were also given by the Teacher's Patriotic League of the county.

Many of the parents were present and a picnic lunch and coffee was enjoyed by all at noon.

A Declamatory Contest was held after the noon lunch, Prof. Prushek of the Holt Schools acted as one of the judges. R. C. Luttrell, assistant County Superintendent of Schools, was present and assisted the teachers in conducting the athletic contests.

This was one of a series of such events that are being held in different sections of the county and is part of a plan to introduce clean wholesome athletics in the rural schools.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

THREE YEAR OLD WASHED ASHORE

Mrs. Dingman Tells of Adventure of Childhood When Father's Ship Was Wrecked.

RELATES LATER EXPERIENCE

Declares That the Way Tanlac Restored Her Health Is More Remarkable Than Anything She Has Ever Had Happen to Her.

"I've had some remarkable experiences in my life, but none more wonderful than the way Tanlac overcame my troubles and made me gain twenty pounds," was the statement of Mrs. Christina K. Dingman, 1216 Alice St., Oakland, Calif. One of the experiences to which Mrs. Dingman refers is well known to her friends. When a child of three years, accompanying her father, a noted sea captain, on an ocean trip, the vessel was wrecked, but she was almost miraculously saved, the small box into which she was put being washed ashore. According to her statement, Mrs. Dingman enjoyed the best of health until three years ago when she began to suffer from a bad form of stomach trouble and later from rheumatism. How she was completely restored to health is best told in her own words:

"Nobody knows how I suffered for the past three years. No matter how carefully I ate I would endure agonies afterwards from smothering and sinking spells. Sometimes they were so severe I would fall to the floor and would have to be carried to bed. I went for days at a time without eating, as I dreaded the misery I knew would follow, no matter what I ate. Then rheumatism set in and my shoulders and arms hurt me so I couldn't comb my hair. My back felt like it was breaking in two.

"I was almost in the depths of despair when I began on Tanlac, but this grand medicine has made me a well and happy woman. I'm not even troubled with constipation now, thanks to the Laxative Tablets, which are far superior to anything of the kind I ever tried. It seems almost too good to be true, but here I am in the best of health and spirits after I had given up hope, and I'll always praise Tanlac for it."

Tanlac is sold by leading druggists everywhere.—Advertisement.

"I'll Say I Was!"

Mrs. D. Pirie Beyen came to Kansas City last week to attend the nurses' convention. Her visit to the Middle West resulted in renewing many acquaintances made during her four years' service as an overseas nurse. Many of her patients were men from the Eighty-ninth and Thirty-fifth divisions who fought in the Argonne.

At Eleventh and Main streets she spied a familiar figure directing the traffic.

"Say, buddy," she called, "weren't you in the army?"

"I'll say I was," replied the traffic officer.

"Weren't you with the One Hundred and Thirty-seventh?"

"I'll say I was."

"Do you remember when you were going through the village of Ben Quit Vaux and the little fat nurse who brought you a bowl of soup?"

"I'll say I do; were you that little nurse?"

Eastvold of Northfield, president of the Southern Minnesota district, Norwegian Lutheran church, conducted the ceremonies.

Slayton—Clarence Beal of Slayton, has been awarded $35,000 damages for the loss of a leg in his suit against the Burlington railroad in district court here. Beal originally sued for $50,000. A verdict last December gave him $30,000, but a retrial was granted.

THE TRIALS OF A HOUSEWIFE

How They Have Been Endured and How Overcome by Lydia E. Pinkham's Vegetable Compound

Experience of a Providence Woman

Providence, R. I.—"I took Lydia E. Pinkham's Vegetable Compound for a female trouble and backache. It began just after my baby was born, and I did the best I could about getting my work done, but I had awful bearing-down pains so I could not stand on my feet. I read in the papers about Lydia E. Pinkham's Vegetable Compound and the good it was doing other women, and I have got dandy results from it and will always recommend it. You can use these facts as a testimonial if you wish."—Mrs. HERBERT L. CASSEN, 18 Meni Court, Providence, R. I.

Ohio woman for three years could hardly keep about and do her housework she was so ill Made well by Lydia E. Pinkham's Vegetable Compound:

Fayette, O.—"For about three years I was very nervous and had backache, sideache, dragging-down pains, could not sleep at night, and had no appetite. At times I could hardly do my housework. I got medicine from the doctor but it did not help me. I saw Lydia E. Pinkham's Vegetable Compound advertised in a newspaper and took it with good results, and am now able to do my housework. I recommend your medicine to my friends and you may publish my testimonial."—Mrs. CHESTER A. BALL, R. 15, Fayette, Ohio.

An Illinois woman relates her experience:

Bloomington, Ill.—"I was never very strong and female trouble kept me so weak I had no interest in my housework. I had such a backache I could not cook a meal or sweep a room without raging with pain. Rubbing my back with alcohol sometimes eased the pain for a few hours, but did not stop it. I heard of Lydia E. Pinkham's Vegetable Compound, and six bottles of it have made me as strong and healthy as any woman; and I give my thanks to it for my health."—Mrs. J. A. McQUITTY, 610 W. Walnut St., Bloomington, Ill.

The conditions described by Mrs. Cassen, Mrs. Ball, and Mrs. McQuitty will appeal to many women who struggle on with their daily tasks in just such conditions—in fact, it is said that the tragedy in the lives of some women is almost beyond belief. Day in and day out they slave in their homes for their families—and beside the daily routine of housework, often make clothes for themselves and for their children, or work in their gardens, all the while suffering from those awful bearing-down pains, backache, headaches, nervousness, the blues, and troubles which sap the very foundation of life until there comes a time when nature gives out and an operation seems inevitable. If such women would only profit by the experience of these three women, and remember that Lydia E. Pinkham's Vegetable Compound is the natural restorative for such conditions it may save them years of suffering and unhappiness.

There is hardly a neighborhood in any town or hamlet in the United States wherein some woman does not reside who has been restored to health by this famous medicine. Therefore ask your neighbor, and you will find in a great many cases that at some time or other she, too, has been benefited by taking it, and will recommend it to you. For more than forty years this old-fashioned root and herb medicine has been restoring suffering women to health and strength.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Cigar Ash Causes Smash-Ups.

Cigar ashes are sometimes the cause of automobile accidents and frequently the cause of confusion in traffic. The motorist who unconsciously sticks his arm out of the side of the car to knock off the ashes confuses the driver following him, who may think it is a signal to turn.

"I have seen this happen a good many times on the road," said a driver. "You naturally think he plans to turn at the next corner. Misinterpretation of such signals has caused many accidents."—New York Sun.

His Reason.

"I wish you would tell me," said the agent, who had been a long time on Mr. Snaggs' trail, "what is your objection to having your life insured?"

"Well, I don't mind telling you," replied Snaggs. "The idea of being more valuable dead than alive is distasteful to me."

BEAUTY CULTURE HINTS

There is real common sense in just noticing whether the hair is well kept to judge of a woman's neatness, or good taste. If you are one of the few who try to make the most of your hair, remember that it is not advisable to wash the hair with any cleanser made for all purposes, but always use some good shampoo. You can enjoy the very best by getting some canthrox from your druggist, dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. Dandruff, excess oil, and dirt are dissolved and entirely disappear. Your hair will be so fluffy that it will look much heavier than it is. Its luster and softness will also delight you, while the stimulated scalp gains the health which insures hair growth. TENOR "CARRIED THE TUNE"

Distribution of Voices in the Singing of Old Ecclesiastical Songs, and in Opera.

In the old ecclesiastical songs the voice which sang the chant melody, and around which other parts grouped themselves was called the "tenor." This task had to be intrusted to the person with the highest or loudest voice. The word is derived from the Latin teneo (I hold) and meant nothing more than that the tenor "carried the tune."

Voices were not formerly distributed as at present. W. J. Henderson in his "Early History of Singing" says:

"We should undoubtedly be amazed to find Julius Caesar singing soprano or Achilles contralto, but the opera goers of the Seventeenth century would have been much astonished if either of them had been a barytone or a bass. At most they could have been tenors, but neither in that case would have been the principal personages in the drama. He would surely have been a soprano."

A Resolution.

"See here," said Adam to Eve, "do you realize that the high cost of living is crimping me badly? You simply must be less extravagant in the matter of clothes."

"All right, dear," answered Eve, obligingly, "I'll help you to economize by turning over an old leaf."—American Legion Weekly.

NAVY MEASURE HAS HARD FIGHT

Appropriation of 500 Million Is Fought by Disarmament Advocates.

DECISION IS DELAYED

Vote on Question Not Expected Until Late This Week—La Follette and Pomerene Lead in Attack.

Washington.—The $500,000,000 naval appropriation bill was unable to make headway against the opposition of advocates of the Borah proposal for disarmament conference and reductions in appropriations.

Lengthy adresses by Senators Pomerene, Democrat, Ohio, and La Follette, Republican, Wisconsin, prevented any amendments from being reached, and when adjournment was taken the latter had not completed his argument. It was expected, however, that disposition of armaments would probably be undertaken the middle of the week.

Big Ships Now Obsolete.

Both Senators Pomerene and La Follette declared that great expenditures now were unnecessary, and in view of the condition of the treasury and the country, inexpedient. Senator Pomerene supported the Borah amendment and also advocated one of his own to clothe the president with authority to suspend capital ship construction for six months.

Senator La Follette declared that the navy building program was a "waste of the peoples money." The capital ships would become obsolete in five years, he said, adding that with development of aircraft, submarines and sea coast defense, the United States would be impregnable from attack by any power or combination of powers.

Would Block Disarmament.

Senator Pomerene said that rejection of the Borah amendment would "practically close the door of hope of the world for disarmament."

The demands for disarmament finally caused Senator Poindexter, Republican, in charge of the bill, to state that no information had been submitted to show any extravagance in the proposed naval purchases.

Senator Pomerene replied that when "officers with gold lace whispered 'Yap,' members of the naval committee had hysteria and voted for large appropriations.

Backed by Financiers.

Senator Borah interjected that military expenditures were holding up projects like soldier relief, western reclamation, and other developments.

In his criticism of the bill, Senator La Follette said that "great financial powers desire a powerful navy to protect their interests. He introduced an amendment providing that none of the American war craft should be used to "coerce or compel collection" of any private claim, grant or concession.

Munitions and armor plate interests, Senator La Follette declared, were active in all great nations fostering propaganda in behalf of greater armaments.

NO CHANGE IN GRAIN GRADES

North Dakota Plan Will Stand During Investigation.

Washington.—While refusing to make any changes in the federal grades for spring wheat except the elimination of the word "bright" from the standards, Secretary Wallace announces that he will make a thorough investigation of them during the coming wheat marketing season.

Insufficient time in which to make an investigation before the spring wheat season starts and the desirability of changing grades only after a most thorough investigation were among the reasons given by the secretary in his refusal to take action at this time.

Modification in the federal grades had been requested by delegations from North Dakota, South Dakota, and Minnesota.

Rate Case in Supreme Court.

Washington.—North Dakota has asked the supreme court for leave to file original proceedings against all railroads within its boundaries in hope of preventing them from charging the increased intrastate fares recently allowed by the interstate commerce commission. The request was taken under advisement.

This action marked the first time the original jurisdiction of the supreme court has been sought in the "intrastate rate cases," the procedure heretofore being to institute action in the lower federal courts.

Gunder Olson Revenue Collector.

Grafton, N. D.—Gunder Olson of Grafton, Republican national committeeman for North Dakota, has been nominated by President Harding to be collector of internal revenue for North Dakota, with offices in Fargo.

He would succeed W. E. Byerly, whose resignation was recently demanded by the commissioner of internal revenue.

Mr. Byerly, an appointee of President Wilson was advised several weeks ago that his resignation was wanted.

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

LACKING IN WILLIE'S MAKEUP

Really Not Small Boy's Fault That He Was Unable to Comply With Mother's Advice.

Senator McCumber, chairman of the senate finance committte, was discussing those exposures of terrific profiteering on the part of dollar-a-year patriots.

"We must not be too hard on these misguided men," he said with a wink. "They occupied positions of great temptation, you know. It is easier to sermonize about temptation than to resist it.

"These weak, culpable and yet well-meaning men remind me of little Willie.

"Little Willie stole a quarter one day out of his mother's pocketbook. His mother detected the theft and trounced him severely. Then she preached him a long sermon concluding with:

"'It's all a matter of resisting temptation. Always, always turn a deaf ear to temptation, son.'

"Little Willie stopped his sobbing long enough to say:

"'But, mom, I ain't got no deaf ear.'"

Why Not?

"You know, on the other side of the earth it's a day later than it is here."

"I don't believe it."

"Well, I'll prove it to you. If you were in Australia and I was here and you were to be shot today I'd know it yesterday."

"Well, if you were a friend of mine you'd send me a telegram today telling me I'm shot."

KNEW THE WORD OF COMMAND

Old Lady Quick to Recognize Phrase That She Had Heard Used by Her Willie.

Military terminology has affixed itself to our language. Recent advertisements of a new dictionary use such phrases as "cheerio," "how is your morale?" and "the zero hour," And only last week the papers spoke of a "barrage of coughing," which drowned out a lecture speaker in Brooklyn.

In City Hall park recently another instance was noted. A young man halted at a newsstand. "Times," said he. Then, as the "newsie"—an old woman of sixty—stooped to get it, "As you were! World!"

The old woman, as she handed him the paper, clicked her heels together and delivered a perfect hand salute."

"My Willie was in the army, too," she explained.—New York World.

Acting the Part.

Smith visited his friend Jones, the playwright, and observed with regret that Jones treated his wife shamefully. So he said to Jones:

"Why do you talk so roughly to your wife?"

"I hate doing it, but I'm obliged to," returned Jones.

"How are you obliged to?"

"You see, I am writing a tragedy and I have to keep myself in a proper frame of mind. You should see how I fluff with her when I'm writing comedy!"—Houston Post.

Wisdom of Children.

Paul, a small boy, had been invited to a golden wedding party. After learning that golden wedding meant married fifty years he inquired whether everybody had to get married again after they had been married fifty years.

His sister, wise in worldly affairs said. "Few ever wait that long."

Men care little for violets; but lilacs make them try to write poetry—and some succeed.

80 Years Old —Was Sick

Now Feels Young After Taking Eatonic for Sour Stomach

"I had sour stomach ever since I had the grip and it bothered me badly Have taken Eatonic only a week and am much better. Am 80 years old," says Mrs. John Hill.

Eatonic quickly relieves sour stomach, indigestion, heartburn, bloating and distress after eating because it takes up and carries out the excess acidity and gases which cause most stomach ailments. If you have "tried everything" and still suffer, do not give up hope. Eatonic has brought relief to tens of thousands like you. A big box costs but a trifle with your druggist's guarantee.

Labor —that's the Big Cost in Painting

LABOR accounts for about three-quarters of the entire cost of a painting job. Materials cost only about one-quarter—so the possible saving in cost between the best and the cheaper materials is not worth consideration.

And by specifiying the best paint, and getting years of extra wear, you save the big labor cost of frequent re-painting. You get the most economical job in the end.

PATTON'S Sun-Proof PAINT

—is longer-lasting because it is richer in linseed oil. It will not peel or blister if applied to surfaces fit for painting. It forms a tough film of protection against time and weather.

MORTGAGE FORECLOSURE SALE

Whereas, defaults have been made in the conditions of a certain mortgage duly executed and delivered by Oliver A. Austin, a single man, Mortgagor, to D. A. Rake, Mortgagee, bearing date the 13th day of September, 1919, and with the power of sale therein contained duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 29th day of December, 1919, at 8 o'clock A. M., in Book 93 of Mortgages on page 515.

Which said Mortgage, together with the debt secured thereby, was duly assigned by said D. A. Rake, Mortgagee, to T. L. Stavn, by written assignment dated the 26th day of January, 1921, and recorded in the office of the Register of Deeds, on the 29th day of January, 1921, at 8 o'clock A. M., in Book 104 of Mortgages on page 202.

And whereas, the said T. L. Stavn, assignee of the Mortgagee and holder of said mortgage, has duly elected and do hereby elect to declare the whole principal sum of said mortgage due and payable at the date of this notice under the terms and conditions of said mortgage and the power of sale therein contained, and whereas there is actually due and payable and claimed to be due at the date of this notice upon said mortgage and the debt secured thereby the total sum of $2548,13, as follows: The sum of $159.25 being interest due September 13, 1920, which was not paid, and the sum of $2383.88 being the amount of principal and interest since Sept. 13, 1920, all of which is secured by the mortgage hereby be foreclosed. and whereas said power of sale has become operative, and no action or proceeding having been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof.

Now, Therefore, Notice Is Hereby Given, That by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, Viz:

The East Half (E1-2) of Northwest Quarter (NW1-4), the Southwest quarter (SW1-4) of Northeast Quarter (NE1-4), and Northwest Quarter (NW1-4) of Southeast Quarter (SE1-4) of Section Fourteen (14) in Township One Hundred Fifty-five (155) North of Range Forty-one (41) West of the Fifth Principal Meridian in Marshall County and State of Minnesota, with the hereditaments and appurtances, which which sale will be made by the Sheriff of Marshall County at the front door of the Court House, in the City of Warren in said County and State, on the 25th day of June, 1921, at 10 o'clock A. M. of that day, at public vendue, to the highest bidder for cash, to pay said debt of $2548.13, and interest, and the taxes, if any, on said premises, and Seventy-five Dollars attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Do you know the

Facts about building costs

Do you know that lumber and building materials are down?

Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

Has Arm Broken

Eddie Davidson had his left arm broken and the hand badly crushed in the gearing of the flax baling machine Tuesday forenoon.

Mr. Davidson had thrown the machine out of gear and was loosening one the boxes which had become hot. In some way the machine threw itself into gear and caught his hand and arm. The flesh of both were badly bruised and torn and one bone of the forearm broken.

Dr. Spinks dressed the wounds and the injured man is getting along as well as could be expected.

Wedding

Mrs. Albertina Johnson and Guy Anderson were united in marriage at the Lutheran parsonage in Holt last Saturday evening in the presence of a few relatives, Rev. Ordahl officiating. This splendid couple needs no introduction to the people of Holt and surrounding country, as each have lived in this vicinity for many years and are well and favorably known. We understand the newly weds will reside on the old homestead, and Guy will still continue as mail carrier. The News joins their many friends in wishing them a happy and successful journey thru life.

Arnold Boernstein came up from Hazel Saturday on a short business trip.

Carsten Sagstuen went to Warren Tuesday after some repairs for his engine.

F. W. Ramaley of Minneapolis came Tueday to loook after his farm interests.

The Holt creamery made seventy-one tubs of butter last week, and the make is increasing right along.

Since the showers everything is growing fine, and the weeds are trying hard to keep pace with other vegetation.

Not much grain is being marketed these days, but the cows and hens are really the life of the country at this time of the year.

Mrs. G. H. Knutson and daughters, Nellie, and Mrs. Elmer Hagglund and baby visited over Sunday with relatives in Thief River Falls.

Bids will be received by the county auditor up to June 7th. for grading the road from the C. L. Heinze corner to the Thief River, a distance of 5.7 miles.

The Marshall County branch of the Jefferson Highway Assn., held a business meeting in Holt Monday night. A large and enthusiastic crowd of good roads boosters from Middle River and Holt were in attendance.

Prof. Prushek and a few of his pupils were at the field meet in Middle River Saturday. It was well attended by the schools that had a part in the program and is spoken of as being exceptionally good.

Mr. and Mrs. O. P. Transtrom and children of Mackenzie county, N. D. came Friday to attend the funeral of her mother, Mrs. John Nelson.

The Transtom family will make their home here and take care of Mrs. Transtrom's aged father.

The butter and egg shipments are getting so heavy from this station that the railroad company is now setting out an iced refrigerator car every Friday and commencing to-day or to-morrow the butter and eggs will be loaded directly into this car.

L. M. Larson of Golden Valley has a fine flowing two inch well 72 feet deep, dischaging 10 gallons to the minute. Emil and John Ostlund did the work.

Mr. and Mrs. Carl Johnson had their baby baptized Saturday night by Rev. Ordahl at the parsonage. Mr. and Mrs Hjalmer Johnson and Mr. and Mrs. Guy Anderson were sponsors.

Mr. and Mrs. C. L. Sandberg took their little baby girl who has been sick more or less all winter and spring, to Warren last Saturday to be examined by the doctor. The Dr. drew off about a pint of of water from the baby's lungs which relieved the little one considerably and there were great hopes of her recovery but her condition is very critical yet and it is hard to tell what the out come will be. Their many friends hope the little one may be spared to them.

Last Wednesday evening the people of Holt and vicinity gave Mr. and Mrs. Guy Anderson a surprise party and serenade at their home on the farm three miles north of Holt.

About 25 or more autoes were lined up in front of their beautiful front yard and the drivers of each auto made known their presence by tooting their horns all at the same time. Afterwards the company sang a song. The company was met at the front gate by the groom and his bride and welcomed to their beautiful home. A delicious lunch was served after which Rev. Ordahl presented a very beautiful present of a set of silver knives and forks, set of silver teaspoons and one set of desert spoons from all their friends.

Free Mission Church

Rev. Myhrer will hold services in Ringbo at the home of Henry Bergman Sunday at 11 o'clock.

Mr. J. Bengard of Fosston will hold services here at 2 o'clock next Sunday afternoon and the Sunday School will meet at 4 o'clock.

Mr. Bengard will also preach at 8 o'clock in the evening.

The Free Mission Ladies Aid will entertain in the church basement May 27th. All members are requested to help with food and also be present as important business is to be brot up.

The Holt creamery is one of the busiest places in town.

Emil and John Ostlund drilled a 152 foot well recently for Casper Dale.

Nels Nelson of Otter Tail county came Friday to attend the funeral of his mother, Mrs. John Nelson.

Marshall County has 2,697 farms, 2,214 are operated by owners and managers and 483 by tenants. The county has more than half a million acres of improved farm land, more than 16,000 horses, 346 mules, 130 two thousand head of cattle, fifteen thousand sheep and 10,000 hogs. The county raised 1,680,000 bushels of wheat in 1919, 1,368,000 bu. of oats, over a half million bu. of barley and 70,000 tons of hay. The value of farm lands and buildings is forty million dollars.

Grasshopper Poison

The Grashopper and locust outbreak is predicted to be the largest this year, if the season is dry. Two dry seasons always indicates a good crop of Hoppers. In certain infested areas, where the grasshoppers were thick last year, the egg deposits are very large. All the way from ten to twenty pods with from twenty to sixty eggs in each pod to each square foot.

In certain sections of North Dakota, the grasshoppers took the entire field of grain, and many of the counties are appropriating large sums to fight them this year. All farmers should be on guard, and when they are seen hatching out in large numbers, take steps to combat them. In rainy weather there is a fungus disease that work on the grasshoppers and kills them.

The best and most effective way of combating the grasshopper is by poison. Use five pounds of white arsenic or Paris Green to 100 pounds of bran. 6 pounds of salt, about ten lemons and a little molasses. Mix in water until flaky and scatter over the field on the morning of a sunshinny day. The lemons and molasses will attrack the hoppers for many feet. The poison will kill the hoppers about two days after they eat some of it.

In certain parts of Pennington and Kittson county large portions of crops were taken last year.

Orders for Paris Green and arsenic of lead can be placed with Co. Agent. Paris Green will cost about 39 cents per pound and Arsenic of of lead for about 27 cents per pound. Orders must be made in advance.

Hot or cold shower baths at the school house this afternoon from 6 until 9 o'clock. Single baths 25 cents and tickets good for six baths for one person, $1.00. Rooms for ladies and gents.

Farmers having wool to sell will do well to see the county agent, who will help them find a market that pays top prices.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

SHE DIDN'T DARE TO LEAVE HOUSE

On Verge of Nervous Collapse, Indiana Woman Was Almost Helpless.

HER FRIENDS DISHEARTENED

Troubles Disappear When She Takes Tanlac, and Nerves Now Are as Steady as Can Be—General Health Splendid.

"I was on the verge of a collapse and was actually afraid to leave the house, but I am overjoyed now at the way Tanlac has restored my health so perfectly," declared Mrs. Cora M. Jackson, 504 Mulberry St., Terre Haute, Ind."

"I was almost a nervous wreck, and at times for anyone to even talk to me upset me completely. Even at night I could not get easy and quiet and would lie wide-awake, hardly able to sleep at all, and often just got up out of bed, I was so restless. Nervous headaches often came on me and frequently lasted for days at a time. Then I had rheumatism so bad in my joints I was almost helpless. My legs and elbows hurt fearfully and sometimes I just ached all over. There seemed to be no relief for me, my friends were all worried and I was almost disheartened.

"But, happily for me, one of my friends suggested that I try Tanlac. I never will forget how I began to improve and now I think it is wonderful that I am feeling so well and strong. My nerves are just as steady as can be and I haven't a rheumatic pain about me. I am in just splendid health and wish everybody knew what a grand medicine Tanlac is."

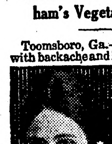
Tanlac is sold by leading druggists everywhere.—Advertisement.

Most men find it easier to get in debt than to get out, but some are unable to get in at all.

SO WEAK SO NERVOUS

How Miserable This Woman Was Until She Took Lydia E. Pinkham's Vegetable Compound

Toomsboro, Ga.—"I suffered terribly with backache and headache all the time, was so weak and nervous I didn't know what to do, and could not do my work. My trouble was deficient and irregular periods. I read in the papers what Lydia E. Pinkham's Vegetable Compound had done for others and decided to give it a trial. I got good results from its use so that I am now able to do my work. I recommend your Vegetable Compound to my friends who have troubles similar to mine and you may use these facts as a testimonial."—Mrs. C. F. PHILLIPS, Toomsboro, Ga.



Weak, nervous women make unhappy homes, their condition irritates both husband and children. It has been said that nine-tenths of the nervous prostration, nervous despondency, "the blues," irritability and backache arise from some displacement or derangement of a woman's system. Mrs. Phillips' letter clearly shows that no other remedy is so successful in overcoming this condition as Lydia E. Pinkham's Vegetable Compound.

Mrs. Hicks Relieved By Four Eatonics

"I have taken four Eatonic tablets and they relieved me of sour stomach. I recommend it to everybody," says Mrs. G. P. Hicks.

If stomach is not digesting your food; if you have sourness, bloating, food repeating, indigestion or acid stomach, Eatonic will remove the cause by taking up and carrying out the acidity and gases, bringing quick relief and healthy digestion. Why suffer stomach trouble? Why not keep your digestion normal and enjoy good health? An Eatonic taken after each meal will prevent discomfort and pain.

Make the test today and see how quickly this wonderful remedy acts. It comes in handy tablet form. Carry it with you. A big box costs only a trifle with your druggist's guarantee.

PROMOTE TRADE IN NEAR EAST

Aims of the American Chamber of Commerce for the Levant Are Set Forth.

TO OPEN UP IMMENSE FIELD

Constantinople Destined to Become the "Chicago of Europe," Says New President of Organization—Opportunity for American Capital.

New York.—Constantinople is destined to become the "Chicago of Europe," according to an interview authorized by Mr. Lucien Irving Thomas, a director of the Standard Oil company of New York, which company has extensive interests throughout Asia and the Balkan states.

Mr. Thomas lately returned from a visit to Europe. "I learned, while in London, that I had been elected president of the American chamber of commerce for the Levant," said Mr. Thomas. "I refer to the newly-organized American section of the chamber, now maintaining headquarters in New York. It will co-operate with the long-established chamber of the same name which has its seat in Constantinople.

"The organization of this chamber is a timely movement to promote reciprocal trade relations between America and that great area—extending from Egypt to Russia, and from Persia to Italy—of which Constantinople is the center.

Gateway to Vast Empires.

"Very few people appreciate that Europe and Asia meet at the feet of Constantinople," continued Mr. Thomas. "The chain of waters, the Dardanelles, the Sea of Marmora and the Bosphorus, made available for free commerce, open the gateway to vast empires of populous and fertile territories beyond. When we realize that Russia, a country considerably more than twice as large as the United States, has few seaports that are not ice-bound for the greater part of the year, except those situated on the Black sea, we may imagine what enormous traffic will flow through Constantinople when Russia, with a hundred million of her people nearby, gets into her commercial stride."

"Then consider Roumania, now with twice her former area—a country of great natural resources, with a present population of 15,000,000. Bulgaria too, noted for a sturdy and industrious population, has her commercial outlet on the Black sea. And even on the farther side of the Black sea is a group of states which eventually must occupy an important place in over-seas trade.

"Jugo-Slavia, now vast in area by comparison with Old Serbia, with substantial natural resources and a population of over 14,000,000 has, of course, one trade outlet via the Adriatic, and another via the Danube to the Black sea. Without any doubt the Danube is soon to play a much more important part in the trade of the Balkan states than it has ever done in the past.

Has Natural Wealth.

"Both Jugo-Slavia and Greater Greece will hold a more important position than now in the Levantine trade of the future. Egypt is growing into a land of commercial significance. While certain territories have been detached from Turkey since the war, there remains much fertile and valuable land. Turkey is rich in minerals of all kinds.

"The war and its aftermath upset exchange throughout the Near East, and this has made commercial transactions difficult for the present. But the natural wealth is there; and a population for the most part industrious. Trade must surely grow.

"A high official of an international bank, one who is recognized as having unusually broad and accurate knowledge of Ottoman financial matters, stated to me at Constantinople that in Turkey fully 65,000,000 in gold is hoarded by the people in 'stocking-leg banks,' and not deposited at all with the public bankers. In this connection it should be remembered that the oriental mind is accustomed to think, financially, in terms of 'hard money,' and that prior to the European war only gold and silver were in circulation to any extent, in Turkey. There is evidence that great private wealth exists there today, in gold, silver and jewels, not to mention other valuables, and this wealth will come into the current market as trade returns to normal.

"The Levant offers a splendid opportunity for the investment of American capital, in a wide range of enterprises. One of the great openings of the present is for the construction of dwellings, warehouses, harbor improvements, and so forth. Constantinople alone has lost 25,000 to 30,000 houses by fire since the war began, and affords a magnificent opportunity for housebuilding activity. I know for a fact that the Turkish authorities would welcome anyone coming there for the purpose and that they would even be glad to offer concessions. The prevailing spirit is progressive. Modern industrial equipment, too, is now sought where formerly it was shunned. I recall that a long time ago, prior to the coming into power of the Young Turk party a business cablegram was intercepted by the Turkish authorities because it contained an offer to import some electric dynamos capable of '1,500 revolutions per minute.' The wily advisers of Abdul Hamid is said to have thrown up his hands at the suggestion and remarked with some heat that Turkey 'had enough revolutions on her hands at the moment without encouraging these new-fangled trouble-raisers.'

Opportunities Are Great.

"Constantinople now has an inadequate system to provide substantial harbor craft for use in the waters around Constantinople. People living on the other side of the Bosphorus lack sufficient facilities for commuting to Constantinople.

"The development of roadways on the European side of the Bosphorus is another matter for business enterprise. If the Bosphorus is not the most beautiful body of water in the world, I should like to know where it is to be found. A proper driveway along the shores of the Bosphorus would rather tax the memory of a world-traveler to recall anything more charming.

"Opportunites for housebuilding and other forms of construction are open in the other cities of the Levant as well as in Constantinople. There is widespread need for railroad construction and rehabilitation; while at the seaports modern docks and wharves and up-to-date freight handling equipment must be provided.

"The Levant should become a growing market for American machinery and manufactures of all kinds. Importations from the Levant must be stimulated, too, in order to improve the exchange and credit situation so that the Near East can buy more from America. Tobacco, licorice, valonia, attar of roses, raisins, currants, dates, figs, goatskins, hides, furs, olive oil, long-staple cotton, rugs, carpets, and oriental objets d'art are among the imports coming into the United States from the Levant. It will be the aim of the American chamber of commerce for the Levant to help establish trade connections between responsible merchants on either side of the ocean, and to furnish all possible information and assistance to those engaging in trade in this field."

Those in Movement.

Officers of the American chamber of commerce for the Levant include, in addition to Mr. Thomas, president, the following: Chairman of the board, Mr. J. M. Dixon of the Tobacco Products corporation; vice president, Captain J. F. Lucey of the Lucey Manufacturing company; treasurer, Donald Frothingham of the American Express company; secretary and managing director, Dr. E. E. Pratt.

Temporary offices have been established at 200 West Fifty-sixth street, New York city, but it is expected that after May 15 the chamber will be located in the down-town district of New York.

Firms represented on the directorate of the chamber, or as life members, include:

American International corporation, E. I. DuPont de Nemours Co., U. S. Rubber Co., Guaranty Trust company of New York, General Motors company, Amory, Browne & Company, Great Lakes Trust company, Commercial Union of America, Lockwood, Greene & Company, Hammond Typewriter company, A. B. Farquhar company, Robert H. Ingersoll & Bro., Robert College, James A. Farrell, U. S. Steel corporation, Phelps-Dodge company, Brown Shoe company, International Western Electric company, H. J. Heinz company. The membership covers a growing list of merchants, shipowners, bankers, manufacturers and other business men of the United States.

GAINED AND LOST FORTUNES

English Dandies Played for High Stakes in the Latter Part of Eighteenth Century.

Almack's was one of the famous old gambling clubs of London. It was at its height in the latter part of the Eighteenth century, and the play there was enormous. It was not uncommon for the losses in a single night to amount to upwards of $100,000.

The young men, dandies all, who intended to play set about the matter with a great deal of ceremony. They wore straw hats with wide brims, flower and ribbon trimmed; the brims intended to keep the light from their eyes, and that the spectators might not see their emotions they often wore masks. They also often took off their ruffles and silk or satin coats and wore in their place a rough great-coat or else wound leather bands about their arms to protect the delicate lace and hues of their coats from the soil of the table.

At each player's side was a small table that held their tea, wine cakes and rolls of rouleaus or chips. Most of the players wore long curls, eyeglasses mounted on long sticks, were perfumed, powdered and painted, like court ladies, and some of them even affected a mincing ladylike walk. But those who made the error of thinking them ladylike in their fighting ability made a mistake that often cost a life, for the gay young sparks would draw swords at the drop of a hat and meet death with a laugh.

Confusing Incident.

"How was your after-dinner speech received, dear?"

"Not so well. While I was talking one of the guests actually snored."

"You should not have stopped for a little thing like that."

"I had to stop. The other guests woke him up and wanted to know where he got it."—Birmingham Age-Herald.

Collegeville—Rev. Cornelius Wittman, the oldest living member of the Benedictine order in the United States celebrated the 65th anniversary of his ordination to the priesthood here.

Bemidji—The 12th annual convention of the Women's Home Missionary society of the Fergus Falls district of the Methodist Episcopal church will convene in Bemidji May 28 and 29.

Crookston—D. W. Sewell of the Minnesota highway department has been stationed here as district maintenance superintendent. Mr. Sewell will have charge of the fifth Minnesota highway department.

Ellsworth—Mannow Christians, 29 years old, a farmer residing across the line in Lyon county, is dead as the result of having run a small splinter into one of his thumbs while moving a chicken house.

Montevideo—Only six votes were cast against the proposition of issuing $50,000 in bonds for the completion of the Sibley school building here. A special election was conducted to act on the bond issue.

Fergus Falls—This city has run about $20,000 behind on current school expenses this year. A special election to vote bonds in that amount to make good the deficit has been decided by the board of education.

Minneapolis—C. D. Gould, Minneapolis city attorney, appointed the tenth Hennepin county district judge by Governor J. A. O. Preus, in accordance with an act of the last legislature, said he probably would accept.

Marshall—Marshall capitalists may decide to back a proposition to establish a big $200,000 milk condensing plant here. The establishment of the plant, it is said, would give new life to the dairy industry in this section.

Bemidji—Governor Preus will be the guest of Beltrami county Saturday, May 27. He is coming to assist in stump blasting and land clearing and in the evening will dedicate the armory which just has been completed here.

Brainerd—The sixth district Minnesota Federation of Women's Clubs will have their 16th annual meeting in Brainerd on Thursday and Friday, May 26 and 27. Community service and reconstruction will be the topics of discussion.

Luverne—Company H, Fifth Infantry, Minnesota National Guard, of this city, has been made a machine gun company, according to information received here from National Guard headquarters in St. Paul. The company has 82 members.

Brainerd—The annual picnic of the Crow Wing Farm bureau will be some time in June, and locations are now being considered by the committee. Bay lake, east of Brainerd, and Lum park in Brainerd, were the scene of two former picnics.

Winona—Rev. A. W. Fagenstrom of Worthington was elected moderator for the coming year at the closing session of the 66th annual conference of the Congregational churches of Minnesota here. Duluth was chosen as the meeting place for 1922.

Fergus Falls—After hearing the evidence in the case of William M. Corliss against the Great Northern railroad, Judge Parsons directed the jury to return a verdict in favor of the company. Mr. Corliss charged that the company negligently ran a train into a cyclone on the Dakota prairie a short distance west of Fargo and that the car in which he was riding was overturned by the wind. He sued for $2,500 damages.

St. Paul—Minnesota's new automobile tax law is constitutional and will withstand the attacks made against it by Charles N. Dohs, St. Paul attorney, who has protested to Mike Holm, secretary of state, according to Assistant Attorney General James E. Markham. None of the reasons stated by Mr. Dohs in his protest show that the law is invalid, Mr. Markham said. He advised the secretary of state to place the protest on file and do nothing further about it.

Minneapolis—George Augustus Brackett, 85 years old, resident of Minneapolis for 64 years and one of the builders of the great industrial empire of the Northwest, died at his home in the Leamington hotel. His death followed a stroke of apoplexy Saturday. He became unconscious Sunday and remained so until the end. Members of his immediate family were at his bedside.

JUST MATTER OF DEDUCTION

As the Boy Explained It, the Finding of Horse Was Really Quite Simple Matter.

Speaking of the development of the story-telling talent in youth, Richard Bennett, the actor, is fond of relating this incident:

Some years ago a prominent citizen of a town lost a horse. It was not much of a horse. In fact, it was blind in one eye and spavined. But, perhaps as a relic, Bennett says, the prominent citizen wanted the horse. So he advertised, offering $5 reward for its return. The town half-wit, a boy of nineteen, with a harelip, came one afternoon leading the horse, with a strap about the size of a shoestring, to the prominent citizen's door. The horse's owner was pleased.

"Now," said he kindly, scenting a good narrative and perhaps an adventure, "now, my boy, here's your $5; and I'll give you another $5 if you'll tell me just how you found my horse."

"Well, all right," said the boy. "I jus' thought if I was that old horse where I would go, and I did and he was."

He got the extra five.—Kansas City Star.

Preserving Mine Timbers.

NOT IN WHOLESALE BUSINESS

Amount of Rouge This Damsel Would Require More Than Druggist Carried in Stock.

The drug store was quite near the dancing hall; but the druggist was not a dancer, and had been in bed many hours when he was awakened by the violent ringing of his night bell.

With sleepy words of complaint he pulled himself from his warm bed.

"Mine's not to reason why, or some poor soul may do a guy," he murmured philosophically.

Throwing up his bedroom window he allowed the first cold gust of wind to rush past him, then put his head out.

Below he saw a young lady.

"What can I do for you, miss?" he inquired. "Is anyone dying?"

"Oh, no!" came back in sweet tones. "But I'm dancing at the hall close by, and I have quite run out of rouge."

"Indeed?" snorted the disgusted chemist. "I am very sorry, miss, but I never keep enough rouge in stock to cover a cheek like yours!"

Then he banged the window down and returned to bed.—Chicago Daily News.

Embarrassing Questions.

TRAIN YOUR HAIR AS AN ACTRESS DOES

No class of people devotes as much time to beauty as do actresses, and no class must be more careful to retain and develop their charms. Inquiry develops the information that in hair care they find it dangerous to shampoo with any makeshift hair cleanser. The majority say that to have the best hair wash and scalp stimulator at a cost of about three cents, one need only get a package of canthrox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. This makes enough shampoo liquid to apply it to all the hair instead of just the top of the head. After its use the hair dries rapidly, with uniform color. Dandruff, excess oil and dirt are quickly dissolved and entirely disappear when you rinse the hair. After this your hair will be so fluffy it will look much heavier than it is. Its luster and softness will delight you, while the stimulated scalp gains the health which insures hair growth. Send 2c to cover the postage for free trial package to H. S. GERMANS BATTLE POLES IN SILESIA

Crippled Wire Systems Bring News of Artillery Struggle Along Oder River.

FRENCH SEEKING ORDER

Charge Germany With Laxity in Handling Border Troubles and Demand Immediate Settlement With Miners.

Berlin.—Over crippled telegraph and telephone wires come reports from Oppeln that the Germans and Poles are engaged in heavy artillery and machine gun firing all along the Oder, especially in the vicinity of Krappitz. Both sides are entrenching and the people in several towns are panic stricken.

While the general reports from Upper Silesia indicate a considerable reinforcement of both insurgent and German sides, a menacing food shortage in the rebellious area and an extension of the conflicts, the German government in a note to the French ambassador on May 19 denies all responsibility for the disturbances and declines to comply with the French request to forward money to pay the miners, which was considered necessary to forestall possible chaotic conditions.

French Accuse Germans.

The French note charged Germany with ordering at too late a date the suppression of volunteer forces against the Upper Silesian Poles to prevent the organization of armed forces approximating 20,000 men. It declared that Germany made no effort to close the frontier and insisted that Germany direct shipments of foodstuffs into the rebel area and instruct the reichsbank to forward funds for payment of the miners.

Organized for Self Defense.

In replying, the German government says that the allied forces in Upper Silesia cannot supply a guarantee that foodstuffs would not fall into insurgents' hands and that the self-defense organizations have been largely recruited in Upper Silesia as a natural result of General Lerond's failure to protect the Germans in that area.

It declares that the Polish border has been wide open.

To Keep Volunteers Out.

In conclusion the German note points out that Germany cannot be responsible for a situation over which the allies have assumed complete control.

The French note asserts the German forces at Kreuzburg number 8,000 and are under the command of a former army officer; that the Ratibon force, also commanded by a former army officer, approximates 9,000, and, in addition, the Germans in the vicinity of Oppeln and Krappitz have organized and armed under the command for former officers.

EMERGENCY TARIFF PASSES 245 TO 97

Washington.—The long battle in congress over the emergency tariff bill ended when the house by a vote of 245 to 97 adopted the conference report to which the senate already has agreed. The measure is expected to be signed by President Harding soon after his return from New York.

The emergeny measure passed in the closing days of the last session was vetoed by President Wilson, but immediately reintroduced with the opening of the present extra session.

As finally passed, it carries tariff duties on 30 odd products of the farm, together with compensatory duties on the articles manufactured from them.

Only a slight flurry of opposition appeared as the bill went into the roll call.

PREPARE FOR TRACTOR SHOW

National Demonstration Scheduled for Fargo June 28-30 to Draw Crowds.

Fargo.—Advance representatives of the national tractor demonstration and show committee, which is to stage its national tractor demonstration at the Haggart farm, six miles west of Fargo, June 28, 29 and 30, are expected to arrive in Fargo in the near future to make preliminary arrangements for the event.

W. P. Chesnut, secretary of the Commercial club, states that the 60 tractor companies to participate in the demonstration will bring about 2,000 men to the city to have charge of the work during demonstration week. The tractor companies expect a tremendous crowd will witness the demonstrations during the three days.

Egyptians Amuck in Alexandria

London.—Many persons are reported to have been killed in an outbreak in Alexandria, Egypt, where natives attacked Europeans. British troops have arrived and taken charge of the town.

It is rumored that the outbreak arose from the killing of a native by a Greek, which led to attacks by the natives and students on Greeks and other Europeans.

Ambulances were busy carrying the wounded to hospitals. [illegible] were started and in one district it was reported that people were burned alive.

MOVE FOR CHURCH UNION LAUNCHED

Presbyterians Resolve for an Actual Joining of the Many Branches of the Church.

NOTIFY OTHER SESSIONS

Other Bodies of Presbyterianism Get Special Messages Urging Necessity for United Effort in Work to Be Done.

Winona Lake, Ind.—Determination to insist upon nothing less than actual union with the other branches of the Presbyterian church was expressed at the 133rd general assembly of the Presbyterian church in the United States. Speakers declared that proposals for closer cooperation with the other branches were useless and that efforts should now be made for an organic union.

Would Coordinate Work.

Debate followed on the reorganization and consolidation of the various boards and agencies in the church.

The special committee dealing with this subject proposed that some plan be worked out by which the number of boards be reduced and overlapping work eliminated.

Want Actual Union.

Resolutions adopted following the report of Dr. J. Ross Stevenson, chairman of the committee on church cooperation and union, declared that the assembly, "while willing to approve any measures which will promote closer relations with the Presbyterian and reformed churches, is united and earnest in the desire for an actual union of the churches of the reformed faith and order."

Resolutions Sent to Many Bodies.

The resolutions also instructed the moderator to send a message to the assembly of the Presbyterian church in the United States of America, (southern) now in session at St. Louis, expressing the desire for a real union of Presbyterian and reformed churches and also expressing the hope that the assembly of the southern branch of the church may take such action as will not only promote closer relations, but also will secure reunion of the two bodies.

It was also directed that a similar message be sent to the assembly of the United Presbyterian church, the synod of the Reformed Church in the United States of America, and the synod of the Reformed Church in the United States.

WAR CRIMINALS TRIED

German Soldiers Appear Before High Tribunal This Week.

Representative List of 45 Picked from 800 Accused by Allies to Answer for Cruelty, etc.

Berlin.—The first of the alleged German "war criminals" was placed on trial at Leipsig early this week.

More than 800 German officers and men charged by the allies with violating the laws of war, and whose extradition was at first demanded, were subsequently ordered to be tried in German courts. A list of 45 was picked out by the allies and presented to the German government as the first to be placed on trial.

Three noncommissioned officers and Captain Muller, charged with maltreating British prisoners of war, and Captain Neuman, commander of the submarine charged with sinking a hospital ship, will be tried during this week. The trials will take place before a division of Germany's supreme court, or reichsgericht.

The German supreme court is composed of 100 judges. The highest tribunal is the court of last instance and review, similar to the American supreme court. A law was passed that the men charged by the allies with being "war criminals" should be tried by that tribunal.

DRY AGENTS ON FURLOUGH

Forty Days of Increased Liquor Traffic Are Expected Until July 1.

Washington.—Thousands of bootleggers may escape punishment for violation of the liquor laws as a result of the furlough of 700 federal prohibition agents until July 1, Commissioner Kramer declares. In any event, he added, many of the cases will have to be continued over the 40 days, which will add to the congestion of already crowded court dockets.

At present, Mr. Kramer said, it is too soon to gauge the effect on the illegal liquor traffic which may result from the loss of 700 agents for 40 days. However, he asserted, the cut would hurt the prohibition enforcement unit in every way.

"Millions have been lost," he said, "in an attempt to save a few hundred thousand dollars."

Mr. Kramer said he could not prophesy whether there would be greater bootlegging activity over the country during the 40-day layoff, but he indicated that he expected some increase of lawlessness.

"Run Down" People Easy Prey To Serious Disease

When you get "run down" it merely means your system is disordered,—working poorly. If the disorder stays small, you may remain just "run down." But if it gets worse, you are downright sick.

Don't wait until your "run down" condition develops into real illness. Start today toning your system with an A-1 blood remedy to drive out the impurities, a vegetable medicine like S.S.S., which has served thousands thus in the last half century.

Get S.S.S. from your druggist right now. Then write us about your condition, addressing Chief Medical Advisor, 848 Swift Laboratory, Atlanta, Georgia. We'll send you medical counsel free.

He had one of those long mustaches—one of the kind that, if you had been buying him a birthday present a few years ago, you would have thought of a mustache cup the first thing.

Everybody had been making fun of it, so one Sunday morning he shaved it off. The first person to get a look at his upper lip in 20 years was a neighbor girl about the age of four. As she came into the house she said: "Oh! Mr. Bowin, you look just as funny as ever."

SARAH HAD GENTLY HINTED

Remark Might Have Led Beau to Imagine She Disapproved of His White Clothes.

Mrs. Morgan had a colored maid named Sarah. One Sunday afternoon the mistress saw Sarah's lover leaving the house clad in a suit of white flannel. A little later, when the maid appeared, her mistress said:

"Sarah, that beau of yours should never wear white. He is so black that white clothes makes him appear all the blacker. Why don't you give him a hint?"

"Why, Mis' Morgan," said Sarah, with animation, "I done give him lots ob hints, but he jes' natterly ain't got no sense an' didn't take 'em."

"Probably you didn't make the hints strong enough," said the mistress.

"Well, no'm, dat's jes' what I think myself," agreed Sarah, reflectively; "I don't believe I did. I jest looks at him right hard an' I says, 'Niggah, yo' sho' do look like a black snake crawlin' out ob cream, you do!' Thet's jes' all I says to him, Mis' Morgan. Dat's all."

MORTGAGE FORECLOSURE SALE

Whereas, defaults have been made in the conditions of a certain mortgage duly executed and delivered by Oliver A. Austin, a single man, Mortgagor, to D. A. Rake, Mortgagee, bearing date the 13th day of September, 1919, and with the power of sale therein contained duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 29th day of December, 1919, at 8 o'clock A. M., in Book 93 of Mortgages on page 515.

Which said Mortgage, together with the debt secured thereby, was duly assigned by said D. A. Rake, Mortgagee, to T. L. Stavn, by written assignment dated the 26th day of January, 1921, and recorded in the office of the Register of Deeds, on the 29th day of January, 1921, at 8 o'clock A. M., in Book 104 of Mortgages on page 202.

And whereas, the said T. L. Stavn, assignee of the Mortgagee and holder of said mortgage, has duly elected and do hereby elect to declare the whole principal sum of said mortgage due and payable at the date of this notice under the terms and conditions of said mortgage and the power of sale therein contained, and whereas there is actually due and payable and claimed to be due at the date of this notice upon said mortgage and the debt secured thereby the total sum of $2543,13, as follows: The sum of $159.25 being interest due September 13, 1920, which was not paid, and the sum of $2383.88 being the amount of principal and interest since Sept. 13, 1920, all of which is secured by the mortgage hereby be foreclosed, and whereas said power of sale has become operative, and no action or proceeding having been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof.

Now, Therefore, Notice Is Hereby Given, That by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, Viz:

The East Half (E1-2) of Northwest Quarter (NW1-4), the Southwest quarter (SW1-4) of Northeast Quarter (NE1-4), and Northwest Quarter (NW1-4) of Southeast Quarter (SE1-4) of Section Fourteen (14) in Township One Hundred Fifty-five (155) North of Range Forty-one (41) West of the Fifth Principal Meridian in Marshall County and State of Minnesota, with the hereditaments and appurtances, which which sale will be made by the Sheriff of Marshall County at the front door of the Court House, in the City of Warren in said County and State, on the 25th day of June, 1921, at 10 o'clock A. M. of that day, at public vendue, to the highest bidder for cash, to pay said debt of $2543.13, and interest, and the taxes, if any, on said premises, and Seventy-five Dollars attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Do you know the

Facts about building costs

Do you know that lumber and building materials are down?
Have you talked to us lately about building?
Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?
Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

Appointed Patrolman

B. W. Sewell, state highway supt., with headquarters at Crookston was here Saturday and employed Nils Ness for patrolman, on this part of the Babcock highway. Mr. Ness will have work on this road commencing one mile south from Holt and running north to the Town line, a total distance of 6 3-4 miles. He commenced work June 1st and receives $6.00 per day for himself and team and fifty cents a day for the use of his grader.

It is intended to give these patrolman an average of about six miles of road. They are required to make daily reports and to call for help if they are unable to do the work alone at any time.

This is a commencement of better roads for the whole state of Minnesota.

East Route Endorsed

The officers of the Jefferson Highway Assn. from Middle River and Holt attended the Commercial Club luncheon at Thief River Falls Thursday. Our cause was very ably presented to them by Mr. Evans and his address highly spoken of by the club members.

The club passed a resolution, by a unanimious vote, endorsing the east route for the J. H. This action of the Thief River Falls Commercial Club will have great weight with General Manager Clarkson of the J. H., and is deeply appreciated by Steiner, Holt, Middle River and Strathcona.

The government forbids the transfer or sale of War Savings stamps, now more popularly known as Treasury Savings stamps. These stamps may be redeemed for cash at the postoffice but they must not be disposed of to any one else.

Although in some districts many persons have redeemed their government savings stamps and certificates, the fact remains that for the country at large two thirds of all the savings security sold, still remain in the hands of the original buyers.

On account of poor health, D. B. Bakke has disposed of a controlling interest in the Holt State Bank to B. Docken and A. L. Halvorson. The latter has also purchased Mr. Bakke's residence property in this village. Mr. B. has already shipped their furniture and expects to leave with his family for an extended visit at Boulder, Colo. as soon as the roads are fit for auto driving.

Three thousand elevaters will join in marketing their grain co-operatively through the U.S. Grain Growers, Inc., if they follow the plan urged upon them by their national organization, the Farmers National Grain Dealers association. Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

ANOTHER WOMAN ESCAPES

Mrs. McCumber Avoided a Serious Operation by Taking Lydia E. Pinkham's Vegetable Compound in Time

Georgetown, Ill.—"After my first baby was born I suffered so with my left side that I could not walk across the floor unless I was all humped over, holding to my side. I doctored with several doctors but found no relief and they said I would have to have an operation. My mother insisted on my taking Lydia E. Pinkham's Vegetable Compound and I soon found relief. Now I can do all my own work and it is the Vegetable Compound that has saved me from an operation. I cannot praise your medicine too highly and I tell all of my friends and neighbors what the Compound did for me."—Mrs. MARGARET McCUMBER, 27 S. Frazier St., Georgetown, Illinois.

Mrs. McCumber is one of the unnumbered thousands of housewives who struggle to keep about their daily tasks, while suffering from ailments peculiar to women with backache, sideaches, headaches, bearing-down pains and nervousness,—and if every such woman should profit by her experience and give Lydia E. Pinkham's Vegetable Compound a trial they would get well.

Death in the Dishrag.

According to a government report the influenza case rate for a group eating from plates and utensils washed by hand was 324 cases per 1,000 inmates, as compared with a rate of 108 per 1,000 inmates from that group eating from dishes washed by dish-washing machines. In view of these figures, hand washing of dishes permits at least one disease to attack three times as many persons as does the dishwashing machine.

TOMMY MILTON GRABS AUTO DASH

Steady Driving at Indianapolis Speedway Forces DePalma Off the Track.

CAR BUILT IN U.S. WINS

Only Eight of 23 Entrants Survive in Record Breaking Speed Contest, and Seven Drove American Made Cars—Heavy Purses.

Indianapolis, Ind.—Tommy Milton, world's champion speed racer, piloted an American car to the finish first in the ninth renewal of the international racing classic, the 500-mile dash around the Indianapolis speedway. Milton's victory came through a beautifully driven race, which was won after Ralph DePalma, popular favorite for the victory, had set such a terrific pace during the first 250 miles that all but one of the foreign-made cars, including his own, were forced from the track through mechanical troubles or minor accidents.

Seven American Machines Win.

Of the 23 entrants, only eight completed the 500 miles, and seven of these were American-made machines. Ralph Mulford, driving another American-built machine was awarded ninth position without finishing, after all the others had dropped by the wayside.

90 Miles an Hour.

Milton established a new track record for cars of not more than 183 cubic inches piston displacement by completing the 500 miles in 5 hours, 45 minutes and 44:65 seconds for an average of 89.62 miles per hour. The fastest time ever made in the speedway races was but twenty-hundredths of a mile faster per hour, this mark being made by DePalma in 1915.

Broken Connecting Rod.

Boyer, who had raced alongside DePalma, although actually six laps behind from the fiftieth lap on, had started a series of sprints which taxed DePalma's car to keep in front, and at the 101st lap DePalma swung into the pits. After a quick change of plugs he rushed back, still ahead of Milton, who forged up to second.

Another trip to the pits lost more ground, a third visit left him almost on even terms with Milton, and finally the leader swung to the side of the track with a characteristic smile, and ordered his car to the garage, where it was found a connecting rod was broken. DePalma won $10,600 in lap prizes previous to being forced out.

UNVEIL BUST OF WASHINGTON

British Honor American President at Memorial Day Services.

London.—The grave of every American soldier buried in the British Isles was specially decorated by living comrades in observance of American Memorial day, while in St. Paul's cathedral a bust of George Washington was unveiled as a gift from the American people. A message from President Harding read at the ceremony expressed the hope that the gift "might inspire a continued reciprocation of the established friendship of the American people for the British nation."

The bust was placed in the crypt of the ancient cathedral near the resting places of the ashes of Nelson and Wellington and amidst the effigies of hundreds of England's noted dead. It was donated by the Sulgrave institution, which cares for the Washington ancestral home at Sulgrave manor, and some seventy allied American organizations.

SEVEN DIE IN PLANE CRASH

Latest Model Hospital Flyer Crushes Out Noted Lives.

Washington.—Five army flyers and two civilians were crushed to death when a huge Curtiss-Eagle ambulance airplane went off balance and fell several thousand feet near Indian Head, Md. Scores witnessed the fall and saw the big plane burst into flames, but details of the crash will never be known. Every person on the plane was crushed or burned to death, and the bodies were gathered up as unrecognizable masses at dawn Memorial day.

Among those killed were some of the army's best known flyers and officers, and two noted civilians. Those dead are, Lieut. Col. Archie Miller, a recent graduate of the war college; Lieut. Stanley Ames, pilot of the machine; Lieut. Cleveland W. McDermott of Syracuse, N. Y.; Lieut. John M. Pennywell, Sergt. Richard Blumenkrantz, mechanic; A. G. Batchelder of Washington, chairman of the executive board of the American Automobile association; Maurice Connolly, sales manager of the Curtiss Airplane company, a major in the army reserve corps and a former congressman from Iowa.

The plane, a huge Curtiss-Eagle, was one of the latest hospital ships.

To Investigate Accident.

Washington.—Appointment of a board of three officers of the army air service to investigate the circumstances surrounding the accident in which five army men and two civilians lost their lives when a big army Curtiss-Eagle ambulance airplane crashed to the earth in a severe storm near Morgantown, Md., has been announced by Major M. F. Scanlon, commandant at Bolling field

SPLINTER MARKS FAR NORTH

Little Peninsula Extending Into Lake of the Woods in Canada Is American Territory.

Many Americans have worried about a stubby little peninsula which extends from Canada into the Lake of the Woods north of the forty-ninth parallel, which marks the established boundary between Canada and the United States from the Lake of the Woods to Puget sound.

This small area, chopped off from Canada and surrounded on three sides by the waters of the Lake of the Woods, belongs to the United States. Disregarding Alaska, it is the northernmost land of the American republic.

No map shows any town or village in the remote and isolated region. It appears merely as a trackless forest wilderness.

Now it is indicated that there is a village in this forgotten enclave; for a post office has been established at Penasse, and a weekly mail service is maintained. During the winter the service will be by horse and sleigh across the ice of the lake.

In the summer a motorboat will be used.

But we have to confess that we don't always recognize good luck when we do meet it.

SOMEWHAT HARD TO EXPLAIN

Principal Could Hardly Have Chosen More Inopportune Moment to Make His Entry.

I was a callow school teacher, nervous and anxious to please, writes a correspondent. In my first year I followed the usual scheme, substituting or cadeting for teachers absent for various causes. I was at a school one day teaching in the absence of a woman who was ill. During the morning exercises I read a couple of chapters from a story, as was her custom. I cannot remember the name of the book, but I had just read "But here comes the author of all our troubles," when the door suddenly opened and in walked the principal. The room, composed of high-school sophomores, burst into one prolonged roar of laughter. The principal, a man insistent upon his dignity, waited patiently, but one burst of laughter followed another. I tried to explain, but began to laugh myself. Finally, realizing that it was the only way to restore order, he left the room. Later I explained and he saw the joke.

The cards containing finger prints at Scotland Yard number 210,000.

Hard luck is the excuse of those who look for easy gains.

FORCED TO FIGHT FOR HER BREATH

Nashville Artist Tells of Terrible Suffering Experienced by His Wife.

HUSBAND GOES DOWN HILL

Finally Both Decide to Put Tanlac to Test and as a Result Have Enjoyed Best of Health for Past Three Years.

"Both my wife and myself have put Tanlac to the test and we call it the greatest medicine in the world," said J. T. Montamat, 1123 Third Ave., North, Nashville, Tenn., artistic sign painter for the Cusack Company. Mr. Montamat has lived in Nashville for nearly thirty years and is highly respected by all who know him.

"Before my wife took Tanlac she suffered so badly from gas on her stomach and heartburn that she often said she felt like she was smothering to death. She actually had to sit up in bed to get her breath.

"Well, in a short time after she began taking Tanlac her trouble disappeared and she was like a different person. Seeing the good results in her case, I began taking the medicine myself and it soon had me feeling like a brand new man.

"Up to that time I had been troubled with indigestion. I had no appetite and the little I did eat seemed to do me about as much harm as good. I felt so tired and languid I hated to move around, and was getting in such a run-down condition that it worried me.

"Tanlac acted with me just like it did with my wife, and although that was three years ago we have enjoyed the best of health all along. However, I keep a bottle of Tanlac in the house all the time, and when I feel myself getting run down the medicine soon has me feeling all right again. I am convinced that Tanlac is without an equal. Our friends all know how it helped us and I don't hesitate to tell anyone about it."

Tanlac is sold by leading druggists everywhere.—Adv.

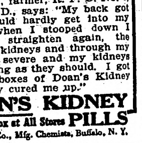
Help That Aching Back!



Is your back giving out? Are you tired, miserable, all run down; tortured with nagging backache, lameness and sudden, stabbing pains? If so, look to your kidneys. Overwork, hurry and worry tend to weaken the kidneys. Backache and an all worn out feeling is often the first warning. Get back your health while you can. Use *Doan's Kidney Pills*, the remedy thousands recommend. *Ask your neighbor!*

A North Dakota Case

R. J. Howell, farmer, R. F. D. No. 3, Kenmare, N. D., says: "My back got so lame I could hardly get into my wagon and when I stooped down I could hardly straighten again, the pain over my kidneys and through my back was so severe and my kidneys were not acting as they should. I got a couple of boxes of Doan's Kidney Pills and they cured me up."

Bad Stomach
Sends Her to Bed for 10 Months

Eatonic Gets Her Up!

"Over a year ago," says Mrs. Dora Williams, "I took to bed and for 10 months did not think I would live. Eatonic helped me so much I am now up and able to work. I recommend it highly for stomach trouble."

Eatonic helps people to get well by taking up and carrying out the excess acidity and gases that put the stomach out of order. If you have indigestion, sourness, heartburn, belching, food repeating, or other stomach distress, take an Eatonic after each meal. Big box costs only a trifle with your druggist's guarantee

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Ada—Miss Marie Stanzeth of Ada has been appointed deputy sheriff for Norman county. She is believed to be the first woman deputy in this section of the northwest.

Twin Valley—While running a circular saw, Emil Hawkins accidentally severed his arm between the hand and the elbow. Physicians said he probably would recover.

Winona—A class of 40 boys has completed a six months' course of preliminary instruction in the juvenile section connected with the municipal band here. A second class of 40 is to start next week.

Fergus Falls—Christian Sorlie, a young farmer living two miles from Rothsay, committed suicide by hanging himself in his barn. He was 29 years old and recently had been left $50,000 by the death of his father.

St. Paul—Lawrence I. Casserly, for many years in the real estate and insurance business in St. Paul, and a resident here for thirty-eight years, died at his home here. His death followed an illness of about four months.

Menahga—The impact of an automobile collision in which he figured caused Eugene, the 2 year old son of Mr. and Mrs. Andrew Anderson to cough up a button he had swallowed two months ago and which physicians had been unable to remove.

St. Paul—The 1921 session laws will be ready for distribution about June 10, Mike Holm, secretary of state, said. This will be earlier than ever before; although the session laws will comprise a book of 1,500 pages, 300 pages more than any previous issue.

Worthington—Plans are under way for the annual meeting of the second district group of the Minnesota Bankers association, which will be in Worthington on June 15. It is expected that a number of leading financiers of the state will be in attendance.

Windom—The special charter election here resulted in the proposed amendments being carried by the required three-fifths majority. The principal amendment was to authorize voting of bonds by the city for the purpose of erecting a firemen's building and a municipal.

St. Paul—In planning for the work of the next year, the women's auxiliary of the Diocese of Minnesota, Protestant Episcopal church, voted to hold an educational institute in St. Mary's parish, St. Paul, September 14-16, to be directed by Miss Emily Tillotson of New York, national church secretary.

Crookston—Ed Brooks, 50 years old, a blacksmith of Cass Lake, died at a local hospital after cutting his throat with a bit of glass in the city jail here. Brooks was sick and applied to the police for aid. He was put in the cell room. After he had been given his evening meal he broke a drinking glass and used a piece of it to cut his throat.

Brainerd—William Langer, former attorney general of North Dakota, has challenged A. C. Townley, president of the National Nonpartisan league, to a series of debates in Minnesota, according to word received by Richard S. Wilcox, publisher of the Brainerd Tribune and formerly manager of Mr. Langer's preconvention campaign for governor of North Dakota.

New Ulm—A committee of 10, one from each legislative district in the state, has been named by Philip Liech, president of the Minnesota Editorial association, to serve as a Dowling Memorial committee and which is authorized to direct a drive for funds for the erection of a $100,000 memorial home for crippled children in memory of the late Michael J. Dowling.

Renville—Funeral services were conducted here for William Lentz and John Harmon, electrocuted here. An electric power wire fell over a wire fence and caused a fire. Harmon, an employee of the gas works, discovered the fire and with the assistance of Lentz, attempted to extinguish the blaze. Coming in contact with the fence, they received the full force of the current, which killed them.

Washington—To what extent Minnesota has lost its former supremacy as a lumber producing state is indicated by a census bulletin just published which shows the lumber cut in the state in the calendar year 1919 was 699,600,000 feet. In 1909 the cut was 1,561,500,000 feet. The number of mills also has been reduced about one-half. In 1919 there were 355 reporting, while in 1909 there were 726.

St. Paul—Directors of the United States Grain Growers, Inc., Minnesota Farm Bureau federation, Equity Co-operative exchange and other farm organizations will meet June 9 and 10 in the Old Capitol building, to work out plans for the actual marketing of grain which is to be sold through the Grain Growers, Inc.

Marshall—At a meeting of alumni of the University of Minnesota here a permanent organization was completed for Lyon county. Forty-five attended the meeting at which a banquet was a feature. B. B. Gislason was named president of the new organization.

Staples—General crop conditions in this section are considered excellent, according to reports here.

St. Paul—Jewelry and silks valued at $18,000 were stolen by burglars who looted the home of M. P. Ryan.

Red Wing—N. A. Stageberg, former state representative from Goodhue county and pioneer in this section, is dead at his farm in Minneola township after a long illness.

Montevideo—A class of 62 pupils will be graduated from the Montevideo high school on May 31. Dr. Allen of Carleton college will deliver the commencement address.

Staples—Sportsmen of Staples are looking for a heavy crop of prairie chickens this year. Many birds have hatched, they say, and many small coveys of chicks have already been seen.

Minneapolis—Dr. Henrik Shipstead, who was Nonpartisan league candidate for governor last year, has become a fullfledged resident of Minneapolis. He has removed with his family from Glenwood.

St. Paul—Edward Lee Brown, former president of the Minneapolis and St. Louis railway and official of many roads in the northwest, died at the Angus hotel, following an illness of several months.

Eveleth—Recovering from what police said was a drunken stupor, John Chebul told police that his wife was shot and killed while he and John Guarantini, a neighbor, were grappling for possession of a revolver. Mrs. Chebul, mother of six children, was fund slain in the back yard of her home.

Canby—An average of $437 per head was secured on the fullblood Herefords sold at the sale of Ferguson Brothers' herd on the farm where their prize $50,000 Hereford bull, Richard Fairfax, is quartered. Fifty Herefords were disposed at the sale, the top price being $1,710 received for a son of the famous Fairfax.

Rochester—Former Mayor J. J. Reiter announced that he would fight the suit brought against him by George Miller, former saloonkeeper, because while he was chief executive he refused to grant Miller a license. Miller recently brought suit for $3,600 damages, claiming he suffered this loss while his place of business was closed.

Fairmont—The Fairmont Commercial club and 12 farmers clubs have decided to petition the state railroad and warehouse commission for the removal of certain dangerous railroad crossings near here. The Chicago, Milwaukee & St. Paul R. R., and the Northwestern lines run in such a manner as to form four dangerous crossings which the railroads refuse to remedy.

Little Falls—Morrison county board of county commissioners in special session voted to issue $100,000 in bonds, the proceeds to be used in paving a portion of the Jefferson highway from St. Cloud here designated by the state highway department. This action was taken after listening to C. M. Babcock, state commissioner of highways, and J. H. Mullen, deputy commissioner, who came here to engineer the proposition.

St. Paul—The board of control has made arrangements with C. M. Babcock, commissioner of highways, for the sale of crushed rock produced at the state reformatory at St. Cloud to road contractors at the market price for crushed rock. New machinery for greater production at the reformatory has been installed by Warden Charles E. Vasaly. The production will net the state reformatory more than $600 a day.

Minneapolis—The Minneapolis Federal Reserve bank has borrowed another $2,500,000 from other Federal Reserve banks to meet the credit demands in the Northwest bringing the total borrowings in the last two weeks up to $10,347,000, it was revealed in the weekly statement of the bank today. Total accommodation extended the Ninth Federal district amounts to more than $78,000,000 at the present time.

St. Paul—The time for applying for 1921 automobile licenses will be extended to June 15, Mike Holm, secretary of state, announced. The law provides that applications should be filed by May 15 and a penalty of 25 cents for failure to apply is provided, but the secretary of state is empowered to grant continuances. Mr. Holm has twice extended the time because the law was not passed until the last days of the legislative session.

St. Paul—In accordance with the forest protection week as proclaimed by President Harding, W. T. Cox, state forester, in a statement urged teachers and boy scout leaders to instruct the children in forest protection. He urged that time be devoted to instruct the children in the need of protecting the present timber supply, the future supply and the cause of fires. He cautioned the boy scouts to be careful when camping and to extinguish all campfires before leaving.

St. Paul—In a ruling given to Governor J. A. O. Preus, Assistant Attorney General A. F. Pratt held that the request by the Renville county board of commissioners for the removal of A. O. Schmidt as county auditor, on charges of inefficiency, is not sufficient to warrant the governor to appoint a commisioner to hear a removal proceeding. Mr. Pratt, however, says that any citizen may file the proper complaint, but must state facts on which the base a removal.

Winona—Crop conditions in southern Minnesota could hardly be improved upon, according to the weekly report issued here at division headquarters of the Chicago & North Western railway. Small grains are reported to be doing excellently and corn planting is practically completed.

Brainerd—Signs warning against heavy loads on a bridge did not deter a truck driver on the Mississippi bridge in the Rapid Lake country. He drove on with six tons of mining timber and went through the bridge approach, snapping two 8x8 beams and 15 inch plank in his descent.

Baby Specialists.

THAT there are Physicians who specialize on Infant ailments you know. All Physicians understand Infant troubles: all Physicians treat them. It is his profession, his duty, to know human ills from the Stork to the Great Beyond.

But in serious cases he calls in the Specialist. Why? He knows as every Mother knows, or ought to know, that Baby is just a baby, needing special treatment, special remedies.

Can a Mother be less thoughtful? Can a Mother try to relieve Baby with a remedy that she would use for herself? Ask yourself; and answer honestly!

Always remember that Baby is just a baby. And remembering this you will remember that Fletcher's Castoria is made especially for Infants and Children.

Children Cry For Fletcher's

CASTORIA

The False and the True.

Advertising by the use of large space, the expenditure of huge sums of money have placed on the market, have put in *your* home, perhaps, many articles that today have been discarded, as you will readily admit.

Do you recall anything that has more modestly appealed to the public than has Fletcher's Castoria: modest in all its claims, pleading at all times—and truthfully—for our babies?

The big splurg, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beat the hare.

Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little-one.

To them: to these true mothers no argument can induce them to set aside their bottle of Castoria, their old friend, that they might try even another and unknown remedy for babies. Then, would YOU think of going to YOUR OWN medicine chest to find relief for Baby's troubles? Can you not separate the false from the true?

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

ASPIRIN

Name "Bayer" on Genuine

BAYER

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.—Adv.

Advice is like castor oil—it is one thing to prescribe and another to take it.

Clothes

For Summer

All clothes new---
and at lower prices

This is a new season in every sense. Summer 1921 brings new clothes, new styles, new prices, sound values.

We have cleared out the last of our high-cost goods. No trace of the old era is to be found in our stocks---and certainly none in our prices.

Every garment we offer for sale will be at the new low level of this new period. This is the assurance of value that we give you for **Summer.**

And further assurance lies in the fact that such reputable names as

Styleplus

appear on the garments along with ours.

Whether you pay $25, $30, $35 or $40, you will know that for that price you receive the most in value that it is possible to provide.

This promise is subject to test whenever you are ready for your Spring clothes

Do you know the

Facts about building costs

Do you know that lumber and building materials are down?

Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

MORTGAGE FORECLOSURE SALE

Whereas, defaults have been made in the conditions of a certain mortgage duly executed and delivered by Oliver A. Austin, a single man, Mortgagor, to D. A. Rake, Mortgagee, bearing date the 13th day of September, 1919, and with the power of sale therein contained duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 29th day of December, 1919, at 8 o'clock A. M., in Book 93 of Mortgages on page 515.

Which said Mortgage, together with the debt secured thereby, was duly assigned by said D. A. Rake, Mortgagee, to T. L. Stavn, by written assignment dated the 26th day of January, 1921, and recorded in the office of the Register of Deeds, on the 29th day of January, 1921, at 8 o'clock A. M., in Book 104 of Mortgages on page 202.

And whereas, the said T. L. Stavn, assignee of the Mortgagee and holder of said mortgage, has duly elected and do hereby elect to declare the whole principal sum of said mortgage due and payable at the date of this notice under the terms and conditions of said mortgage and the power of sale therein contained, and whereas there is actually due and payable and claimed to be due at the date of this notice upon said mortgage and the debt secured thereby the total sum of $2543,13, as follows: The sum of $159.25 being interest due September 13, 1920, which was not paid, and the sum of $2383.88 being the amount of principal and interest since Sept. 13, 1920, all of which is secured by the mortgage hereby beforeclosed. and whereas said power of sale has become operative, and no action or proceeding having been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof.

Now, Therefore, Notice Is Hereby Given, That by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, Viz:

The East Half (E1-2) of Northwest Quarter (NW1-4), the Southwest quarter (SW1-4) of Northeast Quarter (NE1-4), and Northwest Quarter (NW1-4) of Southeast Quarter (SE1-4) of Section Fourteen (14) in Township One Hundred Fifty-five (155) North of Range Forty-one (41) West of the Fifth Principal Meridian in Marshall County and State of Minnesota, with the hereditaments and appurtances, which which sale will be made by the Sheriff of Marshall County at the front door of the Court House, in the City of Warren in said County and State, on the 25th day of June, 1921, at 10 o'clock A. M. of that day, at public vendue, to the highest bidder for cash, to pay said debt of $2543.13, and interest, and the taxes, if any, on said premises, and Seventy-five Dollars attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Catarrhal Deafness Cannot B: Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

SENATE DEBATES CUT IN ARMY BILL

Borah, Lenroot, Hitchcock and King Would Reduce Proposed Limit.

150,000 TO 100,000

Others Claim Minimum Should Be 170,000 as Against House Proposal of "Average" of 150,00 Men.

Washington.—Inauguration of senate consideration of the $355,000,000 army appropriation bill Monday brought from senators advocating economy a hot attack on the committee recommendations for a minimum army for the next fiscal year of 170,000 men.

Economy advocates, led by Senator Borah, Republican, Idaho, and including Senators Lenroot, Republican, Wisconsin, and Hitchcock, Nebraska, and King, Utah, Democrats, criticized the personnel provision and indicated their intention to wage a bitter fight to reduce it.

Senator Borah announced he would move to limit the army to 150,000 men "not because that figure represents my views, but because I am convinced that is the lowest attainable under the circumstances." Senator King, however, declared he would seek to obtain a reduction to 100,000.

The amendment for a minimum army of 170,000 as compared with the house provision for an average army of 150,000 men was also strongly supported during debate. Chairman Wadsworth of the military affairs committee, in a statement preliminary to actual taking up of the bill, told the senate that the recommendation represented the absolute minimum considered safe by Secretary Weeks of the war department.

PUEBLOANS START BIG TASK

All Able-Bodied Men Drafted for Work of Clearing Streets.

Pueblo, Colo.—After a day's search through the debris in the flooded districts of Pueblo, 52 bodies had been recovered Monday night. These include 42 in the morgues and 10 recovered on the St. Charles mesa. These last 10 have not been identified.

With the issuance of an order this afternoon by Lieut. Col. Paul W. Newlon, in charge of the city under martial law, drafting every able-bodied man in the city for labor, the work of cleaning up is progressing rapidly. Scrapers are at work in the streets in the business section clearing away the mud. Debris is being removed from the streets and sidewalks preparatory to being carted away. Gasoline engines are being pressed into service on all available pumps for clearing basements of the stores and buildings in the flooded area.

The order which puts every able-bodied man to work in the reconstruction of Pueblo, provided pay of 43 cents an hour. Those who refuse to work are subject to arrest and will be put to work without compensation. Tourists and sightseers have been ordered to leave town. If they remain they will be put to work, the order stated.

The only official estimate of damage from the flood was one of $5,000,000 by the Pueblo Manufacturers association. Other estimates vary from $10,000,000 to $15,000,000.

Mayor's Forces Lose Election.

Chicago.—William Hale Thompson suffered his first reverse at the polls since his election as mayor in 1915 when a coalition judicial ticket swept Chicago Monday, carrying every Thompson candidate to defeat. A proposition for the issuance of $9,000,000 bonds for building a new jail was decisively beaten. A proposal that free text books be supplied in the public schools apparently carried by a very small majority. It was the most hotly contested judiciary election in the city's history. The balloting was marked by the killing of a coalition watcher at the polls by a policeman when he resisted arrest.

Railroads Ask Further Wage Cut.

Chicago.—Demanding that the entire wage increase granted all railroad employes in the country by the railroad labor board's wage award of July, 1920, be wiped out, more than 150 railroads appeared before the board on Monday with renewed petitions for wage reductions. Several roads demanded reductions of a flat 20 per cent cut for all employes, while others merely declared that every basis for last year's increase had disappeared and that it was now time to restore the wage schedules of April 30, 1920, prior to application of the $600,000,000 wage award.

Acquitted of Barton Slaying.

Kansas City.—A jury of 11 men acquitted Denzel Chester in 20 minutes here Saturday on a charge of first degree murder in connection with the killing of Miss Florence Barton, Oct. 2, 1920. Miss Barton was fatally wounded as she sat in a motor car with her fiance, Howard Winter, on a road south of Kansas City one moonlight night last fall. Winter, who was wounded, said three men in a motor car drove up, that one of them got out and fired the shot that killed Miss Barton.

WATER AGAIN RISING

Denver, Colo.—A telegraph operator at Pueblo reports that a second terrific cloudburst began there at 3:30 Sunday afternoon, the Arkansas river rising at a rapid rate. Water has reached Fourth and Main streets. All communication with the lower part of the Arkansas valley and the eastern part of Colorado has been cut off, and the death list may grow far above original estimates.

Undertakers have been rushed to Pueblo. Three hundred dead now lie in the morgues.

A railroad operator who was telegraphing a message to the union station at Denver made this statement late Sunday afternoon:

"Another flood seems to be on us. This will be the last message you will get from us, as we have been ordered to quit and seek safety. A courier who arrived from the country east of Pueblo along the Arkansas river states that the country between Pueblo and Hepsota is one huge lake. Everything is under water. Railroad tracks and telephone and telegraph wires have entirely disappeared, he informed military officials at Pueblo."

Florence, Colo.—The big beaver dam in the mountains eight miles north of Florence has burst. One hundred million gallons of water has been released and is sweeping down the valley.

◇ ◇ ◇ ◇ ◇ ◇ ◇ ◇ ◇ ◇ ◇ ◇ ◇ ◇ ◇ ◇ ◇ ◇

SUMMARY OF SITUATION

The situation in Pueblo after the waters of the Arkansas and Fontaine rivers had receded may be summed up as follows:

Dead—500, estimated.

Property damage from flood and fire, $10,000,000.

Martial law proclaimed, with state rangers and National guard in control. Orders "shoot to kill" given to prevent looting.

Two-thirds of city still under water; business section in ruins from fire; thousands marooned on high points.

City without light, heat or drinking water. No sanitary arrangements; pestilence feared.

System of food rationing instituted and food administrator named.

Relief trains started from Denver and Colorado Springs. Red Cross organizing relief measures.

Pueblo, Colo.—A flood unprecedented here or in the valley of the Arkansas river swept over this city Friday evening when cloudbursts up the Arkansas and Fontaine rivers caused both to rise far beyond their banks. Pueblo was almost wholly inundated, railroad sections being so far under water that tracks and cars were swept away. Hundreds are dead and carried down the river—so many that the actual numbers and identity of the dead will doubtless never be known. Estimates place the toll at probably 500 lives. The property loss may exceed $10,000,000.

The water had risen so far as to necessitate a flood warning from the city sirens at five o'clock in the afternoon, but many residents in the lower portions of the city failed to heed it and were caught without time to escape when the waters finally rolled in in a tremendous flood at about seven o'clock. The wall of water is described as having been many feet in height. Business sections were flooded to a depth of 18 feet.

More than 5,000 homeless are being cared for in public buildings and private homes which escaped the flood. One hundred and thirty-eight bodies have been recovered.

A dispatch from Colorado Springs said the Cheyenne reservoirs had broken and that an eight-foot wall of water was speeding toward the city. People living in the lowlands were warned and all are believed to have escaped.

Fire added to the horror in the early morning hours. Blazes broke out in half a dozen buildings almost simultaneously. They are believed to have been caused by short circuited wires.

Steel Corporation Denies Charge.

Washington. — The United States Steel corporation and its 11 subsidiaries filed with the federal trade commission an answer to the commission's complaint of last April in which unfair competition in interstate commerce was alleged. The case will now go to trial on its merits before the commission which will determine whether an order should be entered requiring the companies to desist from the practices complained of. The date for the trial will be fixed later. There are 12 allegations in the complaint.

Under the Circumstances, It Would Seem, Mrs. Paula's Friend Had Made Wise Decision.

Now, everybody in town knows that Mrs. Paula Platt was talking of making a visit to her married daughter in Ohio. She had been talking about it for two years, but age and the natural timidity of a woman long a widow had postponed the great event from month to month, until the neighbors began to wonder whether it would ever come to pass.

So one morning when Uncle Tom Flitters met a friend of Mrs. Paula's, there was a twinkle in his eyes as he asked:

"When is Mrs. Paula goin' out to Ohio?"

"Don't ask me," said the other. "I don't know nothin' about it. If I tell her to go, she says we all want to get rid of her; and if I tell her to stay at home, she says I am mean. I ain't sayin' a word!"—Philadelphia Ledger.

BIRDS AS STREET CLEANERS

Vultures Employed for the Purpose in Costa Rica, and Traveler Says They Are Efficient.

Garbage collectors in Costa Rica enjoy their occupation, because they eat what they find. In his book, "Sailing South," Philip S. Marden writes as follows:

"I was awakened on the first morning in town by a sound of wheels in the street below, and looked out. It was an impressive sight. The garbage man was abroad on his scavenging rounds. Ahead of his open wagon walked in a sober platoon four enormous vultures, all in sable and maintaining the chastened demeanor of undertakers at an open grave. Behind the wagon walked half a dozen other vultures similarly sedate. And around the rim of the cart, perched in solemn row, sat twenty-one other birds of the same species and same somber hue. I would fain have immortalized the scene, but the camera, alas, wasn't loaded. I began to understand why the streets of San Jose, which leave much to be desired in other respects, are at least so notably clean. The buzzards attend to that!"

FELT LIKE AN IRON BAND AROUND HEAD

Mrs. Osborne Says She Shudders When She Thinks How She Suffered.

"For years," said Mrs. V. B. Osborne, of 718 Lancaster Ave., Lexington, Ky., "I have been in a run-down condition; nervous, weak and dizzy. I was actually so nervous that any sudden noise or excitement would produce a palpitation of my heart that frightened me. I absolutely could not climb stairs, for to attempt such would thoroughly exhaust me.

"I had nervous headaches and when they came on it seemed that an iron band was drawn tight around my head. I now shudder when I think of those headaches. My stomach was weak and I could not digest the lightest liquid food. Any food of a solid nature caused nausea and the sickening sensation remained for hours.

"My misery was almost unbearable. My sleep was never sound and I was worn out all the time. My condition was indeed a very deplorable one. I finally sought treatment in Cincinnati, but nothing helped me one particle. I was on the verge of giving up in despair when a neighbor pleaded with me to try Tanlac. I obtained a bottle of the medicine and began its use.

"I began improving at once and soon felt my nervousness and dizziness disappearing. Then my headaches left me and I realized my strength had returned. My appetite and digestion improved and I am now so much better in every way. This Tanlac is a wonderful medicine and the only one that ever really helped me. I hope every poor woman who is suffering as I did will try it."

Tanlac is sold by leading druggists everywhere.—Adv.

BEFORE AND AFTER CHILDBIRTH

Mrs. Williams Tells How Lydia E. Pinkham's Vegetable Compound Kept Her in Health

Overpeck, O.—"Lydia E. Pinkham's Vegetable Compound helped me both before and after my baby was born. I suffered with backache, headache, was generally run down and weak. I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers and decided to try it. Now I feel fine, take care of my two boys and do my own work. I recommend your medicine to anyone who is ailing. You may publish my testimonial if you think it will help others."—Mrs. CARRIE WILLIAMS, Overpeck, Ohio.

For more than forty years Lydia E. Pinkham's Vegetable Compound has been restoring women to health who suffered from irregularities, displacements, backaches, headaches, bearing-down pains, nervousness or "the blues." Today there is hardly a town or hamlet in the United States wherein some woman does not reside who has been made well by it. That is why Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for such ailments.

Montevideo—Details are now being worked out for the entertainment of the 800 or more delegates who will come here for the Lutheran church conference June 9 to 13.

Millville—George W. Kuhfuss, county, has been convicted of obtaining money unlawfully from the county by means of false and fraudulent time checks and was fined $200.

Thief River Falls—George, 11 year old son of John Reitz, was drowned here when the canoe in which he was paddling tipped over. Wilbur Hoium, a companion, was able to swim ashore.

Staples—Sportsmen of Staples are looking for a heavy crop of prairie chickens this year. Many birds have hatched, they say, and many small coveys of chicks have already been seen.

Slayton—A proposition to bond the village for the purpose of paving the streets was acted upon favorably by the voters at a special election here. The majority in favor of the measure was 60.

Luverne—Ninety per cent of the farmers of this county are now members of the farm bureau. The recent drive for new members was successful in bringing the total membership in the county up to 1,016.

Duluth—A hearing on granting an emergency fare of 7 cents or four tickets for a quarter for the Duluth Street Railway company has been ordered to be conducted in the Commercial club rooms, June 28.

St. Cloud—Bernard Kennedy, charged with arson, was acquitted by a jury after but a few minutes of deliberation, Kennedy was charged with having set fire to his employer's meat market on the night of April 17.

St. Cloud—The city commissioners of St. Cloud have called for a special city election June 28 at which time the question of issuing $75,000 of municipal bonds for the erection of an armory will be submitted to the voters.

Minneapolis—C. P. Bull, state weed inspector, returned from a trip to the northwestern part of Minnesota where he has been making a survey of conditions preliminary to a campaign for the eradiction of sow thistle and other weeds.

Minneapolis—The first Christian Americanization congress ever held will convene in Minneapolis June 21 to 26, inclusive, under the auspices of the International Christian Missionary association, an organization of the Disciples of Christ.

St. Paul—Christian K. Preus, father of Governor J. A. O. Preus, died at his home in Decorah, Iowa. He was president of Luther college at Decorah since 1902. Despite the fact he was 70 years old in October, he had been active in college affairs until his death.

Duluth—A lengthy plea to the court for clemency failed to gain a higher sentence for William Cooley, 64 years old, a confessed forger. Cooley was sentenced to not more than 10 years in the state prison for passing a worthless check for $65 on a local music store.

Winona—Discovery that St. Thomas church in this city had been broken into after a similar entry was made at St. Joseph's church, has led local police to believe the intruders have been in search of sacramental wine. Nothing was found missing at either church.

Minneapolis—Thousands of Minnesota Lutherans from congregations all over the state are to be in Minneapolis Thursday and Friday, June 30 and July 1, as delegates to the convention of clergy and laymen to be held under the auspices of the Lutheran Brotherhood of America.

Suit for collection of $210,000, the amount of the policies in dispute, was brought by the Vogtel heirs, contending that the suicide clause in the policies had not been violated.

Crookston—Ed Brooks, 50 years old, a blacksmith of Cass Lake, died at a local hospital after cutting his throat with a bit of glass in the city jail here. Brooks was sick and applied to the police for aid. He was put in the cell room. After he had been given his evening meal he broke a drinking glass and used a piece of it to cut his throat.

Worthington—Plans are under way for the annual meeting of the second district group of the Minnesota Bankers association, which will be in Worthington on June 15. It is expected that a number of leading financiers of the state will be in attendance

WHEELS KIDDIES ON LONG TRAIL

Baltimore Woman Starts Afoot With Two Children on Weary Walk to Indiana.

MAYOR GOOD FELLOW

Trio Arrive in Elizabeth Footsore and Weary and Mayor Takes Up Collection to Pay Fare Rest of Way.

Elizabeth, N. J.—Pushing an empty three-wheeled baby carriage, the missing wheel in one hand, and balancing her three-year-old son, Robert, on her shoulder with the other, Mrs. Mary Allen of Baltimore trudged into Elizabeth recently on the verge of exhaustion but determined to walk the rest of the way to Wabash, Ind., where she says a brother will take her and her two children into his home.

Her other child, Lillian, ten years old, was walking beside her.

Within two minutes after the strange trio and their disabled baby prairie schooner came to a halt in the local police station both babies were asleep in the arms of big policemen, who know just how to treat tired babies.

Fifteen Days From Baltimore.

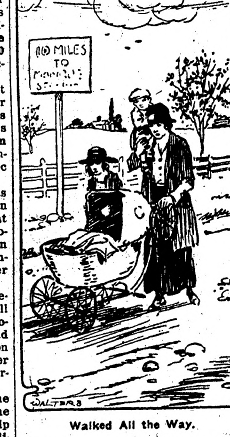
Mrs. Allen walked all the way from Baltimore to New York, she said, and, after failing to find a half-sister, she put the children in the carriage again and started to walk to Indiana.

The trio have been 15 days on the road, both children riding in the carriage until Thursday afternoon, when one wheel came off on the road between Newark and Elizabeth. Little Robert, like a man, got out and walked until he could walk no longer and then his mother shouldered him the rest of the way.

For two days the mother and two children were in a hospital at Rutherford, N. J., having been caught on the road at night in a terrific rainstorm. The husband and father is in a sanitarium in Baltimore, with tuberculosis.

Landlord Starts Trouble.

"I've had my troubles but I don't want to bother anybody with them," said the plucky little mother to the policemen who surrounded her, offering money out of their meager pay. "But the last was when our landlord turned us out in Baltimore. I decided to walk to New York to find my half-sister and when I couldn't see her in the crowds there I decided to walk to Indiana."



Walked All the Way.

The mayor of Elizabeth ordered that Mrs. Allen and the children put up at a hotel at his expense and in the morning collected funds to buy them tickets and Pullman space to Wabash.

COW KICKS OUT TAIL LIGHTS

Autoist's Novel Tale to Judge in Pittsburgh Fails to Save Him From Fine.

Pittsburgh.—Chicago's fire-producing cow, Washington's dynamite-eating bovine and the mythical moon-jumper have a rival in a Pennsylvania cow that specializes in kicking out automobile tail lights.

Fred Holman of Ingomar, when arrested on a charge of driving without showing a rear light, told Magistrate Succop that after purchasing a cow he roped it to the back of a truck and started home. Soon afterward the animal kicked out the light, according to the buyer. Ten dollars was added to the cost of the cow when the magistrate imposed a fine.

Thieves Robbed Girl Entering Bank.

Cleveland, O.—Two armed thieves snatched a handbag containing $1,500 from Miss Margaret Tallett, restaurant cashier, as she was entering a bank. One of the bandits knocked Miss Tallet down and then grabbed the handbag. The thieves escaped.

ANCIENT AND MODERN ROME

World-Famous Buildings Occupy Sacred Sites in the Old "Capital of the World."

Ancient Rome was built on the hills south of the River Tiber. Tradition regarded the Palatine as the site of Romulus' Urbs Quadrata. Excavations have brought to light remains of earlier settlement and a pre-historic necropolis. The capitoline was the center of republican and imperial Rome. One of the principal ancient monuments is Hadrian's mausoleum, which, as the castle of St. Angelo, was the citadel of medieval Rome. West of this stood Caligula's circus, in which Nero tortured the Christians; its site is now occupied by St. Peter's, the chief shrine of Roman Catholicism, reputed to be the largest church in the world, occupying 18,000 square yards and measuring 435 feet in its highest part. North of St. Peter's is the Vatican palace, which covers 13⅓ acres and comprises over 1,000 halls, chapels and rooms. The pantheon, built by Agrippa in 27 B. C. and restored by Hadrian, is said to be the best-preserved ancient building in the city.

Financial Backing.

"Your friend the reformer seems to be enjoying great prosperity these days."

"He had a stroke of luck."

"What was it?"

"He ran across a very rich person who had a troubled conscience."

To Be Washed.

"What do you think of the elephant, Bud?" "Glad I haven't got ears like that."

WAS FAMILIAR WITH CHROMO

Mrs. Newly Rich Somewhat Too Anxious to Air Her Knowledge, and Her Ignorance.

Harvey Maitland Watts, a Philadelphia art critic, said at a dinner in Rittenhouse square:

"The ignorance of the new rich in art matters is quite incredible. The wife of a new-rich profiteer was buying pictures in a Walnut street shop the other day. After she had bought a number of costly pictures she said:

"'Now show me something a little cheaper for the back hall. It's dark there.'

"The salesman brought out another picture.

"'This, madam,' he said, 'is only a chromo, and we could let you have it for nearly nothing.'

"The new rich lady nodded in a sage way.

"'Yes, of course,' she said, 'Chromo is a struggling and obscure artist, and he can't expect to command good prices till he makes a popular hit, can he?'"

Line the Linoleum.

When purchasing linoleum for the floor it is a good idea to order a lining of felt. This precaution will probably prolong the use of the linoleum. It also deadens sound and makes the floor warmer in winter. It prevents the linoleum from expanding or contracting and it gives a softer tread, all advantages worth considering.

Of course, we know that we are better than some others, but we are not asking that it be kept a secret.

MORTGAGE FORECLOSURE SALE

Whereas, defaults have been made in the conditions of a certain mortgage duly executed and delivered by Oliver A. Austin, a single man, Mortgagor, to D. A. Rake, Mortgagee, bearing date the 18th day of September, 1919, and with the power of sale therein contained duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 29th day of December, 1919, at 8 o'clock A. M., in Book 93 of Mortgages on page 515.

Which said Mortgage, together with the debt secured thereby, was duly assigned by said D. A. Rake, Mortgagee, to T. L. Stavn, by written assignment dated the 26th day of January, 1921, and recorded in the office of the Register of Deeds, on the 29th day of January, 1921, at 8 o'clock A. M., in Book 104 of Mortgages on page 202.

And whereas, the said T. L. Stavn, assignee of the Mortgagee and holder of said mortgage, has duly elected and do hereby elect to declare the whole principal sum of said mortgage due and payable at the date of this notice under the terms and conditions of said mortgage and the power of sale therein contained, and whereas there is actually due and payable and claimed to be due at the date of this notice upon said mortgage and the debt secured thereby the total sum of $2543.13, as follows: The sum of $159.25 being interest due September 13, 1920, which was not paid, and the sum of $2383.88 being the amount of principal and interest since Sept. 13, 1920, all of which is secured by the mortgage hereby be foreclosed and whereas said power of sale has become operative, and no action or proceeding having been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof.

Now, Therefore, Notice Is Hereby Given, That by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, Viz:

The East Half (E1-2) of Northwest Quarter (NW1-4), the Southwest quarter (SW1-4) of Northeast Quarter (NE1-4), and Northwest Quarter (NW1-4) of Southeast Quarter (SE1-4) of Section Fourteen (14) in Township One Hundred Fifty-five (155) North of Range Forty-one (41) West of the Fifth Principal Meridian in Marshall County and State of Minnesota, with the hereditaments and appurtenances, which which sale will be made by the Sheriff of Marshall County at the front door of the Court House, in the City of Warren in said County and State, on the 25th day of June, 1921, at 10 o'clock A. M. of that day, at public vendue, to the highest bidder for cash, to pay said debt of $2543.13, and interest, and the taxes, if any, on said premises, and Seventy-five Dollars attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Do you know the
Facts about building costs

Do you know that lumber and building materials are down? Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

SIMS REPLIES TO DENBY NOTE

Admiral Avers That Quotations Were Incorrect, Misleading and Garbled.

NO COMMENT ON REPLY

Secretary of Navy Submits Admiral's Explanation to the Press Without Hint as to Whether It Will Be Accepted.

Washington.—Rear Admiral William S. Sims' belated reply to Secretary of the Navy Denby's cabled demand for disavowal of the so-called "American jackass" speech in London has arrived. It is the plea of having been incorrectly quoted. Secretary Denby made it public at once but did not say it closed the incident.

Here it is:

"Statements attributed to me were not correctly quoted. Context misleading and garbled. Report of statements is incorrect and inferentially wrong. Statements actually made were substantially same as repeatedly made in public in America and in my book, 'The Victory at Sea,' and in public address at meeting held for increasing good relations between English speaking peoples."

The secretary read the reply and then issued the order for its publication without any comment.

Admiral Sims is expected to start home from England June 15.

INDUSTRIAL COURT UPHELD

Supreme Court of Kansas Affirms Power of Body in Howat Conviction.

Topeka, Kan.—In ruling the most sweeping decision yet handed down affecting validity of the Kansas industrial court law the state supreme court has affirmed the ruling of the Crawford county district court sentencing Alexander Howat to one year in jail for contempt. The law was held valid on each of the eight issues raised.

Referring to the industrial court, the decision sets forth.

"The act creating the court of industrial relations is a reasonable and valid exercise of the police power of the state over the business of producing coal, and does not impair liberty of contract or permit involuntary servitude contrary to the constitution of the United States."

Boy Convicted of Chum's Murder.

Warsaw, Ind.—Virgil Decker, 19-year-old farmer boy, was found guilty of murder in the first degree in connection with the death of Leroy Lovett, his associate, by a jury in the circuit court here. He was sentenced to life imprisonment. Six ballots were taken by the jury, Decker being found guilty on the first ballot, and the succeeding ballots being taken to determine the punishment, some of the jurors holding out for the death penalty. The jury was out less than three hours. Younger Decker showed no emotion when the verdict was read to the court, or when sentence was passed.

Hall Heads N. D. Firemen.

Williston, N. D.—William Hall of Jamestown was elected president of the North Dakota Firemen's association at its annual convention, which closed here last week after a three-day session. Other officers are: Henry Bernard, Grafton, vice-president; A. H. Haut, Gackle, second vice-president; Henry L. Reade, Bismarck, secretary; George Williams, Lakota, L. E. Stevens, Tower City, and Peter Stanton, Souris, trustees. Casselton was named the 1922 meeting place. Mandan has already made a bid for the 1923 convention.

Immigrants Break Barriers.

Boston.—Seventy-one immigrants, detained here pending interpretation of the new restriction law, are found to have escaped. They were part of 1,000 passengers on the White Star liner Canopic, who had been held aboard the ship since Monday. Orders were received for the release of the 1,100 immigrants, most of them Italians. They will be permitted to land as tourists under nominal bond pending congressional action.

Miners' Escape Is Miraculous.

Peru, Ill.—The escape of 600 men from the Chicago, Milwaukee & St. Paul mine at Mark, near here, which caught fire Friday, was characterized by mine officers as miraculous. The fire is now entirely out and work in the mine will be resumed promptly. If the fire had had half an hour's more headway, every man would have been lost, it was said. Not a man was even injured.

Herbert Hoover Invited to Speak.

Fargo, N. D.—Herber Hoover, U. S secretary of commerce, has been extended an invitation by the Fargo Commercial club through A. W. Fowler, president, to be present and make an address at the time of the national tractor farming demonstration and show in Fargo, June 28, 29 and 30. Commercial club officials, although they probably will not hear from Mr. Hoover until next week, feel that he will accept. It is understood that Mr. Hoover has expressed a desire to visit this section of the northwest.

SUFFERED ALL A WOMAN COULD

Mrs. Meyer Finally Found Relief and Health in Lydia E. Pinkham's Vegetable Compound

Orange, Cal.—"I always feel very grateful to you, as some twenty years ago three doctors said I had to have a serious operation. I had a tumor, and ulcers which would gather and break. I had displacement so badly that I could hardly sit down at times, and it seemed as if I suffered everything that a woman could suffer. Then some one advised me to take Lydia E. Pinkham's Vegetable Compound, and I took it until I was cured and saved from the operation. I have told women of your wonderful medicine times without number, and I am willing that you should use these facts and my name if you like. I also used your Compound during the Change, and I can do all my own work but the heavy part, and can walk miles every day as I help my husband in the office."—Mrs. J. H. Meyer, 412 South Orange St., Orange, California.

It is quite true that such troubles as Mrs. Meyer had may reach a stage where an operation is the only resource. On the other hand, a great many women have been restored to health by Lydia E. Pinkham's Vegetable Compound.

Valuable.

"Mr. Grabcoin seems to have a great deal of confidence in his private secretary."

"The young man is worth $20,000 a year to Mr. Grabcoin."

"Yes?"

"Why, he can send callers away, thinking that the only reason why they can't see the great man, who may be telling a funny story to another dummy director, is because he's working sixteen hours a day to keep the country from going to smash."

ASPIRIN

Name "Bayer" on Genuine

BAYER

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicycacid.—Adv.

All in Good Time.

It was at a children's picnic, and they were playing at farmyard, each youngster pretending to be his or her favorite animal. The woods echoed with grunting, barking and crowing—but one little girl sat silent.

"Why don't you play?" asked one of the teachers.

"Please, miss, I'm playing," she replied.

"What are you, then?"

"Please, miss, I'm a hen, and I'm laying an egg. When I've finished I shall cackle!"

Doesn't Sound Right.

"She's clever, isn't she?"

"Wonderful. I sat with her an hour and she never said a word."

Have you tried the new 10c package?

Dealers now carry both;
10 for 10c,
20 for 20c.

Back Giving Out?

Is a constant backache spoiling your summer? Do sharp pains stab you at every sudden move? Are you so tired and downhearted you can hardly keep going? Likely your kidneys have slowed up, causing an accumulation of poisons that well kidneys would have filtered off. Is it any wonder you feel so tired and depressed and have headaches, dizzy spells and annoying bladder irregularities? Use *Doan's Kidney Pills. Doan's* have helped thousands. *Ask your neighbor!*

A North Dakota Case

Mrs. Adam Hipp, Hankinson, N. D., says: "I had heavy, dull pains across the small of my back; even sweeping the floor tired me. I was always worse mornings and my feet and ankles swelled. My kidneys acted irregularly, too. Doan's Kidney Pills made my back stronger and I was soon able to do my work, without suffering."

FROM REMOTEST PARTS OF GLOBE

Tanlac Elements Come From Many Lands Far Away From Here.

The ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth, and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, and Walkersville, Canada.

The Alps, Appenines, Pyrenees, Russian Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac, which, according to recent reports, is now having the largest sale of any medicine of its kind in the world, over 20,000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs, barks and flowers are received in their rough state from all parts of the globe, until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to tens of thousands of druggists throughout the United States and Canada, to supply a demand never before equalled by this or any other medicine.

Tanlac is sold by leading druggists everywhere.—Advertisement.

WOULD TAKE BACK HIS RIB

Tommie Planned Dire Vengeance for the Faithlessness of His Fickle Playmate.

Little Tommie, a precocious six-year-old, had been disappointed in love. He had a date to play with little Mary Ann in her house across the way. When he got there he found she had forgotten all about him and was sliding down hill on his rival's new sled.

Tommie returned home, disgusted with all girls in general and one in particular. He didn't cry nor did he contemplate suicide. Instead he went straight to his mamma and with childish naivete said:

"Mamma, d'you know what I'd do if I was Adam? I'd go right up to heaven and I'd say, 'Please, Mr. God, if it's just the same to you, I'd like to have my rib back.'"

Sight Unseen.

He had always greatly admired the khaki bag in which his wife keeps her clothespins, so he persuaded her to make one for his fishing tackle.

A few days ago he went several miles from home fishing and was just preparing to assemble his line for a good day when he discovered that instead of bringing his fishing tackle kit he had carried out his wife's bag of clothespins.

Bad Blood Disfigures Young Faces With Unsightly Eruptions

The mortifying and unsightly skin and facial disfigurements on young people from 14 to 20 years old are seldom due to anything worse than impure blood. The young bodies are undergoing important changes, and the blood stream is temporarily disordered—often filled with poisonous waste matter.

In such cases only internal blood remedies can relieve. The impurities must be cast out and the vital fluid enriched before the disfigurements are cleared up. For this you naturally want an efficient, tested blood remedy—like S.S.S., the famous old herb medicine.

MANY HURT IN BELFAST RIOTS

Week-End Disturbances in Irish City Take on Serious Form.

BRICKS, BOMBS HURLED

Police Use Guns and Clubs—Many Rioters Sent to Hospitals—Thirteen or More Are Known to Have Been Wounded.

Belfast.—Sharp rioting occurred in the York street area here, resulting in one man being shot and 13 others otherwise wounded. Three men were found shot to death in various parts of the city.

The disturbance began Saturday evening between a few people and rapidly spread until both factions received reinforcements. During the rioting many bricks were thrown and numerous revolver shots were fired. A bomb thrown by one of the rioters blew off a man's hand and seriously injured a woman.

The police then fired a volley of shots among the rioters, finally clubbed the mob into submission and dispersed it.

York street Sunday night was again a battleground, the police being compelled to fire on the crowd. Several cases of bullet wounds were sent to the hospital. Special Constable Sturdy died of his wounds. Disturbances also occurred in the Kashoir road, Falls division, the chief storm center of the riots last July and here when the police fired on Sinn Fein snipers. An unidentified man was shot dead.

A dispatch to the London Press association from Dublin said that Thomas Rush, 35, said to be an American navy pensioner, was shot to death at Lisacul, near Castle Reagh, by crown forces.

HOUSE VOTES TO END WAR

By Majority of Five to One, Lower Body Declares German Peace.

Washington, D. C.—By a vote of exactly five to one, the house Monday night passed the Porter resolution to terminate the state of war between the United States and the central powers.

As a substitute for the Knox resolution, already passed by the senate, repealing the declaration of war, it was put through, 205 to 61, as a Republican measure with the loss of only one Republican vote—Kelley of Michigan. Forty-nine Democrats joined in the landslide. Springing a surprise at the last moment, Chairman Porter of the foreign affairs committee, in charge of the fight, presented Bourke Cochran, Democrat, New York, to make the closing argument for passage of the resolution.

Failure of the senate to accept the house substitute will send the whole question of peace to conference. Most of the Republican speakers declared congress ought not to repeal the war declaration itself, holding it would be regarded as a repudiation of the war, but Democrats reminded them that a Republican house twice had passed a peace resolution with that provision.

OIL TANKS BURN; TWO DEAD

More Fatalities Feared and Heavy Loss in Salt Lake City Blaze.

Salt Lake City.—Two known dead, the probability of at least six others dead in the debris, more than 25 injured, many others unaccounted for and a property loss of nearly $1,000,000 was the toll of the fire which started Saturday night at the plant of the Utah Oil Refining company here. A bolt of lightning struck a tank which contained 1,000,000 gallons of gasoline distillate. The total loss of life will not be known until the rolls of city firemen and company employes are checked.

At least one of the known dead perished from scalding in a trench of hot water and oil surrounding one of the tanks, and it is believed the same trench holds the bodies of several others who were caught in the flow of burning oil when it was thrown from the collapsing tank.

The death-dealing blast came between 7 and 8 o'clock Sunday morning, when the tank, which had been burning fiercely all night, burst, scattering its contents with deadly results.

Of the 25 injured, several were seriously burned and will die.

Valley City Policeman Acquitted.

Valley City, N. D.—William Jensen, former Valley City policeman charged with manslaughter in the first degree in connection with the killing of Carl William Olson on the night of March 17, 1921, was found not guilty by a jury in district court here at 9 p. m. Saturday. The case had been on trial for three days. Jensen's defense was that he shot up into the air after he had been overpowered by Olson and others while he was attempting to make an arrest.

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

ALL FRUIT GROWER'S FRIENDS

Birds That Should Be Protected Are Listed by the American Forestry Association.

The American Forestry association has published the fact that a cliff swallow will eat 1,000 flies, mosquitoes, wheat midgets, or beetles in a day. The crops of four chickadees showed 1,028 eggs of the cankerworm. Take notice, Mr. Fruit Grower. A quail killed in a Texas cotton field had eaten 127 boll weevils, and a prairie chicken had over 300 of them in its crop. The bob white has been known to eat 135 different kinds of insects. It has been estimated that this bird will consume an average of 75,000 insects and 6,000,000 weed seeds in a year. House martins, swallows, and swifts eat rose beetles, May beetles, cucumber beetles and house flies. The quail eats Texas fever-carrying ticks; the killdeer and other shore birds feed on the larvae of disease-carrying mosquitoes; a night-hawk's evening meal consists of 500 adult mosquitoes.

TRACING WHIMS OF FASHION

Each Century Seems to Have Seen Some Change for Which a Reason May Be Adduced.

In the Fifteenth century the waistline was discovered, and the pointed idea carried to extreme, says the New York Herald. The women wore tall pointed hats, pointed shoes, and points were introduced in every possible way. At this time the church was strongly in the ascendant and the models of the Madonna served as the inspiration for their costumes. As these little models were carved from ivory tusks, the women followed the sacred model, and the curve of the tusk was also copied in their carriage, giving a similar tilt to the figure, recently called the debutante slouch.

The Sixteenth century brought in corsets, the lengthened waistline and the introduction of the full skirt. It was in this period that Catherine de Medici brought in collars, and lace was used in women's costumes for the first time. In the Seventeenth century, known as the romantic period, the styles became very frivolous.

Western Canada Land of Prosperity

offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms

Fertile Land at $15 to $30 an Acre

—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

Farm Gardens, Poultry, Dairying

MORTGAGE FORECLOSURE SALE

Whereas, defaults have been made in the conditions of a certain mortgage duly executed and delivered by Oliver A. Austin, a single man, Mortgagor, to D. A. Rake, Mortgagee, bearing date the 18th day of September, 1919, and with the power of sale therein contained duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 29th day of December, 1919, at 8 o'clock A. M., in Book 93 of Mortgages on page 515.

Which said Mortgage, together with the debt secured thereby, was duly assigned by said D. A. Rake, Mortgagee, to T. L. Stavn, by written assignment dated the 26th day of January, 1921, and recorded in the office of the Register of Deeds, on the 29th day of January, 1921, at 8 o'clock A. M., in Book 104 of Mortgages on page 202.

And whereas, the said T. L. Stavn, assignee of the Mortgagee and holder of said mortgage, has duly elected and do hereby elect to declare the whole principal sum of said mortgage due and payable at the date of this notice under the terms and conditions of said mortgage and the power of sale therein contained, and whereas there is actually due and payable and claimed to be due at the date of this notice upon said mortgage and the debt secured thereby the total sum of $2543.13, as follows: The sum of $159.25 being interest due September 13, 1920, which was not paid, and the sum of $2383.88 being the amount of principal and interest since Sept. 13, 1920, all of which is secured by the mortgage hereby be foreclosed. and whereas said power of sale has become operative, and no action or proceeding having been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof.

Now, Therefore, Notice Is Hereby Given, That by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, Viz:

The East Half (E1-2) of Northwest Quarter (NW1-4), the Southwest quarter (SW1-4) of Northeast Quarter (NE1-4), and Northwest Quarter (NW1-4) of Southeast Quarter (SE1-4) of Section Fourteen (14) in Township One Hundred Fifty-five (155) North of Range Forty-one (41) West of the Fifth Principal Meridian in Marshall County and State of Minnesota, with the hereditaments and appurtances, which, which sale will be made by the Sheriff of Marshall County at the front door of the Court House, in the City of Warren in said County and State, on the 25th day of June, 1921, at 10 o'clock A. M. of that day, at public vendue, to the highest bidder for cash, to pay said debt of $2543.13, and interest, and the taxes, if any, on said premises, and Seventy-five Dollars attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Do you know the

Facts about building costs

Do you know that lumber and building materials are down? Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

Death of Sandberg Child

The baby girl of Mr. and Mrs. C. L. Sandberg died Saturday afternoon at 1 o'clock, after a prolonged sickness of many months.

Every thing was done that was possible to relieve the little one but in spite of medical treatment from a number of physicians, the case seemed, most of the time hopeless. She was a healthy child until last November when she contracted measles and whooping cough which later developed into pleurisy and finally caused her death. Little Harriet Ione was born in Holt Aug. 17th. 1919 and had enthroned herself in the hearts of her loved ones.

A short service was held at the home Monday afternoon and afterward at the church. Four little girls acted as pall-bearers while the floral offerings were carried by another. Leading up to the church steps were two rows of little girls forming a passage way thru which the casket was borne, followed by relatives and friends.

The interment was made in the family lot at Thief River Falls.

The following relatives from St. Hilaire were in attendance:

Mr. and Mrs. Richard Larson, Mrs. John Sholin, Emil Larson and daughter Hattie.

The News joins the many friends of the family in extending sincere sympathy.

Card of Thanks.

To our neighbors and friends who extended their kindly help and sympathy during the sickness and death of our little girl and to those who prepared the church for the funeral and for the pretty floral offerings, we extend our heartfelt thanks.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

EVERYBODY SEES A CHANGE IN FATHER

Grateful Son Says His Father Looks Like Different Man Since Taking Tanlac.

"My father has suffered from chronic stomach trouble for over twenty years and has paid out thousands of dollars for medicines and doctors," said G. W. Slayton, a well-known Cobb County farmer, living a short distance out of Atlanta, Ga.

"We tried nearly everything trying to cure him and he went off to the Springs, thinking maybe the water might help him, but it just looked like nothing would reach his trouble. Then he tried dieting and lived on liquid food until he almost starved, but even that failed to do him any good and he just kept going from bad to worse.

"I don't guess there ever was a case as stubborn as his, and if there ever was a confirmed dyspeptic he was one of them, and I guess he would have been one yet if it hadn't been for this Tanlac.

"The first we heard of this medicine was when my father saw an advertisement in the papers from parties he knew in Tennessee, who were friends of his and he knew what they said about it was the truth, so he got it right away and began taking it. Well, sir, it acted just like magic—everybody notices the change in father. Why, he is just like a different man and sits down to the table and eats like a farmhand. Only yesterday he ate pork and turnips for his dinner and ate so much we were actually afraid he was going to overdo the thing, but he laughed and said nothing hurt him now and that he was hungry and expected to eat and make up for lost time.

"Now, when a medicine will do things like that I think people ought to know about it, and I want to say right now that I would not give one bottle of Tanlac for all the other medicines and health resorts in the country put together."

Tanlac is sold by leading druggists everywhere.—Advertisement.

MOST IMPORTANT NEWS OF WORLD

Big Happenings of the Week Condensed for Benefit of Busy Readers.

TOLD IN A FEW WORDS

Kernels Culled From News of Moment in All Parts of the World—Of Interest to All the People Everywhere.

Washington

Washington—The bill establishing a budget system of government expenditures was signed by President Harding.

Washington—The new shipping board organized and elected T. V. O'Connor of Buffalo, N. Y., vicechairman.

Washington—A new working agreement, embodying a 15 per cent wage reduction, was signed by the shipping board and marine engineers.

Washington—The senate amended the Townsend road bill to provide for three instead of five members of the federal highway commission.

Washington—Byrus Wood of Greensburg, Pa., has been selected by President Harding as ambassador to Spain, succeeding Joseph E. Willard.

Washington—Republican members of the republican ways and means committee practically have completed the free list of the permanent tariff list.

Washington—A resolution proposing an investigation of life and fire insurance companies by a special house committee has been introduced by Representative Kindred (dem., N. Y.)

Washington — American coastwise shipping would be exempted from payment of Panama canal tolls under a bill ordered favorably reported today by the senate interoceanic canals committee.

Washington—House republicans, at a conference, discussed the proposed cutting down of the representation in congress of southern states owing to the alleged disfranchisement of Negroes, but reached no decision.

Washington — The United States probably will not be represented at the coming meeting of the council of the League of Nations, which is to take up the question of mandates for former enemy countries, it was said at the state department.

Washington—A big "bootleggers' trust," the operations of which are nationwide, has been formed with the backing of certain brewers and men prominent in financial affairs in some large cities, Wayne B. Wheeler of the Antisaloon league charged before the house rules committee.

Washington—A marked reduction during the last decade in the number of draft animals employed in the largest cities was shown by the 1920 census. Figures made public by the census bureau showed 56,539 horses in New York city as compared with 128,224 in 1910 and 30,388 in Chicago, against 68,122.

Sporting

Minneapolis—Mike Gibbons of St. Paul knocked out Eddie McGoorty of Oshkosh in the fifth round of a ten round contest here.

Belmont Park—Goaler, a selling plater, and a 10 to 1 shot, established a world's record in winning the Bayside handicap. He ran the mile and a furlong in 1:49 flat, a fifth of a second under the time set by Man o' War at Aqueduct last year.

Leavenworth, Kan.—Jack Johnson, former heavyweight champion, now serving a sentence in federal prison here and who will be released July 7, has been offered $55,000 to meet Harry Wills at Jersey City, N. J., Aug. 9, it was declared here.

Minneapolis— Stanislaus Zbyszko won a wrestling match from Henry Ordeman in straight falls, winning the first on an armlock and scissors in 50 minutes, 30 seconds, and the second with a body scissors in 13 minutes, 13 seconds. Ordeman had a toe hold on Zbyszko a couple of times but the world's champion, who wears no shoes on the mat, succeeded in wriggling out of the danger.

Domestic

Niagara Falls, N. Y.—Fire destroyed nine buildings at Fort Niagara with an estimated loss of $500,000, officers said.

Seattle—Thirteen soldiers were seriously injured when a motorbus carrying 19 ran into a stone wall at the entrance to Camp Lewis.

Pittsburgh—The degree of doctor of laws was conferred upon Secretary of the Treasury A. W. Mellon by the University of Pittsburgh.

St. Louis—Twelve persons were injured when a Wabash passenger train from Kansas City crashed into an engine just south of St. Charles, Mo.

Oklahoma City—Operation of moving picture shows in Oklahoma on Sunday was upheld as legal here in seven decisions of the state criminal court of appeals.

Chicago—A collection of paintings valued at nearly $2,000,000 forms the bulk of the estate of Mrs. Evaline M. Kimball, 80 year old widow of William W. Kimball, piano manufacturer.

Chicago—Marshall Field III has purchased an estate on Long Island consisting of three tracts totaling 1,630 acres, according to reports printed here.

Prescott, Ariz.—Lieutenant Alexander Pearson, flying in an army plane from Williams, Ariz., crossed the Grand Canyon several times and later flew into the gorge, according to word received here.

Telluride, Colo.—Three men were killed by gas fumes that followed an explosion in a mine at Rico, near here.

Chicago—Held up in her home by a bogus telephone repairman, Mrs. J. S. Young was robbed of jewelry and furs valued at $17,000.

New York—A street duel in which Samuel Sagglo, salesman, was shot five times and died on the way to a hospital, was witnessed by crowds leaving motion picture theaters in the vicinity.

Salt Lake City—Solution of the disappearance of Herbert Waterworth and Frank Tyler, miners, in White Pine Canyon, near here, last October, was furnished when the melting snows disclosed the bodies.

Uniontown, Pa.—Five persons were killed and six others were injured near here when the automobile in which they were riding side swiped another machine on the Dutch Hill road and plunged into a creek.

Philadelphia—John Driscoll, the last last survivor of the Monitor, which defeated the Merrimac in the first appearance of iron clad warships, in the Civil War, has answered the final roll-call. The 82 year old veteran died at the Naval hospital in this city.

Chicago—Timothy D. ("Big Tim") Murphy, prominent labor leader here and former member of the state legislature, made a confession, according to postal authorities, that he was implicated in the $350,000 mail robbery at the Dearborn st. railroad station several months ago.

Indianapolis—John G. Emery of Grand Rapids, Mich., was unanimously elected national commander of the American Legion at a meeting of the national executive committee. He succeeds Colonel Frederick W. Galbraith, Jr., who was killed in an automobile accident here last Thursday.

Denver—Radicalism today had been hit hard by the American Federation of Labor. The convention repudiated the "One Big Union" movement and President Samuel Gompers made public letters telling why he and the executive council had withdrawn support from the International Association of Trades Unions.

Northwest

Des Moines—Two men were killed when a car of the Fort Dodge, Des Moines & Southern railroad crashed into an automobile carrying three men at a crossing near Ames.

Centralia, Wash.—Roy Gardner, under two sentences of 25 years each for robbing the mails and who escaped twice from federal guards while being taken to prison, was captured here by a policeman.

Des Moines—Sheriff W. E. Robb, assisted by deputies, local police and prohibition enforcement officers, swept down on 15 large retail drug stores in Des Moines and seized liquor estimated to be worth $300,000.

Des Moines—R. M. West entered the bedroom of his 18 year old son, Myron, and shot him dead with a rifle while he slept. The father, age 50, was thought temporarily insane. He had been suffering from lung trouble.

Foreign

Brussels—Crown Prince Hirohito, of Japan, who has been here some days on a visit, left with his suite for Holland.

London—The Russian mission in London denied the existence of a treaty between the Russian government and the "Republic of Ireland."

Rome—Pope Benedict conferred the red hat on three cardinals who were made members of the sacred college of cardinals in the consistory last month.

Munich—There has been no general response to the three day strike called by the radical parties as a protest against them last week of Herr Gareis.

Brussels—The Belgian Red Cross, it was announced here, has purchased one gramme of radium in Colorado. The purchase price was 1,000,000 francs.

Mexico City—Two persons were killed and four wounded during a fight between two soviet factions in the state of Michigan. The clash resulted from a dispute over ownership of a hill.

Constantinople — Prince Ibraham Chamyl, head of the Daghiston insurgent mountaineers of the northern Caucasus, has taken arms with 20,000 men against the bolsheviki in the Caucasus.

Paris—James K. Hackett, the actor, will be decorated with the Legion of Honor by President Millerand at an impressive ceremony. He is the first English speaking and the third foreign actor thus honored.

Antwerp—The new American immigration laws are causing congestion at the port of Antwerp, especially as regards Poles, a number of whom are being left behind by each steamer and are unable to find shelter.

London—Only ostrich plumes will be worn by London society women after the impending enactment of a law prohibiting the importation of plumage. This result is largely due to the energy with which Lady Nancy Astor has fought on behalf of the bill in the house of commons.

Berlin—The German press takes little interest in the news of the adoption of the Porter resolution, and prints Washington dispatches with the explanation that peace is not yet assured, owing to the differences between the house and senate resolutions, but otherwise they attach practically no comment to the news.

Copenhagen—The police of Stockholm have discovered documents showing that it is intended to start a simultaneous bolshevist revolution in Sweden, Finland and Norway.

Oberammergau, Germany—The committee having in charge the arrangements for the renewal of the famous Passion Play has decided to give 30 performances in 1922.

Coblenz—Sergeant Lawrence Roberts, Fifth infantry, United States army, committed suicide in a fit of despondency. He shot himself through the head. Roberts was from Seattle, Wash.

CONGRESS TALKS LIQUOR QUESTION

Two Branches Apparently in a Race to Slay Outlaw Beer Bugaboo.

ALSO TO ATTACK WINE

John Barleycorn Seems Friendless in Slaughter of Wet Opportunities Now Being Conducted by Legislators.

Washington.—The senate has started a race with the house to outlaw medical beer. Just after the house rules committee concluded a long hearing on a proposal to give the Volstead anti-beer and general prohibition tightening-up measure right of way, Senator Willis, Republican, Ohio, introduced a special bill containing the beer and other uncontroverted sections of the Volstead bill with the hope of having it passed before the prohibition commissioner promulgates medical beer regulations under the opinion handed down by former Attorney General Palmer.

John Barleycorn Friendless.

In view of the statements by prohibition leaders before the house committee that they were unwilling to redraft the Volstead supplemental bill and their request that it be expedited as emergency legislation, there was much speculation as to whether the Volstead or Willis measure could be put through first.

No friends have appeared on the house side in behalf of beer as a medicine and Chairman Campbell of the rules committee expressed what was regarded as the general view on that question by declaring a bill to prevent its sale on a doctor's prescription probably would be passed unanimously. The committee will decide later in the week whether the Volstead bill or any part of it shall be given place on the house calendar.

In addition to prohibiting the prescription of beer as medicine the measure would provide that not more than the same amount of alcohol in wine may be prescribed within 10 days than is now authorized for spirituous liquors, which is now one-half pint.

Other provisions of the bill would prohibit the issuance of more than 100 prescriptions within 90 days to any physician for the use of spirituous or vinous liquors as medicine unless an emergency exists; would prevent the further manufacture and importation of whisky or spirituous liquors, but not alcohol until the present supply is reduced to a point where it would meet the needs for non-beverage purposes, and would give the courts in Hawaii and the Virgin Islands jurisdiction to enforce the prohibition act.

BLOWS HEARD IN EARLY MORN

Occupant of Room Above Prescott Death Chamber Testifies.

Fargo.—Discovery of a hatpin bent in such manner as to permit its use in unlocking a door from the outside, though the key had been turned in the lock from the inside, and the story of a girl who heard the blows that were struck by the man who killed Miss Marie Wick, constitute new developments in the case of the Prescott hotel murder here two weeks ago.

The girl, whose story probably fixes the hour of Miss Wick's death, collapsed after she learned of the crime. At a hospital, where she was under treatment for several days, she told her story to a nurse. The latter advised her to tell the officials all she knew, and the state's attorney was called in.

The girl said she was awakened by a noise which she likened to "blows from a baseball bat." They continued for some time. She couldn't determine just where they came from, except that she heard movements in the room below hers. Soon afterwards she heard a person leave the room and walk down the hall toward the stairs that leads into the hotel office on the first floor.

WOMAN WIELDS HOUSE GAVEL

Congresswoman Alice Robertson First to Preside Over Representatives.

Washington.—For the first time in history, according to official records, a woman presided over the house of representatives when Miss Alice Robertson, a Republican member from Oklahoma, occupied the chair for about ten minutes.

The roll was being called at the time on a resolution providing for creation of a commission to represent the United States at the Peruvian centennial celebration. Somewhat embarrassed but in a clear voice, Miss Robertson announced the affirmative vote and relinquished the chair before any member had occasion to address her as "Miss Speaker."

All Roads Seek Wage Drop.

Chicago.—Nearly every railway in the country affected by the $600,000,000 wage award of the United States railroad labor board in July, 1920, and which had not previously petitioned for wage reductions, will appear before the board with requests for lower pay for all employes.

With the completion of the hearing and the anticipated 12 per cent reduction granted by the board on all the roads, the total estimated $400,000,000 annual saving on railroad labor will be put into effect.

ASPIRIN

Name "Bayer" on Genuine

BAYER

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

He Had a Remedy.

"Tell me a tale about an elephant," demanded the young man of his favorite aunt.

"What, on Sunday? I am surprised at you. Little boys ought not to want to hear tales about animals on a Sunday."

The point seemed to be worth considering, and Bobby was silent for a while. Then he asked: "Is it Sunday in Australia?"

Auntie thought it was not.

"Well, then, tell me a story about a kangaroo."

Sensitive Bird.

Bird Dealer (to customer who has bought a parrot on credit)—Here's your bill. Are you going to pay for it or not?

Customer—I've had the parrot one whole month and he's never said a word.

Bird Dealer—Well, you see, this polly is so very sensitive it never speaks until it has seen the receipted bill showing it has been paid for."

All Run Down Now Feels Fine

Eatonic Ended His Troubles

"Eatonic is the only thing I have found to stop my heartburn and I think it has been a great help in nervous spells," writes G. C. Johnson.

An upset stomach may cause lots of suffering all over the body. Eatonic helps in such cases by removing the cause of the misery, because it takes up and carries out the excess acid and gases and keeps the digestive organs in natural working order. A tablet after meals is all you need. Big box costs only a trifle with druggist's guarantee.

Be Sure to Keep Blood Pure In Summer

Nature intended all creatures to withstand the normal changes of the seasons. You never saw a wild animal collapse from heat, did you? People wouldn't get "knocked out" either, if they had the vitality animals get from their blood.

Rich, wholesome blood gives bodily vigor, and if hot weather lays you low, start now to fortify your vitality with a good tonic that will drive the impurities out and leave your blood stream nourishing and robust.

Suicide Statistics.

A larger number of suicides take place in May than in any other month. June also is another month of many suicides. January ordinarily has very few, yet the statistics of a leading company show a rate of 7.7 per 100,000 industrial policy holders for January, 1921.

The Change.

ABLE TO FOLLOW ANY TRAIL

Ahnds, East Indian Sect, Are Among the Most Skillful Trackers in the World.

The Ahnds, natives of Jaum, India, are among the most skilled animal trackers in the world, according to R. G. Burton, writing in the Field. They track bears, panthers and other jungle creatures by a mere shadow of a footprint and also by "marking," a system of watching.

When "marking" animals the natives turn out before sunrise and watch the animals as they slink back to their lairs. Then when the hunters take a position of vantage the marker's aids surround the animal on three sides, and drive it out from cover.

The Ahnds often track bears across solid rock, where the creatures' claws, scratching the surface, leave a mark. The panther's tread is so soft that no impress is made, save where the ground is soft enough to take the pug of the pussyfoot, and yet they track these wary animals when they show near the village.

Love.

"Love" is one of the most frequently used—and abused—words in our language. There are almost as many definitions of it as there are people who speak the language. This little monosyllable may be said to be immeasurable in its potentialities.

In the German language the word is "Liebe." The exact Russian equivalent is "Lienboy." The Sanscrit word that expressed the idea—or the primitive conception of it—is "Lobha." The exact and original definition of that word, however, is "Covetousness." So you see.—Chicago Journal.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Luverne—Clossen Van De Weg, aged 17, was drowned in the reservoir at Hills. While bathing with three companions, all climbed on a raft and Van De Weg fell off.

St. Cloud—Mrs. E. J. Lewis of Sauk Center, prominent clubwoman and mother of Sinclair Lewis, author, and Dr. C. B. Lewis of St. Cloud, died suddenly at her home from heart failure.

Rochester—At the closing session of the Southeastern District Dental association here, Dr. B. Featherstone of Red Wing was chosen president. The convention next year will be here again.

Albert Lea—Descending to the ground on torn bedsheets, tied together, John Finberger and his five children, of Newry, near here, narrowly escaped with their lives from their burning farm home.

Minneapolis — Professor Andrew Boss, vice director of the University of Minnesota's experiment station, left for Washington in answer to a special invitation for a conference with Henry Wallace, secretary of agriculture.

Moorhead—With the acreage exceeding that of previous years, and every indication of an excellent yield, men familiar with conditions in Clay county and Red Wing valley anticipate a large potato crop this year.

Winona—Mayor L. C. Hodgson of St. Paul, was elected president of the League of Minnesota Municipalities at the closing session of the league's program here. Mayor E. S. La France of Winona was elected vice president.

Elk River—Roscoe Sturman of Minneapolis, was killed while working as an electric lineman for the Elk River Light & Power company. He came in contact with a high tension wire, was knocked from the top of a pole and suffered a broken neck.

Pipestone—Crop conditions in general in southwestern Minnesota were never better than at present. The ground was in excellent condition to receive the seed and growing conditions have been almost ideal, there being plenty of moisture and sunshine.

Ellsworth—Ted Dykehouse, employed in a garage at Little Rock had a narrow escape from death when an automobile he was repairing broke from its fastenings and fell on him. The man was badly crushed and internal injuries may result in his death.

Moorhead—James Hartman, Barnesville, a mechanic, was arraigned here on a charge of assaulting his wife with intent to kill. Hartman pleaded not guilty. Mrs. Hartman, who is recovering from a fractured skull, accuses her husband of hitting her over the head.

Morris—Arrested for trying to "spank" his grown daughter for staying out too late with her escort, Louis Krentz of Hancock, was brought before Judge George W. Beise in municipal court here, and released on 90 days' probation with a 30 days' sentence in jail threatened if he doesn't behave.

Rollingstone—Returning home after a pleasure ride in their automobile, John Ries and his wife discovered that their 10 weeks' old daughter had died in its mother's arms during the trip. The parents had supposed the baby was asleep. A physician pronounced death due to hemorrage of the brain.

Eveleth—Twelve women jurors, composing what is believed to have been the first woman jury ever deciding a court case in the state, returned a verdict for the plaintiff in the case of George Kotze against Mike Kotchman. Kotze sued for $471, with interest from Feb. 1, alleged to be due him on a consignment of fruit purchased from him by Kotchman.

Luverne—O. F. Myhre, a farmer, living six miles from here, lost a 1,400 pound horse in a 20-foot well. The horse had gone for a drink and began scratching himself on the windmill, backing against the pump. His weight broke the platform, dropping his hind legs into the well. In his struggle to get out the walls of the well broke, dropping the animal to the bottom.

Minneapolis—The memories of Minneapolis' soldier dead were perpetuated when Victory Memorial driveway, bordered by young elm trees bearing their names, was dedicated. Calling upon the American Legion to take up the fight waged so long by the G. A. R. for representative government regulated by law, Judge Eli Torrance paid the first tribute to the dead soldiers, sailors and nurses in the dedicatory address.

Rochester—The suit of George Miller against former Mayor Julius Reiter was dismissed without prejudice, on motion of the plaintiff, in district court here. Miller brought suit against the former city executive, alleging that Reiter refused to renew a saloon license for Miller for a period of four months.

Minneapolis—Examination of applicants for commissions in the United States army will be held August 13 to August 22 at the University of Minnesota, it was announced by Col. G. Sturtevant, professor of military tactics at the University of Minnesota.

MEANS BIG CROP

Wheat in Western Canada Has Excellent Start.

Germination, in the Rich Soil of That Country, Is Speedy—Farmers on Road to Wealth.

It was on the 18th of May that the writer received a letter from a friend in Western Canada dated the 15th of the same month. Information was conveyed in the letter that its author had traveled over a considerable portion of Western Canada. He had covered most of the settled portions, and from those he had not covered he had secured information that amplified his own observations of conditions throughout all the vast area of that country. He found seeding of wheat practically completed, and placed in a bed of earth that was in a condition that warranted speedy and healthy germination. This was borne out by evidence that he was a witness of wheat that had been in the ground four days that was already breaking through, and that which had been seeded for a week was well above the ground, the field being as green as a new pasture plot. Everywhere this condition existed. It will be pleasing information for those who have friends in Western Canada—in any part of it, no matter where they may be—to learn that conditions have opened up in such a splendid way, and to be advised that the prospects were never brighter than now. When it becomes known that conditions are so satisfactory, many who were waiting, uncertain what to do in the matter of moving, will doubtless now come to a decision. With the opening of thousands of homesteads, which took place on the 1st of May, there was a rush to take advantage of the opportunity to secure 160 acres of excellent land free, within speaking distance of a railroad. The low railway rates granted by means of a certificate issued by Canadian government agents, located at different points in the States, make it possible to make a trip of inspection at small cost.

Oat and barley farming are branches that add considerable to the wealth of the farmer who desires to make money quickly. That these grains can be grown so successfully, and easily, makes it possible to go into other branches of farming industry, that give stability to it, wherever they are carried on. They are dairying and cattle-raising. There is an excellent market for the product, and the climate aids materially in assisting it, while the native grasses, as well as cultivated varieties, bring the cost of production to a much lower figure than is possible on lands that are much higher in price, with no better yielding qualities. Then, again, it is amply shown that fodder corn can be grown with great success, and that sunflowers, which it has been fully proven are little behind, if any, in food quality, thrive wonderfully. In fact, these two fodders, in addition to which may be added that of alfalfa and sweet clover, in which Western Canada farmers are well apace with growers elsewhere, have brought about a period of silo-building which promises to eclipse any effort in this line made anywhere on the continent. In Manitoba alone, one firm is building two hundred this year. In Saskatchewan, many orders have been placed; in one small district in Alberta, where fifty were erected last year, another fifty will be built this summer. That there will be a thousand silos erected in the three provinces this year seems to be a conservative estimate. To the farmer in the States, who knows the advantage of the silos, who is interested in the fodder to be grown to fill them, what does this mean?—Advertisement.

Americanized.

He was a Chinaman. He ran a laundry and no one ever heard him speak a word of English. I often wondered why he had not learned our beautiful language. But to my queries he only shook his head.

One day when I paid for my weekly wash he returned less change than usual. "You've short-changed me, Ping Pong!" I cried.

Ping Pong smiled blandly, showed me his Americanization of foreign merchants' certificate and, speaking for the first time in faultless English, replied: "No, I've raised."—From Wroe's Writings.

Agreeable, But—

Wifey (to hubby deep in his paper)—Ed! I told you you were wrong on that paint question.

He—So?

She—Yes, and you were also way off on the color of that wall paper.

She—Ed, if you're going to be so unsociable I'm going to leave you this minute.

Agricultural Gloom.

"Still thinking of buying a farm?"

"No. I've always prided myself on taking a cheerful view of life."

"What has that to do with your buying a farm?"

"Judging from the kind of talk I hear in rural communities, I wouldn't own a farm more than six months before I'd be a confirmed pessimist."—Birmingham Age-Herald.

REVEAL PLOT TO STIR REVOLUTION

Report of Lusk Committee Contains Startling Charges of 1917-18 Conspiracy.

NAME MANY NOTABLES

Amazing Revelation of Anti-War Activities of Well Organized "Soviet" Calculated to Startle Nation When Given Out.

New York.—Amazing revelations purporting to show the existence of a concerted effort on the part of a group of "uplifters," educators, and ministers, together with I. W. W. agitators and socialists, to precipitate a revolution in this country in 1917 and 1918, and stop the participation of the United States in the World war, are contained in the report of the Lusk committee, which investigated seditious activities in the state of New York. The report includes correspondence which it uses to sustain the charge that the opponents of the war had willing aids in the war department, on the federal bench, and in congress.

Notables Are Named.

Prominent among the many identified with sympathizers who are said to have been anxious to bring about the overthrow of the government and establish in this country a soviet government on the same lines as in Russia, were two nationally famous women settlement workers, a former president of a famous American university, one United States senator, and one former representative in congress.

The Lusk report charges that they were part of the movement, with "Big Bill" Haywood, Victor Berger, and others who have been either in jail for violating the espionage act or the selective service act, or are now out on bail awaiting the outcome of their appeals from convictions.

Contains Many Letters.

In the report is published much correspondence from many persons showing their activities and opposition to the promotion of the war, which causes the committee to make this charge as to their purposes: "A drawing together of all the radical forces of workingmen, suggesting mass action, a plan of soviet representation, a scheme to agitate for discontent and disloyal measures, and an international co-operation with the socialist forces of Europe."

Foreigners for Leaders.

The committee charges that the prime movers were a Prussian born man and an Austrian born woman, both of whom figured publicly in the pacifist efforts after the war started, including the People's council, and a second man who already has served a year in prison for violating the selective draft act. A letter of September, 1917, written by the second man, is published in the report. It says:

"We want to look like patriots in everything we do. We want to get a lot of good flags, talk a good deal about the constitution and what our forefathers wanted to make this country, and to show that we are the folks that really stand for the spirit of our institutions."

TO PUNISH WAR PROFITEERS

Move of New Attorney General Elicits Much Commendation.

Washington.—Active investigation of war profiteering by a new bureau to be organized in the department of justice will be begun next week, officials of the department state. Arrangements have been practically completed by Attorney General Daugherty and his advisors for the initial functioning of the bureau.

The scope of work now announced by the attorney general is to be so widened as to include all war contracts entered into by the government, with a clean bill of health for those contractors who can prove they are entitled to it. Original plans for the organization of the bureau have had to be enlarged.

No announcement of administrative departments made since the Harding regime came into office has brought such a flood of commendatory letters from the public, as Mr. Daugherty's declaration to punish war profiteers to the limit, department of justice officials declared. Messages have poured in from all sections of the country and extra clerks have had to be assigned for their reading and acknowledgment.

Cloudbursts Delay Trains.

Fargo.—Cloudbursts between Dickinson, N. D., and Glendive, Mont. destroyed roadways, tied up railroad service and crippled communication. Transcontinental trains were being detoured. It was said the roads may be tied up for several days.

Gompers and Lewis Fight

Colorado Springs.—The fight for leadership in the A. F. of L. has the center of the stage at the convention of the American Federation of Labor here. The bitter controversy between the forces backing the veteran leader Samuel Gompers, for re-election, and those urging the candidacy of John L. Lewis bid fair to hold the spotlight during the remainder of the convention. The clash came into the open with publication of rumors that a campaign fund of $100,000 was being used to further Lewis' candidacy.

HOW WOMEN AVOID SURGICAL OPERATIONS

Some Are Extremely Necessary, Others May Not Be

Every Woman Should Give Lydia E. Pinkham's Vegetable Compound a Trial First

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6824 St. Lawrence Ave., Chicago, Ill.

A Vermont woman adds her testimony to the long line of those fortunate women who have been restored to health by Lydia E. Pinkham's Vegetable Compound, after it had been decided an operation was necessary:

Burlington, Vt.—"I suffered with female trouble, and had a number of doctors who said that I would never be any better until I had an operation. I was so bad I could hardly walk across the floor and could not do a thing. My sister-in-law induced me to try Lydia E. Pinkham's Vegetable Compound and it certainly has helped me wonderfully. I keep house and do my work and have a small child. I have recommended Vegetable Compound to a number of my friends and you may publish my testimonial."—Mrs. H. R. SHARON, Apple Tree Point Farm, Burlington, Vt.

In hospitals are many women who are there for surgical operations, and there is nothing a woman dreads more than the thought of an operation, and the long weary months of recovery and restoration to strength if it is successful.

It is very true that female troubles may through neglect reach a stage where an operation is the only resource, but most of the commoner ailments of women are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing ailments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

NOT RESTING, JUST WAITING

Idiot Boy, According to Judge Gary, Very Much Like the Rest of the World.

Judge Gary was talking at a dinner about the world's industrial situation.

"All over the world," he said, "labor is earning more and producing less. In England, for example, there are more coal miners employed than ever, and the production of coal is lower than ever.

"English labor reminds me of the idiot boy.

"A farmer, out of pity, gave an idiot boy a job. Then one afternoon the farmer walked across his farm to see how the boy was doing. He found him lying on the grass under a tree smoking a cigarette.

"'Well, Looney,' he said—the boy was known as Looney in the village—'Well, Looney, what are you doing? Resting?'

"Looney took his cigarette out of his mouth and answered:

"'No, boss, I ain't restin', 'cause I ain't tired. I'm just a-layin' here waitin' for the sun to go down so's I kin quit work.'"

Some women are so contrary that they even have confidence in a confidence man.

INTRODUCED A COMIC SCENE

Player Unwittingly Interjected Comedy Into Gloomy Tragedy of Shakespeare's Julius Caesar.

When I was in high school we gave an entertainment—"Julius Caesar," in which I had a minor part. Without coat or collar, sleeves rolled up high, and a blanket for a toga I was a Roman citizen. I was also one of the stage managers.

After one scene the curtain stopped about two feet from the floor. I stepped on the stage to right the difficulty. Without warning, the curtain came down in a wreck on my poor defenseless head. I was stunned for a moment. Then I began to realize what a grotesque figure I must be, for I had discarded my toga while shifting scenes, and there I was standing alone on the stage amid the ruins, feeling the bump on the top of my head.

But I smiled in spite of myself, gave a professional bow, and stalked with dignity to the wings. It was several minutes before the audience quieted down so that the play could go on.—Chicago Tribune.

Do you know the

Facts about building costs

Do you know that lumber and building materials are down? Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one?

Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost. We can show you a substantial saving on every item in our line. But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own village is short a number of homes.

When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision. Get in touch with us today.

Wedding Bells

Miss Hazel Barnes and Racine Olson were united in marriage at 8 o'clock last night at the Methodist parsonage in Thief River Falls, Rev. J. B. Smith officiating.

They were accompanied by Miss Marie Arnevik as brides maid and Albert Bjerk as best man. The bride was attired in a handsome white gown of silk Crepe de Chine trimmed in wide silk fringe with a white hat to match and carried beautiful white roses. The bridesmaid wore a pretty pink organdie, hat to match and carried pink roses.

Miss Barnes, who is Holt's efficient Postmaster, is a very capable and intelligent young lady with grace of heart and mind and will make a true help mate for the one of her choice. The groom reared near Holt and lived here for many years, needs no introduction but can count his friends by his acquaintances. He is to be congratulated on his choice and their many friends join The News in wishing this splendid couple a happy and prosperous married life.

World Known Famous Master on the Accordion and his $700 Gold Inlaid Instrument

At the Opera House, Saturday June 25th at 8:30 P. M., a concert will be held, the like of which has not before taken place in our village. The principal entertainment will be furnished by Mr. Thorstein Skarning, considered at present the world's leading virtuoso on the accordion, an instrument that is very popular in Scandinavian countries, as it is also in Italy. He has participated victoriously in various contests of skill on the accordion, his last victory being over an Italian player in Chicago eleven years ago. He then won a gold medal and a considerable money-prize.

Since then Mr. Skarning has traveled extensively in many European countries, giving concerts in large cities. At the opening of the war, four years ago, he was playing an engagement in Moscow. Before he could get out of Russia he was arrested on suspicion of being a German spy, but was soon released thru the efforts of the Norwgegian consul at Archangle.

His musical ability and splendid mastery of the technique of the accordion have received flattering comment in the press wherever he has appeared, both European and American papers according highly complimentary mention. Lack of space at this time prevents us from giving extracts from some of these reviews.

In his concert here he will be assisted by his wife who is a talented soprano pianist, and among her solos will be 'Solveig's Sang' 'Saeterjentens Sondag' and 'An Mor.' Mr. and Mrs. Skarning will render 'Death of Aase,' "Anitras Dance," 'Poet and Peasant' Overture, Norwegian Airs and other Norse compositions.

Alone on the accordion he will give 'Nearer my God, to thee,' sextette 'Lucia,' Vosserull' and other selections.

The Skarning's have also made records for the world's greatest graphophone companys and also given entertainments at Camp Grant and to Red Cross benefits.

The Superior Telegram says: "No such Scandinavian musical artists as the Skarnings have been in the Northwest since the tour of Ole Bull."

Catarrhal Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

HOUSE PASSES NO-BEER BILL

Votes Overwhelmningly for Measure to Bar Use of Beverage as Medicine

KAHN CRITICIZES DRYS

Attributes Wave of Crime to Drastic Enforcement of Prohibition Measures—Stormy Debate Precedes 290 to 93 Ballot on Proposal.

Washington.—By a vote of 250 to 93, the house has passed the Willis-Campbell bill to prevent the sale of beer to the sick, and sent it to the senate with the expectation of its final enactment before the end of the week.

The vote, which was 21 more than the necessary two-thirds, was taken after four hours of stormy debate, interrupted frequently with shouts to stop the talk and pass the bill.

Wheeler Drafted Bill?

In closing debate for the opponents, Representative Hill, Republican, Maryland, threw the house into considerable disorder by charging that Wayne B. Wheeler, general counsel for the Anti-Saloon league, had drafted the bill. Pointing to the league lawyer in the gallery and calling him by name, Mr. Hill brought a wild shout from the prohibition element, some of whom stood until quiet was restored.

There was another dry outburst a moment later when Representative Foster, Republican of Ohio, declared there was no truth in the statement about Wheeler's part in the preparation of the measure.

Says Drys Drink.

Warning the house against the constant spread of law breaking since enactment of drastic prohibition laws, Representative Kahn, Republican of California, turning sharply upon advocates of the anti-beer bill, declared "there are members here who voted for prohibition and who drink more liquor in a week than I do in a year."

Mr. Kahn asserted the Volstead law was being broken every hour of the day and that congress ought to handle the problem in a rational way.

ELEVEN SLAIN AND BURNED

Authorities Believe Kentucky Tragedy to Be the Work of Madman.

Mayfield, Ky.—Mystery continues to envelop the tragedy in the farm home of Ernest Lawrence, near here, when eleven persons were slain and their bodies burned in the dwelling which apparently had been saturated with oil.

Only fragments of their bodies were found in the ruins. The sheriff and coroner were unable to find bullet or other wounds that would determine the cause of death. An axe and firearms were found in the embers of the dwelling, which led the officers to believe that some of them might have been killed with the axe and others shot.

Sheriff McCain announced that he had not changed his theory that Lawrence had developed a fit of insanity and had killed his wife, their three children and their guests, Otis Drew, Mrs. Drew, their three children, and Drew's brother, Delmer. The indications are, the sheriff said, that Lawrence saturated the room in which the bodies were found with oil, touched a match to it and killed himself.

FARMER KILLS WIFE, SELF

Five-Year-Old Son Awakes to Find Parents Dead—Calls Aid.

Linton, N. D.—Thor Thorson, 30, a farmer, has shot and killed his wife and then killed himself at their home in Emmons county, on the Missouri river. Their five-year-old son and three-year-old daughter, asleep in the house at the time, were undisturbed by the tragedy. The boy, finding the bodies in the morning, notified his grandmother, living nearby.

"Mamma and papa are dead and blood is all over," the little fellow told his grandmother.

Thorson is believed to have become temporarily deranged following a recent attack of influenza.

Bather Drowns in River.

Thief River Falls, Minn.—Carl Diedrich Isaacson, 21, stepped into a deep hole while bathing in Thief river and was drowned. He was unable to swim and companions failed in attempts to save him.

Lutherans Meet in Fargo.

Fargo.—Six hundred and fifty North Dakota churches are represented at the annual convention of the North Dakota district of the Norwegian Lutheran Church of America, being held at the First Lutheran church.

Crop Outlook Favorable.

Minneapolis.—The May crop and business summary of John H. Rich, agent for the Ninth Federal Reserve bank district, says, in part:

"Agricultural prospects continue very favorable. Spring wheat production is expected to be 36,000,000 bushels greater than last year in spite of a reduction in acreage. North Dakota has better prospects than in any year since 1915, and northern Montana better than in any one of the last four years. Range conditions for livestock are excellent.

Windom—E. H. Seger, aged 30, a farmer near Westbrook, was killed when one of his horses crushed him against the wall of the barn. Seger was attacked by the horse when he entered the stall to feed the animal.

Crookston—Carl Knutson, who escaped from the Polk county jail, where he was held on the charge of first degree murder in connection with his wife's death, was found hiding in a woods seven miles north of Crookston.

Zumbrota—The Masonic lodge of this village celebrated the opening of their new lodgerooms here. Several hundred members of the order from surrounding towns, as well as about 50 from Braden lodge of St. Paul, attended.

Minneapolis — Condemnation proceedings seeking the removal of the Northern Pacific tracks from the University of Minnesota campus were begun in Hennepin county district court, based upon a law passed by the last legislature.

Winona—Peter Weaver of this city is in a serious condition at a hospital as the result of injuries received when the automobile which he was driving turned over on a road near the city limits. The four other occupants of the car were uninjured.

Albert Lea—The 2-year-old son of John Curtis, a farmer residing near here, was found by his father, smothered to death in a grain bin of the barn. The baby had climbed a ladder into the loft of the barn and had fallen down a ten-inch grain chute.

Rochester—The theft of a diamond ring valued at $400 and an amount of cash from the home of John Fritsch marks the renewal of a "burglar's drive" on residences, which in the last few nights have suffered losses amounting to more than $2,000.

Lake City—Claus Meyer, a retired farmer of Central Point, near here, was killed when the automobile he was driving was struck by the Chicago, Milwaukee & St. Paul fast mail train at a crossing west of here. The car was dragged about 200 feet.

Rochester—Mrs. William Brandt, formerly Mrs. William Concuna, wife of a Rochester businessman, who was murdered on the Jefferson highway last March, and who about a month later was married to William Brandt of this city, was found by police wandering the streets with a pistol in her possession.

Minneapolis—The Antitobacco Society of Minnesota will begin its active campaign in September, according to Professor Anthony Zeleney of the University of Minnesota, who was active in the organization of the state branch of the national organization. He denied that the activities of the society are directed especially against women smokers, since, he said, fewer Minnesota women smoke than is the case in many other states.

St. Paul—Finding it impossible to put in effect the old Minnesota grain grades as requested by the legislature, the state boards of grain appeals formally adopted the federal grain grades as the inspection standard for the 1921 crop. State inspectors will continue to grade all grain coming into the Minneapolis and Duluth terminals on the basis of federal grades, and Minnesota officials will continue their fight to get the federal grades modified, removing the present discriminations against spring wheat.

St. Paul—While the average size of farms in the United States increased from 138.1 acres to 148.2 acres in 10 years, from 1910 to 1920, the average size of Minnesota farms decreased from 177.3 to 169.3 acres, it was shown by a federal census bulletin made public. The bulletin also shows the amount of improved land to each farm decreased in Minnesota while increasing in the country generally. The average for the country was 75.2 acres in 1910, and 78.6 in 1920. For Minnesota the average was 125.8 acres in 1910 and 120.4 acres in 1920.

St. Paul—Kanabec county, Minnesota, was the only county in the United States in which there was not a name listed in the delinquent and deserter list, R. M. Pope of Mora, who is in Washington for the Minnesota bonus board, was informed by Federal officials there. Henry Rines, state treasurer, was informed of the fact in a letter received from Mr. Pope.

St. Paul—One million dollars worth of school bonds will be placed on sale within the next ten days to provide money for the erection of new schools, according to a resolution passed by the St. Paul city council.

THIS MAN DREADED TO SEE NIGHT COME

Was So Restless He Couldn't Sleep and Daylight Was Always Welcome.

"With the exception of a little milk toast, which comprised my diet for more than eight weeks, I could not eat anything," said Capt. Geo. W. Womble, residing at 105 Jennings St., Knoxville, Tenn., a highly respected citizen of that city.

"I am now able," continued Captain Womble, "after taking two bottles of Tanlac, to eat practically anything. I had a bad form of stomach and intestinal trouble for a long time and for months my condition had been such that I suffered agony. I got so I could not eat the simplest food. I tried doctor after doctor and all kinds of medicine, but nothing that was prescribed for me seemed to do me any good. I had a terrible pain in my breast just over my heart and for weeks and weeks I got no relief.

"I finally got so nervous that I actually dreaded to see night come, as I could not sleep, and was always so restless that I would rejoice to see daylight come. I was also constipated all of the time. In fact, life seemed a burden and I was so miserable that I was almost on the verge of despair. Several of my neighbors told me about Tanlac and advised me to try it.

"I am personally acquainted with Mr. Dan M. Chambliss, of the firm of Kuhlman & Chambliss and when I told him of my condition and how I suffered he advised me to begin taking Tanlac without delay and that it had relieved hundreds of the best people in Knoxville. I have now taken two bottles of Tanlac and am giving you this testimonial in the hope that it may induce others to take it. Since taking this medicine I actually feel like I had been made all over again with the youth, energy and ambition of a sixteen-year-old boy."

Tanlac is sold by leading druggists everywhere.—Advertisement.

Ambition.

"You will never get anywhere unless you have higher ideals than this," preached the woman to whose door the tramp had applied for assistance. "Are you really content to spend your life walking around the country begging?"

"No, lady," answered Weary Willie "Many's the time I've wished I had an auto."—American Legion Weekly.

CUSTOMS FIFTY YEARS AGO

Who, among us would say to-day, "I never use a Dentifrice, I never have to?"

Yet Fifty years ago, odd as it may seem, not one person in 1,000 used a Dentifrice or even a tooth brush.

So to-day, after more than 30 years of persistent publicity of Allen's Foot=Ease, the Antiseptic Powder for the Feet, not many well-turned-out people care to confess, "You know I never have to use a Powder for the Feet!"

More than One Million five hundred thousand pounds of Powder for the Feet were used by our Army and Navy during the war.

The reason is this: Incasing and confining the feet in Leather or Canvas Shoes is bound to create friction, more or less. Allen's Foot=Ease removes the friction from the shoes, and freshens the feet. It is this friction which causes smarting, callouses, corns and bunions. You know what friction does to your motor-car axle. Why not remove it from your footwear by Shaking into your Shoes *to-day*, Allen's Foot=Ease, the cleanly, wholesome, healing, Antiseptic powder? Get the habit, as millions now have it.

The Proper Audience.

Are You All Worn Out?

Do you suffer daily backache and stabbing pains—feel worn out and dispirited? You shouldn't! You want to be well and the best way to get well is to find what is making you feel so badly. You should look, then, to your kidneys. When the kidneys weaken you suffer backache, rheumatic pains and urinary irregularities; your head aches, you are tired, nervous and depressed. Help the weakened kidneys with *Doan's Kidney Pills.* Doan's have helped thousands. They should help you. *Ask your neighbor!*

A North Dakota Case

Geo. Monson, Harvey, N. D., says: "My kidneys were weak and I had to get up three or four times during the night to pass the kidney secretions, which were highly colored. My back was lame and sore. I would get dizzy and everything would blur before my eyes. I read about Doan's Kidney Pills and got three boxes. After using them my trouble was corrected."

GOOD ROADS ARE NEARER--FORCES COMMENCE WORK

HIGHWAY DEPARTMENT WORKS FAST TO GIVE EARLY BENEFITS IN NEW PROGRAM.

In the big task of transferring Minnesota's good roads program from paper to the ground, Charles M. Babcock, state highway commissioner, and members of his staff are making rapid progress under a showing on official records made public this week.

Accomplishments during the past 30 day period are summarized as follows:

More than 85 per cent of the 7,000 mile system of trunk highways taken over by the state to be "improved and forever maintained."

Maintnance organization of more than 1,000 patrolmen and crews with 40 tractors and 125 trucks put on the job of making and keeping smooth the entire system under the $3,000,000 annual maintenance fund set aside to to spread benefits at once to every section.

Contracts made for more than $2,000,000 of new construction—mainly grading and gravel surfacing—on surfacing—on trunk highways; calls to go out soon for bids on another $1,000,000 lot of projects and still others to follow.

Approximately $4,500,000 of county bond projects for trunk highway improvements approved under the state reimbursement plan and assistance given local road authorities charged with spending $12,500,000 this year on feeder roads.

"Minnesota road fund estimates this year are $26,335,000 from all sources," said Comissioner Babcock, "and the people are entitled to corresponding benefits on the highway sytem without unnecessary delay. It is to that end the highway department is working with all possible speed."

Less than 60 days have elapsed since Amendment No. 1 was made effective by the legislature and until that time there was neither authority nor money available to make even preliminary plans and surveys necessary in the development program. In spite of this big handicap, however, the department announced an organization of 1,500 members, including patrolmen in every section of the state and much new construction work begun by contractors as the summary shows.

Fund Division Explained.

The total of present season road funds is made up of $13,850,000 in round numbers of motor vehicle taxes federal aid and county bond money for trunk highway improvements and $12,500,000 of local taxes and state aid to be spent by county authorities exclusively on roads other than those in the trunk system. Without county bond funds in the future the trunk highway total is estimated at from $9,000,000 to $10,000,000 a year, federal aid continued, while funds for the local or farmers' roads will exceed $12,500,000 annually, bearing out the statement that the Babcock plan is first to provide a good road to every farm gate.

TRIP AROUND WORLD TIRES

Thirteen Americans Leave Ship at American Samoan Port.

Pago Pago, American Samoa.—Homesickness and the hard rule of the quarterdeck caused 13 Americans, who wanted to tour the world seeking adventures, to leave the yacht Wisdom II by the time she reached here recently from Los Angeles on a trip of scientific research around the globe.

"All Amerca wanted to go," Frederick O'Brien, author, one of the ship's company, said in telling of the requests made before sailing for berths on the boat. There were 20 officers, sailors and moving picture men aboard when the vessel left California. Six left at Tahiti and seven here, leaving what Mr. O'Brien called a workable crew of seven Americans. Six Tahitians were taken aboard as sailors.

The Wisdom, commanded by Capt. Edward S. Salisbury of New York and California, arrived here April 11. She left Los Angeles Jan. 19. On arriving here Capt. Salisbury entered the naval hospital for a few days.

The Marquesas Islands and points in Tahiti, Bora Bora and Raiatea were visited before the boat arrived here.

O'Brien and Dr. Malcolm Douglas, New York, another of the ship's company, plan to leave the boat for a time, they said here, and visit the unique valley of Maloata in American Samoa. This place is known by the natives as the "haunted valley."

Seldom visited places like the New Hebrides, New Guinea and New Caledonia are to be visited by the Wisdom before she heads for the far east and India.

"Going Up."

"What's the matter, little girl?" asked a strager of a child he found weeping bitterly.

"I can't find my mamma."

"When you're out with your mother you should hang on to her skirts, then you wouldn't get lost."

"I'm too little, I can't reach them."

Encouraging Example.

"Will I find this a good place for my nerves?" asked the new guest at Holdup-by-the-Sea.

"Finest in the world," the manager assured him enthusiastically. "Why, look at me. When I opened up here three years ago I charged only $15 a week and now I have the nerve to shake you down for sixty."

CROP OUTLOOK IN NORTHWEST VERY PROMISING

REPORT SUBMITTED BY E S. WILCOX CONCERNING CROPS IN THIS SECTION

Up to the minute crop report by E. S. Wilcox.

I arrived at Eckman, Bottineau county, N. Dak., afternoon of June 21, hired a car and drove over a good portion of the middle section of Bottineau county. On the morning of June 22 I drove thru the western part of Bottineau county. I found that fifty per cent of the cultivated land is in crops at this time. Wheat, oats, rye, corn and potatoes. I have been examining land in Bottineau county since July, 1904, and I never saw the crops look any better than they do at this time.

From Cardina in the southeastern part of Bottineau county, north and a little east to Bottineau, there are many grasshoppers, but the farmers seem to think there is so much green vegetation that they wouldn't harm the crop to any great extent. This is the only place where there seems to be any grasshoppers in Bottineau county. From Oemem east to Bisbee, across Rolette county, there are from 60 to 65 per cent of the cultivated ground in crops. The crops look very good. They are doing considerable summer fallowing in Rolette county. From Bisbee in Towner county to Conway in Walsh county, about 70 to 75 per cent of the cultivated ground is in crops. The grain stands from eight to ten inches high and from Conway to Ordock in Walsh county the wheat stands from 14 to 16 inches high and is just ready to shoot. From Ordock to Warren, Minnesota, it is 10 to 12 inches high. From Bisbee to Warren there was 70 to 75 per cent of the cultivated land in crops and the other 25 to 30 per cent is summer fallowed. Teams and tractors in the field all along the line doing summer fallowing.

In all my traveling thru Dakota these 16 years I have never seen the crops more uniform all th eway across the state for 260 miles as they are at this time. Dark green, very wide leaf on all grains. There is considerable winter rye and it looks very good. It looked to me as though the heads of the rye in Bottineau county were a little longer than they were farther east. There is plenty of moisture in the ground all the way across this 260 miles and I dug down in the ground several places in Bottineau county and I found the moisture had gone down from 14 to 18 inches deep.

I was in Roseau county, Minnesota, at Roseau and Badger on the 16th and drove over a good portion of the county and the crops in this part looked the best they ever had since Roseau county was settled. Marshall county has a very good crop and the crops in Pennington county look very good.

Very truly yours,

E. S. Wilcox.

No man in the northwest has a better knowledge of the country and conditions than Mr. Wilcox. A crop report by him is highly reliable and valuable. This is a great year for the northwest. Business will be booming.

BREWERS FORM BIG BOOTLEGERS TRUST CHARGED

ANTI-SALOON LEAGUE ATTORNEY SAYS BIG CITY FINANCIERS ARE INVOLVED.

Washington.—Charges that certain brewers and men prominent in big city financial affairs have organized a bootleggers' trust and had made law enforcement extremely difficult have been made before the house rules committee by Wayne B. Wheeler, general counsel for the Anti-Saloon League of America.

Mr. Wheeler appeared in support of the requet of Chairman Volstead, of the judiciary committee, for a special rule to give his beer and prohibition tightening-up bill right of way in the house.

The leagues' attorney was not questioned about the alleged liquor trust and did not go into details.

Asked if it would not be possible to take out the beer section and pass it as a special bill, Mr. Wheeler insisted that it was just as important to include other sections designed to break up the indiscriminate traffic in intoxicants masquerading as medicine.

Concerning his bill to prevent the sale of beer to the sick, Chairman Volstead declared immediate action was necessary to prevent the free flow of beer. He insisted that the anti-beer provision and other tightening-up features should be put thru.

Committeemen said they saw no need of emergency legislation because it related to the beer section. Mr. Volstead asked for a rule to prevent amendment to the bill in the house unless offered by himself on the ground that it would open the whole prohibition question and lead to weeks of wrangling.

AN OPEN LETTER TO WOMEN

Mrs. Little Tells How She Suffered and How Finally Cured

Philadelphia, Pa.—"I was not able to do my housework and had to lie down most of the time and felt bad in my left side. My monthly periods were irregular, sometimes five or seven months apart and when they did appear would last for two weeks and were very painful. I was sick for about a year and a half and doctored but without any improvement. A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me, and the second day after I started taking it I began to feel better and I kept on taking it for seven months. Now I keep house and perform all my household duties. You can use these facts as you please and I will recommend Vegetable Compound to everyone who suffers as I did."—Mrs. J. S. LITTLE, 3455 Livingston St., Philadelphia, Pa.

How much harder the daily tasks of a woman become when she suffers from such distressing symptoms and weakness as did Mrs. Little. No woman should allow herself to get into such a condition because such troubles may be speedily overcome by Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American women to health.

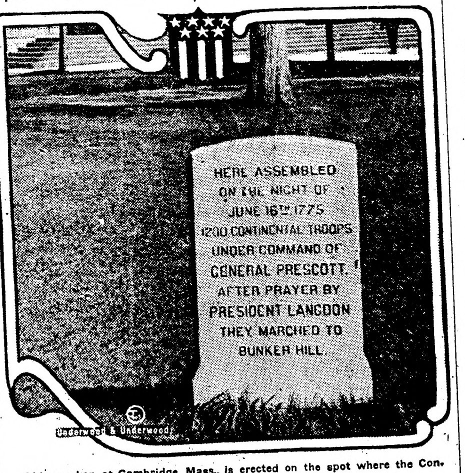
HERE PATRIOTS GATHERED



This marker, at Cambridge, Mass., is erected on the spot where the Continentals gathered for the march to Bunker Hill.

New Facts About Bunker Hill

There are many odd as well as unfamiliar facts in regard to the battle of Bunker Hill, the "dawn of the Revolution," fought June 17, 1775.

It is a curious fact, writes Alexander Corbett in the Boston Globe, that Gen. Artemas Ward, American commander in chief, did not believe the erection of the redoubt would spur the British to attack the hill, but feared and prepared for a retaliatory attack on the American camp in Cambridge.

And the 1,000 or more provincials who built the redoubt during the night of June 16 had no idea that after a sleepless night and nearly 12 hours' labor of the hardest kind with not a drop of water within half a mile, they would be called upon to fight one of the memorable battles in history.

They had been promised that fresh troops would relieve them the morning of the 17th. Deep was their consternation when, hungry, thirsty and sleepy, and while the British were preparing to cross the river, Colonel Prescott, their commander, on being asked to send to Cambridge for the fresh troops for their relief, coolly replied: "No, boys, only those who built the redoubt shall have the honor of defending it."

It was a wonderful proof of the farmer colonel's influence over his farmer heroes that they accepted his dictum without a murmur and prepared for the reception of the enemy!

Hundreds of redcoats had deserted to the Americans in the six months preceding the battle of Bunker Hill, and even a number of officers had written home to England that they had no heart in their work here and sympathized with the Americans in their stand.

Even while the British attacking line was being formed at the foot of Breed's hill, the correct name of the elevation where the battle occurred, a dozen or more redcoats made a dash to join the Americans. In order to stop so serious a menace, General Howe, the British commander, had two of the deserters who were caught hanged to the nearest apple tree as an example to the rest

No Field Artillery.

Many modern accounts of the battle of Bunker Hill contain references to the effect of British and American artillery fire there, yet Gen. Henry Dearborn, then a lieutenant with John Stark's New Hampshire troops, declared that not a shot was fired by field artillery on either side during the battle.

Both armies had artillery, but the British had only twelve-pounder balls for six-pounder guns and the American artillery men were not to be found when they were needed. The Americans in the redoubt were exposed to bombardment by British warships and the battery on Copp's hill, however.

The noise of the guns was heard about noon in Newport, R. I., by President Stiles of Yale college, who was at Newport that day. At least, he so declared when he heard of the battle later.

At the war council the day before the battle younger officers proposed 60 rounds of ammunition for each man. An older one, "a noted hunter," probably Israel Putnam, scoffed at the suggestion, saying:

"Five rounds each for 1,000 men means 5,000 rounds. Any man who can't hit his mark three times out of five ought not to be trusted with a musket. If half of 5,000 shots hit their mark the British will be out of the fight."

As a compromise 15 rounds for each man was allowed and the Yankees were routed. After the battle it was generally agreed that 15 more rounds would have reversed the result, the redoubt having been given up to the British solely for want of powder and ball.

Not a Flag Displayed.

Both British and provincial flags flaunting in the breeze and American officers in uniform are depicted in some pictures of the battle of Bunker Hill, yet men who were in the battle declare not a flag was displayed by either side and not one American, from private to major general, wore anything but civilian garb. Colonel Prescott's "uniform" consisted of rough homespun knee breeches, coarse woolen stockings, low shoes, a red flannel waistcoat and a figured calico sack coat.

A Connecticut company of militia appears to have been the only one possessed of uniforms. Capt. John Chester, its commander, wrote home that on being ordered to Bunker Hill to take part in the battle his men all donned overalls and jumpers over their red and blue uniforms, lest their brilliant colors should make them too good a target for the British.

Effect of the scarcity of lead among the Americans and of the advice of Colonel Prescott to his men as the British advanced: "Aim at their hips, boys, every time," appears in a report of a British army surgeon after the battle, in which he said: "Most of our men were wounded in the legs. We found old nails and pieces of scrap iron, instead of bullets, in the wounds."

Avoided the Churches.

The battle made hot work for the Tory civilians in Boston as well as the military, for they were called on to supply private coaches, carriages, carts, handcarts and even wheelbarrows to convey the wounded redcoats from the Boston side of Charlestown ferry to the various improvised hospitals.

A curious superstition deterrred both British and Americans in the Revolution from utilizing churches as hospitals; in many places the British showed no scruples about using American churches for barracks and stables, while the provincials melted the pipes of the organ in the English church at Cambridge for bullets to make music about the ears of the British at Bunker Hill.

The British who died in hospitals after the battle of Bunker Hill were buried several deep in the graveyard on the common.

British and Americans alike who were killed in the battle were buried on Breed's hill.

One of the humorous circumstances of the night following the battle concerned a British officer who climbed the blazing ruins of Charlestown. Suddenly he was alarmed by the seeming whizzing of bullets about his ears, but was relieved on discovering that what he heard was merely the whirring of the wings of innumerable June bugs out for their nightly flight in the dusk.

Are You Human?

A little baby. A little child. Don't they appeal to you? Doesn't your heart yearn to pick them up, to cuddle them close to you, to shield them from all harm? sure it does else you're not human. Being human you love them. Their very helplessness makes you reach out in all your strength to aid them. In health there's no flower so beautiful. In illness there's no night so black.

Save them then. Use every precaution. Take no chance.

When sickness comes, as sickness will, remember it's just a baby, just a child and if the Physician isn't at hand don't try some remedy that you may have around the house for your own use.

Fletcher's Castoria was made especially for babies' ills and you can use it with perfect safety as any doctor will tell you. Keep it in the house.

CASTORIA

Do the People Know?

Do you know why you are asked to call for Fletcher's Castoria when you want a child's remedy: why you must insist on Fletcher's?

For years we have been explaining how the popularity of Fletcher's Castoria has brought out innumerable imitations, substitutes and counterfeits.

To protect the babies: to shield the homes and in defense of generations to come we appeal to the better judgment of parents to insist on having Fletcher's Castoria when in need of a child's medicine. And remember above all things that a child's medicine is made for children—a medicine prepared for grown-ups is not interchangeable. A baby's food for a baby. And a baby's medicine is just as essential for the baby.

The Castoria Recipe (it's on every wrapper) has been prepared by the same hands in the same manner for so many years that the signature of Chas. H. Fletcher and perfection in the product are synonymous.

Naval Authorities Had Not Provided Sufficient Flags to Convey Peppery Admiral's Message.

A certain British admiral tells an amusing story of an explosive old seaman under whom he served many years ago.

During some tactical operations one of the ships of the squadron had made some bad blunders, and at last the admiral lost his temper. He stormed about the quarter-deck and informed his hearers of his opinion of the officer in command of the erring ship.

When he paused at last for want of breath he turned to the signaler and said, "And you can tell him that, sir."

The man scratched his head meditatively.

"I beg your pardon, sir," he ventured, "but I don't think we have enough flags for your message."

World Loves Sweet Smells.

War discourages the international sale of perfumes, cosmetics and all toilet preparations, but such articles come quickly back to their own in foreign trade. This appears in the fact that in 1920 exports of these articles from this country were valued at $8,739,593, which is over five times the value in the pre-war year of 1914. Our largest buyer was England; our next, Cuba; third, Australia; and fourth Brazil.

Jud Tunkins.

Jud Tunkins says there's no more use in trying to judge a statesman by the kind of auto he rides in than there used to be in studying his personal style of whiskers.

Many people seem to think that you enjoy listening to a tale of woe.

We find fault not so much with our sight as with our blindness.

A Windfall.

A couple of Chicago youths met on the street one day when one made the following announcement:

"Well, Harry Harkins' uncle has just died and left him a lot of money. Harry always said that his ship would come in some day."

"Yes," said the other youth, "but he didn't expect an heirship."

Oh How Glorious to Be Free From Rheumatism's Tortures!

Just suppose you could be free from your deepseated, agonizing rheumatic aches and pains, your stiff joints and unsightly swellings! Wouldn't you give anything to get rid of them?

You have doubtless rubbed on outside treatments; most rheumatism sufferers have. Some of these take the edge off the terrible pains for a few hours, but they do not strike at the cause, which nearly always lies in the poisoned, impoverished blood.

When this is so, you need an internal remedy, one that will take out the impurities that are torturing you, one like famous S.S.S., which has relieved thousands of cases of rheumatism all over the country just this way.

Get S.S.S. from your druggist today, and after starting with it write us a history of your case, addressing Chief Medical Advisor, 877 Swift Laboratory, Atlanta, Georgia.

No More Misery After Eating

Just Takes An Eatonic

"The first dose of Eatonic did me wonders. I take it at meals and am no longer bothered with indigestion," writes Mrs. Ellen Harris.

Thousands of people, like this dear lady, gratefully testify about Eatonic, which does its wonders by taking up and carrying out the excess acidity and gases which bring on indigestion, heartburn, bloating, belching and food repeating. Acid stomach also causes about seventy other non-organic ailments Protect yourself. A big box of Eatonic costs but a trifle with your druggist's guarantee.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

Carpenter Injured in Fall

While shingling on T. E. Ellestead's barn Friday afternoon the staging gave way, throwing John Johnson and his brother, Nels to the ground. The latter struck on his arm and shoulder and was not much hurt, but the older brother struck on his back and it is feared he may have received internal injuries. He has suffered considerable pain in both his back and chest and it is thot he may have a rib broken.

Mr. Johnson wanted to be taken home at once and Dr. Fisher was sent for and did all that could be done to relieve the pain of the injured man.

Mr. Ellestead had been helping the carpenters but had just gone to the well after a drink when he heard the crash made by the falling timbers. The men were shingling the lower courses of the barn and were standing on the staging built up from the ground. The accident was caused by the nails pulling out of the soft lumber.

We are pleased to report that Mr. Johnson is now able to be out some.

Wedding Bells

Miss Julia Johnson and Mr. Anton Peterson were united in marriage at 2 o'clock Saturday afternoon, at the Lutheran parsonage in Holt, by Rev. M. B. Ordahl. The young couple were attended by the bride's sister, Miss Thea Johnson and the groom's brother, Herman Peterson.

They left immediately for a short wedding trip to Maple Lake after which they returned to the Silbaugh farm which the groom has been working and where they will make their home.

The bride has been employed at Albert Bennes' confectionery for some time and is a general favorite because of her winsome and courteous ways.

The groom is one of our hard working young farmers and popular young men, and with the wife of his choice is bound to make a success in life. The News joins their many friends in wishing them a a hearty much joy.

The state university has established a school for nurses with a low tuition fee of only $40.00.

Little Miss Lorna Docken was very much surprised and moved to tears when a bunch of little children swooped down upon her, on her birthday last week Friday and gave the usual greetings "surprise". However little Lorna soon recovered from her fright and a royal good time was had playing games. She was well remembered by her little friends and the afternoon's fun culminating in a feast of good things to eat.

Every person who has tuberculosis caught it from some one who had it in a contagious stage. There are at present nearly twenty thousand cases in the state. Authorities on the subject are agreed that early detection, prompt care, and isolation of all cases, but particularly of the infectious, will result in the complete eradication of the disease.

In Minnesota a decrease of two per cent in the death rate has been effected in the past four years. This meant a saving of four hundred twenty-six lives in 1920, and figuring on the accepted basis of ten cases for every death, a reduction of four thousand two hundred twenty-six cases of the disease.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

WOULD GO FROM HOUSE TO HOUSE

Tennessee Farmer Wants to Go From House to House and Tell Everybody About Tanlac.

"If I were not so busy with my farm work I would go from house to house and tell the people about Tanlac," said A. J. Livingston, a well-known farmer, living near Ashland City, Tenn.

"I had stomach and kidney trouble and suffered torment with my back and side. The doctors could do nothing for me, so I wrote to a friend of mine in Nashville about Tanlac, and he advised me to try it, saying he had heard so many favorable reports about it and sent me a bottle.

"After taking the first bottle I felt so much better that I ordered another bottle myself and the result is I am a well man. I told a friend of mine about it and ordered a bottle for him and he had good results. I can eat anything I want and it don't hurt me, and can sleep like a log. To tell you the truth, I just simply feel like a new man and have more strength and energy than I have had in years. It is simply the grandest medicine in the world. I would like to see all of my friends and get those who are suffering to try it, and I hope you will reach them through this testimonial, which I have gladly given."

Tanlac, the celebrated medicine, which accomplished such remarkable results in this man's case, is a wonderful tonic, appetizer and invigorant. It builds up the system, creates a healthy appetite, promotes digestion and assimilation of the food and makes you feel strong, sturdy and well as nature intended.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.

Too Much Optimism.

Jed Tunkins says he doesn't believe in encouraging the kind of optimist who goes through life clinging to the childhood fancy that some kind fairy is going to come along and grant him three wishes.

Cleveland—Harry E. Karr of Baltimore was elected president of the Kiwanis clubs' international organization, and Toronto was chosen as the next meeting place, at the end of the annual convention.

Baltimore, Md.—Two women and two children lost their lives and three other persons were badly burned in a fire of undetermined origin which destroyed the home of Meyer Sandler in East Fairmont avenue.

New York—The government filed a civil suit in federal court against 19 corporations and four individuals, composing the Cement Manufacturers' Protective association, charging violation of the anti-trust law.

Chicago—Announcement was made that the site of the historic Fort Dearborn blockhouse, facing the plaza at the south end of the new Michigan avenue bridge is to be the location of a $4,000,000 building of 21 stories.

New York—Thomas W. Lamont, chairman of the American committee for the China famine fund, announced that a total of $7,250,000 was contributed in the campaign which ended June 9. The cost of raising it was about 3 per cent, he stated.

Denver—Organized labor of America will immediately call upon President Harding, his cabinet and Congress to bring about recognition of the Irish republic and protest to Great Britain against the "brutal and uncivilized warfare now being conducted in Ireland."

Chicago — United States District Attorney Clyne announced that he had received a message from William (Big Bill) Haywood which stated that he was leaving Moscow on July 12 and would surrender to the federal authorities as soon as he landed in this country.

Northwest

Dubuque, Iowa—Without ice for two months, Dubuque residents rejoiced when announcement was made that the strike of teamsters and truck drivers had been settled.

Lewistown, Mont.—John Burris, aged 60, who had considerable interests in the Cat Creek oil fields and flour mills and elevator interests in Canada, fell dead here from heart disease.

Hardin, Mont.—The famous Custer massacre was lived over again. Sioux Indians, some of whom took part in the massacre 45 years ago, were on the scene to give battle to white men—in mimic of the bloody war on the Little Big Horn when General George A. Custer and all his command were said to have been wiped out.

Foreign

Paris — Owing to the protracted drought Paris is menaced with a shortage of water from the rivers Seine and Marne.

London—The British coal mine strike, which has been in progress since April 1, has been settled, it was officially announced.

Geneva—M. Viviani has summoned the League of Nations disarmament commission, of which he is president, to meet in Paris July 16.

Sydney, Australia—The coasting steamer Fitzroy has foundered off Cape Hawkey. There are only three survivors known of 30 persons aboard.

Riga—Senator Joseph I. France of Maryland, enroute to Soviet Russia to investigate the possibility of trade relations between Russia and the United States, arrived here.

Fiume—Former legionaires who occupied Porto Baross tried to storm the bridge between Fiume and Susak held by Alpine soldiers. The latter fired, killing four and wounding 20 of the former legionaires.

Vladivostok — General Semenoff, the anti-Bolshevik leader, who for some time has been on board the steamer Shodo Maru, from which he was not permitted to land, disappeared from the steamer Sunday night.

Berlin—Keeping their agreement to withdraw from Upper Silesia, the insurgent Poles near Beuthen and a number of other places in the industrial district have begun moving toward the Polish frontier, according to information received here from inter-Allied sources.

Constantinople—The Greeks have evacuated Ismid in Asia Minor, and the Turkish nationalists under Mustapha Kemal Pasha now have a clear road to Constantinople. The nationalists are not expected to respect the neutral zone prescribed by the Allied commission.

Dublin—The proposal of Premier Lloyd George for a conference in London on the Irish question between representatives of Southern and Northern Ireland and the British government is impossible to acceptance in its present form. This declaration is made by Eamon de Valera, the Irish Republican leader, to Sir James Craig, the Ulster premier, in reply to Sir James' notification that he cannot meet de Valera in a preliminary conference in Dublin.

Belfast—Sir James Craig, the Ulster premier, announced that the Ulster cabinet had accepted the invitation of Premier Lloyd George, for the proposed conference between representatives of northern and southern Ireland and the British premier. Sir James will be accompanied by all the ministers of the Ulster cabinet, with the exception of Sir Dawson Bates, whose duties as home secretary necessitates his remaining in Belfast.

Quebec—Municipal officers professed to see the end of the strike of firemen and policemen that began to enforce demands for higher wages.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Morris—More than 200 women will attend the annual farm women's short course at the West Central School of Agriculture.

Eveleth—Old settlers of the Masaba range are making preparations for their annual reunion at Ely lake, near here, July 30 and 31.

Jackson—William Gerbrecht, aged 17, was drowned while bathing here. He was seized with cramps and sank before help could reach him.

Fergus Falls—George Meader, 20 years old, of Star Lake ownship, was killed when a concrete wall which he was building collapsed and fell on him.

Mankato—L. E. McMillan, county agent of Blue Earth county declared that black rust is materially cutting down the yield of winter wheat in this section.

St. Cloud—Dr. Frank Lonsdale, aged 74, practising physician at Sauk Rapids and Royalton for 33 years, died late yesterday in a St. Cloud hospital, following heat prostration, two hours earlier.

Detroit—Three safes were blown and robbed in this city. The Walsh Brothers' creamery safe was robbed of $300; the Ketten Garage safe of $30 and the Northern Pacific station safe of a small amount.

Thief River Falls—Carl Diedrich Isaacson, aged 21, stepped into a deep hole while bathing in Thief river and was drowned. He was unable to swim and companions failed in attempts to save him.

Windom—By a divided vote directors of the Cottonwood County Fair association have given the baseball association permission to use the fair grounds as a baseball diamond for Sunday games.

Windom—Plans are being completed for the 35th annual encampment of the district G. A. R. association, to be conducted here on June 28 and 29. It is believed that a large delegation of old soldiers will attend.

Minneapolis — Anthon C. Jensen, members of the police department for 15 years and now serving as night captain, veteran of both the Spanish-American and World wars, will be the new superintendent of police.

Hastings — Gertrude Gerlach, Red Wing, was drowned at St. Mary's point, Lake St. Croix, while learning to swim. Her body was recovered two hours later by a boy with a casting rod and a spoon hook, while others were diving for it.

Winona—More than 300 physicians and surgeons and their wives attended the banquet which was the principal feature of the opening day's program of an annual midsummer session of the Southern Minnesota Medical association in this city.

Faribault—The first harvest of the season has begun here. Rye is already being cut and it will yield at least 20 bushels to an acre and considered an excellent yield. Most of the farmers in Rice county will be in the rye fields by the latter part of this week.

Fergus Falls—Extreme heat of the past 10 days will reduce the yield of small grains in this locality, according to unofficial reports. The government thermometer here has registered 100 degrees for three consecutive days. Corn has not been affected by the weather, it is reported.

Luverne—Ole Hanson, aged 33, farm laborer, has been arrested charged with placing rocks and ties on the Great Northern railway tracks on a sharp curve one mile east of Stanley. Hanson, at his preliminary hearing, is said to have admitted placing the obstructions on the tracks, declaring that he did it "for fun."

Faribault—Bothered by a guilty conscience for five years, a man who stole groceries from a store here has sent the proprietor of the store a money order covering the cost of the purloined articles. Writing to the store owner after he had moved from Faribault, the man inclosed an itemized list of the things stolen and asked that a bill be sent him.

St. Paul—Beginning July 1, commission men and dealers handling any cold storage products will be required to display placards announcing that the store in which the placards are displayed deals in cold storage products. These placards are being distributed through the state department of agriculture. The 1921 Legislature authorized the commissioner of agriculture to require the release or immediate sale of food stuffs held in storage when conditions warrant it.

Willmar—With an attendance of more than 400 delegates the thirty-first annual convention of the Minnesota Christian Endeavor Union closed their five-day assemblage Sunday night.

Winona—In a community historical pageant here, more than 1,000 persons appeared. Scenes depicting incidents in the history of Winona county from pioneer days to the present were included.

TORNADO HITS N.D. COUNTIES

Ransom, Sargent and Dickey Are Stormswept; Damage Is Heavy

RAIN WORTH MILLIONS

Downpour Breaks Heat Wave Over Red River Valley, Reviving Crops, According to Reports From Agricultural Districts.

Oakes, N. D.—Dickey and Sargent counties, in North Dakota, bordering South Dakota, and Ransom county, just north of Sargent, were swept by Saturday night's tornado. Many barns, silos and outbuildings were blown down in the storm, which lasted twenty minutes, but few houses were destroyed and no deaths resulted, so far as is known, although some persons were injured.

Dickey Towns Suffer.

The towns of Gelph, Ludden and Oakes suffered most severely in Dickey county. Many barn were levelled and wires torn down. Nearly all poles were carried away in this vicinity and the fronts of a number of business houses were blown in. The houses were soaked by the rain, which poured in through gaps caused by the wind. No lives were lost, but a number of persons were more or less painfully injured through being struck by flying debris.

In Ransom county, the county seat, Lisbon, and Elliott, the next station west on the Northern Pacific railway, were hard hit. Farm buildings and trees in the vicinity of both places were blown down or uprooted.

Box cars on the Northern Pacific and Soo line were blown off sidetracks onto the main line and carried some distance and wrecked. In some instances the runaway cars travelled past three or four stations at great speed.

"Rain Worth Millions."

"It was worth million of dollars to the Red River valley," is the unanimous expression of farmers regarding the rain which fell here. About three-quarters of an inch of moisture fell, giving all vegetation plenty of needed moisture. The rain also broke the hot spell that has prevailed here the past two weeks, which probably meant more to the crops than the moisture, according to many farmers.

CONFER ON IRELAND PEACE

De Valera and Unionists Pave Way to Parley With Premier.

Dublin—For three hours Eamonn Dealera, the Irish republican leader, founder of the Sinn Fenn and four southern Unionists, Earl Midleton, Sir Maurice Dockrell, Sir Robert Henry Woods and Andrew Jameson, conferred on the Irish situation with a view to preparing the way for the possible negotiations with the British Prime Minister, and the Ulster premier, Sir James Craig.

Great crowds gathered outside the mansion house, where the discussions took place, waving American flags, many falling on their knees and reciting prayers for the success of the conference. The representatives met with a cordial reception from those assembled.

The members of the conference were reticent regarding what took place at the meeting, but points of agreement were reached in the financial question and the disadvantages of partition.

Diplomats Observe Fourth.

London—Diplomatic representatives of more than thirty foreign governments were guests at the annual Independence Day dinner of the American Society of London. Ambassador Harvey was the guest of honor.

Lord Lee of Fareham, first lord of the Admiralty, toasting the guest, referred to Mr. Harvey as a "foreign envoy to whom the muzzle of diplomacy had not been obtrusive." Therefore, he said, both Britain and America could expect from him "open and frank comment upon Anglo-American relations."

Five Die in Oil Fire.

Chicago.—Five men were burned to death and 27 injured when fire started in three batteries of high pressure tanks in the Standard Oil company's refinery at Whiting, Ind. An explosion followed the starting of the fire. Starting early in the morning the flames were not noticed until noon.

Forms Italian Cabinet.

Rome.—Signor Bonomi, who was entrusted with the task of forming a new cabinet to succeed that of Signor Giolitti, which resigned last week, has constituted a new ministry.

New York's Thirsty Parade.

New York.—Many New Yorkers let the world know Monday that they bear no love for the eighteenth amendment. Several thousand of them raised a terrible thirst tramping up Fifth avenue in an anti-prohibition demonstration and others packed the sidewalks for more than two miles to cheer them. It was called a wet parade, and it was wet—soaking wet—with perspiration. The afternoon was one of the hottest of the year, a scorching sun shining down through a humid atmosphere that carried scarcely a breeze.

ABLE TO DO HER WORK

After Long Suffering Mrs. Siefert Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Pottsville, Pa.—"I suffered with female trouble for four or five years and was very irregular. I was not fit to do my work at times and took medicine from a doctor and got no benefit. I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers and took it and got all right. I gained twenty pounds or more and am now able to do my work. I recommend the Vegetable Compound to my friends and you may use these facts as a testimonial."—Mrs. SALLIE SIEFERT, 813 W. Fourth Street, Pottsville, Pa.

The everyday life of many housewives is a continual struggle with weakness and pain. There is nothing more wearing than the ceaseless round of household duties and they become doubly hard when some female trouble makes every bone and muscle ache, and nerves all on edge.

If you are one of these women do not suffer for four or five years as Mrs. Siefert did, but profit by her experience and be restored to health by Lydia E. Pinkham's Vegetable Compound.

A Prompt Approval.

"What is your opinion of relativity?"

"I approve it," replied Senator Sorghum."

"Then you understand it thoroughly?"

"Friend, if I had always been required to understand thoroughly everything I approved of I should have transacted considerable less political business."

Still Missing.

The Police Sergeant—I think we have found your missing wife.

Mr. Henry Peck—So? What does she say?

The Sergeant—Nothing.

Mr. Peck—Says nothing? That's not my wife.

EASY TO DISTINGUISH TUNES

Even One Unfamiliar With Music Could Tell the Difference by Listening Close.

Two gentlemen from away back in the big sticks sat one night in a St. Louis cabaret and listened to the chortling of a first-class, A No. 1 jazz orchestra. One of the gentlemen displayed a lively interest in the music being produced; from time to time he even beat a lively accompaniment with his feet.

His companion displayed no such interest; he actually appeared bored by the proceedings. He apparently could not understand the city's peculiar music. At last he said to his friend:

"Bill, whut tune is it them birds hev been playin' all evening?"

"Tune!" snorted Bill. "You pore prune; they've played a millyun tunes. Can't you tell one tune frum another?"

"Gosh, no. They all sound alike to me. How do you tell 'em apart? You're so blame smart."

"Huh! Why don't you listen close? Some of 'em are a heap longer than the others."—St. Louis Post-Dispatch.

Agents Like Summer.

"I'm all for hot weather and lots of it," the insurance agent proclaimed when someone asked him when he did the most business—summer or winter.

"In the summer," he said, "office doors are likely to be open wide. When I call on a likely prospect I can see him sitting at his desk as a rule. He doesn't have the nerve to tell the office boy that he's not in when I've just waved cheerfully to him. So I seldom cool my heels in a reception room when the weather is warm."

Too Often True.

"A lot of those chauffeurs seem to think the ordinary pedestrians are beneath them." "Too often they are."

When courtship ends in matrimony a man's troubles begin.

TIMES HADN'T CHANGED MUCH

At Least Young Lady Could See a Similarity Between Biblical Times and Our Own.

The unsophisticated young clergyman essayed to break the embarrassing silence that had fallen between his fair partner and himself.

"Er—have you ever noticed," he began, "how opposed to modern ideas of politeness is the wording of the Tenth Commandment? I mean the part which says 'And thy manservant and thy maidservant, and the stranger within thy gates.' The guest, you notice, comes after the maidservant."

He waited hopefully for the reply which should open up further conversation between them.

The fair one was slightly bored. Her answer came in a perfectly modulated voice, "No, I had not noticed it until you spoke, but it is as true today as it was then. He usually is after the maidservant."

An even longer and more embarrassing silence followed.—Houston Post.

Art Criticism.

Arthur, age nine, returned from his first visit to the art institute with such a depressed air that his mother was puzzled.

"Didn't you like it, dear?"

"Not much. Mostly there were people with their heads cut off."

"But there must have been some pictures of animals and trees and lovely country."

"Oh, a few, but," in disgust, "there were more of people doing things they shouldn't."

"Things they shouldn't?"

"Yes, some of them had taken off all of their clothes, even their union suits."

The man who makes only penny contributions is usually a cheerful giver.
